SOME SUGGESTIONS

There are three parties to a telephone call:—

- Yourself.
- The Exchange.
- The distant Subscriber.

A successful telephone call is the result of co-operation of these three and cannot be obtained without that co-operation. It is not enough for the Exchange alone to do its work correctly, all three parties must work in harmony.

For these reasons your attention to the following suggestions is earnestly invited:—

- (a) Speak clearly and directly into the transmitter.
The lips should be as close as possible to the transmitter mouth-piece.
If you speak clearly it is rarely necessary to speak loudly.
- (b) Always replace the receiver when *conversation is finished*.
Neglect to do this may result in serious inconvenience both to yourself and to the Exchange.
- (c) Always replace the receiver when it is necessary to leave the telephone to make any enquiry before conversation is finished.
The other party should keep the receiver to his ear to prevent your being disconnected.
- (d) After replacing your receiver at the end of the conversation wait about 20 seconds before removing it from its rest to pass another call.
- (e) Answer promptly.

Promptitude in answering is essential for these reasons:—

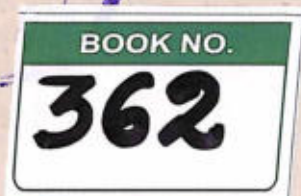

- (i) You will be rung for a limited period only;
 - (ii) It is the telephonist's duty to disconnect when the caller replaces his receiver.
- (f) Announce your identity at once, to avoid delay.

METHOD OF PASSING NUMBERS TO THE OPERATOR

A considerable number of errors occur, in Exchange connections, due to the various methods used by Subscribers in passing particulars of the number required, to the Operator. To assist in eliminating this trouble, the co-operation of all telephone users is earnestly requested, and the following hints are published for their guidance:—

The Name of Exchange should always be given before the Number.

In giving the number adopt the general rule of saying each digit separately thus:—

4852 "four-eight-five-two."

not four thousand eight hundred and fifty-two or forty-eight fifty-two.

Make an exception to this rule **only** (a) in the case of exact hundreds up to 900 and exact thousands up to 9,000, and (b) in the case of numbers which contain the same digit twice running. In this case the word "double" should be used thus:—

4522 "four-five-double-two."

335 "double-three-five."

2333 "two-three-double-three."

3333 "double-three-double-three."

Articulation is very important, as it is much easier for a mistake to be made over the telephone than in personal conversation. The following are easily confused:—

"Five" sounds like "nine."

"Nine" sounds like "five."

"Ought" and "nought" sound like "eight."

"Zero" sounds like "three oh."

Six is sometimes pronounced as if it had two syllables, "sikis," and is mistaken for six eight.

"Please" sounds like "three" and so on.

Confusion may be avoided by making it a rule never to use the words "ought," "nought," or "zero," but to say "oh" instead. In saying "five" accentuate the "v" and in saying "nine" accentuate the second "n," and in all cases pronounce the numbers slowly and very distinctly.

Do not say "please" after mentioning the number to the Operators. Wait for her to repeat it and then if you wish say "Yes, please."

HOW TO AVOID EXCESS CHARGE FOR CALLS.

Wrong connections—

If you should be connected with the wrong subscriber, move the receiver cradle up and down slowly to attract the attention of the Operator, and say "I have had a wrong number. I want (for example) Burra Bazar 1000." If you do not inform the Operator in this way, she will not know that an error has been made and the call will be recorded.

Cut off—

If the connection is cut off during conversation **the subscriber who originated the call** should attract the Operator's attention in the manner mentioned above and say: "I have been cut off; will you reconnect me to (for example) Burra Bazar 1000." The subscriber **who was originally called** by the other should put the receiver back without comment and wait for the caller to re-establish connection. If both subscribers attempt to re-establish connection each may find the other's line "engaged."

N.B.—It is important to notice the different treatment of "cut offs" as between incoming and outgoing calls.

No reply—

If your correspondent does not answer and you cannot wait, do not abandon the call without telling the Operator, otherwise she may think that a conversation has taken place and the call may be registered on the meter. If your correspondent's telephone is answered by a servant who says his master is not at home, that counts as a call, for the Company has done all that is required of it when it has obtained a reply from your correspondent's premises.

The Operator who answers a subscriber's calls is very frequently unaware of his difficulties which may arise in another Exchange or through a fault in the line, but she will always do her best to overcome them if the subscriber will let her know what they are.

अध्या खरच निवारणेर उपाय :-

१। यदि डुलक्रेम प्रार्थित नम्बर व्यतीत अपर कौन नम्बर सहित संयुक्त हईया थाकेन ताहा हईले Receiver राखिबार Cradleतके कम्बेकवार धीरे धीरे नामाईया ७ उठाईया Operatorएर मनोयोग आकर्षण करतः बलिबेन "आमाके डुल नम्बर देओया हईयाछे, आनि अमुक नम्बर चाई"। ना बलिबे, Operator, डुल हईयाछे ना जानिया, ७ Callतके हिसाबेर मध्ये धरिबेन।

२। कथा कहिबार समय यदि संयोग बिच्छिनु हईया याय ताहा हईले संयोगप्रार्थी अर्थात् यिनि प्रथमे डाकियाछिलेन Operatorके उपरिउक्त प्रकारे डाकिया बलिबेन "Connection काटिया गियाछे, आमाके पुनर्बुरा अमुक नम्बर दिन" एवं प्रार्थित नम्बरेर ग्राहक किछु ना बलिया Receiver यथास्थाने राखिया संयोगेर अपेक्षा करिबेन। यदि उतयेई एक समये संयोग कराईबार चेष्टा करेन ताहा हईले हयत उतयेई प्रार्थित नम्बर Engaged अर्थात् संयुक्त पाईबेन।

३। यदि संयुक्त हईबामात्र कौन उतुर ना पाओया याय एवं संयोगप्रार्थी उतुरेर ज्या अपेक्षा करिते ना पाबेन, ताहा हईले तिनि उहा Operatorके जानाईबेन नतुवा Operator बज्ज्या शेष हईयाछे मने करिया, ७ Callएर मूला धरिते पाबेन। यदि संयुक्त हईबार पर प्रार्थित ब्यक्तिर बुता बले, ये तिनि बाटिते नाई, ताहा हईलेओ एकटा Call धरा हय, कारण कौम्पानिर याहा कर्तव्य ताहा समाधान हईयाछे, अर्थात् टेलिफोनयोगे आपनार प्रार्थित गृह हईते उतुर आनाईया दियाछे।

४। अनेक समयेई Operator ग्राहकेर असुबिधार विषय जानिते पाबेन ना, विशेषतः यखन लाईनेर किंवा अपर कौन Exchangeएर दोष वा क्राँटर ज्या एकरुप घटिया थाके, ग्राहक उहा Operatorके जानाईले पर, Operator साध्यमत सहायता करिबेन।

कार्डो के फालतु खरच दूर करने का तरीका :-

१। अगर जहुरती नम्बर के सिवाय और किसी नम्बर के साथ भूल से आपका नम्बर जोड़ दिया जाय तो Receiver रखने की बैठकी कईएकबार धीरे२ दबा और उठा कर औपरेटर को आकर्षित कीजिये और कहिये "मुझे भूल नम्बर दिया गया है, मैं अमुक नम्बर चाहता हूँ" अगर न कहेंगे तो औपरेटर भूल नहीं हुई है समझ कर उस काल का खरचा लगा लेंगी।

२। बात चीत करने के बीच में ही अगर Connection (सम्बन्ध) टूट जाय तो नम्बर जोड़ानेवाले याने जिन्होंने पहिले मरतबा नम्बर जोड़वाया था औपरेटर को पहिले ही की तरह बुलाकर कहे "Connection टूट गया है मुझे फिरसे अमुक नम्बर दीजिये" और पुकारेजानेवाले शक्स Receiver बैठकी पर रख कर Connection होने तक की राह देखें। अगर दोनो ही एकही साथ लाइन जोड़ाने की चेष्टा करेंगे तो हो सकता है कि दोनोही एक दूसरे की लाइन Engaged अर्थात् जोड़ी हुई पायेंगे।

३। अगर लाइन जोड़ने के साथ ही कोई जवाब न पाया जाय या नम्बर जोड़ानेवाले अगर उत्तर के लिये कुछ देर न ठहर सकते हों तो वे औपरेटर को इस बात की खबर करें। नहीं तो बात खतम होजाने का ख्याल कर औपरेटर उस काल का खरच लगा सकती हैं। अगर लाइन जोड़ने के बाद पुकारे जानेवाले का नौकर जवाब दे कि "वे घर पर नहीं है" तो उस हालत में काल करने का खरचा देना होगा, क्योंकि इस जगह कम्पनी का कोई भी कसूर नहीं कहा जा सकता।

४। बहुत दफे औपरेटर ग्राहकों के अड्चन के बारे में नहीं जान सकतीं ज्यादातर जबकी लाइन के या किसी दूसरे Exchange के दोष से कोई खराबी हो जाया करती है उस हालत में अगर ग्राहक लोग औपरेटर को जनावेंगे तो वे यथासाध्य उनकी मदद करेंगी।

III.**Order No. ENG./S.-48/253, dated the 26th November 1941.**

Whereas the Director-General of Posts and Telegraphs has authorised me by Order No. TTL/268/41, dated the 23rd April 1941, to exercise the powers under sub-rule (I) of rule 17 of the Defence of India Rules;

And whereas by virtue of such authorisation I have made Orders Nos. ENG./S.-48/251 and ENG./S.-48/252, dated the 26th November 1941, directing that the telephones mentioned in the schedules to the said orders which are described below shall continue to remain in operation during the period from the time of the sounding of the air raid warning until such time as specified in the said orders when all other telephones shall be disconnected;

And whereas it is necessary to make provision for regulating the use of so many of such telephones as are described below;

Now, therefore, in exercise of the powers as vested in me under clause (b) of sub-rule (I) of rule 17 of the Defence of India Rules read with rule 132 of the said Rules I do hereby direct that the telephones described below within the area of Calcutta as defined in clause (II) of section 3 of the Calcutta Municipal Act, 1923, and the districts of 24-Parganas, Howrah and Hooghly may be used by the person hereinafter mentioned and upon the terms herein contained, namely:—

1. From and after the sounding of an air raid warning until such time as the Head of the service to which such member belongs considers expedient any member of the A. R. P. Services, Bengal, shall on production of his Warrant of Appointment be entitled to enter upon the premises upon which the telephone is situated without any hindrance from the owner of the premises or the person in whose name the telephone stands and use the telephone for the following purposes only, namely—

- (a) making reports in connection with his service to his superior or subordinate officers or members of the service to which he belongs;
- (b) receiving reports from them and preventing the owner of the premises in which the telephone is situated or the person in whose name the telephone stands or any other person acting with his leave or license from using or attempting to use the telephone and sending through that telephone to any other telephone which may be working at the time any message which would or might delay or confuse the despatch or receipt of any A. R. P. Service messages by such member of the A. R. P. Service.

Any other member of the A. R. P. Service whose Warrant of Appointment must also be produced shall be left to remain in charge of the instrument for the purpose of receiving any Service messages despatched by any other members of the service to that person or through him to his superior officers or subordinates or to remit any messages on his behalf to any such officer or subordinate.

2. Any member of the A. R. P. Service so entering upon any premises shall so long as he shall remain in charge of the telephone avoid causing any undue inconvenience to the owner of the premises or the person in whose name the telephone stands.

3. Any person entering the premises and occupying them and using any of the telephones in accordance with this Order shall immediately after giving up possession of the premises and the use of the telephone to the owner of the premises or the person in whose name the telephone stands or to both and before quitting the premises, hand over to the owner of the premises or the person in whose name the telephone stands a signed statement stating the period during which he has been in occupation and use of the said telephone either through himself or through an agent as mentioned above and the number of calls made by him from such telephone.

4. All calls made by any member of the A. R. P. Service under this Order from any telephone as aforesaid shall be chargeable not to the owner of the premises or to the person in whose name the telephone stands but shall be chargeable to the Provincial Government of Bengal and recovered from such Government.

“Description of Telephones.”

All telephones in section III of the A. R. P. Telephone Directory, whether on Indian Posts and Telegraphs or Bengal Telephone Corporation, Ltd., system.

KRISHNA PRASADA,

Postmaster-General, Bengal and Assam Circle.

EXPLANATION.

Orders Nos. I and II.—The effect of the above orders is—

That from the time of the air raid warning being sounded, until such time as the executive authority of the administrations of the Bengal Telephone Corporation, Ltd., and Indian Posts and Telegraphs, respectively, consider suitable for the restoration of general telephone services, only the telephone numbers mentioned in the Schedules to these 2 Orders will remain in service; the extent to which they may be used is governed by the directions contained in the A. R. P. Telephone Directory (*e.g.*, as regards which telephones may have direct access to the A. R. P. Control and Report Centres).

The Bengal Telephone Corporation, Ltd., and Indian Posts and Telegraphs Department, will restore general telephone service as soon as possible after the “Raider Passed” signal has been given, but such time will depend almost entirely on 2 factors, *viz.*—

- (a) Whether any damage has been done to electrical or telephone plant, and
- (b) The behaviour of general subscribers. Any tendency on the part of subscribers to flood the telephone exchanges with unnecessary calls immediately after general telephone services are restored, will necessitate the immediate reimposition of restrictions. Private subscribers whose telephones are cut off on the sounding of the air raid warning are therefore most strenuously urged to reduce their telephone calls to a minimum of absolutely essential calls when general service is restored.

Order No. III entitles any A. R. P. Service worker on production of his Warrant, and after the sounding of an air raid warning, to make full use, subject to the terms of the Order, of any telephone mentioned in Section III of the A. R. P. Telephone Directory, for the purpose of sending or receiving A. R. P. messages.

A. R. P. Personnel are requested particularly to observe the injunction contained in clause 2 of the Order.

After any A. R. P. worker has so used a telephone which is not his own property, he must, if the owner of the premises or the person in whose name the telephone stands so requests, provide the owner of the premises or the hirer of the telephone with a certificate in the following form:—

Tele. No:.....
 Address:.....

 Time taken over:.....
 Time surrendered:.....
 No. of calls:.....
 Date:.....
 Voucher No:.....
 *Original:
 Duplicate.

 Rank:
 Designation:

*Any A.R.P. worker using a telephone in Section 3 of the A.R.P. Telephone Directory must, on demand by the owner of the premises or hirer of the telephone, complete one of these forms when the use of the telephone is no longer required. The forms should be filled in in ink.

The owner of the telephone should be left with the copy marked "Original", which need not be torn out of the book. "Duplicate" copy may be detached and given to the owner of the premises.

The certificate should be filled in in ink, and should clearly state the time at which the telephone was taken over and the time at which it was surrendered, either by the person signing the certificate, or by the person whom he placed there as his substitute in the terms of the last paragraph of clause I (B) of the Order. The certificate must also clearly state the number of calls actually sent by the A. R. P. worker signing the certificate, or his representative, but must not include the number of any calls received.

As regards voucher number, the numbers will run serially through the book of certificates. The original voucher need not be detached from the book of certificates, but if the owner of the premises and the hirer of the telephone both require a certificate, a lower copy may be detached given the same voucher number, and the word "original" will be struck out.

In the last entry, the person signing the certificate will give the designation of his Warden's Post or Service Party.

It should be noted that calls covered by these certificates will not be charged to the hirer of the telephone.
