ZOOLOGIC

The *International Catalogue of Scientific Literatur*
continuation of the Royal Society's *Catalogue of Scienti*
will, when completed, consist of an Author Catalog
Index covering the period of 1800–1900. Twelve qu
the Author Catalogue covering the period 1800–1883 h
published; the volumes for 1884–1900 are in cours
Volume XIII is in the Press. The Subject Index
separately for each of the seventeen sciences de
International Catalogue of Scientific Literature, and w
in accordance with its Schedules. The volumes fo
matics and Mechanics are published. Physics, Par
Generalities, Heat, Light and Sound is also published
taining Electricity and Magnetism, is in the Press.

ZOOLOGICAL RECORD

VOLUME THE FORTY-NINTH

BEING

RECORDS OF ZOOLOGICAL LITERATURE

RELATING CHIEFLY TO THE YEAR

1912

COMPILED BY THE REGIONAL BUREAUS OF THE INTERNATIONAL CATALOGUE OF SCIENTIFIC LITERATURE;

SUPPLEMENTED AND ARRANGED FOR THE ZOOLOGICAL SOCIETY OF LONDON

BY

D. SHARP, H. M. WOODCOCK, J. S. DUNKERLY, IGERNA B. J. SOLLAS, C. L. BOULENGER, H. L. HAWKINS, F. W. EDWARDS, H. B. PRESTON, W. T. CALMAN, C. T. REGAN, W. L. SCLATER, AND R. LYDEKKER

SUPERINTENDED BY

DAVID SHARP, M.A., F.R.S., F.Z.S., &c.

Explorate solum: sic fit via certior ultrà.

LONDON:
PRINTED FOR THE SOCIETY;
SOLD AT THEIR HOUSE IN REGENT'S PARK
M.DCCCCXIII

Papers and Memoirs intended for this work should be addressed to "The Editor of the Zoological Record, Zoological Society, Regent's Park, London, N.W." It is earnestly requested that in the case of separately-printed copies of papers so forwarded, the *original pagination* may be indicated.

EXPLANATORY.

This Volume is printed in twenty Divisions, as enumerated on p. xii.

The pagination of each Division is separate, and is given at the left-hand top corner of the pages. The number and name of the Division is given as a heading on each left-hand page. The Registration Numbers are given at the right-hand top corner of the right-hand pages. The date 1912 corresponding to the bulk of the literature indexed is given at the right-hand top corner of the left-hand page.

In the Subject Index of each Division authors are quoted by name only. The full references will be found in the Title Section of the Division.

A List of Abbreviations of Titles of Journals is given at the end of the volume. This List includes not only journals actually indexed in this volume, but also journals that have been indexed in previous volumes. It should therefore be a fairly complete List of Journals that contain Zoological papers.

The Literature indexed is mainly that of 1912 but includes entries for 1901–1911 that have been received too late for inclusion in previous volumes of the International Catalogue.

The two title-pages show that Volume N (Zoology) of the Eleventh annual issue of the International Catalogue of Scientific Literature and Volume XLVIII of the Zoological Record are identical.

The proposal for an amalgamation of the Zoological Record with Volume N of the International Catalogue was approved by the International Convention which met in London in July, 1905. The agreement concluded with the Zoological Society of London provided that the amalgamation should be for a period of five years, covering the literature of 1906–1910; at the end of that period each party to the agreement might resume the independent issue of its annual volumes, preserving the continuity of its series.

Subscribers to the Zoological Record will receive the volumes bound uniformly with previous volumes of the Record, while subscribers to the International Catalogue will receive their volumes in covers uniform with other volumes of the Catalogue.

The Schedules of Classification are bound up with the volumes intended for subscribers to the International Catalogue, but are absent from the volumes bound uniform with the Zoological Record.

The volume is arranged in accordance with these Schedules, but in one or two instances, notably in the case of Section XII Insecta, the Editor has adopted a modified arrangement.

CONTENTS.

I. COMPREHENSIVE AND GENERAL ZOOLOGY.

II. PROTOZOA.

III. PORIFERA OR SPONGIAE.

IV. COELENTERATA.

V. ECHINODERMATA.

VI. VERMIDEA: including GEPHYREA AND PTEROBRANCHIATA.

VII. BRACHIOPODA AND BRYOZOA OR POLYZOA.

VIII. MOLLUSCA.

IX. ARTHROPODA (GENERAL).

X. CRUSTACEA.

XI. ARACHNIDA AND MYRIOPODA: including also GIGANTOSTRACA, EURYPTERIDA, PROTOTRACHEATA.

XII. INSECTA.

XIII. PROCHORDATA = TUNICATA. CEPHALOCHORDATA. ENTEROPNEUSTA.

XIV. VERTEBRATA (GENERAL).

XV. PISCES.

XVI. REPTILIA AND BATRACHIA.

XVII. AVES.

XVIII. MAMMALIA.

ALPHABETICAL INDEX OF NEW NAMES OF GENERA AND SUBGENERA.

LIST OF ABBREVIATIONS AND OF TITLES OF JOURNALS.

International Catalogue of Scientific Literature

SCHEDULE

OF

CLASSIFICATION

(N) ZOOLOGY

Accn. 825
dt. 26/12/06

(N) ZOOLOGY.

EXPLANATORY.

Owing to the great extent of Zoology, and the consequent specialisation that occurs amongst its workers, and because also of the desire that parts of the Zoological Catalogue shall be complete each one in itself, Zoology is divided into "Branches." These Branches, though primarily determined by the natural divisions of the animal kingdom, do not entirely correspond therewith, because of the great difference in the extent of the natural divisions. Some of these divisions (Phyla, or Classes) are consequently treated together, while others are divided into more than one Branch. When a division of this kind is adopted, there is also a Branch in which the divisions are still treated together as one whole, viz., Arthropoda, 2400-2431, and Vertebrata, 5200-5231. These two Branches will include only works of a wide scope. Thirty Branches are adopted, under the numbers 0100 to 6031, and there is also a comprehensive Branch numbered 0000-0231.

The subject matter of Zoology proper (as distinguished from the mode of arrangement of the animals alluded to above) is arranged under eight heads (or great Subjects). These eight Subjects all recur under each of the thirty Branches. Each Subject is indicated by a number, the terminal two digits of which are the same in every Branch. These great subjects will be found under 0207 to 0231.

Each great subject is divided into sub-divisions which are not numbered.

(N) ZOOLOGIE.

ERLÄUTERUNG.

Bei dem grossen Umfange der Zoologie und bei der hieraus sich ergebenden Specialisierung unter ihren Forschern, und ferner, weil der Wunsch besteht, dass einzelne Teile der zoologischen Bibliographie ein in sich geschlossenes Ganzes darstellen möchten, ist es als notwendig befunden, die Zoologie nach „Zweigen" abzuteilen.

Diese Zweige sind zwar in erster Linie nach den natürlichen Gruppen des Tierreichs bestimmt, entsprechen ihnen aber doch nicht völlig, da der Umfang der einzelnen natürlichen Gruppen zu verschieden ist.

Demgemäss sind einzelne dieser Gruppen (Phyla oder Klassen) mit einander zusammengefasst, während andere in mehrere Zweige geteilt sind. In den Fällen, wo eine solche Teilung vorgenommen ist, giebt es auch einen Zweig, in dem die betreffende Gruppe ungeteilt als Ganzes behandelt wird, nämlich Arthropoden, 2400-2431 und Vertebraten, 5200-5231. Diese beiden Zweige sollen nur Werke allgemeinerer Art enthalten. Im ganzen sind unter Nummer 0400 bis 6031 dreissig Zweige angenommen und dazu kommt noch ein alles umfassender, unter Nummer 0000 bis 0231.

Der sonstige Stoff der Zoologie (im Unterschied von der Art der Anordnung der Tiere, von der bisher die Rede war) ist auf acht Kapitel (oder Hauptgegenstände) verteilt. Diese acht Gegenstände kehren bei jedem der dreissig Zweige wieder. Jeder Gegenstand ist durch eine Nummer bezeichnet, deren letzte beide Ziffern in allen Zweigen die gleichen sind.

Diese Hauptgegenstände findet man unter 0207 bis 0231.

Jeder Hauptgegenstand ist in Unterabteilungen geteilt, die nicht numeriert sind.

(N) ZOOLOGIE.

EXPLICATION.

ETANT donnée d'une part la grande extension de la Zoologie, qui force les adeptes de cette science à se spécialiser, et d'autre part la nécessité de rendre les diverses parties du Catalogue zoologique indépendantes les unes des autres, et aussi complètes que possible, on a jugé nécessaire de diviser la Zoologie en un certain nombre de "branches." Ces branches ont été établies autant que possible d'après les divisions naturelles du règne animal; toutefois elles ne correspondent pas toujours exactement à ces divisions, en raison des grandes différences qui existent dans l'étendue de celles-ci. Il en résulte que certaines divisions (phyla, ou embranchements) sont traitées ensemble, tandis que d'autres sont partagées en plusieurs branches. Dans ce dernier cas il y a ordinairement une branche qui traite l'ensemble d'un embranchement, par exemple, Arthropodes, 2400–2431, et Vertébrés, 5200–5231. Ces deux branches ne comprennent que des ouvrages traitant un sujet assez vaste. On a adopté trente branches, portant les indices 0100 à 0031. Il y a en outre une branche de généralités portant l'indice 0000–0231.

La Zoologie considérée en elle-même, indépendamment des subdivisions en groupes auxquelles il vient d'être fait allusion, est partagée en huit chapitres (ou grandes catégories de sujets). Ces huit catégories se répètent dans chacune des trente branches, et sont indiquées chacune par des nombres dont les deux derniers chiffres sont les mêmes dans toutes les branches. Elles se trouvent sous les indices 0207 à 0231. Chacune d'elles se partage en subdivisions qui ne portent pas d'indices spéciaux.

(N) ZOOLOGIA.

SPIEGAZIONI.

IN causa della grande estensione della zoologia, e della conseguente specializzazione che esiste tra i suoi cultori, e perchè è desiderabile che le parti del Catalogo zoologico siano complete ciascuna per sè stessa, si è trovato necessario dividere la zoologia in "rami." Questi rami, quantunque principalmente determinati dalle naturali divisioni del regno animale, non corrispondono interamente ad esse in causa della grande differenza nella estensione delle divisioni naturali. Alcune di queste divisioni (phyla, oppure classi) sono conseguentemente trattate insieme, mentre che altre sono divise in più di un ramo. Quando una divisione di questo genere è adottata, vi è anche un ramo nel quale le divisioni sono tuttavia trattate insieme come un complesso, p. es. Arthropoda, 2100–2431, e Vertebrata, 5200–5231. Questi due rami includeranno soltanto opere di largo soggetto. Trenta rami sono adottati, sotto i numeri 0100 a 0031, e inoltre è incluso un ramo comprensivo col numero 0000–0231.

La materia della zoologia comprensiva (distinta da quella dei gruppi degli animali qui sopra accennati) è disposta sotto otto capitoli (o grandi soggetti). Questi otto soggetti tutti si ripetono in ognuno dei trenta rami. Ciascun soggetto è indicato da un numero, del quale le due ultime cifre sono le stesse in ciaschedun ramo. Questi grandi soggetti si trovano sotto i numeri da 0207 a 0231. Ciascun grande soggetto è diviso in sottodivisioni, che non sono numerate.

INSTRUCTIONS.

The registration numbers used in Zoology consist of four figures, of which the first two indicate the taxonomic position of the animal or animals dealt with and the last two the heading under which the paper is to be indexed.

Thus, in the registration number 2611 the figures 26 indicate *Crustacea*, while the figures 11 denote *Physiology*. All registration numbers beginning with 26 refer to Crustacea, and all registration numbers ending in 11 show that the paper indexed deals with a physiological subject.

The meaning to be assigned to the last two figures is always that given in the following list :—

..00 Title slip.
..03 Comprehensive and General Works. (For sub-divisions *see* Hyperzoology *p.* 18.)
..07 Structure. (For sub-divisions *see* 0207.)
..11 Physiology. (For sub-divisions *see* 0211.)
..15 Development. (For sub-divisions *see* 0215.)
..19 Ethology. (For sub-divisons *see* 0219.)
..23 Variation and Aetiology. (For sub-divisions *see* 0223.)
..27 Geography. (For sub-divisions *see* (J) Geography.)

..31 Taxonomy.

The meaning of the first two figures is as follows :—

02.. General papers, or papers dealing with several classes of animals.
04.. Protozoa.
06.. Porifera (or Spongida).
08.. Coelenterata (or Cnidaria).
10.. Echinodermata.
12.. Platyhelminthes. Mesozoa and Trichoplax.
14.. Nemathelminthes.
16.. Chaetognatha. Rotifera. Gastrotricha. Kinorhyncha (or Echinodera).
18.. Archiannelida. Polychaeta. Myzostomaria. Oligochaeta. Gephyrea. Phoronis. Hirudinea.

INSTRUKTIONEN.

Die in der Zoologie gebrauchten Ordnungsnummern bestehen aus vier Ziffern, von denen die beiden ersten die taxonomische Stellung des oder der behandelten Tiere anzeigen, während die letzten die Art der Behandlung angeben. So bedeutet z. B. in der Ordnungsnummer 2611 die 26 Crustacea, die 11 aber Physiologie. Die mit 26 beginnenden Ordnungsnummern beziehen sich also auf Crustacea, und alle Ordnungsnummern auf 11 geben an, dass die katalogisierte Arbeit sich mit einem physiologischen Gegenstande befasst.

Die Bedeutung der letzten beiden Ziffern ergiebt sich aus folgender Liste :—

Titel-Zettel.
Umfassende und allgemeine Arbeiten. (Unterabteilungen *siehe* Hyperzoologie *p.* 18.)
Morphologie. (Unterabteilungen *siehe* 0207.)
Physiologie. (Unterabteilungen *siehe* 0211.)
Entwickelung. (Unterabteilungen *siehe* 0215.)
Ethologie. (Unterabteilungen *siehe* 0219.)
Variation und Ätiologie. (Unterabteilungen *siehe* 0223.)
Geographische Verbreitung. (Unterabteilungen *siehe* (J) Geographie.)

Taxonomie.

Die ersten beiden Ziffern bedeuten Folgendes :—

Allgemeine, oder auf mehrere Tierklassen bezügliche Arbeiten.
Protozoa.
Porifera (oder Spongida).
Coelenterata (oder Cnidaria).
Echinodermata.
Platyhelminthes. Mesozoa und Trichoplax.
Nemathelminthes.
Chaetognatha. Rotifera. Gastrotricha. Kinorhyncha (oder Echinodera).
Archiannelida. Polychaeta. Myzostomaria. Oligochaeta. Gephyrea. Phoronis. Hirudinea.

INSTRUCTIONS.

Les numéros enregistreurs employés en zoologie comprennent quatre chiffres, dont les deux premiers indiquent la position taxonomique de l'animal ou des animaux en question, tandis que les deux derniers indiquent la rubrique sous laquelle le mémoire doit être classé.

Ainsi, dans le numéro enregistreur 2611 les chiffres 26 indiquent Crustacés, pendant que les chiffres 11 signifient Physiologie. Tout numéro enregistreur qui commence par 26 se rapporte aux Crustacés, de même que tout numéro enregistreur en 11 indique que le mémoire dont il est question s'occupe de physiologie.

La signification des deux derniers chiffres est toujours celle qui est donnée dans la liste suivante :—

..00 Fiche de titre.
..03 Ouvrages généraux ou d'une grande étendue. (Pour les subdivisions *voy.* Hyperzoologie *p.* 19.)
..07 Morphologie. (Pour les subdivisions *voy.* 0207.)
..11 Physiologie. (Pour les subdivisions *voy.* 0211.)
..15 Développement. (Pour les subdivisions *voy.* 0215.)
..19 Ethologie. (Pour les subdivisions *voy.* 0219.)
..23 Variation et étiologie. (Pour les subdivisions *voy.* 0223.)
..27 Distribution géographique. (Pour les subdivisions *voy.* (J) Géographie.)
..31 Taxonomie.

La signification des deux premiers chiffres est comme suit :—

02.. Mémoires généraux ou ayant trait à plusieurs classes d'animaux.
04.. Protozoaires.
06.. Porifères (ou Spongiaires).
08.. Cœlentérés (ou Cnidaria).
10.. Echinodermes.
12.. Platyhelminthes. Mésozoaires et le Trichoplax.
14.. Némathelminthes.
16.. Chætognathes. Rotifères. Gastrotriches. Kinorhynques (ou Echinodères).
18.. Archiannélides. Polychètes. Myzostomes. Oligochètes. Géphyriens. Phoronis. Hirudinées.

(ISTRUZION).

I numeri di registrazione adoperati nella zoologia consistono di quattro cifre, delle quali le due prime indicano la posizione tassonomica dell'animale o degli animali di cui si tratta, mentre che le due ultime indicano la rubrica sotto la quale si ha da catalogare la memoria. Così, nel numero di registrazione 2611 le cifre 26 indicano *Crustacea*, mentre che le cifre 11 si riferiscono alla *Fisiologia*. Ogni numero di registrazione che comincia con 26 si riferisce ai Crustacea, e da ogni numero che termina in 11 si può inferire che la memoria catalogata si occupa di fisiologia.

Le due ultime cifre hanno invariabilmente la significazione che si vede nell'elenco seguente :—

Scheda a titolo.
Opere generali e comprensive. (Per le suddivisioni *vedi* Iperzoologia *p.* 19.)
Struttura. (Per le suddivisioni *vedi* 0207.)
Fisiologia. (Per le suddivisioni *vedi* 0211.)
Sviluppo. (Per le suddivisioni *vedi* 0215.)
Etologia. (Per le suddivisioni *vedi* 0219.)
Variazione ed Etiologia. (Per le suddivisioni *vedi* 0223.)
Geografia. (Per le suddivisioni *vedi* (J) Geografia.)

Tassonomia.

Le due prime cifre hanno sempre la significazione seguente :—

Lavori generali o riferentisi a più classi di animali.
Protozoa.
Porifera (vel Spongida).
Cœlenterata (vel Cnidaria).
Echinodermata.
Platyhelminthes. Mesozoa e Trichoplax.
Nemathelminthes.
Chætognatha. Rotifera. Gastrotricha. Kinorhyncha (vel Echinodera).
Archiannelida. Polychæta. Myzostomaria. Oligochæta. Gephyræa. Phoronis. Hirudinea.

20.. Brachiopoda. Bryozoa (or Polyzoa).
22.. Mollusca.
24.. Arthropoda.
26.. Crustacea.
28.. Trilobita. Xiphosura. Eurypterida. Pantopoda. Tardigrada. Linguatulida.
30.. Arachnida.
32.. Prototracheata (or Onychophora).
34.. Myriopoda.
35.. Insecta.
36.. Aptera (or Apterygogenea). Anoplura. Mallophaga. Thysanoptera (or Physopoda). Siphonaptera (or Aphaniptera).
38.. Orthoptera, Neuroptera and Trichoptera.
40.. Hemiptera (or Rhynchota), excluding Anoplura, which are placed in 36..
42.. Diptera, excluding Siphonaptera, which are placed in 36..
44.. Lepidoptera.
46.. Hymenoptera.
48.. Coleoptera, including Strepsiptera.
50.. Prochordata : Amphioxus (or Leptocardii), Enteropneusta, Tunicata.
52.. Vertebrata.
54.. Pisces, excluding Leptocardii (or Amphioxus), which are placed in 50..
56.. Amphibia and Reptilia.
58.. Aves.
60.. Mammalia.

In addition to the complete volume it is intended to issue as three separate parts sections 12.. to 18.. (Vermidea); 28.. to 34..; and 35.. to 48.. (Hexapoda). Each of the remaining sections will then be published as a separate part.

Slips or Cards used in preparing the Volume.

Four kinds of slips are to be provided :—(1) Title slips, (2) Subject slips, (3) Systematic (Taxonomic) slips, (4) New Genera or Species slips. The several slips relating to the same paper should be tied together, and should have a common (arbitrary) number. This number must not be used for any other paper until two years have

Brachiopoda. Bryozoa (oder Polyzoa).
Mollusca.
Arthropoda.
Crustacea.
Trilobita. Xiphosura. Eurypterida. Pantopoda. Tardigrada. Linguatulida.
Arachnida.
Prototracheata.
Myriopoda.
Insecta.
Aptera (oder Apterygogenea). Anoplura. Mallophaga. Thysanoptera (oder Physopoda). Siphonaptera (oder Aphaniptera).
Orthoptera, Neuroptera und Trichoptera.
Hemiptera (oder Rhynchota), excl. Anoplura, die unter 36 .. eingeordnet sind.
Diptera, excl. Siphonaptera, die unter 36.. eingeordnet sind.
Lepidoptera.
Hymenoptera.
Coleoptera, incl. Strepsiptera.
Prochordata : Amphioxus (oder Leptocardii), Enteropneusta, Tunicata.
Vertebrata.
Pisces, excl. Leptocardii (oder Amphioxus), die unter 50 .. eingeordnet sind).
Amphibia und Reptilia.
Aves.
Mammalia.

Es wird beabsichtigt, ausser dem Gesamtbande noch drei separate, aus folgenden Abschnitten bestehende Teile herauszugeben : 12.. bis 18.. (Vermidea) ; 28.. bis 34..; und 35..bis 48.. (Hexapoda). Jeder der übrigen Abschnitte wird dann auch separat herausgegeben.

Zettel zur Vorbereitung des Bandes.

Es müssen vier verschiedene Zettel hergestellt werden:—(1) Titel-Zettel, (2) Sach-Zettel, (3) System-(Taxonomie-) Zettel, (4) Zettel für neue Gattungen oder Arten. Die verschiedenen, auf dieselbe Arbeit bezüglichen Zettel sollen zusammengeheftet und mit einer gemeinsamen (willkürlichen) Nummer versehen werden. Vor Ablauf von zwei

20.. Brachiopodes. Bryozoaires (ou Polyzoaires).
22.. Mollusques.
24.. Arthropodes.
26.. Crustacés.
28.. Trilobites. Xiphosures. Eurypterides. Pantopodes. Tardigrades. Linguatulides.
30.. Arachnides.
32.. Prototrachéates (ou Onychophores).
34.. Myriapodes.
35.. Insectes.
36.. Aptères (ou Aptérygogénieus). Anoploures. Mallophages. Thisanoptères (ou Physopodes). Siphonaptères (ou Aphaniptères).
38.. Orthoptères, Névroptères et Trichoptères.
40.. Hémiptères (ou Rhynchotes), à l'exclusion des Anoploures, qui sont placés sous le numéro 36..
42.. Diptères, à l'exclusion des Siphonaptères, qui sont placés sous le numéro 36..
44.. Lépidoptères.
46.. Hyménoptères.
48.. Coléoptères, y compris les Strepsiptères.
50.. Prochordés : Amphioxus (ou Leptocardiens) Entéropneustes, Tuniciers.
52.. Vertébrés.
54.. Poissons, à l'exclusion des Leptocardiens (ou Amphioxus), qui sont placés sous le numéro 50..
56.. Batraciens et Reptiles.
58.. Oiseaux.
60.. Mammifères.

Outre le volume complet, l'on se propose de publier en trois volumes à part les sections 12.. à 18.. (Vermidés) ; 28.. à 34.. ; et 35.. à 48.. (Hexapodes). Puis chacune des sections suivantes sera aussi publiée à part.

Rédaction des Fiches.

Il doit y avoir quatre sortes de fiches, savoir :—(1) Fiches de titre, (2) Fiches de matière, (3) Fiches systématiques (taxonomiques), (4) Fiches pour les genres ou espèces nouvelles. Toutes les fiches qui se rapportent au même mémoire doivent être attachées ensemble et marquées d'un numéro en commun (arbitraire). Ce numéro ne

Brachiopoda. Bryozoa (vel Polyzoa).
Mollusca.
Arthropoda.
Crustacea.
Trilobita. Xiphosura. Eurypterida. Pantopoda. Tardigrada. Linguatulida.
Arachnida.
Prototracheata (vel Onychophora).
Myriopoda.
Insecta.
Aptera (vel Apterygogenea). Anoplura. Mallophaga. Thysanoptera (vel Physopoda). Siphonaptera (vel Aphaniptera).
Orthoptera, Neuroptera et Trichoptera.
Hemiptera (vel Rhynchota), esclusi Anoplura, che sono indicati col numero 36..
Diptera, esclusi Siphonaptera, che sono indicati col numero 36..

Lepidoptera.
Hymenoptera.
Coleoptera, incl. Strepsiptera.

Prochordata : Amphioxus (vel Leptocardii), Enteropneusta, Tunicata.
Vertebrata.
Pisces, escl. Leptocardii (vel Amphioxus), i quali sono indicati col numero 50..
Batrachia et Reptilia.
Aves.
Mammalia.

Oltre il tomo completo si ha l'intenzione di pubblicare in tre parti separate le sezioni 12.. a 18.. (Vermidea) ; 28.. a 34.. ; e 35.. a 48.. (Hexapoda). Ciascuna delle rimanenti sezioni verrà poi anche pubblicata separatamente.

Redazione delle Schede.

Devono farsi quattro specie di schede :—(1) Schede a titolo, (2) Schede a materia, (3) Schede sistematiche (tassonomiche), (4) Schede per i generi o le specie nuove. Tutte le schede riferentisi al medesimo lavoro devono essere attaccate insieme e segnate con un numero commune (arbitrario). Questo numero non è da usa si

elapsed. The slips should be prepared as follows:—

(1) *Title slips.*—The first entry on a title slip is the letter N, followed by a four-figure registration number, in which the first two figures indicate the Branch of zoology as given in the above list, while the two last figures are ..00. The remaining entries on the title slips are to be made as on the author slips for the other sciences.

At the foot of each title slip all the registration numbers corresponding to the subject and systematic slips prepared for the paper are to be given. If a paper is to be indexed under more than one Branch of zoology a separate title slip must be prepared for each Branch.

Example—

N 6000.

Mansion, Arthur. La taupe commune. Rev. sci., Paris, (sér. 4). **17**, 1902, (13–18). [6019 6031].

In order to economise space and to simplify entries, the full reference to a paper will be made only on the title and systematic slips. Each title slip will be printed in the Catalogue with a definite number attached. This number, together with the author's name, will be the reference to the paper in all other cases.

(2) *Subject Slips.*—The entries on the subject slips shall not, as a rule, be reproductions of the title, but such modifications thereof as shall serve to convey the necessary information in the clearest and most direct manner possible.

To prepare such slips properly it is essential that the papers shall have been read and indexed by those who are able to determine what are the several matters of importance to be brought under notice.

In the case of slips bearing the numbers 0000–0050, 0070 and 0090,

Jahren darf keine andere Arbeit mit derselben Nummer bezeichnet werden.

(1) *Titel-Zettel.*—Die erste Eintragung auf einem Titel-Zettel ist der Buchstabe N, worauf eine vierziffrige Ordnungsnummer folgt wovon die zwei ersten Ziffern den Zweig der Zoologie bezeichnen, wie in obiger Liste angegeben, während die zwei letzten Ziffern ..00 sind. Die übrigen Eintragungen auf dem Titel-Zettel sind in derselben Weise abzufassen wie bei den Autoren-Zetteln in den anderen Wissenschaften.

Am Fusse eines jeden Titel-Zettels müssen sämtliche, den für die betreffende Arbeit hergestellten Sach- und System-Zetteln entsprechende, Ordnungsnummern angegeben werden. Soll ein Aufsatz unter mehr als einem Zweige der Zoologie katalogisiert werden, so ist für jeden Zweig ein besonderer Titel-Zettel herzustellen.

Beispiel—

N 6000.

Mansion, Arthur. La taupe commune. Rev. sci., Paris, (sér. 4). **17**, 1902, (13–18). [6019 6031].

Um Raum zu ersparen und die Eintragungen zu vereinfachen kommt das vollständige Citat nur auf die Titel- und System-Zettel. Jedem im Kataloge gedruckten Titel-Zettel wird eine bestimmte Nummer zugeteilt. Diese Nummer, mit dem Verfassernamen, bildet in allen anderen Fällen das Citat.

(2) *Sach-Zettel.* — Die Eintragungen auf den Sach-Zetteln sollen in der Regel keine Wiederholungen des Titels sein, sondern solche Modifikationen desselben, dass sie die erforderliche Auskunft so kurz und bündig wie möglich erteilen.

Für die richtige Fassung solcher Zettel ist es von Wichtigkeit, dass die Aufsätze von Personen gelesen und katalogisiert werden, welche im stande sind das Wichtige darin zu erkennen und hervorzuheben.

Bei Zetteln, welche die Nummern 0000–0050, 0070 und 0090 tragen,

doit être employé pour aucun autre mémoire qu'au bout de deux ans. Voici comment il faut rédiger les fiches :—

(1) *Fiches de titre.*—La fiche de titre doit commencer par la lettre N, suivie d'un numéro enregistreur de quatre chiffres, dont les deux premiers indiquent la branche de zoologie d'accord avec la liste ci-dessus, tandis que les deux dernières sont 00. Ensuite la fiche de titre sera établie de la même façon ques les fiches d'auteur pour les autres sciences.

Chaque fiche de titre doit porter en bas tous les numéros enregistreurs qui correspondent aux fiches de matière et systématiques qui aient été rédigées pour le mémoire dont il s'agit. Si un mémoire doit être catalogué sous plus d'une branche de zoologie il faut une fiche séparée pour chaque branche.

Exemple—

N 6000.

Mansion, Arthur. La taupe commune. Rev. sci., Paris, (sér. 4), **17**, 1902, (13-18). [6019 6031].

Pour gagner de la place et simplifier les articles, la référence ne sera donnée en entier que sur les fiches de titre et les fiches systématiques. Chaque fiche de titre sera imprimée dans le Catalogue et désignée par un numéro. Ce numéro, avec le nom d'auteur, servira de renvoi à l'article partout ailleurs.

(2) *Fiches de matière.*—Règle générale, la fiche de matière doit porter non pas une reproduction du titre mais de telles modifications du titre qui suffisent à donner les renseignements nécessaires de la manière la plus précise.

Afin que de telles fiches soient bien établies il est essentiel que les mémoires aient été lus et catalogués par des personnes à même de déterminer quelles sont les choses d'importance à faire ressortir. Là où il s'agit de fiches portant les numéros 0000-0050, 0070 et 0090, le

per nessun altro lavoro prima che siano scorsi due anni. Le schede devono essere redatte come segue :—

(1) *Schede a titolo.*—La scheda a titolo deve cominciare colla lettera N, seguita da un numero di registrazione di quattro cifre di cui le due prime indicano il ramo di zoologia d'accordo coll'elenco dissopra, mentre che le due ultime sono ..00. Le altri annotazioni sulla scheda a titolo si fanno poi come sulle schede per autori nelle altre scienze.

La scheda a titolo deve portare in fondo tutti i numeri di registrazione corrispondenti colle schede sistematiche ed a materia che si siano preparate per il lavoro di cui si tratta. Se si vuol catalogare un lavoro sotto più d'un ramo di zoologia bisogna fare una scheda separata per ogni ramo.

Esempio—

N 6000.

Mansion, Arthur. La taupe commune. Rev. Sci., Paris, (sér. 4), **17**, 1902, (13-18). [6019 6031].

Per risparmiare lo spazio e ridurre al più semplice le annotazioni, la riferenza non verrà scritta per esteso che sulle schede a titolo e le schede sistematiche. Ogni scheda a titolo si stamperà nel Catalogo con un numero definito. Questo numero, assieme al nome dell'autore, costituirà la riferenza al lavoro in ogni altro caso.

(2) *Schede a materia.*—Le annotazioni sulle schede a materia non saranno, di regola, ripetizioni del titolo, ma saranno tali modificazioni di questo che bastino a dare le informazioni necessarie nel modo più perspicuo che sia possibile.

Perchè tali schede siano ben redatte è essenziale che le memorie siano state lette e catalogate da persone che possano determinare quali sono le cose importanti da far risaltare.

Trattandosi di schede portanti i numeri 0000-0050, 0070 e 0090, il

the author's name should immediately follow the registration number.

Example—

N 0040.
Ross, R. Malaria and mosquitoes. London, Proc. R. Inst., **16,** 1901, (295-313).

This should be attached to the title slip and abbreviated thus :—

N 0040.
Ross, R. Malaria and mosquitoes. (295-313).

In cases in which it is desirable, for other purposes which the Bureaus may have in contemplation, to enter the full reference on the slip, the shortened reference will be made at the Central Bureau by striking out unnecessary particulars.

On slips bearing a number ending in ..27 (Geographical Distribution) the registration number should be immediately followed by the geographical symbol. After this should come (*a*) the author's name, (*b*) the title of the paper.

Example—

N 2227 *he.*
Pilsbry, H. A. A new Colombian Pleurodonte [*P. clappi*]. Nautilus, Philadelphia, Pa., **15,** 1901, (34-35).

which, if the above directions are followed, will be reduced to—

N 2227 *he.*
Pilsbry, H. A. A new Colombian Pleurodonte. (34-35).

The remaining registration numbers, viz., 0060, and those ending in ..03, ..07, ..11, ..15, ..19, and ..23, are divided into numerous sub-headings. One of these sub-headings should follow the registration number.

A separate card must be provided for each entry that is to appear separately in the Catalogue.

In cases in which entries cannot be included under existing subdivisions, and for which a new sub-

muss der Verfassername unmittelbar auf die Ordnungsnummer folgen.

Beispiel—

N 0040.
Ross, R. Malaria and mosquitoes. London, Proc. R. Inst., **16,** 1901, (295-313).

Dieser Zettel müsste an den Titel-Zettel geheftet und wie folgt abgekürzt werden :—

N 0040.
Ross, R. Malaria and mosquitoes. (295-313.)

Falls es den Bureaus, zu irgend einem von ihnen beabsichtigten Zwecke, wünschenswert erscheint, das vollständige Citat beizubehalten, so wird das Centralbureau durch Streichen des Überflüssigen dasselbe abkürzen.

Bei Zetteln, welche eine Nummer auf ..27 tragen (geographische Verbreitung) muss das geographische Symbol unmittelbar auf die Ordnungsnummer folgen. Dann kommt (*a*) der Verfassername, (*b*) der Titel des Aufsatzes.

Beispiel—

N 2227 *he.*
Pilsbry, H. A. A new Colombian Pleurodonte [*P. clappi*]. Nautilus, Philadelphia, Pa., **15,** 1901, (34-35).

was, obiger Vorschrift gemäss, abgekürzt so lautet :—

N 2227 *he.*
Pilsbry, H. A. A new Colombian Pleurodonte. (34-35).

Die übrigen Ordnungsnummern, namentlich 0060 und jene auf ..03, ..07, ..11, ..15, ..19 und ..23, sind in zahlreiche Unterabteilungen geteilt. Eine dieser Unterabteilungen muss auf die Ordnungsnummer folgen.

Jeder besonderen Eintragung im Kataloge muss ein besonderer Zettel entsprechen.

Falls die vorhandenen Unterabteilungen zur gehörigen Katalogisierung nicht hinreichen und

nom d'auteur doit suivre immédiatement le numéro enregistreur.

Exemple—

N 0040.
Ross, R. Malaria and mosquitoes. London, Proc. R. Inst., **16**, 1901, (295-313).

Ceci doit être attaché à la fiche de titre et abrégé ainsi :—

N 0040.
Ross, R. Malaria and mosquitoes. (295-313).

Dans les cas où les bureaux régionaux, dans un but quelconque, désirent mettre la référence en entier sur la fiche, le Bureau Central en fera la référence abrégée en biffant les détails superflus.

Sur les fiches portant un numéro en ..27 (Distribution Géographique) le numéro enregistreur doit être suivi immédiatement du symbole géographique. Ensuite viendrait (*a*) le nom d'auteur, (*b*) le titre du mémoire.

Exemple—

N 2227 *hc.*
Pilsbry, H. A. A new Colombian Pleurodonte [*P. clappi*]. Nautilus, Philadelphia, Pa., **15**, 1901, (34-35).

Ce qui, conformément aux instructions ci-dessus, sera réduit à :—

N 2227 *hc.*
Pilsbry, H. A. A new Colombian Pleurodonte. (34-35).

Les autres numéros enregistreurs, c.à.d. 0060 et ceux en ..03, ..07, ..11, ..15, ..19 et ..23, sont divisés en de nombreuses subdivisions. Une de ces subdivisions doit suivre le numéro enregistreur.

Il faut une fiche séparée pour chaque article qui doit paraître séparément dans le catalogue.

S'il se trouve que les subdivisions actuelles ne suffisent pas et qu'une nouvelle subdivision serait à désirer,

nome dell'autore deve seguire immediatamente il numero di registrazione.

Esempio—

N 0040.
Ross, R. Malaria and mosquitoes. London, Proc. R. Inst., **16**, 1901, (295-313).

Questo si deve attaccare alla scheda a titolo ed abbreviare così :—

N 0040.
Ross, R. Malaria and mosquitoes. (295-313).

Ove gli Uffici Regionali, a qualunque scopo, volessero annotare la riferenza sulla scheda per esteso, la riferenza abbreviata si farebbe dall'Ufficio Centrale col cancellare i dettagli soverchi.

Sulle schede portanti un numero in ..27 (Distribuzione Geografica) il numero di registrazione dev'essere seguito immediatamente dal simbolo geografico. Poi verrebbe (*a*) il nome dell' autore, (*b*) il titolo della memoria.

Esempio—

N 2227 *hc.*
Pilsbry, H. A. A new Colombian Pleurodonte [*P. clappi*]. Nautilus, Philadelphia, Pa., **15**, 1901, (34-35).

Giusto le suddette istruzioni questo si ridurebbe a :—

N 2227 *hc.*
Pilsbry, H. A. A new Colombian Pleurodonte. (34-35).

I rimanenti numeri di registrazione, cioè 0060 e quelli in ..03, ..07, ..11, ..15 e ..23 sono divisi in numerose suddivisioni. Una di queste suddivisioni deve seguire il numero di registrazione.

Ci vuol una scheda separata per ogni articolo che deve apparire separatamente nel Catalogo.

Nel caso di articoli che non si possono includere nelle suddivisioni attuali e per i quali si stima desidera-

division is thought to be desirable, such suggested new sub-division shall be recorded upon the card, in order that the matter may be dealt with by the Central Bureau. In no case must two differently numbered subjects be placed on one slip.

If the book or paper deals with so many of these sub-headings as to render it unnecessary to mention all of them, the word "general" should be used for the sub-heading. The sub-heading should be followed by (*a*) the author's name, (*b*) the title or modified title of the paper.

Example—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) Kjöbenhavn, Biol. Forh., **1899-1900**, 1901, (1-8).

If this card is sent to the Central Bureau tied to the corresponding title slip, it should be abbreviated, as explained above, to—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) (1-8).

(3) *Systematic slips.*—In these slips the name of the animal or animals should immediately follow the registration number. Where more than one genus is mentioned a separate slip must be prepared for each genus.

Every new genus must have a separate slip; the name of the new genus must be followed by the indication "n. gen.," a brief statement as to what it is allied to and some indication of the species it includes, followed by the author's name and reference.

New sub-genera are to be treated in a similar manner to genera, except that "n. subgen." will be used, and the name of the genus of which it is a division will follow.

eine neue Unterabteilung deshalb wünschenswert erscheint, so ist die vorgeschlagene neue Unterabteilung auf dem Zettel anzugeben, damit das Central-Bureau entscheide, wie dabei zu verfahren sei. Auf keinen Fall dürfen zwei verschieden numerierte Gegenstände auf einen Zettel gesetzt werden.

Bezieht sich das Buch, resp. der Aufsatz, auf so viele Unterabteilungen, dass es unzweckmässig ist, sie alle anzuführen, so gebraucht man das Wort „Allgemeines" für die Unterabteilung. Auf die Unterabteilung folgt (*a*) der Verfassername, (*b*) der Titel, resp. der modifizierte Titel der Arbeit.

Beispiel—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) Kjöbenhavn, Biol. Forh., **1899-1900**, 1901, (1-8).

Wird dieser Zettel mit dem entsprechenden Titel-Zettel zusammengeheftet an das Central-Bureau geschickt, so ist er, wie oben erklärt, folgendermassen abzukürzen:—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) (1-8).

(3) *System-Zettel.*—Bei diesen Zetteln soll der Name des Tieres oder der Tiere unmittelbar auf die Ordnungsnummer folgen. Wird mehr als eine Gattung erwähnt, so ist für jede Gattung ein besonderer Zettel herzustellen. Jede neue Gattung muss einen besonderen Zettel erhalten; auf den Namen der neuen Gattung folgt die Bemerkung „n. gen." eine kurze Notiz, wem sie verwandt ist, und irgend eine Angabe über die Species, die sie umfasst; hierauf Verfassername und Citat.

Neue Untergattungen sind ähnlich zu behandeln, wie Gattungen, nur dass die Bemerkung „n. subgen." gebraucht und der Name der Gattung, um deren Unterabteilung es handelt, hinzugefügt wird.

la nouvelle subdivision que l'on propose doit être indiquée sur la fiche afin que le Bureau Central décide comment il faut procéder. En aucun cas deux articles portant des numéros différents ne doivent être écrits sur la même fiche.

Dans le cas où le livre ou mémoire traite de tant de ces subdivisions qu'il est inutile de les citer toutes, il faut employer le mot "Généralités" pour la subdivision. La subdivision doit être suivie (*a*) du nom d'auteur, (*b*) du titre ou du titre modifié du mémoire.

Exemple—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) Kjöbenhavn, Biol. Forh., 1899-1900, 1901, (1-8).

Si cette fiche est envoyée au Bureau Central attachée à la fiche de titre correspondante elle doit être abrégée, comme il est expliqué ci-dessus, à :—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) (1-8).

(3) *Fiches systématiques.*—Sur ces fiches le nom de l'animal ou des animaux doit suivre immédiatement le numéro enregistreur. Si mention est faite de plus d'un genre il faut une fiche distincte pour chaque genre.

Chaque genre nouveau doit avoir une fiche distincte ; le nom du genre nouveau doit être suivi de l'indication "n. gen.," puis d'une courte indication du genre ou des genres auxquels il est allié et de quelques indications relatives aux espèces qu'il renferme ; le tout sera suivi du nom d'auteur et de la référence.

Les sous-genres nouveaux seront traités de la même façon que les genres, mais l'indication "n. gen." sera remplacée par "n. subgen.," et l'on mettra ensuite le nom du genre auquel le sous-genre se rattache.

bile qualche nuova suddivisione, si deve annotare sulla scheda la nuova suddivisione proposta affinchè l'Ufficio Centrale decida come si debba comportare con essa. In nessun caso si devono porre sulla stessa scheda due soggetti portanti numeri diversi.

Se il libro o la memoria si riferisce a tante di queste suddivisioni che non fa d'uopo accennarle tutte, allora si pone per la suddivisione la parola "generale." La suddivisione dev' essere seguita (*a*) dal nome dell'autore, (*b*) dal titolo, ossia dal titolo modificato, del lavoro.

Esempio—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) Kjöbenhavn, Biol. Forh., 1899-1900, 1901, (1-8).

Se questa scheda si manda all'Ufficio Centrale attaccata alla scheda a titolo corrispondente si deve abbreviare, come si è spiegato qui sopra, a :—

N 6015 [Regeneration].
Lange, C. Experiments on regeneration [of kidneys]. (Danish) (1-8).

(3) *Schede sistematiche.*—Su queste schede il nome dell' animale o degli animali deve seguire immediatamente il numero di registrazione. Se si fa menzione di più di un genere bisogna far una scheda separata per ogni genere.

Ciascun nuovo genere deve avere una scheda separata ; il nome del nuovo genere dev' essere seguito dalla indicazione "n. gen.," poi viene una breve indicazione di quello cui esso si connette, e qualche indicazione delle specie che include, e segue infine il nome dell' autore e le riferenze.

I nuovi sottogeneri saranno trattati in modo simile ai nuovi generi, ma sarà adoperata la indicazione "n. subgen.," e seguirà il nome del genere del quale il sottogenere è divisione.

The author's name should *follow* the title or modified title on these slips.

Examples—

(I) N 2631.

Amblyops crozetii, bipolar occurrence. **Ohlin**, A. Ann. Mag. Nat. Hist., London, (Ser. 7), **7**, 1901, (371–374). [Schizopoda.]

(II) N 4431.

Heterephrya neximargo sp. n. Peru. **Warren**, W. Nov. Zool., Tring, **8**, 1901, (457). [Geometridae.]

When more than one new species is described from the same genus, all the new species should be mentioned on the slip and the respective page references given. Where only one new species is mentioned the slip should be arranged as in Example II. In any case the habitat should be given where possible.

At the end of each slip the name of the group of animals referred to should be given. When the work gives no indication of the group (*i.e.*, Family, Sub-family or Tribe) and the slip-maker cannot from his own knowledge supply the deficiency the sign [?] may be written at the end of the slip.

When it is undesirable to index each genus separately a general entry should be given.

Example—

N 4431.

Hoyningen-Huene, F. von. Aberrationen einiger estländischer Eulen und Spanner. Berliner ent. Zs., **46**, 1901, (309–319, mit 1 Taf.). [Noctuidae.]

On systematic slips Christian names should be represented by initials only.

Slips relating to fossil forms are to be marked †, and slips relating to fossil and recent forms†*. (The latter condition occurs only rarely in this division.)

Bei diesen Zetteln sollte der Verfassername auf den Titel oder modifizierten Titel *folgen*.

Beispiele—

(I) N 2631.

Amblyops crozetii, bipolar occurrence. **Ohlin**, A. Ann. Mag. Nat. Hist., London, (Ser. 7), **7**, 1901, (371–374). [Schizopoda.]

(II) N 4431.

Heterephrya neximargo sp. n. Peru. **Warren**, W. Nov. Zool., Tring, **8**, 1901, (457). [Geometridae.]

Wird mehr als eine neue Art derselben Gattung beschrieben, so sollen sämtliche neue Arten, mit Angabe der betreffenden Seiten-Zahlen, auf dem Zettel erwähnt werden. Wo es sich blos um eine neue Art handelt, ist der Zettel wie in Beispiel II herzustellen. Das Habitat ist auf jeden Fall wenn möglich anzugeben.

Am Ende eines jeden System-Zettels ist der Name der betreffenden Tiergruppe anzuführen. Enthält die Arbeit keine Angabe der Gruppe (d.h. Familie, Unterfamilie oder Tribus) und ist der Zettelschreiber nicht im stande, aus eigener Kentniss die Lücke auszufüllen, so kann das Zeichen [?] an das Ende des Zettels gesetzt werden. Ist die gesonderte Angabe einer jeden Gattung nicht wünschenswert, so ist eine allgemeine Bezeichnung zu geben.

Beispiel—

N 4431

Hoyningen-Huene, F. von. Aberrationen einiger estländischer Eulen und Spanner. Berliner ent. Zs., **46**, 1901, (309–319, mit 1 Taf.). [Noctuidae.]

Auf den System-Zetteln sollen die Vornamen nur durch Anfangsbuchstaben wiedergegeben werden.

Zettel, die sich auf fossile Formen beziehen, sind durch ein† zu bezeichnen; solche, die sich sowohl auf fossile als auf recente Formen beziehen, durch ein†*. (Der letzte Fall kommt in diesem Abschnitt nur selten vor.)

Le nom d'auteur doit *suivre* le titre ou le titre modifié sur ces fiches.

Exemples—

(I) N 2631.
Amblyops crozetii, bipolar occurrence. **Ohlin**, A. Ann. Mag. Nat. Hist., London, (Ser. 7), **7**, 1901, (371-374).
[Schizopoda.]

(II) N 4431.
Heterephrya neximargo sp. n. Peru. **Warren**, W. Nov. Zool., Tring, **8**, 1901, (457).
[Geometridae.]

Quand il y a description de plus d'une espèce du même genre, toutes les espèces nouvelles doivent être portées sur la fiche avec le renvoi aux pages respectives. S'il ne s'agit que d'une seule espèce nouvelle la fiche doit être établie conformément à exemple II. L'habitat doit être indiqué en tout cas si possible. L'on devra placer à la fin de chaque fiche systématique le nom du groupe d'animaux auquel la fiche se rapporte. Quand l'ouvrage ne fournit aucune indication de groupe (famille, sous-famille ou tribu) et lorsque le rédacteur de la fiche ne peut, d'après ses propres connaissances, suppléer à ce défaut d'indications, l'on pourra mettre le signe [?] à la fin de la fiche.

S'il n'est pas à désirer que chaque genre soit catalogué séparément il faut établir un article général.

Exemple—

N 4431.
Hoyningen-Huene, F. von. Aberrationen einiger estländischer Eulen und Spanner. Berliner ent. Zs., **46**, 1901, (309-319, mit 1 Taf.).
[Noctuidae.]

Sur les fiches systématiques les noms de baptême doivent être représentés par des initiales seulement.

Les fiches relatives aux formes fossiles doivent être marquées †, et celles qui se rapportent aux formes fossiles récentes †*. (Cette dernière condition ne se présente que rarement dans cette division.)

Su queste schede il nome dell'autore deve venire *dopo* il titolo o titolo modificato.

Esempi—

(I) N 2631.
Amblyops crozetii, bipolar occurrence. **Ohlin**, A. Ann. Mag. Nat. Hist., London, (Ser. 7), **7**, 1901, (371-374).
[Schizopoda.]

(II) N 4431.
Heterephrya neximargo sp. n. Peru. **Warren**, W. Nov. Zool., Tring, **8**, 1901, (457).
[Geometridae.]

Quando si descrive più di una specie nuova del medesimo genere, tutte le specie nuove devono venire accennate sulla scheda colla riferenza alle pagine rispettive. Trattandosi di una sola specie nuova, la scheda dev' essere redatta come in esempio II. In ogni caso, per quanto sia possibile, si deve menzionare il habitat.

Al fine di ciascuna scheda sistematica si deve porre il nome del gruppo di animali cui la scheda si riferisce. Quando il lavoro non porta indicazione del gruppo (cioè famiglia, sottofamiglia, tribù) e il redattore della scheda non può di suo supplire alla deficienza, si può mettere al fine della scheda il segno [?].

Quando non si vuole catalogare separatamente ogni genere, si farà un' annotazione generale.

Esempio—

N 4431.
Hoyningen-Huene, F. von. Aberrationen einiger estländischer Eulen und Spanner. Berliner ent. Zs., **46**, 1901, (309-319, mit 1 Taf.).
[Noctuidae.]

I nomi di battesimo devono essere rappresentati sulle schede sistematiche colle sole iniziali

Le schede relative a forme estinte saranno segnate †, e le schede relative a forme estinte e viventi†*. (L'ultima condizione occorre soltanto raramente in questa divisione.)

(4) *Lists of New Genera and Species.*—For the preparation of these lists, the Regional Bureaus should give the names of genera and sub-genera (*a*) which are new, (*b*) the significance of which has been changed, (*c*) which contain new species. These may be written at the foot of the systematic slips, but it would greatly facilitate an earlier production of the volume if the Regional Bureaus would write each new genus on a separate card and attach it to the systematic slip.

(4) *Listen neuer Gattungen und Arten.*—Zur Herstellung dieser Listen sollten die Regionalbureaus die Namen der Gattungen und Untergattungen angeben, (*a*) die neu sind, (*b*) deren Bedeutung sich geändert hat, (*c*) die neue Arten enthalten. Diese können am Fusse der System-Zettel angeführt werden, es würde jedoch zur schnelleren Erscheinung des Bandes wesentlich beitragen, wenn die Regionalbureaus jede neue Gattung auf einem besonderen Zettel schrieben und diesen an den System-Zettel hefteten.

Date of Receiving Slips.

The period during which the material for any one year will be received at the Central Bureau will not extend beyond June of the following year. Regional Bureaus are therefore earnestly requested to complete the indexing of their zoological literature within the time named.

The period covered by the literature indexed in any one of the annual volumes shall be from January 1st to December 31st of the particular year, but any matter which had not been received in time for insertion in the previous volume shall also be included therein.

Termin des Empfangs der Zettel.

Das Material für irgend ein Jahr darf nicht später als Ende Juni des folgenden Jahres in den Besitz des Centralbureaus gelangen. Die Regionalbureaus werden daher dringend ersucht, mit dem Katalogisieren ihrer zoologischen Literatur bis zu dem genannten Termin fertig zu werden.

Die in irgend einem der jährlichen Bände veröffentlichte Litteratur soll die Periode vom 1. Januar bis zum 31 December des betreffenden Jahres decken, etwaige Artikel aber, die für den vorigen Band zu spät eintrafen, werden darin mit aufgenommen.

Distinctive Character of cards.

The editorial work will be greatly facilitated by ruling a red line near the left-hand edge of the title slips, a green line near the left-hand edge of the subject slips, and no line at all on the taxonomy and new species slips. Or the slips may be printed on thin card of three colours, viz., red for the title slips, green for the subject slips, and white for the systematic slips. The size of the slips must be 16 cm. by 8 cm.

Markierung der Zettel.

Die Herausgabe wird bedeutend erleichtert werden, wenn auf den Titel-Zetteln nahe dem linken Rande eine rothe Linie, auf den Sach-Zetteln entsprechend eine grüne Linie gezogen wird, während die Taxonomie- und Arten-Zettel ohne Linie bleiben. Man kann auch die Zettel auf drei verschiedenfarbige Sorten Cartou drucken, nämlich die Titel-Zettel auf roten, die Sach-Zettel auf grünen und die System-Zettel auf weissen.

Die Zettel müssen 16 × 8 cm. gross sein.

(1) *Listes des genres et espèces nouvelles.*—Pour la rédaction de ces listes les Bureaux Régionaux doivent donner les noms des genres et sous-genres (*a*) qui sont nouveaux, (*b*) dont la signification est changée, (*c*) qui contiennent des espèces nouvelles. Ils peuvent être écrits au pied des fiches systématiques, pourtant si les Bureaux Régionaux voulaient écrire chaque genre nouveau sur une fiche séparée et l'attacher à la fiche systématique, cela contribuerait beaucoup à accélérer la publication du volume.

(1) *Elenchi di Generi e Specie nuove.*—Per la redazione di questi elenchi gli Uffici Regionali devono dare i nomi dei generi e sottogeneri, (*a*) che sono nuovi, (*b*) il cui significato si è cambiato, (*c*) che contengono delle specie nuove. Questi possono essere scritti in fondo alle schede sistematiche, ma contribuirebbe molto ad accelerare la publicazione del tomo se gli Uffici Regionali scrivessero ogni genere nuovo sopra una scheda separata e attaccassero questa alla scheda sistematica.

Date de la réception des fiches.

La période pendant laquelle les matières pour une année quelconque seront admises par le Bureau Central ne s'étendra pas au-delà du mois de juin de l'année suivante. Aussi les Bureaux Régionaux sont-ils instamment priés de compléter l'index de leur littérature zoologique avant l'expiration de ce terme.

La littérature indexée dans un volume annuel quelconque comprendra la période du 1er janvier au 31 décembre de l'année en question, ainsi que les articles qui étaient arrivés trop tard pour être incorporés dans le volume précédent.

Data di ricezione delle schede.

Il periodo durante il quale il materiale per un anno qualunque sarà ammesso dall' Ufficio Centrale non si stenderà in là di Giugno dell'anno seguente. Gli Uffici Regionali sono perciò pregati con istanza di completare il catalogo della loro letteratura zoologica dentro del detto termine.

La letteratura catalogata in un tomo annuale qualunque comprenderà il periodo dal 1° Gennaio al 31 Dicembre dell' anno di cui si tratta, coll' aggiunto di quegli articoli che fossero ricevuti troppo tardi per essere inclusi nel tomo precedente.

Caractère distinctif des fiches.

Le travail du Directeur sera grandement facilité si l'on trace une ligne rouge près du bord gauche des fiches de titre, une ligne verte près du bord gauche des fiches de matière, et si l'on ne trace aucune ligne sur les fiches systématiques et sur les fiches pour les espèces nouvelles. On peut aussi imprimer les fiches sur des cartons minces de trois couleurs, savoir, une carte rouge pour les fiches de titre, une carte verte pour les fiches de matière, et une carte blanche pour les fiches systématiques.

Les dimensions des fiches doivent être de 16 cm. sur 8 cm.

Carattere distintivo delle schede.

Il lavoro dell' Ufficio Centrale sarà grandemente facilitato dal segnare il margine sinistro delle schede a titolo con una linea rossa, quello delle schede a soggetto con una verde, e dal lasciare senza linea le schede tassonomiche e quelle per le specie nuove. Oppure le schede potranno essere scritte su carta di tre colori, rosso, verde, e bianco, il primo per le schede a titolo, il secondo per quelle a soggetto, il terzo per quelle sistematiche.

Il formato delle schede devlessere di 16 per 8 centimetri di lato.

0000-0231. Comprehensive Zoology.

N.B.—The subjects enumerated under numbers 0000 to 0231 may recur in any one of the subsequent Branches. In the Catalogue only works that deal with several Branches will be registered under numbers 0000 to 0231; hence the term "Comprehensive Zoology."

HYPERZOOLOGY.

0000 Philosophy.

0010 History. Biography.

0020 Periodicals. Reports of Institutions, Societies, Congresses, Explorations.

0030 General Treatises, Text-books, Dictionaries, Collected Works, Tables.

0032 Bibliographies.

0040 Addresses, Lectures, etc., of a general character.

0050 Pedagogy.

0060 Institutions, Museums, Collections, Aquaria, Gardens, Utility and Harmfulness, Zoology in relation to Medicine, etc. (*See also* the general sections of Special Zoology.)

0070 Nomenclature (principles of).

0090 Technique. Methods of research, instruments and apparatus.

0207 STRUCTURE (OR MORPHOLOGY). [In general or of more than one of the classes of animals.] (*See also* (L) General Biology (O) Anatomy and (Q) Physiology.)

General; Comparative Anatomy; Special Anatomy and Histology: Tegument and its Organs; Nervous System and Organs of Sense; Myology; Skeleton (including Osteology and Dentition); Skeletal Structures of Invertebrates; Alimentary System; Circulatory and Respiratory Organs; Water Vascular System, Blood, Lymph, Cœlomic Fluid, Chyle. Special Glands; Excretory Organs; Reproductive Organs; Special External Characters; Colour. Rudimentary or Vestigial Organs, and Organs of uncertain nature.

0000-0231. Allgemeine Zoologie.

N.B.—Die unter Nr. 0000 bis 0231 aufgeführten Gegenstände können in jedem der nachfolgenden Zweige wiederkehren. Unter Nr. 0000-0231 bringt der Katalog nur solche Arbeiten, die mehrere Zweige behandeln. Daher der Ausdruck „Allgemeine Zoologie."

HYPERZOOLOGIE.

Philosophie.

Geschichte. Biographien.

Periodica. Berichte von Instituten, Gesellschaften, Kongressen, Forschungsreisen etc.

Allgemeine Abhandlungen, Lehrbücher, Wörterbücher, Sammelwerke, Tabellen.

Bibliographien.

Festreden, Vorträge u.s.w., allgemeiner Art.

Pädagogik.

Institute, Museen, Sammlungen, Aquarien, Gärten, Nützlichkeit und Schädlichkeit, Zoologie in Beziehung zur Medizin etc. (*Siehe auch* die allgemeinen Abteilungen der speciellen Zoologie.)

Nomenklatur (Prinzipien).

Technik. Untersuchungsmethoden. Instrumente and Apparate.

STRUKTUR (ODER MORPHOLOGIE). [Im allgemeinen oder von mehreren Tierklassen.] (*Siehe auch* (L) Allgemeine Biologie, (O) Anatomie und (Q) Physiologie.)

Allgemeines; Vergleichende Anatomie; Specielle Anatomie und Histologie: Tegument und seine Organe; Nervensystem und Sinnesorgane; Myologie; Skelett (einschl. Osteologie und Zahnbildung); Inneres Skelett bei Wirbellosen; Ernährungssystem; Circulations- und Respirationsorgane; Wassergefässsystem, Blut, Lymphe, Cœlomflüssigkeit, Chylus. Specielle Drüsen; Excretions-Organe; Reproduktive Organe; Specielle äussere Charactere; Farbe. Rudimentäre oder unentwickelte Organe und Organe ungewisser Natur.

0000-0231. Zoologie générale.

N.B.—Les sujets énumérés sous les indices 0000 à 0231 peuvent être représentés dans chacune des "branches" suivantes; mais c'est seulement les ouvrages ayant trait à plusieurs "branches" qui doivent être catalogués sous les numéros 0000 à 0231; de là le terme de "Zoologie générale."

HYPERZOOLOGIE.

0000 Philosophie.
0010 Histoire. Biographie.
0020 Périodiques. Rapports d'Institutions, de Sociétés, de Congrès, d'Explorations, etc.
0030 Traités généraux, Manuels, Dictionnaires, Recueils, Tables.

0032 Bibliographies.
0040 Discours, Cours, etc., d'un caractère général.
0050 Enseignement.
0060 Institutions, Musées, Collections, Aquaria, Jardins. Utilité et Nocuité. Zoologie en rapport avec la Médecine, etc. (*Voy aussi* les sections générales de la Zoologie spéciale.)
0070 Nomenclature (principes de).
0090 Technique. Méthodes de recherche, instruments et appareils.
0207 STRUCTURE (OU MORPHOLOGIE). [En général ou dans plusieurs classes d'animaux.] (*Voy. aussi* (L) Biologie Générale, (O) Anatomie et (Q) Physiologie.)

Généralités; Anatomie comparée; Anatomie spéciale et Histologie (*ex.* organes tégumentaires); Système nerveux et organes des sens; Myologie; Squelette (y compris Ostéologie et Dentition); Structure des Invertébrés; Système digestif; Appareils de la circulation et de la respiration; Système aquifère vasculaire, sang, lymphe, liquide de la cavité générale, chyle. Glandes spéciales; Organes d'excrétion; Organes de reproduction; Organes externes spéciaux; Couleur. Organes rudimentaires ou vestiges d'organes anciens; Organes de nature incertaine.

0000-0231. Zoologia comprensiva.

I soggetti designati coi numeri 0000 a 0231 possono ricorrere in ognuno dei seguenti rami. Nel catalogo, tuttavia, soltanto i lavori che trattano di diversi rami saranno registrati sotto i numeri 0000 a 0231; di qui il termine "Zoologia comprensiva."

IPERZOOLOGIA.

Filosofia.
Storia. Biografia.
Periodici. Resoconti di Istituti Società, Congressi, Esplorazioni.

Trattati generali, Libri di testo, Dizionari, Raccolte, Tavole.

Bibliografie.
Discorsi, Letture, etc., aventi un carattere generale.
Pedagogia.
Istituti, Musei, Collezioni, Aquaria, Giardini, Utilità e Nocività. Zoologia in rapporto alla medicina. (*Vedi anche* le sezioni generali della Zoologia speciale.)

Principî di Nomenclatura.
Tecnica. Metodi di ricerca, istrumenti ed apparati.
STRUTTURA (O MORFOLOGIA). [In generale oppure di più di una classe di animali.] (*Vedi anche* (L) Biologia Generale, (O) Anatomia e (Q) Fisiologia).

Generalità; Anatomia comparata; Anatomia speciale e Istologia; Tegumento e suoi organi; Sistema nervoso e organi di senso; Miologia; Scheletro (incl. Osteologia e Dentizione); Strutture interne scheletriche degli invertebrati; Apparecchio alimentare; Organi della circolazione e della respiriazione; Sistema acquifero vascolare, Sangue, Linfa, Liquido celomatico, Chilo; Glandule speciali; Organi escretori; Organi riproduttivi. Caratteri speciali esterni; Colore. Organi rudimentali e in vestigio e organi di natura incerta.

0211 PHYSIOLOGY [of the Animal Kingdom, or of more than one of its Branches]. (*See also* (Q) Physiology.)

[Physiology will be treated as a separate science. In zoology it is therefore only necessary to collect those physiological memoirs that specially interest zoologists; hence a detailed division is superfluous, but the following may be cited as examples to come under this heading.]

General; Production of Sex; Production of Caste; Function of Sense Organs; Function of Special Organs and Structures, *e.g.*, of Glands; Assimilation; Respiration; Environmental Effects; Change of Function; Adaptation. Duration of Life; Senescence; Death.

0215 DEVELOPMENT. [General works on more than one of the Branches.] (*See also* L 2000-5900; O 1500-1940.)

General; Budding and Asexual Reproduction; Oogenesis and Ovum; Spermatogenesis and Spermatozoon; Phenomena of Fertilization; Parthenogenesis; Embryology, Organogeny and Histogeny; Metamorphosis and Larval Forms; Post-embryonic Ontogeny; Alternation of Generations; Pædogenesis; Dissogony; Cycles of Generations; Changes during Life; Regeneration; Hermaphroditism.

For cell-structure and processes *see* (L) General Biology—Cytology.

0219 ETHOLOGY. [Works dealing with one or more of the following subjects, and relating to more than one Branch of the Animal Kingdom.]

General; Habits; Phenology; Migration and Nonmigration; Hibernation; Parental Relations; Sexual Relations; Sexual Dimorphism; Ovipois-

PHYSIOLOGIE [des Tierreichs oder mehrerer seiner Zweige]. (*Siehe auch* (Q) Physiologie.)

[Physiologie wird als besondere Wissenschaft behandelt werden. In „Zoologie" brauchen daher nur solche physiologische Abhandlungen aufgeführt zu werden, die speciell den Zoologen interessieren. Darum ist eine detaillierte Einteilung hier überflüssig, doch mag das Folgende als Beispiel dienen.]

Allgemeines; Hervorbringung des Geschlechtes, der Rasse; Funktion der Sinnesorgane; Funktion besonderer Bildungen, z. B. Drüsen; Assimilation; Atmung; Wirkung der Umgebung; Funktionswechsel; Anpassung. Lebensdauer; Altern; Tod.

ENTWICKELUNG. [Allgemeine Werke über mehr als einen der Zweige.] (*Siehe auch* L 2000-5900; O 1500-1940.)

Allgemeines; Knospenbildung und ungeschlechtliche Fortpflanzung; Oogenesis und Ovum; Spermatogenesis und Spermatozoon; Befruchtungs-Phänomene; Parthenogenesis; Embryologie, Organogenie und Histogenie; Metamorphose und Larvenformen; postembryonale Ontogenie; Generationswechsel; Pædogenesis; Dissogonie; Generations-Cyklen; Veränderungen während des Lebens; Regeneration; Hermaphroditismus.

Zell-Struktur und -Processe *siehe* (L) Allgemeine Biologie—Cytologie.

ETHOLOGIE. [Arbeiten, die eine oder mehrere der folgenden Gegenstände behandeln und sich auf mehr als einen Zweig des Tierreichs beziehen.]

Allgemeines; Lebensgewohnheiten; Phänologie; Wanderung und Nichtwanderung; Winterschlaf; Beziehungen zwischen Eltern und Nachkommenschaft

0214 Physiologie [du règne animal ou de plusieurs branches du règne animal]. (*Voy. aussi* (Q) Physiologie.)

[La Physiologie doit être traitée comme une science distincte; en conséquence, en Zoologie il ne sera nécessaire de relever que les mémoires de physiologie qui intéressent spécialement les zoologistes; une division détaillée est donc superflue, néanmoins on peut citer la suivante comme exemple.]

Généralités; Production des sexes; Formation des genres; Fonctions des organes des sens; Fonctions des organes de structure spéciale (*ex.* des glandes); Assimilation; Respiration; Influence du milieu; Changement de fonction; Adaptation; Durée de la vie; Sénescence; Mort.

0215 Développement. [Ouvrages généraux ayant trait à plusieurs "branches."] (*Voy. aussi* L 2000-5900; O 1500-1940.)

Généralités; Bourgeonnement et reproduction asexuée; Ovogenèse et œuf; Spermatogenèse et Spermatozoïdes; Phénomènes de fécondation; Parthénogenèse; Embryologie, organogénie et histogénie; Métamorphose et formes larvaires; Ontogénie postembryonnaire; Générations alternantes; Pædogenèse; Dissogonie; Cycles de générations; Changements pendant la vie; Régénération; Hermaphrodisme.

Pour la structure et les processus cellulaires *voir* (L) Biologie générale—Cytologie.

0219 Ethologie. [Ouvrages traitant d'un ou de plusieurs des sujets suivants et se rapportant à un ou à plusieurs embranchements du règne animal].

Généralités; Habitudes; Phénologie; Migration et non-migration; Hibernation; Relations de parenté; Relations sexuelles; Dimorphisme sexuel; Ponte;

Fisiologia [del Regno animale o di più di uno dei suoi rami]. (*Vedi anche* (Q) Fisiologia).

[La fisiologia sarà trattata come una scienza separata. Nella zoologia è perciò soltanto necessario raccogliere quelle memorie di fisiologia che più specialmente possono interessare lo zoologo; quindi una divisione particolareggiata è superflua, ma ciò che segue può rappresentare la divisione di questo capitolo.]

Generalità; Produzione dei sessi; Produzione di caste; Funzione degli organi di senso; Funzione di speciali organi, *p. es.* le glandule; Assimilazione; Respirazione; Effetti dell' ambiente; Cambiamento di funzione; Adattamento. Durata della vita; Senescenza; Morte.

Sviluppo. [Lavori generali su più di uno dei rami.] (*Vedi anche* L 2000-5900; O 1500-1940.)

Generalità; Gemmazione e riproduzione asessuale; Oogenesi e Uovo; Spermatogenesi e Spermatozoide; Fenomeni di Fecondazione; Partenogenesi; Embriologia, organogenia ed istogenia; Metamorfosi e forme larvali; Ontogenia postembrionale; Alternanza delle generazioni; Pedogenesi; Dissogonia; Cicli delle generazioni; Cambiamenti durante la vita; Rigenerazione; Ermafroditismo.

Per la struttura cellulare e i processi di sviluppo *vedi* (L) Biologia generale—Citologia.

Etologia. [Lavori aventi a che fare con uno o più dei soggetti seguenti e relativi ad uno o più rami del regno animale.]

Generalità; Abitudini; Fenologia; migrazione e non migrazione; ibernazione; rapporti parentali; rapporti sessuali; dimorfismo sessuale;

tion; Voice; Sound Production; (*see also* Q 4145). Luminosity; (*see also* Q 0260). Habitat with sub-divisions, *e.g.*, Cavernicolous Animals, Pelagic and Deep-sea Animals (plankton), etc.; Instinct and Psychology; Social Relations; Gregariousness; Symbiosis; (*see also* L 5550; Q 0285; R 1640); Parasitism; Defensive Processes (including Protective Coloration, Mimicry and Protective Resemblance); Ornament and Colour; Breeding and Acclimatisation.

Sexuelle Beziehungen; Sexueller Dimorphismus; Eiablage; Stimme; Hervorbringung von Lauten (*siehe auch* Q 4145); Leuchtvermögen (*siehe auch* Q 0260); Habitat mit Unterabteilungen, z. B. Höhlentiere, pelagische und Tiefsee-Tiere (Plankton) u. s. w.; Instinkt und Psychologie; Soziale Beziehungen; Heerdenleben; Symbiose (*siehe auch* L 5550; Q 0285; R 1640); Parasitismus; Verteidigungs-Processe (einschl. Schutzfärbung, Mimicry und schützende Aehnlichkeiten); Schmuck und Farbe; Züchtung und Akklimatisation.

0223 Variation and Ætiology. [Works dealing with one or more of the following subjects and relating to more than one Branch of the Animal Kingdom.] (*See also* (L) General Biology, and (Q) Physiology.)

General; Substantive variation; size, proportions, form, colour, etc. Meristic variations; numerical [meristic proper]; homoeotic; teratological. Bionomic variation; of fertility; of time of appearance; of maturity; of development; of habits. Phylogeny.

Or indexed alternatively or supplementally, with reference to treatment—descriptive, statistical, mathematical; geographical or stational.

Heredity. Grafts. Crosses and Hybrids. In-breeding. Telegony. Evolution. (*See also* K 0200; L 4300.)

Variation und Aetiologie. [Arbeiten, die einen oder mehrere der folgenden Gegenstände behandeln und sich auf mehr als einen Zweig des Tierreichs beziehen.] (*Siehe auch* (L) Allgemeine Biologie und (Q) Physiologie.)

Allgemeines; Substantielle Variation; Grösse, Proportionen, Form, Farbe etc. Meristische Variationen; numerische (meristische im eigentlichen Sinne); homoeotische; teratologische. Bionomische Variation; in Hinsicht auf Fruchtbarkeit, auf Erscheinungszeit; auf Zeit der Reife; auf Entwickelung; auf Lebensgewohnheiten. Phylogenie.

Hierneben oder als Ergänzung eine Einteilung mit Rücksicht auf die Art der Behandlung—ob descriptiv, statistisch, mathematisch; geographisch oder nach Standort.

Vererbung. Pfropfen. Kreuzungen und Bastardbildungen. Inzucht. Telegonie. Evolution. (*Siehe auch* K 0200; L 4300.)

0227 Geographical Zoology.

Geographical Distribution. [Works relating to the principles and modes of distribution.]

Topographical Zoology. [Works relating to the Fauna of one or more of the sub-divisions used in (J) Geography, and dealing

Geographische Zoologie.

Geographische Verbreitung. [Arbeiten, die sich auf die Prinzipien und die Arten der Verbreitung beziehen.]

Topographische Zoologie. [Arbeiten, die sich auf die Fauna einer oder mehrerer der Unterabteilungen in (J) Geographi

Voix ; Productions des sons ; (*Voy aussi* Q 4145.) Production de la lumière ; (*Voy. aussi* Q 0260.) Habitat avec subdivisions, *ex.* Animaux cavernicoles ; Animaux pélagiques et des zones abyssales (plankton), etc. ; Instinct et Psychologie ; Relations sociales ; Instincts sociaux ; Symbiose ; (*Voy. aussi* L 5550 ; Q 0285 ; R 1640); Parasitisme ; Procédés de défense ; Ressemblance (y compris la coloration protectrice, le mimétisme et la ressemblance protectrice) ; Ornements et couleur ; Elevage et acclimatation.

0223 Variation et Etiologie. [Ouvrages traitant d'un ou de plusieurs des sujets suivants, et ayant trait à plus d'une branche du règne animal.] (*Voy. aussi* (L) Biologie Générale et (Q) Physiologie.)

Généralités ; Variations traitées en elles-mêmes ; Taille, proportions, forme, couleur, etc. Variations méristiques ; variations numériques (méristiques proprement dites) ; homéotiques ; tératologiques. Variations bionomiques, variations de fécondité ; variations dans l'époque d'apparition, la maturité, le développement, les habitudes. Phylogénie.

Variations traitées d'une façon supplémentaire dans les ouvrages descriptifs, statistiques, mathématiques, géographiques.

Hérédité. Greffes. Croisements et Hybrides. Unions consanguines. Télégonie. Évolution. (*Voy. aussi* K 0200 ; L 4300.)

0227 Zoologie géographique.

Distribution géographique des animaux. [Ouvrages ayant trait aux principes et aux modes de distribution géographique.]

Zoologie topographique. [Ouvrages ayant trait à la faune d'une ou de plusieurs des subdivisions employées en (J)

oviposizione ; voce ; produzione di suoni (*v. anche* Q 4145); luminosità (*v. anche* Q 0260) ; Habitat con suddivisioni, *p. es.* animali cavernicoli, animali pelagici e delle zone abissali (plankton), etc. ; istinto e psicologia ; rapporti sociali ; istinti gregarii ; simbiosi (*v. anche* L 5550 ; Q 0285 ; R 1640); parasitismo ; processi difensivi (compresovi la colorazione protettiva, il mimetismo e la rassomiglianza protettiva) ; ornamenti e colore ; Allevamento ed acclimatazione.

Variazione ed Etiologia. [Lavori aventi a che fare con uno o più dei soggetti seguenti e relativi ad uno o più rami del regno animale.] (*Vedi anche* (L) Biologia Generale e (Q) Fisiologia).

Generalità ; Variazione sostantivamente considerata ; dimensioni, proporzioni, forma, colore, etc. Variazioni meristiche ; numeriche (meristiche vere o proprie) ; omeotiche ; per teratologia. Variazioni bionomiche ; di fecondità ; di epoca di apparizione ; di maturità ; di sviluppo ; di abitudini. Filogenia.

Oppure considerata alternativamente e supplementariamente sotto il punto di vista descrittivo, statistico, matematico, geografico o stazionale.

Eredità. Innesti. Incrociamenti e ibridismi. Consanguineità. Telegonia. Evoluzione. (*Vedi anche* K 0200 ; L 4300).

Zoologia geografica.

Distribuzione geografica. [Lavori relativi ai principî e ai modi di distribuzione.]

Zoologia topografica. [Lavori relativi alla Fauna di una o più delle suddivisioni adottate in (J) Geografia, e riferentisi a

with more than one of the Branches of Zoology.]

beziehen und mehr als einen Zweig der Zoologie umfassen.]

0231 Taxonomy or Classification in general.

[In this are to be placed works dealing with the principles of zoological classification; works discussing the classification of more than one of the Branches; works dealing with the relations of the great groups of existing animals; phylogenetic classification, i.e., the relations in time of the great groups of animals. Works relating to the classification of only one of the Branches are to be dealt with in that Branch.]

Taxonomie oder Klassifikation im Allgemeinen.

[Hierher sind Arbeiten zu stellen, welche die Prinzipien der zoologischen Klassifikation behandeln; ferner Arbeiten, welche die Klassifikation von mehr als einem der Zweige diseutieren; Arbeiten, welche die Beziehungen der grossen Gruppen der lebenden Tierwelt behandeln; phylogenetische Klassifikation, d. h. die zeitlichen Beziehungen der grossen Tiergruppen. Dagegen sind Arbeiten, die sich auf die Klassifikation eines einzelnen Zweiges beziehen, bei diesem zu erledigen.]

0400-6031 Special Zoology.

0400-6031 Specielle Zoologie.

0400-0431 **Protozoa.** (*See also* R 1200.)

The principal divisions are:— Mycetozoa; Rhizopoda (Radiolaria, Heliozoa, Foraminifera, Amœbaea, Proteomyxa); Sporozoa (Gregarinida, Coccidiidea, Haemosporidia, Myxosporidia, Sarcosporidia); Mastigophora (Flagellata, Dinoflagellata); Infusoria (Acinetaria, Ciliata).

Protozoa. (*Siehe auch* R 1200.)

Hauptabteilungen sind:— Mycetozoa; Rhizopoda (Radiolaria, Heliozoa, Foraminifera, Amœbaea, Proteomyxa); Sporozoa (Gregarinida, Coccidiidea, Haemosporidia, Myxosporidia, Sarcosporidia); Mastigophora (Flagellata, Dinoflagellata); Infusoria (Acinetaria, Ciliata).

0600-0631 **Porifera** (or **Spongida**).

The principal divisions are:— Calcarea; Hexactinellida; Demospongiae (Carnosa, Tetractinellida, Monaxonida, Keratosa, Myxospongida).

Porifera (oder **Spongida**).

Hauptabteilungen sind:— Calcarea; Hexactinellida; Demospongiae (Carnosa, Tetractinellida, Monaxonida, Keratosa, Myxospongida).

0800-0831 **Coelenterata** (or **Cnidaria**).

The principal divisions are:— Graptolites; Hydromedusae; Scyphomedusae; Monticuliporidae; Stromatoporidae; Alcyonaria; Zoantharia; Ctenophora.

Cœlenterata (oder **Cnidaria**).

Hauptabteilungen sind:— Graptolites; Hydromedusæ; Scyphomedusæ; Monticuliporidæ; Stromatoporidæ; Alcyonaria; Zoantharia; Ctenophora.

1000-1031 **Echinodermata.**

The principal divisions are:— Cystoidea; Crinoidea; Blastoidea; Asteroidea; Ophiuroidea; Echinoidea; Holothurioidea.

Echinodermata.

Hauptabteilungen sind:— Cystoidea; Crinoidea; Blastoidea; Asteroidea; Ophiuroidea; Echinoidea; Holothurioidea.

Géographie et ayant trait à plus d'une branche de la Zoologie.]

0231 Taxonomie ou Classification en général.

[Dans cette division doivent être placés les ouvrages traitant des principes de la classification zoologique ; les ouvrages discutant la classification de plus d'une "branche" ; les ouvrages traitant des relations des grands groupes d'animaux de la faune actuelle ; la classification phylogénétique, c'est à dire les relations anciennes entre les grands groupes d'animaux. Les ouvrages ayant trait à la classification d'une branche isolée seront traités à propos de cette branche.]

più di uno dei rami della zoologia.]

Tassonomia e Classificazione in generale.

[Qui saranno posti i lavori che trattano dei principî della classificazione zoologica ; i lavori discutenti la classificazione di più di un ramo ; i lavori riguardanti le relazioni tassonomiche dei grandi gruppi degli animali esistenti ; la classificazione filogenetica, ossia le relazioni nel tempo dei grandi gruppi di animali. I lavori relativi alla classificazione di uno solo dei rami sono trattati in quel ramo.]

0400-6031. Zoologie spéciale.

0400-0431 **Protozoaires.** (*Voy. aussi* R 1200.)

Voici les divisions principales :— Mycétozoaires ; Rhizopodes (Radiolaires, Héliozoaires, Foraminifères, Amœbiens, Protéomyxes) ; Sporozoaires (Grégarinides, Coccidiides, Haemosporidies, Myxosporidies, Sarcosporidies) ; Mastigophores (Flagellés, Dinoflagellés) ; Infusoires (Acinétiens, Ciliés.)

0600-0631 **Porifères (ou Spongiaires).**

Voici les divisions principales :— Calcaires ; Hexactinellides ; Démospongiaires (Carnosa, Tetractinellides, Monaxonides, Kératosa, Myxospongiaires).

0800-0831 **Cœlentérés (ou Cnidaria).**

Voici les divisions principales :— Graptolites ; Hydroméduses ; Scyphoméduses ; Monticuliporides ; Stromatoporides ; Alcyonaires ; Zoanthaires ; Cténophores.

1000-1031 **Échinodermes.**

Voici les divisions principales :— Cystoides ; Crinoides ; Blastoides ; Asteroides ; Ophiuroides ; Echinoides ; Helothurioides.

0400-6031. Zoologia Speciale.

Protozoa. (*Vedi anche* R 1200.)

Le divisioni principali sono :— Mycetozoa ; Rhizopoda (Radiolaria, Heliozoa, Foraminifera, Amœbaca, Proteomyxa) ; Sporozoa (Gregarinida, Coccidiidea, Haemosporidia, Myxosporidia, Sarcosporidia) ; Mastigophora (Flagellata, Dinoflagellata) ; Infusoria (Acinetaria, Ciliata).

Porifera (vel Spongida).

Le divisioni principali sono :— Calcarea ; Hexactinellida ; Demospongiae (Carnosa, Tetractinellida, Monaxonida, Keratosa, Myxospongida).

Cœlenterata (vel Cnidaria).

Le divisioni principali sono :— Graptolites ; Hydromedusae ; Scyphomedusae ; Monticuliporidae ; Stromatoporidae ; Alcyonaria ; Zoantharia ; Ctenophora.

Echinodermata.

Le divisioni principali sono :— Cystoidea ; Crinoidea ; Blastoidea ; Asteroidea ; Ophiuroidea ; Echinoidea ; Holothurioidea.

1200–1231 **Platyhelminthes. Mesozoa and Trichoplax.**

The principal divisions are :—
Platyhelminthes (Turbellaria, Trematoda, Cestoda, Nemertinea); Mesozoa (Dicyemidae, Orthonectidae); *Trichoplax*.

1400–1431 **Nemathelminthes.**

The principal divisions are :—
Nematoda; Nematomorpha (or Gordiidae); Acanthocephala.

1600–1631 **Chaetognatha. Rotifera. Gastrotricha. Kinorhyncha (or Echinodera.)**

1800–1831 **Archiannelida. Polychaeta. Myzostomaria. Oligochaeta. Gephyrea. Phoronis. Hirudinea.**

2000–2031 **Brachiopoda. Bryozoa (or Polyzoa).**

The principal divisions are :—
Brachiopoda.
Bryozoa : Entoprocta; Ectoprocta (Gymnolaema: Cyclostomata, Trepostomata, Cryptostomata, Cheilostomata, Ctenostomata; Phylactolaema).

2200–2231 **Mollusca.**

The principal divisions are :—
Lamellibranchiata (or Pelecypoda) (Order should be given); Scaphopoda; Amphineura.
Gastropoda includes Prosobranchiata (Rhipidoglossa, Ptenoglossa, Taenioglossa, Rachiglossa, Toxoglossa); Heteropoda; Opisthobranchiata (Tectibranchiata, Nudibranchiata); Pteropoda; Pulmonata (Bassomatophora, Stylommatophora). Families of Prosobranchiata and Pulmonata should be mentioned. *See* Cambridge Natural History.
Cephalopoda includes Nautiloidea, Ammonoidea, Dibranchiata.

2400–2431 **Arthropoda.**

2431 will not include a systematic arrangement of genera and species.

Platyhelminthes. Mesozoa und Trichoplax.

Hauptabteilungen sind :—
Platyhelminthes (Turbellaria, Trematoda, Cestoda, Nemertinea); Mesozoa (Dicyemidæ, Orthonectidæ); *Trichoplax*.

Nemathelminthes.

Hauptabteilungen sind :—
Nematoda; Nematomorpha (oder Gordiidæ); Acanthocephala.

Chætognatha. Rotifera. Gastrotricha. Kinorhyncha (oder Echinodera).

Archiannelida. Polychæta. Myzostomaria. Oligochæta. Gephyrea Phoronis. Hirudinea.

Brachiopoda. Bryozoa (oder Polyzoa).

Hauptabteilungen sind :—
Brachiopoda.
Bryozoa : Endoprocta; Ectoprocta (Gymnolaema : Cyclostomata, Trepostomata, Cryptostomata, Cheilostomata, Ctenostomata; Phylactolaema).

Mollusca.

Hauptabteilungen sind :—
Lamellibranchiata (oder Pelecypoda) (Ordnung angeben); Scaphopoda; Amphineura.
Gastropoda umfasst Prosobranchiata (Rhipidoglossa, Ptenoglossa, Taenioglossa, Rachiglossa, Toxoglossa; Heteropoda; Opisthobranchiata (Tectibranchiata, Nudibranchiata); Pteropoda; Pulmonata (Bassomatophora, Stylommatophora). Familien der Prosobranchiata und Pulmonata angeben. *Siehe* Cambridge Natural History.

Cephalopoda umfasst Nautiloidea, Ammonoidea, Dibranchiata.

Arthropoda.

2431 wird eine systematische Anordnung der Gattungen und Arten nicht enthalten.

1200-1231 **Platyhelminthes. Mésozoaires et le Trichoplax.**

Voici les divisions principales :— Platyhelminthes (Turbellariés, Trématodes, Cestodes, Némertiens) ; Mésozoaires (Dicyemidæ, Orthonectidæ) ; *Trichoplax*.

Platyhelminthes. Mesozoa et Trichoplax.

Le divisioni principali sono :— Platyhelminthes (Turbellaria, Trematoda, Cestoda, Nemertinea) ; Mesozoa (Dicyemidæ, Orthonectidæ) ; *Trichoplax*.

1400-1431 **Némathelminthes.**

Voici les divisions principales :— Nématodes ; Nématomorphes (ou Gordiens) ; Acanthocéphales.

Nemathelminthes.

Le divsioni principali sono :— Nematoda ; Nematomorpha (vel Gordiidæ) ; Acanthocephala.

1600-1631 **Chætognathes. Rotifères. Gastrotriches. Kinorhynques (ou Echinodères).**

Chætognatha. Rotifera. Gastrotricha. Kinorhyncha (vel Echinodera).

1800-1831 **Archiannélides. Polychètes. Myzostomes. Oligochètes. Géphyriens. Phoronis. Hirudinées.**

Archiannelida. Polychæta. Myzostomaria. Oligochæta. Gephyrea. Phoronis. Hirudinea.

2000-2031 **Brachiopodes. Bryozoaires (ou Polyzoaires).**

Voici les divisions principales :— Brachiopodes.

Bryozoaires : Entoproctes ; Ectoproctes (Gymnolèmes : Cyclostomes, Trepostomes, Cryptostomes, Cheilostomes, Cténostomes ; Phylactolèmes).

Brachiopoda. Bryozoa (vel Polyzoa).

Le divisioni principali sono :— Brachiopoda.

Bryozoa : Entoprocta ; Ectoprocta (Gymnolaema : Cyclostomata, Trepostomata, Cryptostomata, Cheilostomata, Ctenostomata ; Phylactolaema).

2200-2231 **Mollusques.**

Voici les divisions principales :— Lamellibranches (ou Pélécypodes) (indiquer l'ordre) ; Scaphopodes ; Amphineures.

Les Gastropodes comprennent les Prosobranches (Rhipidoglosses, Pténoglosses, Taenioglosses, Rachiglosses, Toxoglosses) ; Hétéropodes ; Opisthobranches (Tectibranches, Nudibranches) ; Ptéropodes ; Pulmonés (Basomatophores, Stylommatophores). Indiquer les familles des Prosobranches et des Pulmonés. *Voy.* la Cambridge Natural History.

Les Céphalopodes comprennent les Nautiles, Ammonites, Dibranches.

Mollusca.

Le divisioni principali sono :— Lamellibranchiata (vel Pelecypoda) (indicare l'ordine) ; Scaphopoda ; Amphineura.

Gastropoda includono Prosobranchiata (Rhipidoglossa, Ptenoglossa, Taenioglossa, Rachiglossa, Toxoglossa) ; Heteropoda ; Opisthobranchiata (Tectibranchiata, Nudibranchiata) ; Pteropoda ; Pulmonata (Basomatophora, Stylommatophora). Indicare le famiglie dei Prosobranchiata e Pulmonata. *Vedi* Cambridge Natural History.

Cephalopoda includono Nautiloidea, Ammonoidea, Dibranchiata.

2400-2431 **Arthropodes.**

2431 ne comprendra pas un arrangement systématique des genres et des espèces.

Arthropoda.

2431 non deve includere la disposizione sistematica dei generi e delle specie.

2600–2631 **Crustacea.**

Entomostraca (= Cirripedia, Ostracoda, Copepoda, Phyllopoda).
Leptostraca.
Arthrostraca (or Edriophthalma) (= Amphipoda, Isopoda, Anisopoda).
[Malacostraca (= Thoracostraca + Arthrostraca).]
Thoracostraca (or Podophthalma) includes Decapoda, Schizopoda, Stomatopoda, Cumacea.

2800–2831 **Trilobita. Xiphosura. Eurypterida. Pantopoda. Tardigrada. Linguatulida.**

3000–3031 **Arachnida.**

Arachnida consists of Scorpionida, Pedipalpi, Palpigradi, Araneida, Solifugae, Chernetida (or Pseudoscorpiones), Phalangida (or Opiliones), Acarida (or Acari).

3200–3231 **Prototracheata (or Onychophora).**

Prototracheata includes only *Peripatus* and its divisions.

3400–3431 **Myriopoda.**

Myriopoda consists of Chilopoda, Diplopoda (= Pselaphognatha and Chilognatha), Symphyla (or Scolopendrella), Pauropoda.

3500–3531 **Insecta.**

3531 will not include a systematic arrangement of genera and species.

3600–3631 **Aptera (or Apterygogenea). Anoplura. Mallophaga. Thysanoptera (or Physopoda). Siphonaptera (or Aphaniptera).**

Aptera, proper, consists of Thysanura and Collembola.

3800–3831 **Orthoptera. Neuroptera. Trichoptera.**

The principal divisions are:—
Orthoptera (Forticulidae or Dermaptera, Hemimeridae, Blattidae, Mantidae, Phasmidae, Gryllidae, Locustidae, Acridiidae).

Crustacea.

Entomostraca (= Cirripedia, Ostracoda, Copepoda, Phyllopoda).
Leptostraca.
Arthrostraca (oder Edriophthalma) (= Amphipoda, Isopoda, Anisopoda).
[Malacostraca (= Thoracostraca + Arthrostraca).]
Thoracostraca (oder Podophthalma) umfasst Decapoda, Schizopoda, Stomatopoda, Cumacea.

Trilobita. Xiphosura. Eurypterida. Pantopoda. Tardigrada. Linguatulida.

Arachnida.

Arachnida umfasst Scorpionida, Pedipalpi, Palpigradi, Araneida, Solifugae, Chernetida (oder Pseudoscorpiones), Phalangida (oder Opiliones), Acarida (oder Acari).

Prototracheata (oder Onychophora).

Prototracheata umfasst nur *Peripatus* und dessen Abteilungen.

Myriopoda.

Myriopoda umfasst Chilopoda, Diplopoda (= Pselaphognatha und Chilognatha), Symphyla (oder Scolopendrella), Pauropoda.

Insecta.

3531 wird eine systematische Anordnung der Gattungen und Arten nicht enthalten.

Aptera (oder Apterygogenea). Anoplura. Mallophaga. Thysanoptera (oder Physopoda). Siphonaptera (oder Aphaniptera).

Aptera, im eigentlichen Sinne, umfasst Thysanura und Collembola.

Orthoptera. Neuroptera. Trichoptera.

Hauptabteilungen sind:—
Orthoptera (Forticulidæ oder Dermaptera, Hemimeridæ, Blattidæ, Mantidæ, Phasmidæ, Gryllidæ, Locustidæ, Acridiidæ).

2600–2631 **Crustacés.**

Entomostracés (= Cirripèdes, Ostracodes, Copépodes, Phyllopodes).
Leptostracés.
Arthrostracés (ou Edriophthalmes) (= Amphipodes, Isopodes, Anisopodes).
[Malacostracés (= Thoracostracés + Arthrostracés).]
Les Thoracostracés (ou Podophthalmaires), comprennent les Décapodes, Schizopodes, Stomatopodes, Cumacés).

Crustacea.

Entomostraca (= Cirripedia, Ostracoda, Copepoda, Phyllopoda).
Leptostraca.
Arthrostraca (vel Edriophthalma) (= Amphipoda, Isopoda, Anisopoda).
[Malacostraca (= Thoracostraca + Arthrostraca).]
Thoracostraca (vel Podophthalma) includono Decapoda, Schizopoda, Stomatopoda, Cumacea.

2800–2831 **Trilobites. Xiphosures. Eurypterides. Pantopodes. Tardigrades. Linguatulides.**

Trilobita. Xiphosura. Eurypterida. Pantopoda. Tardigrada. Linguatulida.

3000–3031 **Arachnides.**

Les Arachnides comprennent les Scorpionides, Pédipalpes, Palpigrades, Aranéides, Solifuges, Chernétides (ou Pseudoscorpions), Phalangides (ou Opilions), Acariens.

Arachnida.

Arachnida includono Scorpionida, Pedipalpi, Palpigradi, Aranceida, Solifuge, Chernetida (vel Pseudoscorpiones), Phalangida (vel Opiliones), Acarida (vel Acari).

3200–3231 **Prototrachéates (ou Onychophores).**

Les Prototrachéates comprennent seulement le genre *Peripatus* et ses divisions.

Prototracheata (vel Onychophora).

Nei Prototracheata è incluso il solo *Peripatus* e le sue divisioni.

3400–3431 **Myriapodes.**

Les Myriapodes comprennent les Chilopodes, Diplopodes (Pséla-phognathes et Chilognathes), Symphyliens (ou Scolopendrelles), Pauropodes.

Myriopoda.

Chilopoda, Diplopoda (= Pselaphognatha e Chilognatha), Symphyla (vel Scolopendrella), Pauropoda.

3500–3531 **Insectes.**

3531 ne comprendra pas un arrangement systématique des genres et des espèces.

Insecta.

3531 non deve includere la disposizione sistematica dei generi e delle specie.

3600–3631 **Aptères (ou Aptérygogéniens). Anoploures. Mallophages. Thisanoptères (ou Physopodes). Siphonaptères (ou Aphaniptères).**

Les Aptères proprement dits comprennent les Thysanoures et les Collemboles.

Aptera (vel Apterygogenea). Anoplura. Mallophaga. Thysanoptera (vel Physopoda). Siphonaptera (vel Aphaniptera).

Gli Aptera propriamente detti consistono nei Thysanura e Collembola.

3800–3831 **Orthoptères. Névroptères. Trichoptères.**

Voici les divisions principales :—
Orthoptères (Forficulides ou Dermaptères, Hémimérides, Blattides, Mantides, Phasmides, Gryllides, Locustides, Acridides).

Orthoptera. Neuroptera. Trichoptera.

Le divisioni principali sono :—
Orthoptera (Forficulidæ vel Dermaptera, Hemimeridæ, Blattidæ, Mantidæ, Phasmidæ, Grylli-dæ Locustidæ, Acridiidæ).

Neuroptera (Planipennia, Embiidae, Termitidae, Psocidae, Perlidae, Ephemeridae, Odonata).

Each slip relating to Neuroptera should also state to which of these divisions it refers.

Most of the Palaeozoic Insects are to be dealt with in this branch.

Neuroptera (Planipennia, Embiidæ, Termitidæ, Psocidæ, Perlidæ, Ephemeridæ, Odonata).

Jeder Zettel für Neuroptera soll auch angeben, auf welche dieser Abteilungen er sich bezieht.

Die meisten der paläozoischen Insekten werden bei diesem Zweige zu behandeln sein.

4000–4031 **Hemiptera (or Rhynchota) excl. Anoplura, which are placed in 3600.**

The principal divisions are :—

Hemiptera Heteroptera and Hemiptera Homoptera. [Phytophthires (Aphidae, Psyllidae, Aleurodidae, Coccidae) are included in Hemiptera Homoptera.]

Families to be mentioned in all cases.

See Cambridge Natural History.

Hemiptera (oder Rhynchota), excl. Anoplura, welche unter 3600 eingeordnet sind.

Hauptabteilungen sind :—

Hemiptera Heteroptera und Hemiptera Homoptera. [Phytophthires (Aphidæ, Psyllidæ, Aleurodidæ, Coccidæ) sind in Hemiptera Homoptera enthalten.]

Familien immer angeben. *Siehe* Cambridge Natural History

4200–4231 **Diptera (excl. Siphonaptera, which are placed in 3600–3631).**

The slips should be marked with the name of the family of Diptera. *See* Cambridge Natural History.

Diptera (excl. Siphonaptera, welche unter 3600–3631 eingeordnet sind).

Bei den Diptera sind auf den Zetteln die Namen der Familien zu vermerken. *Siehe* Cambridge Natural History.

4400–4431 **Lepidoptera.**

The principal divisions are :—

Rhopalocera ; Heterocera.

The family to be mentioned in all cases. *See* Cambridge Natural History.

Lepidoptera.

Hauptabteilungen sind :—

Rhopalocera ; Heterocera.

Familien immer angeben. *Siehe* Cambridge Natural History.

4600–4631 **Hymenoptera.**

The principal divisions are :—

Aculeata = Anthophila (Apidae Andrenidae), Vespidae (Diploptera), Sphegidae s.l. (Fossoria). Formicidae (Heterogyna). Tubulifera = Chrysididae. Parasitica = Trigonalidae, Proctotrupidae, Pelecinidae, Chalcididae, Ichneumonidae, Braconidae, Megalyridae, Evaniidae, Stephanidae, Cynipidae. Sessiliventres (or Chalastogastra) = Cephidae, Siricidae, Oryssidae, Tenthredinidae.

Hymenoptera.

Hauptabteilungen sind :—

Aculeata = Anthophila (Apidæ Andrenidæ), Vespidæ (Diploptera), Sphegidæ s.l. (Fossoria). Formicidæ (Heterogyna). Tubulifera = Chrysididæ. Parasitica = Trigonalidæ, Proctotrupidæ, Pelecinidæ, Chalcididæ, Ichneumonidæ Braconidæ, Megalyridæ, Evaniidæ, Stephanidæ, Cynipidæ. Sessiliventres (oder Chalastogastra) = Cephidæ, Siricidæ, Oryssidæ, Tenthredinidæ.

Névroptères (Planipennes, Embiides, Termitides, Psocides, Perlides, Ephémérides, Odonates).

Chaque fiche relative aux Névroptères doit aussi indiquer à laquelle de ces divisions elle se rapporte.

La plupart des Insectes paléozoïques devront être traités dans cette branche.

Neuroptera (Planipennia, Embiidae, Termitidæ, Psocidæ, Perlidæ, Ephemeridæ, Odonata.)

Ciascuna scheda relativa a Neuroptera deve stabilire a quale di queste divisioni del gruppo si riferisce.

La maggior parte degli insetti paleozoici riferisconsi a questo ramo.

4000–4031 **Hémiptères (ou Rhynchotes) à l'exclusion des Anoploures, qui sont placés sous le numéro 3600.**

Voici les divisions principales :—

Hémiptères Hétéroptères et Hémiptères Homoptères. [Les Phytophthires (Aphides, Psyllides, Aleurodides, Coccides) sont compris dans les Hémiptères Homoptères.]

Indiquer les familles en tout cas. *Voy.* Cambridge Natural History.

Hemiptera (vel Rhynchota), esclusi Anoplura, che sono indicati col numero 3600.

Le divisioni principali sono :—

Hemiptera Heteroptera e Hemiptera Homoptera. [Phytophthires (Aphidæ, Psyllidæ, Aleurodidæ, Coccidæ) sono inclusi in Hemiptera Homoptera.]

Indicare le famiglie in ogni caso. *Vedi* Cambridge Natural History.

4200–4231 **Diptères (sauf les Siphonaptères, qui sont placés sous les numéros 3600–3631).**

Les fiches doivent porter le nom de la famille des Diptères. *Voy.* Cambridge Natural History.

Diptera (esclusi Siphonaptera, che sono indicati dai numeri 3600–3631).

Le schede dovranno portare il nome della famiglia dei Diptera cui si riferiscono. *Vedi* Cambridge Natural History.

4400–4431 **Lépidoptères.**

Voici les divisions principales :—

Rhopalocères ; Hétérocères.

Indiquer la famille en tout cas. *Voy.* Cambridge Natural History.

Lepidoptera.

Le divisioni principali sono :—

Rhopalocera ; Heterocera.

Indicare la famiglia in ogni caso. *Vedi* Cambridge Natural History.

4600–4631 **Hyménoptères.**

Voici les divisions principales :—

Aculeata (ou Porte-aiguillons) = Antophiles (Apides, Andrénides), Vespides (Diploptères) Sphégides s.l. (Fouisseurs) Formicides (Hétérogynes). Tubulifères = Chrysidides. Parasites = Trigonalides, Proctotrupides, Pélécinides, Chalcidides, Ichneumonides, Braconides, Mégalyrides, Evaniides, Stéphanides, Cynipides. Sessiliventres (ou Chalastogastres) = Céphides, Siricides, Oryssides, Tenthrédinides.

Hymenoptera.

Le divisioni principali sono :—

Aculeata = Anthophila (Apidæ, Andrenidæ), Vespidæ (Diploptera), Sphegidæ s.l. (Fossoria). Formicidæ (Heterogyna. Tubulifera = Chrysididæ. Parasitica = Trigonalidæ, Proctotrupidæ, Pelecinidæ, Chalcididæ, Ichneumonidæ, Braconidæ, Megalyridæ, Evanidæ, Stephanidæ, Cynipidæ. Sessiliventres (vel Chalastogastra) = Cephidæ, Siricidæ, Oryssidæ, Tenthredinidæ.

4800–4831 **Coleoptera (incl. Strepsiptera).**

The name of the family referred to should be given on each slip.

The families are numerous. They are included in the Munich Catalogue of the Coleoptera (Catalogus coleopterorum hucusque descriptorum synonymicus et systematicus) and (the subsequent additions) in "Cambridge Natural History," vol. vi.

Coleoptera (incl. Strepsiptera).

Auf jedem Zettel ist der Name der betr. Familie anzugeben.

Die Zahl der Familien ist gross. Sie sind aufgeführt in dem Münchener Coleopteren-Katalog (Catalogus coleopterorum hucusque descriptorum synonymicus et systematicus) und (soweit es sich um spätere Zusätze handelt) in „Cambridge Natural History," vol. vi.

5000–5031 **Prochordata, viz., Leptocardii, Enteropneusta, Tunicata.**

Prochordata, d.h., Leptocardii, Enteropneusta, Tunicata.

5200–5231 **Vertebrata.**

No systematic enumeration is to be placed under 5231.

Vertebrata.

5231 wird keine systematische Aufzählung enthalten.

5400–5431 **Pisces [excl. Leptocardii (or Amphioxus), for which see 5000-5031].**

The principal divisions are :—
Cyclostomi, Ostracodermi, Plagiostomi, Holocephali, Arthrodira, Dipnoi, Teleostomi (or Teleostei and Ganoidei, with the exception of Arthrodira and Ostracodermi).

The family should be mentioned. *See* Cambridge Natural History.

Pisces [mit Ausschluss der Leptocardii (oder Amphioxus), siehe 5003-5031].

Hauptabteilungen sind :—
Cyclostomi, Ostracodermi, Plagiostomi, Holocephali, Arthrodira, Dipnoi, Teleostomi (oder Teleostei und Ganoidei, mit Ausnahme von Arthrodira und Ostracodermi).

Familie angeben. *Siehe* Cambridge Natural History.

5600–5631 **Amphibia and Reptilia.**

The principal divisions are :—
Batrachia or Amphibia (Stegocephala or Labyrinthodontia, Apoda, Caudata or Urodela, Ecaudata or Anura).
Reptilia (Anomodontia, Rhynchocephalia, Plesiosauria, Ichthyosauria, Cotylosauria, Parciasauria, Diaptosauria, Protorosauria, Rhynchosauria, Procolophonia, Proganosauria, Choristodera, Chelonia, Crocodilia, Dinosauria, Ornithosauria or Pterosauria, Ophidia, Pythonomorpha, Rhiptoglossa Lacertilia).

Amphibia und Reptilia.

Hauptabteilungen sind :—
Batrachia oder Amphibia (Stegocephala oder Labyrinthodontia, Apoda, Caudata oder Urodela, Ecaudata oder Anura).
Reptilia (Anomodontia, Rhynchocephalia, Plesiosauria, Ichthyosauria, Cotylosauria, Parciasauria, Diaptosauria, Protorosauria, Rhynchosauria, Procolophonia, Proganosauria, Choristodera, Chelonia, Crocodilia, Dinosauria, Ornithosauria oder Pterosauria, Ophidia, Pythonomorpha, Rhiptoglossa, Lacterilia).

4800–4831 Coléoptères (y compris les Strepsiptères).

Le nom de la famille dont il est question doit être donné sur chaque fiche.

Les familles sont nombreuses. Elles sont indiquées dans le Catalogue des Coléoptères de Munich (Catalogus coleopterorum hucusque descriptorum synonymicus et systematicus) et (pour les additions subséquentes) dans "Cambridge Natural History," vol. vi.

Coleoptera (incl. Strepsiptera).

Il nome della famiglia dev'essere indicato su ciascuna scheda.

Le famiglie sono numerose. Si trovano indicate nel Catalogo dei Coleoptera di Monaco (Catalogus coleopterorum hucusque descriptorum synonymicus et systematicus) e (le susseguenti aggiunte) in "Cambridge Natural History," vol. vi.

5000–5031 Prochordés, c'est à dire, Leptocardiens, Entéropneustes, Tuniciers.

Prochordata, cioè Leptocardii, Enteropneusta, Tunicata.

5200–5231 Vertébrés.

Aucune énumération systématique n'est placée sous le numéro 5231.

Vertebrata.

Non deve porsi alcuna enumerazione sistematica sotto 5231.

5400–5431 Poissons [à l'exception des Leptocardiens (ou Amphioxus), qui se trouvent sous les numéros 5000–5031].

Voici les divisions principales :—

Cyclostomes, Ostracodermes, Plagiostomes, Holocéphales, Arthrodires, Dipnoïques, Téléostomes (ou Téléostéens et Ganoïdes, à l'exception des Arthrodires et des Ostracodermes).

La famille doit être mentionnée. *Voy.* Cambridge Natural History.

Pisces [excl. Leptocardii (vel Amphioxus), per i quali vedi 5000–5031].

Le divisioni principali sono :—

Cyclostomi, Ostracodermi, Plagiostomi, Holocephali, Arthrodira, Dipnoi, Teleostomi (o Teleostei e Ganoidei, con esclusione di Arthrodira e Ostracodermi).

Indicare la famiglia. *Vedi* Cambridge Natural History.

5600–5631 Batraciens et Reptiles.

Voici les divisions principales :—

Batraciens ou Amphibies (Stégocéphales ou Labyrinthodontes, Apodes, Caudés ou Urodèles, Ecaudés ou Anoures).

Reptiles (Anomodontes, Rhynchocéphales, Plésiosauriens, Ichthyosauriens, Cotylosauriens, Paréiasauriens, Diaptosauriens, Protorosauriens, Rhynchosauriens, Procolophoniens, Proganosauriens, Choristodères, Chéloniens, Crocodiliens, Dinosauriens, Ornithosauriens ou Ptérosauriens, Ophidiens, Pythonomorphes, Rhiptoglosses, Lacertiliens)

Batrachia et Reptilia.

Le divisioni principali sono : —

Batrachia vel Amphibia (Stegocephala vel Labyrinthodontia, Apoda, Caudata vel Urodela, Ecaudata vel Anura).

Reptilia (Anomodontia, Rhynchocephalia, Plesiosauria, Ichthyosauria, Cotylosauria, Pareiasauria, Diaptosauria, Protorosauria, Rhynchosauria, Procolophonia, Proganosauria, Choristodera, Chelonia, Crocodilia, Dinosauria, Ornithosauria vel Pterosauria, Ophidia, Pythonomorpha, Rhiptoglossa, Lacertilia).

5800–5831 Aves.

The principal divisions are :—
Accipitres, Aepyornithes, Alcae, Alectorides (including *Cariama*), Anisodactylae (including Podargidae and *Steatornis*), Anseres (including Phoenicopteri and Palamediidae), Apteryges, Casuarii, Coccyges, Columbae, Coraciae, Crypturi, Cypseli, Dinornithes, Fulicariae, Gallinae, Gaviae, Herodiones, Heterodactylae, Impennes, Limicolae, Odontolcae, Odontormae, Opisthocomi, Passeres (mention families), Pici, Psittaci, Pterocletes, Pygopodes, Rheae, Saururae, Steganopodes, Stereornithes, Striges, Struthiones, Tubinares, Zygodactylae.

Aves.

Hauptabteilungen sind :—
Accipitres, Æpyornithes, Alcæ, Alectorides (einschl. *Cariama*), Anisodactylæ (einschl. Podargidæ und *Steatornis*), Anseres (einschl. Phœnicopteri und Palamediidæ), Apteryges, Casuarii, Coccyges, Columbæ, Coraciæ, Crypturi, Cypseli, Dinornithes, Fulicariæ, Gallinæ, Gaviæ, Herodiones, Heterodactylæ, Impennes, Limicolæ, Odontolcæ, Odontormæ, Opisthocomi, Passeres (Familien angeben), Pici, Psittaci, Pterocletes, Pygopodes, Rheæ, Saururæ, Steganopodes, Stereornithes, Striges, Struthiones, Tubinares, Zygodactylæ.

6000–6031 Mammalia.

The principal divisions are :—
Carnivora, Cetacea, Chiroptera, Edentata, Insectivora, Marsupialia, Monotremata, Multituberculata, Primates, Rodentia, Sirenia, Tillodontia, Ungulata (Artiodactyla, Perissodactyla, Subungulata).

Mammalia.

Hauptabteilungen sind :—
Carnivora, Cetacea, Chiroptera, Edentata, Insectivora, Marsupialia, Monotremata, Multituberculata, Primates, Rodentia, Sirenia, Tillodontia, Ungulata (Artiodactyla, Perissodactyla, Subungulata).

5803-5831 Oiseaux.

Voici les divisions principales :—
Accipitres, Æpyornithéens, Alciens, Alectoriens (y compris les *Cariama*), Anisodactyles (y compris les Podargides et les *Steatornis*), Ansériens (y compris les Phœnicoptères et les Palamédiidés), Apterygiens, Casuariens, Coccygiens, Colombins, Coraciens, Crypturiens, Cypséliens, Dinornithiens, Fulicariens, Gallinacés, Gaviens, Hérodiens, Hétérodactyles, Impennes, Limicoliens, Odontolciens, Odontormiens, Opisthocomes, Passereaux (indiquer les familles), Pics, Perroquets, Ptérocliens, Pygopodes, Rhéens, Saururiens, Stéganopodes, Stéréonithiens, Strigiens, Struthioniens, Tubinariens, Zygodactyles.

Aves.

Le divisioni principali sono :—
Accipitres, Aepyornithes, Alcæ, Alectorides (incl. *Cariama*), Anisodactylae (incl. Podargidæ et *Steatornis*), Anseres (incl. Phœnicopteri et Palamediidæ), Apteryges, Casuarii, Coccyges, Columbæ, Coraciæ, Crypturi, Cypseli, Dinornithes, Fulicariæ, Gallinæ, Gaviæ, Herodiones, Heterodactylæ, Impennes, Limicolæ, Odontolcæ, Odontormæ, Opisthocomi, Passeres (indicare le famiglie), Pici, Psittaci, Pterocletes, Pygopodes, Rheæ, Saururæ, Steganopodes, Stereornithes, Striges, Struthiones, Tubinares, Zygodactylæ.

6000-6031 Mammifères.

Voici les divisions principales :—
Carnivores, Cétacés, Chiroptères, Édentés, Insectivores, Marsupiaux, Monotrèmes ; Multituberculés, Primates, Rongeurs, Siréniens, Tillodontes, Ongulés [Ungulata] (Artiodactyles, Périssodactyles, Subongulés).

Mammalia.

Le divisioni principali sono :—
Carnivora, Cetacea, Chiroptera, Edentata, Insectivora, Marsupialia, Monotremata, Multituberculata, Primates, Rodentia, Sirenia, Tillodontia, Ungulata (Artiodactyla, Perissodactyla, Subungulata).

I. COMPREHENSIVE ZOOLOGY

ARRANGED BY

D. SHARP

This section includes works that deal with more than one branch of Zoology, or that are of general interest to Zoologists. It is, therefore, not complete in itself as regards any one subject included in it. The special records complete each subject. A few memoirs included in the special records are repeated in this division.

Cytology. Protoplasm.

Plasmazellen, origine; **Amato, 9.**

Geschlechtszellen und Körperzellen; **Berenberg-Gossler, 36.**

Le sens du mot Synkaryon; **Bonnet,**

Die Zellentheorie sonst und jetzt; **Bučinskij, 79.**

Phénomènes cytologiques dans les tissus cultivés en dehors de l'organisme; **Champy, 89.**

Amitosis **Child, 96.**

Mitoses et amitoses provoquées expérimentalement dans l'épithélium des cornes utérines; **Cilleuls, 101.**

Morfologia della cromatina; **Della Valle, 133.**

Continuità delle forme di divisione nucleare e valore morfologico dei cromosomi; **Della Valle, 134.**

Differenzierung in der Zelle; **Drooglever Fortuyn, 152.**

La mitochondrie, forme la plus apte à la multiplication des chondriomes; **Dubreuil, 159.**

La teoria cellulare; **Enriques, 164.**

Apparato reticolare delle cellule nervose; **Golgi, 208.**

Problems of cytology; **Hertwig, R., 256.**

Différenciation chromatique des éléments de la cellule par l'emploi de quatre colorants électifs; **Hollande, 275.**

Fonctionnement des cellules glandulaires; **Hoven, 281.**

Die „Leberfrage" bei den wirbellosen Tieren; **Jordan, 298.**

Frage der Zellgestalt; **Koltzoff, 329.**

Variétés microchimiques de granulations acidophiles; **Kollmann, 330.**

Coloration vitale des chondriosomes; **Laguesse, 341.**

Formes des chondriosomes dans quelques glandes salivaires par le vert jaune; **Laguesse & Debeyre, 342.**

Conservation hors de l'organisme des cellules nerveuses des ganglions spinaux; **Legendre & Miniot, 354.**

Physiologische Bedeutung der Neurofibrillen; **Lenhossék, 355.**

Fixierung, Färbung und Nomenklatur der Kernstrukturen; **Lundegårdh, 388.**

L'importance des phénomènes physico-chimiques dans le mécanisme des phénomènes de la vie des cellules des centres nerveux; **Marinesco, 398.**

Chromosome complexes, taxonomy; **Meek, 405.**

Organization and polarity of protoplasm; **Munson, 438.**

Cell theory; **Obarrio, 457.**

Mitochondries de la cellule hépatique; **Policard, 481.**

Sensibilité des chondriosomes aux élévations de température; **Policard, 482.**

Die Bedeutung des Chromatins nach Untersuchungen an Metazoenzellen; **Schaxel, 551.**

Differentation of neuroblasts in artificial culture; **Shorey, 587.**

Bedeutung der isogenetischen Zellgruppen und Zellreihen im Hyalinknorpel; **Srdinko, 603.**

Plasmodesmen und Cytodesmen; **Studnička, 627.**

Die mikroskopische Strahlenstichmethode, eine Zelloperationsmethode; **Tschachotin, 644.**

Mitochondrien, kann man sie für Erbsubstanzen halten?; **Vejdovskij, 649.**

Chromosomes and physiological species; **Wilson, 670.**

Sex.

Les caractères sexuels secondaires; **Guyénot, 230.**

Entstehung der Geschlechtes; **Bazilev, 30.**

Welche Einflüsse bestimmen das Geschlecht; **Böhmig, 45.**

Le problème de la sexualité; **Caullery, 86.**

Geschlechtsbestimmung im allgemeinen und über die Bestimmung der primären Sexualcharaktere; **Demoll, 137.**

Determinazione dei sessi; **Emery, 162.**

Die zellulare Grundlage des Geschlechtsproblems; **Goldschmidt, 207.**

Physiological sex determination; **Gruenberg, 223.**

Hypothese zur Bearbeitung des Problems der Geschlechtsdifferenzierung; **Gutherz, 229.**

Stand des Sexualitätsproblems; **Hertwig, 258.**

Ursprung der Geschlechtsunterschiede; **Kammerer, 305.**

Geschlecht des Embryos beeinflussende Ursachen; **Kovalenko, 334.**

Geschlechtsbestimmende Ursachen; **Schleip, 555.**

Der Hermaphroditismus vom morphologischen Standpunkte aus; **Sauerbeck, 548.**

What determines sex?; **Thomson, 638.**

Entwicklungsmechanik des Geschlechts; **Weill, 664.**

Parthenogenesis.

La parthénogenèse expérimentale; **Delage, 130.**

Experiments on parthenogenetic animals; **Fasten, 170.**

The rôle of temperature, of the chemical composition of the medium, and of internal factors upon the ratio of parthenogenetic to sexual forms; **Shull, 589.**

Function.

Insekten- und Vogelflug; **Abramowsky, 3.**

Etudes expérimentales sur les Zoophères; **Amans, 8.**

Physiologie der Stütz- und Skelettsubstanzen; **Biedermann, 40.**

Aufbau des Chitins; **Brach, 62.**

Physiologie der Bewegung; **du Bois-Reymond, 158.**

Naturforschung u. Technik; **Thilo, 635.**

Methods of studying vision in animals; **Yerkes & Watson, 677.**

Die niederen Sinne. [*In*: Handbuch d. vergl. Physiologie, hrsg. v. H. Winterstein Bd 4.]; **Baglioni, 23.**

Gesichtssinn; **Hess, 262.**

Fonctions du pigment; **Jousset de Bellesme, 301.**

Ueber die Wirkung des Hungers und der Kalkentziehung bei Kalkschwämmen und anderen kalkausscheidenden Organismen; **Maas, 390.**

Gehörssinn und statisches Sinn; **Mangold, 397.**

Function of Reissner's fibre; **Nicholls, 444.**

Environment. Adaptation.

Adaptation *see also* Evolution.

Veränderung der Färbung und deren Ursachen; **Biriukov, 41.**

Aquatic animals and their environment; **Dakin, 122.**

Direkt induzierte Farbanpassungen und deren Vererbung; **Kammerer, 304.**

Adaptation, pelagic organisms; **Kerr, 311.**

Variation of environment; **Ortmann, 460.**

L'influence du régime alimentaire sur la forme des villosités intestinales; **Revilliod, 524.**

The relation of pigmentation to temperature in deep-sea animals; **Woodruff, 676.**

Growth. Senescence. Death.

Theory of growth; **Kellicott, 308.**

Wachstum; **Friedenthal, 188.**

Überleben von Teilen; **Schultz, 567.**

Ursache des Alterstodes in der belebten Natur; **Reibmayr, 518.**

Der Tod eine Notwendigkeit im Entwicklungsgange der Lebewelt; **Pintner, 475.**

Chemical.

Jahresbericht, Tier-Chemie; **Andreasch & Spiro, 13.**

Présence du bore chez les animaux; **Bertrand & Agulhon, 38.**

Présence du manganèse dans la série animale; **Bertrand & Medigreceanu, 39.**

Chemischen Zusammensetzung wirbelloser Meerestiere; **Delff, 132.**

DEVELOPMENT. 0215

General.

Factors of development; **Roux, 537.**

Allgemeine Richtlinien des Entwicklungs- und Vererbungsproblems; **Greil, 216, 217.**

The process of reproduction in organisms; **Child, 98.**

Terminologie der Entwicklungsmechanik der Tiere und Pflanzen; **Roux, 536.**

The problem of organization; **Rand, 512.**

Mosaïque et polyembryonie; **Pérez, 473.**

Le sporophyte et le gamétophyte du végétal. Le soma et le germen de l'insecte; **Janet, 291.**

Animal behavior and development; **Strassen, 622.**

Die vier kausalen Hauptperioden der Ontogenese; **Roux, 538.**

Periodizität und Reize bei einigen Entwicklungsvorgängen; **Schultz, 566.**

Coalescence des plasmas vivants; **Gautier, 194.**

Zeugungslehre; **Haecker, 232.**

Rapports de l'ovulation et de la menstruation; **Givkovitch & Ferry, 205.**

Ovum, oogenesis. Spermatozoon, Spermatogenesis.

Generation and degeneration of sex cells; **Munson, 437.**

Stand der Lehre von der Eireifung; **Lubosch, 382.**

Untersuchungen an Eiern; **Retzius, 523.**

The catalase of sea urchin eggs before and after fertilization; **Amberg & Winternitz, 10.**

Structure and origin of the yolk nucleus; **Munson, 439.**

A case of yolk formation not connected with the production of ova; **Riddle, 528.**

Effet de l'inhibition des oxydations sur les spermatozoïdes; **Drzewina & Bohn, 154.**

Caryo-anabiose des têtes de spermatozoïdes; **Guieysse-Pellissier, 227.**

Lebensdauer der Spermatozoen; **Strèlnikov, 624.**

Fertilization.

La parthénogenèse et la fécondation chimique; **Bataillon, 27**

Mechanik der Kernteilung und der Befruchtung; **Geigel, 196.**

Einfluss der Spermatozoen von *Ciona intestinalis* auf die unbefruchteten Eier von *Strongylocentrotus lividus*; **Herwerden, 261.**

Disharmonische Idioplasmaverbindungen; **Hertwig, 254.**

Antagonisme de deux spermes provenant d'espèces éloignées; **Herlant, 253.**

Geschlechtliche Sterilität und ihre Ursachen. Nebst einem Anhange über künstliche Befruchtung bei Tieren und beim Menschen; **Broman, 72.**

Verbreitung der Spermatozoiden im weiblichen Körper und im befruchteten Ei; **Kohlbrugge, 322.**

Entwicklungserregung durch stammfremde Spermien; **Kupelweiser, 338 & 339.**

Means by which starfish eggs naturally resistant to fertilization may be rendered normal and the physiological conditions of this action; **Lillie, 362.**

La fécondation chimique; **Loeb, 367.**

Die wichtigsten Methoden der künstlichen Parthenogenese; **Loeb, 368.**

How does the act of fertilization save the life of the egg?; **Loeb, 369.**

On the chemical character of the process of fertilization and its bearing upon the theory of life phenomena; **Loeb, 370.**

Fertilization of the eggs of invertebrates by ox-serum; **Loeb, 373.**

Fertilization of the eggs of *Strongylocentrotus* by blood-sera, sperm, sperm-extract, and other fertilising agents; **Robertson, 530.**

Embryology.

Embryologische Aussichtspunkte (Holländisch); **Hubrecht, 282.**

La cinématographie du développement embryonnaire et ses applications à la mécanique de la segmentation; **Chevroton & Vlès, 93.**

The relation of the first cleavage plane to the entrance point of the sperm; **Just, 302.**

On the increase in oxidation in the egg at the beginning of development; **Mitchell & McClendon, 416.**

Experimental embryology.

Recent progress, experimental zoology; **Abbott, 1.**

Dynamics of morphogenesis and inheritance in experimental reproduction; **Child, 97.**

Experimental production of various eye abnormalities; and an analysis of the development of the primary parts of the eye; **Stockard, 519.**

Experiments on developing chickens' eggs; **Paton, 469.**

Regeneration.

Regeneration und Involution; **Barfurth, 25.**

Regeneration; **Barfurth, 26.**

Correlation in regulation; **Child, 99.**

The stimuli of restitutions; **Driesch, 151.**

The rôle of irritability and contractility as dynamic factors in development and regeneration; **Morgan, 426.**

Regulation of the water content in regulation; **Morgulis, 427.**

Nervensystem u. Regeneration; **Morgulis, 428.**

Die entwicklungsmechanisch-metaplastischen Potenzen der tierischen Gewebe; **Nusabaum, 454.**

Regeneration bei Arthropoden und Mollusken; **Rabes, 506.**

Allgemeine Betrachtungen über Regenerationsvorgänge; **Voges, 653.**

Significance of the direction of differentiation in regenerating appendages; **Zeleny, 683.**

Factors controlling regeneration; **Zeleny, 684.**

ETHOLOGY. 0219

Incl. Plankton General (under Habitat). For local Plankton *vide* Geography.

General.

Mechanistic life; **Loeb, 372.**

Studi di fisiologia etologica; **Polimanti, 483.**

Biologie der Tiere; **Hanstein, 240.**

Einführung in die Biologie der wirbellosen Tiere; **Deegener, 127.**

Ethology in the Donau delta; **Antipa, 16.**

La biologie générale et la psychologie comparée; **Bohn, 48.**

Influences solaires vraisemblablement radioactives sur les êtres vivants; **Courty, 110.**

Faunal changes in Indiana; **Hahn, 238.**

Childhood; **Mitchell, 415.**

Activité et repos chez les animaux marins; **Polimanti, 484.**

Ecological succession; Vegetation and the control of land animal communities; **Shelford, 584.**—Aspects of physiological classification; **Shelford, 585.**

Phenology.

Zoophänomenologische Beobachtungen in Ożydow; **Hawrysiewicz, 243.**

Phänologische Beobachtungen Tromsö; **Holmloe, 276.**

Social.

Symbiose; **Faber, 169.**

Hibernation.

Il letargo; **Polimanti, 485.**

Luminosity.

On the structure, physiology and use of photogenic organs; **Lund, 387.**

Knowledge of the production of light by living arganisms; **McDermott, 393.**

The theory of abyssal light; **Nutting, 455.**

Parasitism.

Die tierischen Parasiten der Haus- und Nutztiere; **Fiebiger, 175.**

Parassiti di Animali domestici; **Galbusera, 192.**

Notes de Parasitologie; **Galli-Valerio, 193.**

The parasite fauna of Colorado; **Hall, 239.**

Mission parasitologique en Tunisie; **Langeron, 347.**

Notes de Parasitologie; **Leon, 356.**

Parasitologie dans la littérature antique; **Moulé, 430.**

Parasitisme et homochromie; **Rabaud, 500.**

Le comportement des larves parasitées; **Rabaud, 503.**

Attacks on agricultural plants in Denmark; **Rostrup & Ravn, 534.**

Notizen aus Deutsch-Südwestafrika; **Scheben, 552.**

Die tierischen Parasiten des Menschen und Haustiere; **Sluiter & Swellengrebel, 595.**

Parasitismus und Krankheit; **Smith, 597.**

Endoparasites of Australian Stock; **Sweet, 628.**

The influence of hibernation and migration on animal parasites; **Ward, 662.**

Voice.

Erzeugung von Geräuschen und Tönen; **Weiss, 666.**

Habitat.

Including Plankton General.

Fauna Bromeliaceae; **Scott, 575.**

Il bentos animale delle foglie di *Posidonia*; **Issel, 289.**

Über Wassertiere und Landtiere; **Döderlein, 146.**

Edafon studio; **Issel, 288.**

Oekologie der im Erdboden lebenden Tierwelt; **Holdhaus, 273.**

Regenwürmer und Kleintiere im deutschen Waldboden; **Ramann, 511.**

The fauna of a solution pond; **Scott, 576.**

Una nuova forma di vita latente nella fauna sopralitorale; **Issel, 290.**

Zoocecidia et Cecidozoa provinciae Rhenanae; **Grevillius & Niessen, 220.**

Bibliografia, recensioni, notizie di Zoocecidologia; **Trotter, 641.**

Galle dell' America del Nord; **Trotter, 640.**

Gallen Süd-Limburgs; **Dieckmann, 143.**

Planktonkunde; **Apstein, 18.**

Migration verticale des animaux bathypélagiques; **Bourié, 59.**

Chemisch-physikalische Untersuchungen der dänischen Gewässer, ihre Bedeutung für unsere Auffassung der Temporalvariation; **Brönstedt & Wesenberg-Lund, 71.**

Das Leben im Ozean; **Dahl, 121.**

Food supply; **Dakin, 123.**

Der warme Sommer von 1911 und das Plankton Nordsee; **Delsman, 135.**

Stationäres Planktonnetz für Flussuntersuchungen; **Dikson, 144.**

Self-closing plankton net; **Kofoid, 320.**

Self-closing Plankton-net; W. J. D. Nature London 88.

Oceanography; **Fowler, 178.**

Das schwimmende Leben der Hochsee; **Fowler, 179.**

Appareils pour la préparation et le tirage du Plancton; **Francotte, 181.**

Frage der vertikalen Wanderungen der Planktontiere; **Franz, 184.**

Preservation of samples and quantitative determinations of the plankton; **Gran, 209.**

Elektrische Lampe zum Anlocken Seetiere; **Grein, 218.**

Unregelmässigkeiten in der Verteilung der Planktonten; **Hensen, 249.**

II.—SUBJECT INDEX.

COMPREHENSIVE AND GENERAL. 0403

Philosophical.

Speculations with regard to the simplest forms of life and their origin on the earth; **Minchin, 322.**

Bibliography, etc.

Protozoan literature for 1911, with abstracts of the more important papers; **Gross, 197.**—Record of Protozoan literature for 1911; **Woodcock, 522.**—Protozoan literature (1910 3rd pt., 1911 2nd pt. & 1912 1st pt.); **Field, 170.**

Jahresberichte über Protozoa für 1909; **Nägler & Laackmann, 333.**—Für 1910 (mit Ausschluss der Foraminifera); **Nägler, 332.**—Nachträge zu [den Jahresber. über] Protozoa für 1904–1906; **Lucas, 282.**

Foraminifera für 1910 u. 1911; **Laackmann, 254.**

Literatur über Blutparasiten 1903–1912; **Yakimoff, 529.**

Nomenclature.

The sense to which the use of the term "synkaryon" should be restricted; **Bonnet, 56.**

Treatises, Collected Works.

Introduction to the study of the Protozoa—a comprehensive general account; **Minchin, 321.**

Protozoa as parasites of domestic animals; **Neveu Lemaire, 339.**

Parasitic Amoebae of Man, general account; **Craig, 115.**

Trypanosomes and trypanosomoses; **Laveran & Mesnil, 262.**

Handbuch der pathogenen Protozoen (herausg. v. Prowazek), folg. Lieferungen:—die Gregarinen; **Schellack, 428;** Cnidosporidien (Myxo- & Microsporidien); **Schröder, 433;** Sarcosporidia; **Teichmann, 471;** pathogene Trypanosomen & Leishmanien; **Mayer, 301.**

Die menschlichen Malariaparasiten. [In: Handbuch der pathogenen Mikroorganismen, hrsg. v. Kolle und Wassermann]; **Ruge, 419.**

Trypanosomen als Krankheitserreger. [In: Handbuch der pathogenen Mikroorganismen, hrsg. v. Kolle und Wassermann]; **Mayer, 302.**

Reviews, etc.

Jahresberichte über die Fortschritte in der Lehre von den pathogenen Mikroorganismen umfassend . . . Protozoen; **Baumgarten & Dibbelt, 36.**

Recent advances in our knowledge of leishmaniosis; **Wenyon, 510.**—General review of knowledge relating to *Leishmania* and leishmaniosis; **Nicolle, 340.**

General review of the question of the transmission of Trypanosomes by, and their development in an Invertebrate host; **Mesnil, 310.**

Review of recent papers bearing upon the question of the connection or otherwise of the Trypanosomes and Spirochaetes; it is concluded that the latter are Bacteria; **Swellengrebel, 467.**

Le nuove conoscenze sul ciclo evolutivo dei tripanosomi; **Bertarelli, 44.**

Economics.

UTILITY AND HARMFULNESS.

Über Bodenprotozoen; **Wolff, 519.**

HYGIENE.

Über die Rolle der Protozoen bei der Selbstreinigung stehenden Wassers; **Müller, 326.**

PROTOZOA IN RELATION TO DISEASE.

(a) *General.*

Protozoan diseases in Man and domestic animals in Brit. W. Africa (Nth. Nigeria); **Simpson, 449.**

(b) *Amœbosis.*

Dissenteria da *Entamœba tetragena*; **Ascoli, 18.**

Amœbic dysentery in horse, cattle and sheep; **Lehmann, 279.**

(c) *Hæmosporidiosis.*

Relapses in Malaria regarded as due to persistence of a few asexual forms (schizonts) rather than to a parthenogenesis of macrogametes; **Thomson, 479.**

Malaria and Kala Azar in Russia; **Marzinowsky, 296.**

Altération des hématies chez le *Gongylus ocellatus* sous l'influence d'une Hémogrégarine (*H. scegentium*); **Viguier & Weber, 490.**

(d) *Piroplasmosis (also the somewhat doubtful Anaplasmosis).*

Piroplasmoses des Bovidés en Grèce (*P. bigeminum, motans* and *Theileria parva*); **Cardamatis, 80.**—La piroplasmose bovine au Dahomey; **Pécaud, 365.**

Piroplasmose der Rinder in Turkestan (Russ.); **Stolnikoff, 459.**—*Piroplasma* der Giraffen (Russ.); **Averintzeff, 24.**

Occurrence of "*Anaplasma*" *canis* in Italy; **Basile, 34.**

Two varieties of anaplasmosis caused by *Anaplasma marginale* and *A. m.* var. *centrale* respectively; **Theiler, 474 476.**

Piroplasma motans und Anaplasmosis bei javanischen Büffeln (Holländisch); **Blieck & Kaligis, 54.**

(e) *Myxosporidiosis.*

Effects of Myxo-sporidia on the gall-bladder and bile of fishes; **Fantham & Porter, 164.**—Effects of *Henneguya psorospermica* on the ovaries and other organs of *Esox lucius*; **Auerbach, 23.**

Microsporidiosis of bees caused by *Nosema apis*; **Fantham & Porter, 161.**—Über die *Nosema*krankheit der Bienen; **Maassen, 284.**

(f) *Trypanosomosis.*

Possible connection of a Trypanosome of sheep with the disease known as "looping-ill"; **Bishop, 48.**

Lethal effects of *T. duttoni* when passed from mice into rats; **Roudsky, 413.**

T. simiae, a new species remarkable in being extremely lethal to monkeys and goats and apparently nothing else; **Bruce, Harvey, Hamerton & Davey, 73.**

A new variety of animal Trypanosome in Rhodesia, pathogenic to monkeys, *T. ignotum* (natural host unknown) n. sp.; **Kinghorn & Yorke, 233.**

Possibility that strains of *T. rhodesiense* showing a larger percentage of "posterior nuclear forms" are more virulent than those with a smaller percentage; **Wenyon & Hauschell, 517.**

Ist das *Trypanosoma theileri* pathogen? (Holländisch); **Vrijburg, 498.**

Trypanosoma der Beschäl-Seuche (in *Equus caballus*) in Russland; **Bëlicer 41.**—Trypanosomose der Kameele im Gouv. Astrachan; **Freischmidt, 191.**—Schlafkrankheit der Wisente; **Wrublewski, 527.**

(g) *Leishmaniosis.*

Nei cani di Torino, Leishmaniosi spontanea; **Sangiorgi, 424.**

Leishmania canis, spontane Leishmaniose der Hunde in Tunis; **Yakimoff & Kohl-Yakimoff, 537.**

Cutaneous leishmaniosis at Bahia (Brazil); **da Silva, 447.**—Dermal leishmaniosis from S. America; **Wenyon, 512.**

"Espandia" of Peru, caused by a *Leishmania* (of the localized type); **Laveran & Nattan-Larrier, 266.**

(h) *Various and uncertain.*

Colite à *Tetramitus mesnili* (Wenyon 1910) et colite à *Trichomonas intestinalis* Leuckart 1879; **Brumpt, 76.**

Discussion of the reasons of the attack of fish by *Chilodon* and the lethal effects; **André, 14.**

Amputation bei *Hydra fusca*, durch einfach Verdauung mittels ein Infusor (*Provodon teres*); **Reukauf, 389.**

Infection spontanée (fatale) du pigeon et du chien due au *Toxoplasma cuniculi*; **Carini, 83.**—La toxoplasmose du lapin à

Saint-Louis du Sénegal; **Bourret, 64.** — Un cas de toxoplasmose canine en Allemagne; **Yakimoff & Kohl-Yakimoff, 531.**

"Lymphangitis epizootica" (*"Leucocytozoon" piroplasmoides*) and histoplasmosis (*Histoplasma capsulatum*) regarded as not Protozoan at all, but Blastomycetic; **da Rocha Lima, 398.**

Associated with fever in Man (Yucatan) intracorpuscular elements regarded as perhaps a different form of the alleged yellow fever parasite, and termed *Paraplasma subflavigenum* n. sp.; **Seidelin, 438.**

Über einen mutmasslich neuen Blutparasiten des Menschen; **Kopanaris, 250.**

Cancer considered to be caused by a Chlamydozoan, *"Chlamydozoon perniciosum"*; **Alexeieff, 5.**—Infusori ciliati e cancro; **Barabaschi, 31.**

Miscellaneous.

Transmission; natural infection.

Transmission of *Hepatozoon ericeti*, by a mite (*Lelaps*?); probable non-transmission of *Trypanosoma ericeti* by this agent, but probably by a flea (*Typhlopsylla assimilis*; **Nöller, 344.**

Observations concerning the transmission of East Coast fever (*Theileria parva*) by ticks; **Theiler, 474.**

Methods of infection of fish (esp. *Gadus virens*) with Myxosporidia; criticism of Erdmann's remarks (Zool. Rec. 1911 *Protozoa* 151); **Auerbach, 20.**

Modes of transmission of *Nosema apis* to bees; **Fantham & Porter, 163.**

Hereditary transmission of *"Crithidia" melophagi* (in the keds) as maintained by Swingle and Porter, regarded as extremely doubtful or non-existent; **Cauchemez, 85**; also **Chatton & Delanoe, 97.**

Possibility of *Anopheles maculipennis* transmitting *Leishmania* of Mediterranean Kala-Azar; **Franchini, 183.**—*Leishmania* et punaises; **Franchini, 185.**

Transmission de *Leishmania* de chien à chien par piqure de *Pulex serraticeps*; **Sergent, Lhéritier, Lemaire, 444.**

On the transmission of Cambay boil (*L. tropica*); **Patton (360)** considers neither house-flies (*Musca*), dog-fleas (*Ctenocephalus canis*) nor mosquitoes act as transmitting agents, but thinks that bugs (*Cimex rotundatus*) do so.

"Leishmaniosis infantum," Uebertragung (Russ.); **Yakimoff & Kohl-Yakimoff, 536.**

Trypanosomides et membrane peritrophique chez les Drosophiles. Culture et évolution; **Chatton & Léger, 101.** — Du déterminisme des infections endotrophiques ou péritrophiques des Drosophiles par leurs Trypanosomides. Infections larvaires et imaginales; **Chatton & Léger, 103.**

Modes of infection of a Muscid (*Pycnosoma putorium*) with various Flagellates (*Leptomonas soudanensis, Cercoplasma mirabilis*); **Roubaud, 408.**

Transmission naturelle de la Souma (*T. cazalboui*) par *Glossina tachinoides* et *morsitans*; de la Baléri (*T. pecaudi*) par *Gl. morsitans* au Soudan nigérien; **Bouet & Roubaud, 59.**

Transmission of *T. cazalboui* and *congolense* by *Gl. morsitans*; **Rodhain, Pons, Van den Branden, & Bequaert, 400.**

Expériences de transmission des trypanosomiases animales de l'Afrique occidentale française (*T. cazalboui, pecaudi, dimorphon, soudanense, evansi*) par les Stomoxes; **Bouet & Roubaud, 61.**

Trypanosomiases (*T. dimorphon, congolense*) et Glossines (*Gl. palpalis* et *morsitans*) de la Haute Gambie et de la Casamance: Expériences de transmission; **Bouet & Roubaud, 60.**

On the probability of direct transmission of *T. cazalboui* in Fr. W. Africa, by means of *Stomoxys*; **Bouffard, 63.**

Transmission of *T. nanum* Lav. by *Glossina palpalis*; **Duke, 139.**—*Gl. palpalis* the probable "carrier" of *T. uniforme*; **Fraser & Duke, 189.**

Transmission of *T. brucii* by *Gl. palpalis*; **Fischer, 171.**

T. simiae n. sp., conveyed by *Glossina morsitans*; **Bruce, Harvey, Hamerton & Davey, 73.**

Transmission du *T. gambiense* par la *Glossina morsitans*; **Rodhain, Pons, Vandenbranden, Bequaert, 403.**

Factors influencing the infectivity of *T. gambiense* to the fly (*Gl. palpalis*); **Robertson, 394.**

Non-transmission des trypanosomiases de la mère au fœtus; **Nattan-Larrier, 336.**

"Situtunga" (*Tragelaphus spekei*) and various other kinds of antelope (bush-buck, reed-buck, duiker), as reservoir hosts for *T. gambiense* **Duke, 141 & 142.**

Antelope may remain infective to *Gl. palpalis* for nearly 2 years; **Duke, 142.**

Wild antelope as reservoir hosts of various lethal Trypanosomes (esp. *virax*, *pecorum* and *uniforme*); **Duke, 140.**

On the rôle of various Mammals (goats, sheep and monkeys) as reservoir hosts for *T. gambiense*; **Kleine & Fischer, 241.**

Transmission of the human Trypanosome of Rhodesia by *Gl. morsitans*; **Kinghorn & Yorke, 230 & 231.**

Gl. morsitans most probably transmits naturally the following Trypanosomes in Rhodesia; *T. rhodesiense*, *pecorum*, *virax*, *nanum* and *ignotum* n. sp.; **Kinghorn & Yorke, 232 & 235.**

Biting flies and Surra (*T. evansi*); **Leese, 269.**

No transmission of *T. evansi* of Surra obtained by means of *Stomoxys calcitrans*, either by mechanical or cyclical method; **Mitzmain, 325.**

Experimental infection.

Experimental infection of a monkey with *Entamoeba tetragena* from human dysentery; **Franchini, 184.**

Successful inoculation of a *Plasmodium* of *Macacus cynomolgus* (prob. *P. inui* Halb. and Prow.) into various other monkeys (*M. sinicus*, *rhesus*, *Cercopithecus patas*); **Léger & Bouilliez, 278.**

Paludisme des oiseaux (*Plasmodium relictum*). L'infection (de canaris) peut se faire par simple frottis du thorax du moustique sur la peau; **Sergent, 442.**

Artificial infection of dogs with *Piroplasma* through the mucous membrane of the stomach; **Nawrotzky, 337.**

Artificial infection of fowl and duck with *Sarcocystis tenella*; **Betegh & Dorcich, 45.**

Artificial infection of gerboa (*Bipus gerbo*) and *Myoxus nitela* with *T. lewisi*; **Biot & Richard, 47.**

Artificial infection of the rat with a strain of *T. duttoni* of the mouse; **Roudsky, 411.**

Experimental (mechanical) transmission of *Trypanosoma hippicum* to the mule by *Musca domestica*; **Darling, 125.**

Essais d'infection de singes par des Trypanosomes plus ou moins sensibles à leurs sérums; **Mesnil & Lebœuf, 313.**

Infections de poules dues aux *Trypanosoma gambiense* et *T. rhodesiense*; **Mesnil & Blanchard, 312.**

Muscovite ducks incapable of acting as a reservoir host for *T. gambiense*; **Duke & Robertson, 146.**

Inoculation of a new Trypanosomid of *Conorhinus* (*Trypanosoma baylei* n. sp.) into rats and mice; **Lafont, 256.**

Infection of a monkey (*Macacus sinicus*), with Indian Kala-Azar, in a localized form; **Row, 416.**—Infection généralisée de la souris par la *Leishmania donovani*; **Laveran, 258.**

Artificial inoculation of Man with *L. tropica*; **Wenyon, 514.**

Successful infection of mice, dogs, and rats with cultures of *L. infantum*; **Yakimoff & Kohl-Yakimoff, 532.**

Cultivation.

Cultivation of the *Amoebae* from cases of dysentery; **Wells, 509.**—The true parasitic Amoebae of Man (*Entamoeba* spp.) are not capable of cultivation or multiplication outside the body; **Walker, 502.**

The question of the cultivation of the intestinal and pathogenic Amoebae; **Chatton & Lalung-Bonnaire, 99.**

Unsuccessful attempts to cultivate the malarial parasites by Bass's method; **Sinton, 451.**

Cultivation of *Prowazekia urinaria*; **Sinton, 450.**

Notes on the cultivation of *Leishmania infantum*; **Visentini, 493** Cultivation of *L. tropica* of Aleppo boil; **Risa & Mustapha, 392**.—Cultivation of the *Leishmania* from a case of S. American Sore: comparison with cultural forms of other species; **Wenyon, 512**.

Cultivation of *Trypanosoma americanum* of American cattle; **Crawley, 118**.

After cultivating on agar for some years, *T. lewisi* becomes non-infective; **Novy, Perkins & Chambers, 346**.

Method of cultivation of *T. rhodesiense* & *T. gambiense*; **Thomson & Sinton, 483**.

Cultivation of *T. rhodesiense* in particular varieties of the blood-agar medium; **Bayon, 37**.

Kultivierung von *Trypanosoma* (Typus *theileri*) (Ross.); **Manceaux, Yakimoff, Kohl-Yakimoff, 288**.

On the cultivation and cultivation-media for *Paramoecium*; **Zweibaum, 540**.

Technique.

La coloration de *Leishmania* dans les coupes; **Nattan-Larrier, 334**.

STRUCTURE. 0407

Morphology and General Anatomy.

(a) of Sarcodina.

Organismus von *Vampyrellidium cagnae*; **Entz, 156**.

General account of certain little-known Reticulose Rhizopods, *Dictyomyxa trinchesei*, *Rhizoplasma kaiseri* & *Protomyxa flava*; also of a new form *Urbanella napolitana* n. g. n. sp.; **Schepotieff, 430**.

A new parasite (of "*Blastocystis*" cysts), regarded as a Proteomyxan, *Mitrarium dangeardi* n. g., n. sp.; **Alexeieff, 10**.

Morphology of various *Amoebae* of the group *terricola* compared; **Penard, 369**.

Sur la structure des amibes; **Vonwiller 496**.

Notes on new *Entamoebae*; **Prowazek, 376**.—Account of a new parasitic Amoeba *Entamoeba muris* n. sp.; **Raff, 383**.

Entamoebae of the *coli-* and *histolytica*-type, notes on comparative morphology; **Walker, 502**.

Notes on *Di-* & *Tri-mastigamoeba* and the question of their connection with *Amoebae* or *Mastigamoebae*; **Alexeieff, 1 & 7**.

Un remarquable amibe à coque, pourvu de tentacules, *Chlamydamoeba tentaculifera* n. g., n. sp.; **Collin, 110**.

Notes on *Dactylosphaerium corax* n. sp.; **Alexeieff, 10**.

Comparison of *Litonella* & *Coskinolina liburnica* Stache; **Schubert, 435**.

Sphaerellaria der Deutschen Süd-Polar Expedition; **Popofsky, 374**.

Account of a group of fossil organisms (*Tuaqaria* and others) usually regarded as representing parts of plants which are considered to be allied to Radiolaria; **McLean, 304**.

(b) of Sporozoa.

Morphology of new Polycystid Gregarines; **Ellis, 150–152**.

Different forms of *Haemogregarina anarrhichadis* n. sp., in the blood; **Henry, 205**.

Beschreibung der birnförmigen Form von *Piroplasma bigeminum* n. *parvum* (Ross.); **Stolnikoff, 459**.

Beschreibung von *Toxoplasma canis*; **Yakimoff & Kohl-Yakimoff, 530 & 535**.

(c) of Mastigophora.

Account of a remarkable new parasitic Flagellate, *Callimastix cyclopis* n. g., n. sp., with a tail-like band of flagella; **Weissenberg, 508**.

Notes on parasitic Flagellates; **Hamburger, 201**.—Morphology of various Flagellates from *Tipula*-larvae; **Mackinnon, 286**.

Eine farblose, rhizopodiale Chrysomonade (*Heterostagnion oedogonii* n. g., n. sp.); **Pascher, 357**.

Braune Flagellaten mit seitlichen Geisseln (*Nephroselmis*, *Protochrysis*, *Sennia* n. g.); **Pascher, 356**.

Zwei neue, trichocystenartige Bildungen führende Flagellaten, *Monomastix* [nom. praeocc.] *opisthostigma* and *Pleuromastix bacillifera*; **Scherffel, 431**.

Morphology of *Prowazekia urinaria*; **Sinton, 450.**

Cystotrypanosoma grayi, Trypanosome propre de *Gl. palpalis*. Polymorphisme; **Roubaud, 407.**

Morphology of *Trypanosoma rhodesiense* and comparison with *T. brucii*; **Bruce, Harvey, Hamerton & Davey, 72.**—Morphology of *T. simiae* n. sp.; **Bruce, Harvey, Hamerton, Davey, & Lady Bruce, 73.**

Bau von *Trypanosoma* aff. *theileri* aus Rindern (Russ.); **Manceaux, Yakimoff & Kohl-Yakimoff, 288.**

Le *Volvox*; **Janet, 224.**

On various new Dinoflagellates with an interesting bearing on the relationships to Flagellates and Algae; **Klebs, 239.**

On the structure of *Dinosphaera palustris* (= *Gonyaulax* sp. Lemm.); **Kofoid & Michener, 246.**

(d) of CILIOPHORA.

Morphology of two remarkable new Ciliates *Gymnodinioides* n. g. with several forms, and *Polyspira delagei* n. g., n. sp., constituting a new order, Ciliata Chromatophora; **Minckiewicz, 323, 324.**

Observations sur *Trichodinopsis paradoxa*; **Cépède & Willem, 87.**

Morphology of a new Infusorian, *Troglodytella abrassarti* n. g., n. sp.; **Brumpt & Joyeux, 77.**

Étude monographique sur les Acinétiens: Morphologie; **Collin, 109.**

Minute structure: special anatomy.

(a) *Shell, cuticle, etc.*

Shell-structure of the *Astrorhizidae*, including new forms; **Heron-Allen & Earland, 210.**

On the connection of the megalospheric and microspheric (A. and B.) forms of different fossil *Orbitolinae*; **Douvillé, 136.**

Morphology of Stromatoporoids and *Eozoon canadense*, regarded as Foraminifera; **Kirkpatrick, 238.**

Struktur der Hülle bei *Synura uvella*; **Awerinzew, 26.**

Skeletal structure of *Diplopsalis lenticula*; **Pavillard, 364.**

(b) *Cytoplasm and Nucleus.*

Nuclear structure and modes of division in the Protozoa; **Dangeard, 122.**

Chromosomes of Protozoa of the different classes; uniform, low thread-width; **Meek, 305.**—Chromatinstruktur der Protozoen; **Awerinzew, 26.**

Zur Chromidienfrage und Kerndualismushypothese bei den Protozoen; **Swarczewsky, 465.**

La structure intime et les divisions du noyau chez *Amœbidium parasiticum*; **Raabe, 382.**

Account of cytological features in various *Amoebae*, with special reference to the modes of nuclear division; **Gläser, 194.**

Types of nuclear constitution and modes of nuclear division in *Amoebae* of the *limax*-type; **Alexeieff, 6 & 7.**

Note on nuclear structure and mode of division in *Amoeba* (*Vahlkampfia*) *punctata*; distinctions from *Entamoeba*; **Chatton & Lalung-Bonnaire, 99.**

Minute structure of a new *Entamoeba*, *E. audastomi*; **Nöller, 342.**

Cytological details, nucleus and chromidia of *Entamoeba tetragena* Viereck; **Hartmann, 203.**—Of *E. coli*; **Hartmann & Whitmore, 204.**

Cytology of *Paramoeba* ("*Amoeba*") *pigmentifera* and *chactognathi* (Grassi); nature and homology of "Nebenkern"; **Janicki, 227.**

Kern und Chromidien bei *Saccamœba*; **Hirsch, 215.**

Details of nuclear structure in *Dijdocystis pargyganeae* n. sp.; **Berg-von-Emme, 43.**

Discussion of cytological points in the Coccidia, *Adelea* and *Barrouxia* (Apropos Jollos); **Reichenow & Schellack, 387.**

Formations chromidiales et mitochondriales de l'*Haemogregarina serpentium*; **Viguier & Weber, 491.**

The nuclear structure of *Karyolysus lacertae* described and compared in detailed with that of other Haemogregarines and certain Coccidia; the question of the intrakaryosomatic division-centre; **Woodcock, 521.**—The nuclear

structure of *Halteridium* and *Leucocytozoon* elucidated: explanation of the apparent binucleate condition; **Woodcock, 521.**

Cytologische Verhältnisse bei *Piroplasma canis*; **Schuberg & Reichenow, 434.**

Bau des Kernes bei *Piroplasma* der Giraffen (Russ.); **Averintzeff, 24.**

Cytology of nuclear division in *Chilomonas paramoecium*; **Nägler, 329.**

Trichocystenartige Bildungen bei zwei neuen Flagellaten; **Scherffel, 431.**

Cytological details of the cultural (flagellate) forms of *Leishmania infantum*; **Visentini, 493.**

Cytologische Studien an Trypanosomen; **Kühn & Schuckmann, 253.**

A remarkable body or structure occurring in *T. lewisi* and *duttoni*, simulating, in certain phases, a large additional trophonucleus; **Roudsky, 414.**

Fadenförmige Anhängsel bei den Trypanosomen (*T. brucii* and *equiperdum*); **Schepilewsky, 429.**

Occurrence of forms with a posterior trophonucleus in *T. pecaudi* (*brucii*); **Wenyon, 515.**

The kinetonucleus of the Haemoflagellates regarded as homologous with the "stigma" of *Euglenidae*; **Alexeieff, 3.**

Parasites with a "flattened" nucleus, such as occur in "espundia" in Peru, observed also in Oriental Sore; **Wenyon, 516.** (cf. **Laveran & Nattan-Larrier, 266.**)

Étude cytologique sur quelques Infusoires des marais salants du Croisic; **Fauré-Fremiet, 168.**

Sur le cytoplasme de l'*Epictintes ambiguus*: constitué par une substance analoque à une lécithalbumine; **Fauré-Fremiet, 166.**

Die Trichocysten von *Frontonia leucas* und ihr chromidialer Ursprung; **Tönniges, 484.**

Remarkable mid-mitotic condition of resting nuclei in *Opalina mitotica* n. sp.; **Metcalf, 319.**

Die Struktur des Macronucleus bei *Stylonichia* and *Operularia*; **Enriques, 153.**

Étude monographique des Acinétiens: structure intime; **Collin, 109.**

(c) *Organellae of locomotion and attachment, etc.*

Die Peristomcilien bei den heterotrichen Infusorien; **Weber, 507.**

Über die Tentakeln von *Tokophrya cothurnata*—nur eine einzige Form; **Reukauf, 390.**

Length of the polar filament of *Nosema bombycis*; **Kudo, 252.**

PHYSIOLOGY. 0411

General, various.

Experimentelle Untersuchungen an *Amoeba proteus*; **Gruber, 199.**

Remarkable persistence of the akinetonuclear forms and gradual disappearance of the normal type in successive transmissions of a mixture of the two, in the case of various Trypanosomes; **Laveran & Roudsky, 267.**

Results of certain physiological studies on a pedigreed race of *Paramœcium*; **Woodruff, 524.**

Inhibition of cell-division in *Paramœcium*; **Crampton, 117.**

Étude monographique sur les Acinétiens: Physiologie; **Collin, 109.**

Nutrition, digestion, excretion.

Assimilation de l'azote et du phosphore nucléique par le *Chlamydomonas reticulata*; **Teodorosco, 472.**

Effects of hunger and food on the nuclear structure of *Stylonichia* and *Operularia*; **Enriques, 153.**

Contribution à l'étude de la mode de nutrition et de la digestion chez les Infusoires; **Metalnikoff, 318.**

Processes of secretion in *Strombidium*; function of macronucleus (prel. note); **Enriques, 155.**

Einfluss der Gestalt des Kernes auf die Grössenabnahme hungernder Infusorien (*Dileptus, Stentor, Paramoecium*); **Allescher, 12.**

Über den Excretionsvorgang von *Amoeba quadrilineata* Carter; **Hofeneder, 216.**

Isolation der Exkrete bei Protozoen (Foraminifera u. Radiolaria); **Awerinzew, 26.**

Sarcocystin is a true Protozoan (Sarcosporidian) toxine; **Knebel, 242.**

Degeneration.

Disintegration in an Infusorian; **Corner, 113a.**

Movement, polarity.

Biologische und experimentelle Untersuchungen an *Amoeba proteus*; **Gruber, 198.**

Evidences of polarity in *Amoebae* (*A. verrucosa* and *villosa*); **Munson, 327.**

Peculiar movement of *Entamoeba morula* n. sp.; **Raff, 383.**

The movement of Gregarines regarded as the result of the extrusion of gelatinous secretion (i.e., Schewiakoff's theory, in preference to Crawley's, supported); **Sokolow, 454.**

Die Bewegung der Peristomcilien bei den heterotrichen Infusorien (*Stentor* and *Spirostomum*); **Weber, 507.**

Sexuality.

The question of sexuality in the Protozoa; **Dangeard, 122.**

On "vegetative" and "generative" chromatin in Protozoa; **Swarczewsky, 465.**

Sexual differentiation between the primite and satellite of the Gregarine, *Uradiophora cuenoti*; **Mercier, 307.**

Differenziazione sessuale, di *Cryptochilum echini*; **Russo, 420.**

Environmental effects; response to stimuli.

Effects of ultra-violet rays on *Amoebae*; **Chamberlain & Vedder, 88.**

Einfluss des Induktionsstromes auf die Bewegung der Gregarinen (Russ.); **Sokoloff, 453.**

On the influence of temperature upon the development of *T. rhodesiense* in *Gl. morsitans*; **Kinghorn & Yorke, 234.**

Effects of heat on the zoospores (espec. the flagella) of *Chlamydomonas*; **Desroche, 131.**

Beiträge zur Physiologie der *Euglena gracilis* Klebs; **Ternetz, 473.**

Erscheinungen des Heliotropismus bei *Volvox aureus*; **Awerinzew, 26.**

Les réactions locomotrices de *Colpidium* et des Infusoires en général; **Vieweger, 489.**

Magnetic control of geotropism in *Paramaecium*; **Harper, 202.**

Influence of saline composition of the medium in the cultivation of *Paramoecium*; **Zweibaum, 540.**

Experiments performed upon Protozoa (*Paramoecium*) confined in capillary tubes; **Crampton, 116.**

Immunity: reaction to sera.

The separation of Protozoan species by means of immunity reactions; **Coca, 108.**

Immunity of rats infected with *T. lewisi* to *T. duttoni* (of the mouse), and also of rats infected with *T. duttoni* to *T. lewisi*; **Roudsky, 412.**

Natural immunity of mice in regard to various Trypanosomes and *Leishmania* is due to phagocytosis; **Delanoe, 126**—Immunity of rats and guinea-pigs to *Leishmania infantum* by means of phagocytosis; **Visentini, 494.**

Serum-immunisation against *Trypanosoma brucii, equinum* and *equiperdum*, reciprocally; **Teichmann, 470.**

On the action of the sera of various Primates on different lethal Trypanosomes; **Mesnil, 309,** also **Mesnil & Ringenbach, 316,** & **Mesnil, Leboeuf & Ringenbach, 314.**

Effects of chemical reagents.

Die Wirkung von Alkalien auf Protozoen; **Franz, 187.**

Wirkung der Narkose an Amöben; **Ishikawa, 221.**

Ueber das Verhalten des Indigoblaus im lebendigen Protoplasma. Versuch mit *Pelomyxa palustris* Greeff; **Štolc, 458.**

Effects of various reagents (acids, alkalies, salts) on the movement of Gregarines; **Sokolow, 454.**

Effects of arsenphenylglycin on the development of *T. gambiense* in *Glossina*, and on its infectivity; **Duke, 145.**

Effects of carbon dioxide on various Ciliates and Flagellates; **Jacobs, 223.**

Chimiotaxisme des Infusoires; **Vieweger, 489.**

Über die Wirkung von Narkotikakombinationen auf *Colpidium colpoda*; **Breslauer & Woker, 66.**

Effects of various reagents on the micronucleus of *Paramecium*; **Sun, 464.**

REPRODUCTION AND LIFE-CYCLE. 0415

(a) Mycetozoa.

(Vacant).

(b) Sarcodina.

Rhizopodenstudien; **Schepotieff, 430.**

Kernteilung, Encystierung und Reifung von *Amoeba mira* n. sp.; **Gläser, 195.**—Untersuchungen über die Teilung einiger Amöben; **Gläser, 194.**

Die Kern- und Centrioltеilung bei Amöben, eine Entgegnung an Gläser und zugleich vorläufige Mitteilung über neue B-funde bei Amöbenformen aus dem Schweinedarm; **Nägler, 330.**

Stade flagellé chez *Amœba punctata*; **Alexeieff, 1.**

Are *Di-* and *Trimastigamœba* only temporary phases in the cycle of *Amœbæ* of the *limax* group?; **Alexeieff, 7.**

Different phases in the life-cycle of dysentery-*Amœbæ*; **Wells, 509** (3 pls.).

On the cysts of *Entamœba tetragena*, compared with those of other species; **Darling, 123.**

Multiplication, cyst-formation and degenerative forms of *Entamœba tetragena*; **Hartmann, 203.**—of *E. coli*; **Hartmann & Whitmore, 204.**

Paramœba pigmentifera, chaetognathi, Teilung, Gameten, Lebenscyclus; **Janicki, 225 & 227.**

Cyst-formation in *Euglypha alveolata* after copulation; **Reukauf, 388.**—Über die geschlechtliche Fortpflanzung von *Euglypha alveolata*; **Popoff, 373.**

Life-cycle of *Saccammina*, as described by Rhumbler, considered to involve 3 distinct organisms including a *Crithionina* and a *Pammassphæra*; **Heron-Allen & Earland, 211.**—Die Entwicklungsgeschichte von *Saccammina*; **Hirsch, 215.**

Zur Entwicklungsgeschichte der Thalassicollen; **Huth, 218.**

Ueber einen neuen Theilungsmodus bei *Aulacantha scolymantha*; **Borgert, 57.**

(c) Sporozoa.

Young trophic phases (extracellular) of a new Gregarine, *Pyxinoides balani* n.g. n. sp. and of *P. ethamali*; **Trégouboff, 485.**

Phases in life-cycle of a new Gregarine, *Agrippina bona*; **Strickland, 462.**

Notes on life-cycle of *Crospora synaptae*; **Cuénot, 120.**

Note on young, intracellular phase of *Cephaloidophora talitri* n. sp.; **Mercier, 306.**—Life-cycle of *Uradiophora* (*Cephaloidophora*) *cuenoti*; **Mercier, 307.**

Life-cycle of *Rhytidocystis henneguyi* n. sp., with agamic sporoblast- and spore-formation; **Beauchamp, 39.**

Untersuchungen über die Coccidien aus *Lithobius* und *Scolopendra* (*Barrouxia, Adelea, Coccidium*); **Schellack, 427.**

Life-cycle of *Coccidium cuniculi*; merozoites with flagellum; **Reich, 384.**

Life-cycle of *Cryptosporidium parvum* (sp. nov.); **Tyzzer, 487.**

La reproduction sexuée chez les Coccidies monosporées du genre *Pfeifferella*, avec des particularités remarquables; **Léger & Hollande, 276.**

"Infective granules" regarded as the initial phase in the life-history of a Haemogregarine (*Hg. simondi*); **Henry, 206.**

Entwicklung einiger Haemogregarinen aus Seefischen (Russ); **Yakimoff & Kohl-Yakimoff, 534.**

Different forms and stages in schizogony of *Haemogregarina drymobii* n. sp.; **Marullaz, 295.**

Different forms and multiplicative phases of *Haemogregarina terzii*; **Marullaz, 292.**

Schizogonic forms of a new Haemogregarine, *H. testudinis*; **Laveran & Nattan-Larrier, 265.**

Life-cycle of *Hepatozoon* (*Haemogregarina*) *muscuti*; copulation in the lung is described; **Sangiorgi, 423.**

Sporocysts and sporozoites of a new *Hepatozoon* (*H. ericeti*) in a mite; **Nöller, 344.**

Schizogonic phases (in the lung) of a *Karyolysus* form from Bengal Monitor; **Plimmer, 372.**

Notes on different phases in the blood of *Karyolysus lacertæ*; **Woodcock, 521.**

Der Zeugungskreis von *Karyolysus lacertae*; **Reichenow, 385.**

Eine neue Schizogonie von *Laverania sterella minima* Chaussat (= *L. ranarum* Lank); **Nöller, 343.**

Peculiar phase of binary fission of *Halteridium quelcae* in the red corpuscles; **Marullaz, 293.** [The Rec. thinks this is quite as probably a case of fusion comparable to that which he has described in other spp. of *H.*].

Parthenogenese von Makrogameten und geisseltragenden Parasiten im Blut bei Malaria tertiana; **Neeb, 338.**

Ueber die Entwickelung des Erregers der Vogelmalaria, *Plasmodium* (*Proteosoma*) *praecox*; **Alten, 13.**

On the developmental phases of *Leucocytozoon canis* and *Piroplasma* in the tick; **Christophers, 106.**

Über Bau und Vermehrung von *Piroplasma canis* im Blute des Hundes; **Schuberg & Reichenow, 434.**

Behaviour, multiplication and phases of life-cycle of *Nuttallia equi* and *Piroplasma caballi*; **Nuttall & Strickland, 349.**

Vermehrung des *Piroplasma* der Giraffen (Russ.); **Averintzeff, 24.**

Modes of division in *Toxoplasma canis*; **Yakimoff & Kohl-Yakimoff, 530.**

General summary of the different modes in which syngamy and spore-formation take place in the Myxosporidia; **Auerbach, 21.**

Life-cycle of *Myxidium bergense* and comparison of the types of syngamy and spore-formation in other Myxosporidia; **Auerbach, 22.**

Untersuchungen über *Henneguya psorospermica* Thel; **Auerbach, 23.**

Characters of the spores of certain new Myxosporidia, including *Mitraspora* n.g.; **Fujita, 192.**

Spores and spore-development of *Thelohania ovata* n. sp.; **Dunkerly, 147.**

Life-history of *Nosema apis*; **Fantham & Porter, 162.**—On the spore-development and life-cycle of *Nosema bombycis*; **Ohmori, 350.**

The life-history of a new Actinomyxidian, *Tetractinomyxon intermedium* g. et sp. nov.; spores of *T. irregulare* n. sp. **Ikeda, 219.**

Earliest developmental stage of *Sarcocystis* from the sheep observed in ducks; **Betegh & Dorcich, 45.**

Spore-formation and spores in *Sarcocystis gongyli* n. sp.; **Trinci, 486.**

Untersuchungen über die Rotatorienparasiten *Bertramia asperospora* Fritsch; **Konsuloff, 249.**

(d) MASTIGOPHORA.

Types of syngamy in the Protozoa; **Dangeard, 122.**

Comparative account of the modes of division among parasitic Flagellates (7 figs.); **Janicki, 226.**

Ein neuartiger Typus der Kernteilung bei *Chilomonas paramaecium*; **Nägler, 329.**

Ciclo evolutivo di *Dinenympha gracilis* Leidy; **Comes, 111.**

Fenomeni nucleari e fasi riproduttive in *Pyrsonympha*; **Comes, 112.**

Über Kernteilung und Fortpflanzung von *Monas gelatinosa* n. sp., und *Ochromonas* sp.; **Nägler, 331.**

Phases in life-cycle of a Monad (probably *Oicomonas termo*); **Martin, 290.**

Über Rhizopoden- und Palmellastadien bei Flagellaten (Chrysomonaden, spez. *Synura*); **Pascher, 355.**

Des Flagellaires dans la mouche domestique. Identité de la Leptomonade et de l'Herpetomonade. Nouveau mode de multiplication de l'Herpétomonade de la *Musca domestica*; **Cardamatis, 78.**

Different forms and phases in life-history of *Cercoplasma drosophilae* n. sp.; **Roubaud, 410.**

Phases in life-history of *Leptomonas legeri* n. sp.; **Chatton, 91.**

Sur un mode particulier d'agglomération simulant un enkystement chez *Leptomonas drosophilae*; **Chatton & Léger, 102.**

Life-cycle of *Leptomonas (Herpetomonas) pediculi* in the louse; **Fantham, 158.**

The life-history of *Leptomonas (Herpetomonas) culicis*; **Patton, 362.**

Developmental phases of *Leptomonas* spp. and *T. drosophilae* in *Drosophila*; trypanoids (leptotrypanosomes) and spermoids (eutrypanosomes); **Chatton & Léger, 100 & 101.**

Trypanosomides et membrane peritrophique chez les Drosophiles. Culture et évolution; **Chatton & Léger, 101 & 103.**

Phénomènes autogamiques et formes trypanosomiennes chez quelques Flagellés des Muscides africains; **Roubaud, 409.**

Multiplication and encystment described of *Crithidia cieti*; **Hindle & Lewis, 214.**

Crithidial and trypaniform phases of a Trypanosomid of a Reduviid bug (*Tr. boylei* n. sp.); **Lafont, 256 & 257.**

Cultural forms of Trypanosomes from Portuguese *Bovidae*; **Bettencourt & Borgès, 46.**

Cultural forms of Flagellates, regarded as derived, not from Trypanosomes but from some endoleucocytic parasite of oxen; blood phases and cultural forms of a Trypanosome of calves, regarded as distinct; **Behn, 40.**

On the partial development of *Trypanosoma cruzi* in *Conorhinus megistus, Cimex lectularius, C. boueti* and *Ornithodorus moubata*; **Brumpt, 75.** Discussion: Messil, Chatton.

Developmental forms of *Schizotrypanum (Trypanosoma) cruzi* in the muscles; **Delanoë, 128.**—Notes on development of *Schizotrypanum cruzi* in Mammals; **Rocha-Lima, 397.**

Schizogony of *Trypanosoma evansi* in the spleen of the vertebrate host; **Walker, 503.**

On the polymorphism of *T. gambiense* in the blood; **Robertson, 395.**—Life-cycle of *T. gambiense*, chiefly forms and phases in the fly; **Robertson, 396.**

Developmental phases and sequence of *T. rhodesiense* in *Gl. morsitans*; **Kinghorn, Yorke & Lloyd, 237.**

Cultural forms of *T. gambiense* and *T. rhodesiense*, morphology compared with developmental forms in *Glossina*; **Thomson & Sinton 483.**

Crithidial forms of *T. gallinarum* in *Gl. palpalis*; **Duke & Robertson, 146.**

Trypanosoma gambiense, verschiedene Formen (Holländisch); **Swellengrebel, 468.**

Cultural forms of *Trypanosoma* aff. *theileri* (Russ.); **Manceaux, Yakimoff & Kohl-Yakimoff, 288.**

Formes aflagellées dans l'évolution d'un Trypanosome de Batracien (*T. undulans*), regardées comme "latent-bodies" de Moore and Breinl; **França, 182.**

The development of the parasite of Indian Kala Azar (*Leishmania donovani*) in the bed-bug (*Cimex rotundatus* and *lectularius*); **Patton, 361.**

Developmental phases of *Leishmania* of Italian Kala-Azar in *Anopheles maculipennis*; **Franchini, 183.**

On the probable character of the transmissive phase of *Leishmania* from the Insectan to the Vertebrate host; **Bayon, 38.**

Cultural phases of *Leishmania donovani* and *L. tropica* compared; **Row, 417.**

Flagellatenähnliches Stadium von *Leishmania canis*; **Yakimoff & Kohl-Yakimoff, 537.**

Uebergangsformen von *Leishmania infantum* (Russ.); **Yakimoff & Kohl-Yakimoff, 536.**

A peculiar form of schizogony in *Gonyaulax series* sp. n.; **Kofoid, 247.**

A propos de la division chez certains Péridiniens; **Mangin, 289.**

(e) Ciliophora.

Size-relationships between conjugants and non-conjugants in *Blepharisma undulans*; **Watters, 506.**

Ricostituzione dell' apparato nucleare, differenziazione sessuale, conjugazione, ciclo di sviluppo del *Cryptochilum echini*; **Russo, 420.**

Beiträge zur Entwickelungsgeschichte von *Lagenophrys* sp.; **Awerinzew, 25.**

Multiplication and encystment of *Nyctotherus cordiformis*; **Aragao, 17.**

Regeneration and regulation in *Paramæcium caudatum* (15 text-figs.); **Peebles, 366.**

Wundheilungs- und Regenerationsvorgänge bei Infusorien; **Ishikawa, 220.**

Remarkable multiplication of a new Ciliate *Gymnodinioides*, n.g.; remarkable life-cycle of another new Ciliate, *Polyspira delagei* with a process termed "adelphogamic dischizogony"; **Minckiewicz, 323.**—Further account of conjugation and reproduction in *Polyspira delagei*; regarded now as a "métagonie syndesmogamique"—no such thing as "dischizogony" (longitudinal) or "adelphogamy"; **Minkiewicz, 324.**

Mode de division du *Strombidium sulcatum*; **Fauré-Fremiet, 167.**

Etude monographique sur les Acinétiens: réproduction et conjugaison; **Collin, 109.**

ETHOLOGY. 0419

Biology, habits, behaviour.

Remarks on the biology of soil Protozoa; **Martin, 290.**—Bodenprotozoen; **Wolff, 519.**

Lebensweise von *Vampyrellidium vagans*; **Entz, 156.**

Biology of Amoebae; **Gläser, 194.**

Biologische und experimentelle Untersuchungen an *Amoeba proteus*; Verhalten kernloser Stücke; **Gruber, 198.**

Notes on habits and behaviour of various *Amoebae* of the group *terricola*; **Penard, 369.**

Globigerina bulloides sviluppasi in ambiente bentonico litorale; **Issel, 222.**

Sur la fréquence de la leishmaniose canine à Alger et ses variations saisonnières; **Senevet, 439.**

Agglomerationserscheinungen bei Trypanosomen (*T. gambiense*, *brucii*, *equiperdum* u. a.); **Mattes, 300.**

Vitality of Trypanosomes in the cadaver of the animal host; **Blacklock, 51.**

Remarks on the biology of *T. gambiense*; **Robertson, 394.**

Observations on the origin and sequence of the Protozoan fauna of hay-infusions; **Woodruff, 523.**

The reactions of the Flagellate *Peranema*; **Mast, 298.**

Significance of certain forms of asymmetry of the Dinoflagellates; **Kofoid, 245.**

The limits of educability of *Paramæcium*; **Smith, 452.**

Les conditions nécessaires et suffisantes pour la conjugaison du *Paramaecium caudatum*; **Zweibaum, 540.**

Plankton.

North and West Scottish Coast, plankton, Dinoflagellates; **Herdman & Riddell, 208.**

Dinoflagellates in plankton, Irish Sea (S. end Isle of Man), with distinctive list of species of *Peridinium* occurring; **Herdman & Scott, 209.**

Kielkond'sche Bucht (Ösel), Ciliates; **Taube, 469.**

Dortmund—Ems Kanal and the R. Werse (Münster i/W.) Protozoa; **Quirmbach, 381.**

Javanese lakes, various, Flagellates and Dinoflagellates; **Woloszyńska, 520.**

Parasitism.

The parasite fauna of Colorado; **Hall, 200.**

On the parasitism, facultative and actual, of *Euglena* and *Astasia* spp.; **Alexeieff, 4.**

Apparently no incompatibility for parasitism results in the case of any of the common Ciliates (occurring in *Bufo*), from the presence of the other forms; **André, 15.**

Plantae.

In a *Saprolegnia*, itself parasitic on a large *Amoeba* of the *terricola* group, a small *Hyalodiscus* sp.; **Penard, 369.**

Protozoa.

In *Lecythium* sp., and *Tetramitus rostratus*, *Chlamydozoon bütschlii* n. sp.; **Alexeieff, 5.**

Hydrozoa.

In *Hydra oligactis*, coelenteric cavity, *Balantidium hydrae* n. sp.; **Entz, 157.**

Echinodermata.

In various Echinoids, coelome, *Oicomonas echinorum*; also *Cryptochilum echini*; **Cuénot, 120.**

In *Spatangus purpureus*, *Echinocardium cordatum* and *flavescens*, coelome, *Lithocystis schneideri*; **Cuénot, 120.**

In *Synapta digitata*, intestinal wall and coelome, *Gonospora mereieri*; **Cuénot, 120.**

Chaetognatha.

In *Sagitta elaparedi*, *Spadella inflata*, *bipunctata* and *serratodentata*, body-cavity; *Paramoeba pigmentifera* and *chaetognathi*; **Janicki, 225 & 227.**

Rotifera.

In *Eosphora najas* (Sofia), body-cavity, *Bertramia asperospora* Fritsch; other forms of *Bertramia* in other Rotifers (*Callidina*, *Digiena*, *Colurus*); **Konsuloff, 249.**

Chaetopoda.

In *Ophelia neglecta*, coelome, *Rhytidocystis henneguyi*, n. sp.; **Beauchamp, 39.**

In earthworms, coelomic epithelial cells of seminal vesicles, a peculiar parasite resembling "Kurloff's bodies," termed *Spirochaeta lumbrici*; **Cropper, 119.**

Hirudinea.

In *Aulastomum gulo*, hind-gut, *Entamoeba aulastomi* n. sp.; **Nöller, 342.**

In *Hirudo medicinalis*, vagina, *Malpighiella* n. sp.; **Alexeieff, 6.**

Gephyrea.

In *Petalostoma minutum*, body-cavity, *Tetractinomyxon* n. g. *intermedium*, *irregulare* n. spp.; **Ikeda, 219.**

Crustacea.

(Décapodes), deux nouvelles espèces de Grégarines appartenant au genre *Porospora* (*P. marisi* and *pisae*); **Léger & Duboscq, 275.**

In *Balanus amphitrite* and *eburneus*, intestine, *Pyxinioides balani* n. g., n. sp.; **Trégouboff, 485.**

In *Cyclops* sp., body-cavity, active in serum, a new Flagellate, *Callimastix cyclopis* n. g., n. sp.; **Weissenberg, 508.**

In *Paracalanus parvus*, *Clausocalanus arcuicornis* and *furcatus*, *Blastodinium spinulosum* n. sp.; in *Scolecithrix bradyi*, *B. elongatum* n. sp.; **Chatton, 94.**—In *Corycaeus venustus*, *B. naviculo*, in *Oithona* spp. var., *B. oviforme*, n. spp.; in *Corycaeus rostratus*, intestine *Schizodinium sparsum* n. g., n. sp.; in *Oithona* (*Clytemnestra*), egg, *Trypanodinium ovicola* n. g., n. sp.; **Chatton, 94.**

In *Talitrus saltator* (locusta), Roscoff, intestine, *Cephaloidophora talitri* n. sp.; **Mercier, 306.**

Ectoparasitic on *Telphusa* sp., gills, *Lagenophrya* sp.; **Awerinzew, 25.**

Myriapoda.

In the Diplopoda, *Orthomorpha gracilis* and *Parajulus venustus* (Colorado), postr. intestine, *Stenophora robusta* n. sp.; **Ellis,** .

North American Diplopoda as hosts of Gregarines; **Ellis, 152.**

In *Parajulus* sp. nov., intestine, *Stenophora cockerellae* n. sp., in *Orthomorpha coarctata*, intestine, *S. elongata* n. sp.; **Ellis, 152.**

Insecta.

In the following Isoptes (Guatemala), intestine, new Polycystids viz.: in *Leptochirus edax*, *Stylocephalus* (*Stylorhynchus*) *ensiferus*, in *Ninus interstitialis*, *Gregarina guatemalensis*; **Ellis, 150, 151.**

In *Ceratophyllus fasciatus* (larvae), alimentary tract, *Agrippina bona* n. g., n. sp.; **Strickland, 462.**—In *Ceratophyllus styx*, *farreni* and *gallinae*, (larvae and adults) digestive tract, *Steinina rotundata* n. sp.; **Ashworth & Rettie, 19.**

In *Ctenocephalus canis*, *Herpetomonas ctenocephali* prov. n. sp.; **Fantham, 158.**

Leptomonas pattoni Swingle chez l'adulte et la larve de *Ceratophyllus fasciatus*; **Chatton & Delanoë, 98.**

In *Cletus varius* Dall (Hemiptera), digestive tract, "*Crithidia*" *cleti* n. sp.; **Hindle & Lewis, 214.**

In *Conorhinus rubrofasciatus* (Ile St. Maurice), digestive tract, a new Trypanosomid, *Trypanosoma boylei* n. sp.; **Lafont, 256.**

In *Drosophila confusa*, Malpighian tubes, *Leptomonas roubaudi* n. sp.; **Chatton, 92.**—In *Drosophila* sp., Malpighian tubules; *Cercoplasma drosophilæ* n. sp.; **Roubaud, 410.**

In *Elecdes* sp. (a Tenebrionid), Colorado, mid-and hind-gut, *Stylocephalus* (*Stylorhynchus*) *giganteus* n. sp.; **Ellis, 150.**

In *Emphytus cinctus* Klüg, (larvae) "blood" and perhaps intestine, *Herpetomonas emphyti* n. sp.; **Hollande, 217.**

In *Gryllotalpa vulgaris*, digestive tract, *Trypanoplasma gryllotalpæ* n. sp.; **Hamburger, 201**

Nouvelle coccidiose de l'intestin d'un Hémiptère; **Machado, 285.**

In a Reduviid bug (*Conorhinus rubrofasciatus*), St. Maurice, a Trypanosomid parasite termed *Trypanosoma boylei* n. sp.; **Lafont, 256** & **257.**

In certain Hemiptera (*Leptoglossus membranaceus*, *Dysdercus casiatus* and *Carbula jipensis*, a Reduviid and a Capsid bug), alimentary tract, Leptomonad and Crithidial parasites unspec.; **Robertson,**

In an Anthomyid fly (*Homalomyia scalaris*), intestine, *Thelohania orata* n. sp. and a *Procazekia*; **Dunkerly, 147.**

In *Pediculus vestimenti*, (human louse), larva and imago, alimentary canal, *Leptomonas* (*Herpetomonas*) *pediculi* n. sp.; **Fantham, 158,** also **160.**

In Tabanid (*Pangonia*) females digestive tract, Crithidial forms of a Trypanosome, in *Asilus* sp. and a Reduviid, *Leptomonas* spp.; **Rodhain, Bequaert, Pons & Vanden Branden, 399.**

In *Phryganea grandis* (larvae), body-cavity, *Didocystis phryganeæ* n. sp.; **Berg-von Emme, 43.**

In *Phlebotomus* (Aleppo), gut, *Herpetomonas* sp.; **Wenyon, 511.**

In *Pygellia* sp. alimentary tract, *Leptomonas* sp.; in *Sepsis* spp., (males only), *Leptomonas* sp.; **Roubaud, 409.**

In a sheep tick (not further distinguished), a Trypanosome (doubtless from the sheep); **Bishop, 48.**

In *Sphærocera subsultans* (Belfort), intestine, *Leptomonas legeranum* n. sp., in *Limosina hirtula* var. *thallassmeri*, *L.* sp.; **Chatton, 91.**

In *Scricaria mori*, *Microsporidium polyedricum* parassita del giallume; **Marzocchi, 297.**

In *Tipula* (larva), digestive tract, *Entamœbæ*, *Trichomastix*, *Polymastix*, *Octomitus*, *Monocercomonas* and *Embadomonas* spp.; **MacKinnon, 286.**

Arachnida.

In a Gamasid mite (*Lelaps*?), phases of *Hepatozoon ericeti* n. sp.; **Nöller, 344.**

In a Gamasid mite (sp. indet.), body-cavity, egg and nymph, stages in the sexual cycle of *Karyolysus lacertæ*; **Reichenow, 385.**

Mollusca.

In *Cyclostoma elegans*, terminal intestine, *Trichodinopsis paradoxa*; **Cépède & Willem, 87.**

In *Limax marginatus* (Grenoble) liver, *Pfeifferinella impudica* n. sp.; **Léger & Hollande, 276.**

Protozoi intestinali della lumaca; **Barabaschi, 32.**

Tunicata.

Ectoparasitic on *Fritillaria pellucida*, a new parasitic Dinoflagellate; *Oodinium fritillariæ*; **Chatton, 94.**

Ectoparasitic on *Oikopleura cophocerca*, *Apodinium rhizophorum* n. sp.; **Chatton, 94.**

Pisces.

Die Myxosporidien der norwegischen Seefische und ihre Verbreitung; **Auerbach, 22.**

Trypanosomen und Trypanoplasmen einiger Fische Böhmens [Czechisch]; **Breindl, 65.**

In *Anarrhichas lupus* (catfish), *Haemogregarina anarrhichadis* n. sp.; **Henry, 205.**

In *Box salpa*, intestine, *Proctamœba salpæ* n. sp.; **Alexeieff, 6.**

Untersuchungen über *Henneguya psorospermica* Thél.; **Auerbach, 23.**

Pesci teleostei d'acqua dolce, loro fauna protozoica; **Bocchia, 55.**

Piscine hosts of Myxosporidia in Italy; in *Citharus linguatula*, gall-bladder, *Myxidium depressum* n. sp.; in *Apogon rex mullorum* and *Coris julis*, gall-bladder, *M. oviforme* n. sp.; in *Crenilabrus pavo*, kidney, *Lentospora asymmetrica* n. sp. in *Gasterosteus aculeatus*, kidney, *Henneguya gasterostei* n. sp.; in *Box salpa*, kidney, *H. neapolitana* n. sp.; **Parisi, 353.**

In carp and gold-fish, renal tubules, *Mitraspora cyprini* n. g., n. sp. and *Sphaerospora angulata* n. sp.; in gold-fish, gill-epithelium, *Sphaerospora acuta* n. sp.; **Fujita, 192.**

In Fischen der Neapler Bucht:—*Haemogregarina* sp. n. aus *Gobius capito*, *H. vladimirovi* sp. n. aus *Gobius cruentatus*, *H. lobianci* sp. n. aus *Torpedo*, *H. hartochi* sp. n. aus *Gobius auruntus*, *H. marzinovski* sp. n. aus *Gobius jozo*, *H. londoni* aus *Blennius trigloides*, *H. clavata* aus *Solea lutea*; **Yakimoff & Kohl-Yakimoff, 529.**

In *Thymallus thymallus*, gall-bladder, *Chloromyxum thymalli* n. sp., *Myxobolus* sp.; in intestine, *Octomitus* sp.; **Lebzelter, 268.**

In *Tinca*, gills, a new Myxosporidian, *Coccomyxoides tincae*; **Lo Giudice, 281.**

Amphibia.

Lists of the various Amphibian, Reptilian, Avian and Mammalian hosts in the Zoological Gardens in which Protozoan blood parasites have been found during the last four years: a great many appear to be new; **Plimmer, 372.**

Various Australian frogs, large intestine, Ciliates and Flagellates; **Raff, 383.**—In *Limnodynastes dorsalis*, *tasmaniensis*, *Opalina binucleata*, *O. dorsalis* and *O. acuta*; in *Hyla aurea*, *O. hylarum*; in *Crinia signifera* and *Hyperolia marmorata*, *O. tenuis*, n. spp.; in *Limnodynastes dorsalis*, *tasmaniensis*, *Hyla aurea*, *lesueurii* and *peronii*, *Entamoeba morula* n. sp.; **Raff, 383.**

Reptilia.

New hosts for the chief types of Haemoprotozoa, among Reptiles, Birds and Mammals; **Plimmer, 372.**

Australian Reptiles as hosts of Haematozoa (chiefly Haemogregarines); **Johnston, 228,** also **Johnston** and **Cleland, 229.**

In *Emydura krefftii* (tortoise), *Trypanosoma chelodinae* Johnson, *Haemocystidium chelodinae* and *Haemogregarina clelandi*; in *Tiliqua scincoides*, *H. tiliquae*; in *Pseudechis mortonensis* and *australis*, *H.(Karyolysus) lancrofti*; in *Varanus gouldii*, *H. (K.) gouldii*, n. spp.; **Johnston & Cleland, 229.**

Hg. agamae occurs in all varieties of leucocyte of *Agama colonorum*; **Léger & Husnot, 273.**

In *Ameiva surinamensis*, *Hg. ameivae*, n. sp.; in *Mabuia agilis*, "*Plasmodium*" *minasense* n. sp. and *Trypanosoma* sp. (probably *perroteti*); **Carini & Rudolphi, 84.**

In *Cerastes vipera* and *cornutus*, gall-bladder, *Coccidium cerastis* n. sp.; **Chatton, 93.**

In *Scincus officinalis* (entomophagous!), intestine, *Adelina* sp. (cf. *dimidiata*); **Chatton, 93.**

In *Clemmys africana*, "*Haemoproteus*" [*Haemocystidium*?] *cajali* n. sp.; **Pittaluga, 370.**

In *Drymobius bifossatus* (Brazil), *Hg. drymobii* n. sp.; **Marullaz, 295.**

In *Gongylus ocellatus*, trunk musculature, *Sarcocystis gongyli*, n. sp.; **Trinci, 486.**

In the following Reptiles, Haemogregarines unspec.; *Iguana tuberculata*, *Epicrates cenchris*, *Leptoderia albofusca* and *Boa imperator*; **Darling, 124.**

In *Iguana tuberculata*, both red corpuscles and certain leucocytes, *Haemogregarina iguanae* n. sp.; **Laveran & Nattan-Larrier, 264.**

Infection of *Lacerta muralis* with Haemogregarines in certain Portuguese islands, near the mainland; entire absence of infection in the Azores; **França, 178.**

In *Naja haje* (Tunis), *Haemogregarina (Karyolysus) wenyoni* n. sp.; **Conor, 113.**

In *Nicoria trijuga* (Ceylon), large intestine, *Trichomonas brumpti* n. sp., *Octomitus parvus* n. sp., *Mitrarium dangeardi* n. g., n. sp., *Dactylosphaerium vorax* n. sp. and *Entamoeba testudinis* Hartm.; **Alexeieff, 10.**

In *Testudo emys*, *Hg. testudinis* n. sp.; **Laveran & Nattan-Larrier, 265.**

In *Trionyx triunguis*, *Haemogregarina trionyxis* n. sp.; **Thiroux, 477.**

Aves.

Australian birds, lists of hosts of Halteridia and Trypanosomes; **Cleland & Johnston, 107.**

Quelques remarques sur l'infection des oiseaux par l'*Halteridium* de Danilewsky; **Cardamatis, 81.**

The question of the nature of the host-cell of *Leucocytozoon*; in some cases apparently a haematoblast, in others certainly a mononuclear leucocyte; Léger (in **Franca, 181**); **Mathis & Léger, 299, Léger & Husnot, 274.**

In the following birds (Guyane): *Haemoproteus* (*Halteridium*) sp. indet., viz.: *Urubitinga albicollis*, *Crax alector*, *Psophia crepitans*; **Brimont & Mesnil, 69.**

In the following birds (Guyane), new Trypanosomes, viz.: *Catharista atrata*, *T. catharistae*; *Tinamus subcristatus* and *Crypturus cinereus* *T. tinami*; in *Heterospizias meridionalis*, *T. mesnili* var. n. *guyanense*; **Brimont & Mesnil, 69.**

In turkey buzzard (*Cathartes aura*) *Halteridium* "*danilewskyi*"; **Darling, 124.**

In *Columba domestica* forma crupale da *Cercomonas gallinae*; **Barile, 33.**

In pigeon (Sao Paulo) red blood-corpuscles an unusual form of parasite, called provisionally *Plasmodium columbae* n. sp.; **Carini, 82.**—In pigeons (Brazil) liver and spleen particularly, *Toxoplasma columbae* n. sp.; **Yakimoff & Kohl-Yakimoff, 530.**

In *Garrulus glandarius*, *Accipiter nisus* and *Scolopax rusticola* (all Portugal), respectively, *Leucocytozoon lavierani*, *mathisi* and *légeri*, n. spp.; **França, 180.**

In *Hyphantornis melanocephala* (Passeres), Haut Sénégal, *Tr. bouffardi* and *Leucocytozoon bouffardi* n. spp.; **Léger & Blanchard, 272.**

Halteridium d'une mouette, *Larus cirrhocephalus*, observé au Sénégal; **Thiroux, 478.**

In *Melierax gabar* (*Falconidae*), *Leucocytozoon* sp. indet.; **Léger & Husnot, 274.**

In *Parus major* and *coeruleus*, *Lz.* sp. (perhaps *majoris* Lav.); in *Emberiza cirlus*, *L. cambournaci* n. sp., in *Turdus musicus*, *L.* sp., in *Merula merula* *L. mirandae*, in *Chloris chloris*, *L. scabrae* n. spp.; **França, 181.**

In *Quelea erythrops* (*Fundia e.*), San Thomé, *Halteridium quelcae* n. sp.; **Marullaz, 293.**—In *Q. f.*, also in *Lagonosticta senegala*, *Estrilda phoenicotis*, *Proteosoma* spp. ("*Haemamoeba relictae*"); **id., 294.**

In *Struthio* chiefly young birds on ostrich-farm (Cape Town province), *Leucocytozoon struthionis* n. sp.; **Walker, 504.**

Mammalia.

In the following native Mammals (Australia), viz., *Petrogale* sp. (wallaby), *Macropus* sp., and *Phascolomys latifrons* (wombat), intestinal wall, cyst-forming Neosporidia, probably similar to *Gastrocystis*; **Gilruth & Bull, 193.**

In the following Mammals, Canada, new Trypanosomes viz.:—in *Lepus sylvaticus*, *T. leporis-sylvaticus*, in deermice (*Peromyscus maniculatus*, *nebracensis*), *T. peromysci*, in ground squirrel (*Citellus richardsoni*), *T. citelli*, in a cow, *T. rutherfordi*, in a vole (*Ecotomys saturatus*), *T. ecotomys*, in a shrew, (*Sorex vagrans*), *T. soricis* n. spp.; **Watson & Hadwen, 505.**

In antelope (bush-buck, situtunga), *Trypanosoma uniforme*; **Fraser & Duke, 189.**—Occurrence of the human Trypanosome of Rhodesia in various species of wild-buck (possibly "reservoir" hosts); **Kinghorn & Yorke, 230.**

In wild-game (probably in many cases, natural hosts) N. E. Rhodesia Trypanosomes (viz. *T. rhodesiense*, *vivax*, *nanum*, *pecorum*, and perhaps *montgomeryi*); **Kinghorn & Yorke, 232.**

In *Gazella grantii* (Nairobi) *Theileria stordii* n. sp.; **França, 176.**

Trypanosoma transvaaliense bei Niederländischen Rindern; **Vrijburg, 497.**

In *Sus*, also in a child, *Entamoeba polecki* n. sp.; **Prowazek, 375.**

Trypanosoma equiperdum on Russie d'Europe; **Beltzer, Kohl-Yakimoff & Yakimoff, 42.**

La piroplasmose de l'ane (*Nuttallia equi*) en Afrique occidentale; **Bouet & Roubaud, 62.**

In the mouse, small intestine, attached to striated border of epithelium, but not intracellular, *Cryptosporidium parvum* (sp. nov.); **Tyzzer, 487.**

In rats, lung, a new type of parasite perhaps Coccidian, *Pneumocystis carinii* "cysts of Carini"; **Delanoë, 127.**

In *Cricetus frumentarius* (hamster), leucocytes, restricted to a swelling on ear, *Hepatozoon cricetí* n. sp.; **Nöller, 344.**

In *Myoprocta acouchy* (*non Dasyprocta* a.), *Trypanosoma acouchii* Brimont; **Brimont, 68.**

Présence d'*Haemogregarina canis* en Algérie; **Sergent et Senevet, 445.**

In *Canis adustus* (Brit. E. Africa), a new type of intracorpuscular parasite, *Rossiella rossi*; **Nuttall, 348.**

In *Hyaena crocuta* (Sénégal and Niger), mononuclear leucocytes, *Haemogregarina* (*Hepatozoon*) *chattoni* n. sp.; **Léger, 270.** — *Hepatozoon* (*Haemogregarina*) *chattoni* also occurring in the dog (at Bamako); **Léger, 271.**

In *Talpa* (also in *Microtus*), in red blood corpuscles, a peculiar parasite, *Grahamella talpae* n.g. n. sp.; **Brumpt, 74.**—In moles (*Talpa europaea* and *caeca*), red blood-corpuscles, *Elleipsisoma thomsoni* n.g., n. sp.; **França, 177.**

In bats, intracorpuscular, a parasite regarded as new and termed *Plasmodium achromaticum*; **Yakimoff, Stolnikoff & Kohl-Yakimoff, 538.**

In a flying squirrel (*Pteromys volans*), *T. denysi*, n. sp.; **Rodhain, Pons, Vandenbranden & Bequaert, 402.**

In *Alouata seniculus* (*Cebidae*), a Trypanosome; **Brimont, 68.**

In a monkey (*Ateles* sp.), Yucatan, a *Plasmodium*; **Seidelin, 438.**

In chimpanzee (female) Congo faeces, a new Infusorian, *Troglodytella abrassarti* n. g. n. sp; **Brumpt & Joyeux, 77.**

Plasmodium in *Cercopithecus*; **Martoglio, Stella & Carpano, 291.**

In *Macacus sinicus*, intestine, an *Entamoeba* ("*Loeschia*"), also (probably only a form of passage), the Mycetozoan, *Dictyostelium mucoroides*; **Chatton, 95.**

In *Pithecus satyrus* (Orang-Outan), *Entamoeba pitheci* n. sp.; **Prowazek, 376.**

In Man (Sawaii and Saipan), *Entamoeba hartmanni* and *bütschlii* n. sp.; **Prowazek, 376.**—In Man (Saipan) *E. williamsi* n. sp.; **Prowazek, 375.**

Occurrence of an *Amoeba* of the *limax* type in the human intestine, (*A.* [*Vahlkampfia*] *punctata*); **Chatton & Lalung-Bonnaire, 99.**

Prowazekia javanense sp. n. im menschlichen Faeces (Java); **Flu, 174.**

Infection humaine due à *Tetramitus mesnili*; **Nattan-Larrier, 335.**

VARIATION, PHYLOGENY.

0423

Variation.

Some recent work on mutation in Trypanosomes; **Dobell, 132.**

Temporalvariationen von *Ceratium hirundinella*; **Züscher, 539.**

Differences in variability between conjugants and non-conjugants in *Blepharisma undulans*; **Watters, 506.**

Evolution.

„Urtiere"; **Franz. 186.**

Ueber die Giltigkeit des biogenetischen Grundgesetzes bei den Foraminiferen; **Schubert, 436.**

Phylogeny, Classification.

Ueberblick über den Stamm der Protozoen; **Doflein & Koehler, 134.**

Ueber *Lituonella* und *Coskinolina liburnica* Stache sowie deren Beziehungen zu den anderen Dictyoconinen; **Schubert, 435.**

Classification and phylogeny of the Radiolaria Sphaerellaria; **Popofsky, 374.**

Phylogeny of the Sporozoa Ectospora (Telosporidia): considerations supporting a Euglenid ancestry; **Alexeieff, 4.**

Question of the relationship of the Cnidosporidia and the Mesozoa; **Ikeda, 219.**

Sarcosporidia, regarded not as Endospora, but as lacking entirely a polar capsule, their affinities being rather

with the Gregarine-Coccidian group of Ectospora; **Alexeieff, 4.**

Classification and affinities of the *Chromomonadina*, based largely upon a consideration of the Rhizopod and "Palmella" phases; **Pascher, 355.**

Affinités et intérêt phylogénétique de *Cystotrypanosoma grogi*; **Roubaud, 407.**

Affinities of certain new Dinoflagellates on the one hand to Flagellates and on the other to Algae; **Klebs, 239.**

Affinities and phylogeny of the Acinetaria; **Collin, 109.**

DISTRIBUTION (GEOGRAPHY). 0427

[See also under "Parasitism" 0419.]

Geographical.

Europe.

Occurrence of *Ceratium hirundinella* O.F.M. in enormous numbers in a pond near Bramhall; **Flatters, 172.**

Kinder Scout neighbourhood (high moorland bogs) Rhizopoda and Heliozoa, with remarks on one or two of the former; **Brown, 70.**

Port Erin (I.O.M.), boggy places, Rhizopoda; **Wailes, 501.**—On a remarkably abundant occurrence of *Amphidinium operculatum* at Port Erin; **Herdman, 207.**

Scotland, localities off E. and W. coasts, Rhizopoda with new forms; **Brown, 71.**

Hebrides, Orkney and Shetland Isls. and W. Scotland, Rhizopoda, with *Hyalosphenia ovalis* n. sp.; **Wailes, 500.**

North Sea, a new Astrorhizid, *Psammosphaera rustica*; **Earland, 148.**—North Sea (Scottish coast) *Astrorhizidae* with new forms; **Heron-Allen & Earland, 210.**

Norwegian coast, *Folliculina spirorbis* n. sp., and other forms new to district; **Dons, 135.**

Stylocometes digitatus aus Finland; **Luther, 283.**

Protozoen aus dem Seeligersee und Umgebung (Russ.); **Kornakoff, 251.**—Flagellaten des Sees Seliger; **Satin, 426.**

Roumania, Protozoa; **Cosmovici, 114.**

Bulgarian coast of Black Sea, Protozoa occurring; **Chichkoff, 105.**

Einige Seen Salzburgs sowie der Attersee, Ufer-u. Grund-Protozoen; **Micoletzky, 320.**

Switzerland, Infusoria, catalogue of; **André, 16.**

Sarcodinés des environs de Genève; **Penard, 368.**

Lago di Lugano, Protozoa; **Fehlmann, 169.**

Adriatic, Istrian coast, Foraminifera, with *Spiroloculina*, *Miliolina* n. spp.; **Wiesner, 518.**

Canale di Corsia (north. Adriatic), *Folliculina* spp.; **Dons, 135.**

Occurrence of *Haemogregarina canis* in Corsica; **Léger, 277.**—Présence d'*Hæmogregarina canis* en Algérie; **Sergent & Senevet, 445.**

Mediterranean, a new Holotrichan *Dysteropsis pectinata* sp. n.; **Nowlin, 347.**

Asia.

Philippine islands and contiguous waters. "[Scientific results of the Philippine cruise of the Fisheries steamer "Albatross" 1907–1910. No. 17.]" New arenaceous Foraminifera; **Cushman, 121.**

America.

States of New York, New Jersey and Georgia, U.S.A., fresh-water Rhizopoda and Heliozoa; **Wailes, 499.**

Protozoa of high mountain lakes in Colorado; **Edmondson, 149.**

The faunal relations of the Dinoflagellata of the San Diego region; **Kofoid, 244.**

Mexico, west coast, *Gonyaulax serica* sp. n.; **Kofoid & Rigden, 247.**

Oceanic.

Gough Island (South Atlantic), moss-residue, Rhizopods with *Parmulina bracci* n. sp.; **Penard, 367.**

Deutsche Südpolar Exped. 1901 1903 (Warmwassergebiet), *Sphaerellaria* mit neuen Formen; **Popofsky, 374.**

S. W. Pacific (Soundings of H.M.S. "Waterwitch"), *Lagenae* with new forms; **Sidebottom, 446.**

Geological.

Quaternary.

Pliocene and Pleistocene Foraminifera from southern California; **Bagg, 28.**

Tertiary.

Eocene, Oligocene and Miocene, Sumba, Dutch East Indies, Orbitoids (*Orthophragmina* and *Lepidocyclina*); **Rutten, 421.**

Eocene and Miocene Ile de Nias (Sumatra), Foraminifera; **Douvillé, 138.**

Eocene, Cyrenaica, Foraminifera; **Chapman, 89.**

Middle Eocene, Kachetien (Cahétie), *Orbitoides* with new forms; **Riabinin, 391.**

Eocene, Appennines (Capitanata), Foraminifera; **Checchia-Rispoli, 104.**

Eocene, Java, *Nummulites* and *Orthophragmina*; **Douvillé, 137.**

Tertiary, Borneo, *Miogypsina* and *Lepidocyclina* spp.; **Rutten, 422.**

Tertiary Limestones, King Island (Bass Straits) Foraminifera; **Chapman, 90.**

Early Tertiary ("rote Ton von Barwinek und Komarnók"), Foraminifera with new forms; **Noth, 345.**

Secondary.

Cretaceous, Contrada Calcasacco, near Termini-Imerese, Foraminifera; **Silvestri, 448.**

Primary.

Permian limestones, N. Durham, Foraminifera; **Woolacott, 525.**

Carboniferous, North America, *Fusulinae*; **v-Staff, 455.**

III. SYSTEMATIC. 0431

PROTOZOA, GENERAL.

Protozoa: comprehensive account of the class; Minchin London (Arnold) 1912 517 pp. 194 text-figs.

Protozoan parasites of domestic animals, general account: Neveu-Lemaire Paris (Lamarre et Cie) 1912 pp. 185-150 text-figs. 100-250.

Protozoa, various parasitic forms, Sumatra, notes on; Prowazek Arch. Protistenk. **26** pp. 251-272 pls. xix-xxi.

Protozoa, Seliger See, Gouv. Iver (Russ.); Kornakoff St. Peterburg Ber. Süsswasserst. Naturf.-Ges. **3** pp. 154-163 3 text-figs.

(Provisionally included as Protozoa).—The fossil organisms *Traquaria*, *Sporocarpon*, *Oidospora* and *Zygosporites*, usually considered to be parts of plants, regarded as Protozoa allied to the Radiolaria; McLean Proc. phil. Soc. Cambridge **16** pp. 493-513 6 figs.

1. MYCETOZOA.

Mycetozoa; Schinz in: L. Rabenhorsts Kryptogamen-Flora von Deutschland. 2. Aufl. Bd. **1**. Abt. 10 pp. 1-64.

Labyrinthula zopfii **sp. n.** diagnosed; Dangeard le Botaniste **11** p. 59 pl. vi figs. 1-11.

Sappinia, Dangeard, *Amoeba diploidea* placed in this genus and regarded as allied to *S. pedata*; Alexeieff Bul. Soc. Zool. **37** pp. 63 & 157-168 3 text-figs. [*Vide* also under *Amoeba*].

2. SARCODINA (=GYMNOMYXA).

Rhizopoda Amoebaea, comparative systematic account of numerous forms with special reference to the consideration of the nuclear structure and division; Dangeard Le Botaniste **11** pp. 4-112 pls. i-xvi.

Rhizopoda, descriptive notes on certain forms; Penard Rev. Suisse Zool. **20** pp. 1-29 pls. i & ii.

Fresh-water Rhizopoda and Heliozoa from States of New York, New Jersey and Georgia U.S.A., also from Seychelles, notes on; Wailes J. Linn. Soc. Zool. **32** No. 214 pp. 121-161. pl. xii.

Xenophyophora.

Xenophyophora, remarks on morphology, systematic position, regarded as a special order of Sarcodina; Schulze Zool. Anz. **39** pp. 38-43.

(a) **Amœbaea (Reticulosa + Lobosa).**

Amoebae of the *limax*-type, cytological characters particularly with regard to the nucleus and its modes of division, as a basis for sub-classification; ALEXEIEFF Bul. soc. zool. **37** pp. 55–74 7 text-figs.—Further notes on: ib. T.c. pp. 149–157. —*A. diploidea*, Hartm. & Nägl., this form regarded as quite distinct from *Sappinia* Dang.; CHATTON Bul. Soc. Zool. **37** p. 113. —On the other hand it is maintained that it is a *Sappinia*; cytology compared; ALEXEIEFF T.c. pp. 157–168 3 text-figs.—*A. mira* **sp. n.**, Kernteilung Encystierung und Reifung; GLÄSER Arch. Protistenkunde **27** pp. 172–194 pls. vii & viii.—*A. proteus*, experimentelle Untersuchungen; GRUBER Munchen SitzBer. Ges. Morph. **27** pp. 1–15.—*A. punctata* p. 33 text-fig. 5, *chattoni* p. 45 pl. iv figs. 1–19, *paradoxa* p. 46 pl. iv figs. 20–30 **spp. n.**, account of; DANGEARD le Botaniste **11**.—*A. punctata* Dangeard, stade flagellé; ALEXEIEFF C. R. soc. biol. **72** pp. 126–128.—*A. quadrilineata* Carter, excretory system, systematic distinction from *verrucosa*; HOFENEDER Arch. Protistenkunde **27** pp. 255–259 7 text-figs.—*A. tachypodia* p. 64 pl. v, *lamellipodia* p. 76 pls. vi & vii, *platypodia* p. 91 pl. viii **spp. n.**, description with special reference to the cytology of division; GLÄSER Arch. Protistenk. **25**.—*A. terricola* (incl. *similis* and *papyracea*), *fibrillosa*, *alba* and *sphaeronucleolus*, morphology and biology compared; PENARD Arch. Protistenkunde **28** pp. 78–140 59 text-figs.

Chlamydamoeba **gen. n.** perhaps allied to *Trichosphaerium*, *tentaculifera* **sp. n.** remarkable morphological characters described; COLLIN Arch. Zool. (sér. 5) **10** N. et R. pl. lxxxviii–xcv 2 text-figs.

Corycia radiata **sp. n.**, occurrence and diagnosis; BROWN Scottish Nat. **1912** p. 109 pl. v. figs. 1–4.

Dactylosphaerium vorax **sp. n.** from *Nicoria trijuga*, notes on morphology; ALEXEIEFF Zool. Anz. **40** p. 102 text-figs. 2 (p. p.) & 3.

Dictamyxa trinchesei Montic., a Reticulose Rhizopod, structure and development; SCHEPOTIEFF Zool. Jahrb. Suppl. **15** i pp. 218–224 pl. x figs. 1–30.

Difflugia leidyi **sp. n.**, *New Jersey*; WAILES J. Linn. Soc. Zool. **32** p. 132 pl. xii figs. 4 & 5.—*D. torquata* **sp. n.**, neighbourhood of Geneva p. 22 pl. ii figs. 18 & 19, *pyriformis* var. *crassa* (=*D crassa* Cash) notes on, p. 14 pl. i figs. 9–15; PENARD Rev. suisse Zool. **20**.

Di- and *Trimastigamoeba*, these types regarded as probably only phases in the life-cycle of Amoebae of the *limax*-group; ALEXEIEFF Bul. Soc. Zool. **37** pp. 152–156 1 text-fig.

Entamoebae from dysentery, cultivation, morphology, different phases; WELLS Sci. Mem. Med. Ind. *No.* **52** pp. 29–44 pls. i–iii.—*E. anlastomi* **sp. n.**, occurrence and description; NÖLLER Arch. Protistenk. **24** pp. 195–200 pl. xix.—*E. coli* (including *nipponica*), non-pathogenic and *E. histolytica* (including *tetragena* and perhaps *minuta*), pathogenic, occurrence, detailed morphological comparison; WALKER Philippine J. Sci. Manila **B 6** pp. 259–279 pls. i–v.—*E. coli* Lösch em. Schaudinn, nucleus, multiplication, cyst-formation; HARTMANN & WHITMORE Arch. Protistenkunde **24** pp. 182–194 pls. xvii & xviii. —*E. hartmanni*, *bütschlii* in *Homo*, *pitheci* in *Pithecus satyrus*; **spp. n.**, notes on; PROWAZEK Arch. Protistenk. **26** pp. 243–247 pl. xviii and text-figs.—*E. muris* **sp. n.**, habitat, morphology and movement; RAFF Proc. R. Soc. Vict. N.S. **24** pp. 346–351 pl. lxxi & 2 text-figs.—*E. tetragena* Viereck, cytology, phases in life-cycle; HARTMANN Arch. Protistenkunde **24** pp. 163–181 pls. xv & xvi.—*E. williamsi*, *polecki* **spp. n.** in *Homo*, *Sus*; PROWAZEK Arch. Protistenk. **25** pp. 273–274 text-figs. 1–6.

Euglypha alveolata Duj., gametogony and conjugation; POPOFF Arch. Protistenkunde **25** pp. 8–26 pls. i & ii.—*E. alveolata* var. n. *cirrata* p. 145 pl. xii figs. 25–27, *E. brachiata* var. n. *librata* p. 146 figs. 29 & 30, *E. cristata* var. n. *aciculoris* p. 147 figs. 32 & 33 *E. crenulata* **sp. n.** p. 147 figs. 34–37, var. n. *minor* p. 148 fig. 38, *E. filifera* var. n. *spinosa* p. 149 fig. 39, occurrence and notes; WAILES J. Linn. Soc. Zool. **32**.—*E. denticulata* **sp. n.** occurrence and diagnosis; BROWN Scottish Nat. **1912** p. 111 pl. v figs. 5–11.

Hartmanella **gen. n.** *pro Hartmannia* Alexeieff 1912 praeocc; ALEXEIEFF Bul. Soc. Zool. **37** p. 156.

Hartmannia **gen. n.** type *Amoeba gleichenі* Duj., based on nuclear characters and mode of division; ALEXEIEFF Bul. Soc. Zool. **37** p. 62.—*Hartmannia*,

this generic name praeoce; Chatton T.c. p. 113.

Heleopera nodosa **sp. n.**, p. 142 pl. xii figs. 22–24, *sphagni* var. n. *laevis* p. 143, occurrence and note; Wailes J. Linn. Soc. Zool. **32**.

Hyalodiscus sp., small form parasitic in a *Saprolegnia*, note on; Penard Arch. Protistenk. **28** p. 128 text-figs. 47–50.

Hyalosphenia ovalis **sp. n.**, Dumfries Scotland; Wailes Scottish Nat. **1912** p. 64 1 text-fig.

Lecythium **gen. n.** (near *Lecythium* and *Platoum*) *stercorea* **sp. n.**, described; Dangeard le Botaniste **11** pp. 109–112 pl. xvi figs. 1–35.

Löschia **gen. n.** proposed for the Entamoeba of dysentery (*E. histolytica* = *tetragena*) and those of other Vertebrates, based on nuclear characters; Chatton & Lalung-Bonnaire Bul. Soc. path. exot. **5** p. 142 pl. ix figs. 11. [This name is ante-dated by *Poneramoeba* Lühe, with which it becomes synonymous.]—*Löschia* sp. et Mycétozoaire (*Dictyostelium mucoroïdes* Brefeld) d'un singe; Chatton Bul. soc. path. exot. **5** pp. 180–183 pl. x figs. 1–5.

Malpighiella sps. n. from *Hirudo*, note on nuclear characters; Alexeieff Bul. Soc. Zool. **37** p. 68.

Mitrarium **gen. n.**, *dangeardi* **sp. n.** parasitic in "*Blastocystis*" cysts, regarded as a Proteomyxan, description; Alexeieff Zool. Anz. **40** p. 100 text-fig. 2 ii–iv.

Naegleria **gen. n.** type *Amoeba limax* Duj. emend Vahlkampf based on nuclear characters and mode of division; Alexeieff Bul. Soc. Zool. **37** p. 59 text-figs. 1 & 2.—*Naegleria* ante-dated by *Vahlkampfia*, of which, therefore, it becomes a synonym; Chatton T.c. p. 111.

Nebela americana var. n. *falcata* p. 135, *N. costata* **sp. n.** p. 136 pl. xii figs. 8 & 9, *dentistoma* var. n. *lacustris* p. 137 fig. 10, *N. scwellata* pp. 139, 158 figs. 11 12 & 13, *tropica* pp. 140, 158 figs. 13 14 & 11 **spp. n.**, *gracilis* var. n. *stomata* p. 157 figs. 41 & 42, *lageniformis* var. n. *minor* p. 157, occurrence and notes; Wailes J. Linn. Soc. Zool. **32**.

Paramoeba ("*Amoeba*") *pigmentifera* and *chaetognathi* (Grassi), nuclear character of "Nebenkern," life-cycle; Janicki Zs. wiss. Zool. **103** pp. 449–518 pls. vi–ix, also in Verh. Natf. Ges. Basel **23** pp. 6–21 7 figs.

Parmulina bracei **sp. n.**, Gough Island South Atlantic, diagnosed; Penard Proc. R. Physic. Soc. Edinburgh **18** pp. 245–247 1 text-figs; also in Rep. Sci. Res. Voyage "Scotia" Vol. **6** Zool. Pt. 10 pp. 268 & 269 1 text-figs.

Pelomyxa corax **sp. n.**, diagnosed; Dangeard le Botaniste **11** p. 51 pl. v figs. 1–5.

Placocysta spinosa var. n. *setigera*, New Jersey; Wailes J. Linn. Soc. Zool. **32** p. 150 pl. xii fig. 40.

[*Poneramoeba* Lühe 1908, *vide* Zool. Rec. 1909 *Protozoa* No. 312, *non Proteamoeba* Alex., *non Löschia* Chatt. is the correct generic name for the dysenteric Amoeba, if removed from *Entamoeba*. Rec.]

Pontomyxa flava Tops., a Reticulose form, notes on; Schepotieff Zool. Jahrb. Suppl. **15** i p. 233 pl. xi figs. 37–61.

Proctamoeba **gen. n.** type *Entamoeba muris* rGassi for the *Entamoebae* of Vertebrates (leaving *E. blattae* as the type sp. of *E.*), based on nuclear characters and mode of division p. 70 figs. 5–7, *P. salpae* **sp. n.**, note on p. 66 fig. 5 iii–v; Alexeieff Bul. Soc. Zool. **37**.—*Proctamoeba* antedated by *Löschia* (q.v.), of which it becomes a synonym; Chatton T.c. p. iii.

Quadrula symmetrica var. n. *curvata*, occurrence and note; Wailes J. Linn. Soc. Zool. **32** p. 142 pl. xii fig. 21.

Rhizoplasma kaiseri Verw., Reticulosa, general account; Schepotieff Zool. Jahrb. Suppl. **15** i pp. 224–227 pl. x figs. 31–41.

Urbanella **gen. n.** *napolitana* **sp. n.** Rhizopoda, allied to *Chlamydomyxa* and perhaps to Mycetozoa described; Schepotieff T.c. pp. 227–233 pl. xi figs. 1–36.

Vahlkampfia **gen. n.** type *Amoeba punctata* for *Amoebae* of the *limax*-type; nuclear characteristics; Chatton & Lalung-Bonnaire Bul. Soc. path. exot. **5** pp. 135–141 pl. ix figs. 1–13.—*V. limax* (Duj. emend. Vahlk.) *non V. vahlkampfi* retained as the correct name for the "*limax*-Amoeba" type species [this is certainly the correct view];

ALEXEIEFF Bul. Soc. Zool. **37** p. 150.—*V.* as a genus perhaps only a synonym of *Dimastigamoeba* (q.v.); its T.c. pp. 152–156 1 fig.

Vampyrellidium vagans, Organismus und Lebensweise; ENTZ. Math. és Termt. Ert. **30** pp. 130–140 Taf. IV.

(b) Foraminifera.

†Foraminifera, Pliocene and Pleistocene, southern California; BAGG Washington Dept. Int. Bull. U. S. Geol. Surv. No. **513** pp. 1–153 pls. i–xxviii.

†Foraminifera, Tertiary Limestones, King Island (Bass Straits); CHAPMAN Mem. Nat. Mus. Melbourne No. **4** pp. 42 and 43 with figs.

Nosema apis, life-cycle, methods of transmission; FANTHAM & PORTER Ann. trop. Med. **6** pp. 163-214 pls. xiv-xvi.—*N. bombycis* Näg., life-cycle, development of spores; OHNORI Arb. Kais. Gesundhtsa. **40** pp. 108-122 pl. ii.—*N. bombycis* di *Sericaria mori*; VERSON Padova

Annuario Staz. bac. **39** 40 pp. 112–143 1 tav.

Sphaerospora acuta p. 260 text-fig. 2, *angulata* p. 261 text-fig. 3, **spp. n.** occurrence and characters of spores; Fujita Zool. Anz. **39**.

Thelohania ovata **sp. n.**, [possibly syn. *T. (Octosporea) muscae-domesticae*] from *Homalomyia*, note on; Dunkerly Centralbl.Bakt. Abth. I **62** pp. 136 & 137 figs. 1–8.

(e) Actinomyxidia.

Tetractinomyxon **gen. n.**, *intermedium* **sp. n.**, occurrence and life-cycle pp. 240–264, pl. x, *T. irregulare* **sp. n.** spores p. 270; Ikeda Arch. Protistenk. **25**.

(f) Sarcosporidia.

Sarcosporidia, general account; Teichmann In: Handbuch der pathogenen Protozoen hrsg. v. S. v. Prowazek. Lfg. 3 pp. 345–360 with text-figs.

Studien über Sarcosporidien; Betegh & Dorcich Centralbl. Bakt. Abt. I 63 Orig. pp. 387–390 1 pl.

Sarcocystis gongyli, **sp. n.** from *Gongylus ocellatus*, described; Trinci Monit. zool. ital. **22** pp. 309–326 3 text-figs.—*S. tenella*, structure of spore, probable connection of the cysts of Gilruth (*Gastrocystis*) with this form of parasite, which is regarded as allied to the Gregarine-Coccidia group and not as an Endosporan; Alexeieff Arch. Zool. Paris (sér. 5) **10** Notes et Rev. pp. lxxxi–lxxxiv text-fig. 3.

(g) Haplosporidia.

Bertramia asperospora Fritsch, from *Eosphora*, life-history, distinctions from other forms; Konsuloff Arch. Protistenkunde **27** pp. 48–60 pl. iv.

INCERTAE SEDIS.

[Various and doubtful.]

Cyst-forming Protozoa, from the intestine of certain Australian Mammals (probably connected with a *Gastrocystis*-type or *Sarcocystis*), described; Gilruth & Bull Proc. R. Soc. Vict. **24** pp. 432–450 pls. lxxii–lxxxi.

Chamydozoa: regarded as more allied to the *Chytridineae* than to Protozoa: "*Chlamydozoon*" *batschlii* n. sp. from Protozoa and "*C.*" *perniciosum*, the alleged cancer parasite, described; Alexeieff Arch. Zool. (sér. 5) **10** N. et R. pp. ci–cix 3 text-figs.

"*Anaplasma*" ("marginal points"), two distinct forms distinguished "*A. marginale*" and "*A. m.* var. *centrale*," modes of transmission, regarded as distinct from *Piroplasma*; Theiler Zs. Infektionskrankht. Hausthiere **11** pp. 193–207 pl. i and *op. cit.* **12** pp. 105–116.—"Marginal points" of cattle, some forms at all events regarded as connected with *Piroplasma bigeminum*; Kohzumi Centralbl. Bakt. Abth. I **65** Orig. pp. 337–340 1 pl.

Grahamella **gen. n.** *talpae* **sp. n.**, proposed for peculiar bacillary parasite of red blood-cells [it may perhaps be really vegetative]; Brumpt Bul. Soc. path. exot. **4** pp. 514–517 text-fig.

"*Paraplasma*" *subtilarigenum* **sp. n.**, intracorpuscular in Man, associated with fever; Seidelin Ann. trop. Med. **5** pp. 503 & 504 pl. xxiv figs. 1–5.

"*Leucocytozoon*" *piroplasmoides* Thiroux and Teppaz, the cause of equine lymphangitis, regarded as a yeast and not as a Protozoan; Bridré, Nègre & Teppaz Ann. Inst. Pasteur **26** pp. 701–726 pl. xvii.—*L. p.* and also *Histoplasma capsulatum* of Darling, regarded as Blastomycetic and not Protozoan; da Rocha-Lima Centralbl. Bakt. Abth. I **67** Orig. pp. 233–249 1 pl.

Kurloff's bodies in the guinea-pig, regarded as true parasites, termed *Lymphocytozoon cobayae*, life-cycle described; Ross. Proc. R. Soc. **B 85** pp. 67–72 pl. i.—Kurloffkörper in mononucleären Blutzellen von *Cavia cobaya*; Fl. Genecsk. Tijdschr. Ned. Ind. **52** pp. 679–702; Med. Genecsk. Lab. (Sér. 2) A. No. **13** pp. 27–50.

"*Spirochaeta lumbrici*," the name given to a peculiar parasite of the coelomic epithelial cells of the seminal vesicle, resembling "Kurloff's bodies"; Crofper Proc. R. Soc. **B 85** pp. 525–527 pl. xiv.

Toxoplasma canis Mello, morphology, division, regarded as a Haemogregarine pp. 199–204 pls. ix & x; *T. columbae* **sp. n.** p. 198; Yakimoff & Kohl-Yakimoff Arch. Protistenkunde **27**.—*T. cuniculi*, notes on; Bourret Bul. soc. path. exot. **4** pp. 373–376.—*T. cuniculi*, transmissible apparently both to pigeon

and dog, but considered a distinct species; CARINI Bul. soc. path. exot. **4** pp. 518–519.

4. MASTIGOPHORA.

(a) Flagellata.

Flagellata, systematic account of several forms among the principal groups, chiefly based on a consideration of the nuclear structure and mode of division; DANGEARD le Botaniste **11** pp. 113–227 pls. xvii–xxxiii.

Flagellates, various from *Tipula*-larvae, notes on morphology; MACKINNON Parasitol. **5** pp. 179–188 text-figs. 6–20.

Leishmanien; MAYER in: Handbuch der pathogenen Mikroorganismen, hrsg. v. Kolle und Wassermann Bd **7** pp. 419–466 1 pl.

Biologische Untersuchungen an Trypanosomen; DOFLEIN München Sitz-Ber Ges. Morph. **27** pp. 73–78.

Trypanosomen als Krankheitserreger; MAYER in: Handbuch der pathogenen Mikroorganismen hrsg. v. Kolle & Wassermann Bd **7** pp. 321–418 4 pls.

Aglos **gen. n.** (*Chlamydomonadina*) *bicilinta* **sp. n.**; PASCHER Hedwigia **52** p. 274 et folg.

Astasia mobilis (Rehb.); parasitic in Copepods, notes on; ALEXEIEFF Arch. Zool. (ser. 5) **10** N. et R. p. lxxiv 2 text-figs.

Bodo, the relationship of this genus to other forms; synonymity; *B. saltans* probably the type-species; question of the occurrence of a kinetonucleus; ALEXEIEFF Arch. Protistenkunde **26** pp. 113–119.

Callimastix **gen. n.** (perhaps near *Lophomonadinae*), *cyclopis* **sp. n.**, occurrence and morphology; WEISSENBERG SitzBer. Ges. natf. Freunde **1912** pp. 299–305 1 text-fig.

Cercomonas gallinae producente forma cruciale in *Columba domestica*; BARILE Torino Giorn. Acc. med. **74** pp. 270–273 3 fig.

Cercoplasma drosophilae **sp. n.**, habitat and phases of life-history; ROUBAUD C. R. soc. biol. **72** pp. 554–556 14 text-figs.—*Cercoplasma* Roubaud, regarded as synonymous with *Herpetomonas* [*Leptomonas*]; ALEXEIEFF Zool. Anz. **39** p. 676.

Chilomastix motellae **sp. n.** diagnosed p. 679 text-fig. 1 vi & vii; *C.* (*Tetramitus*) *caulleryi*, figures of dividing stages, text-fig. 1 i–v, *C.* (*T.*) *mesnili* (?) different forms, fig. 2. i–v; ALEXEIEFF T.c.

Chromomonadina; classification, based upon a consideration of the Rhizopod and "Palmella" phases; PASCHER Arch. Protistenkunde **25** pp. 153–200 pl. ix 7 text-figs.

Copromonas Dobell regarded as synonymous with *Scytomonas* Stein; ALEXEIEFF Zool. Anz. **39** p. 678.

"*Crithidia*" *cleti* **sp. n.** (apparently a true *Crithidia*, from a non-blood-sucking host), occurrence and description; HINDLE & LEWIS Parasitol. **5** pp. 109–113 17 text-figs.—"*C.*" *melophagi* Flu, hereditary transmission regarded as extremely doubtful or non-existent; CAUCHEMEZ C. R. soc. biol. **72** pp. 1062–1064. Also CHATTON & DELANOË T.c. pp. 942–944.—"Crithidiae" and Leptomonads from various insects, (Tabanids, Reduviids), some forms at any rate being regarded as probably phases of a Trypanosome; ROUBAIN BEQUAERT PONS & VANDENBRANDEN Bul. Soc. path. exot. **4** pp. 528–531.

(*Cryptochrysis commutata*, **gen.** et **sp. n.**, diagnosed; PASCHER *vide* Zool. Rec. 1911 *Protozoa* No. 357.)

Cystotrypanosoma grayi, de *Gl. palpalis*. Polymorphisme, affinités. Intérêt phylogénétique; ROUBAUD C. R. soc. biol. **72** pp. 440–443 19 text-figs.

Dimorpha gracilis Leidy, life-cycle described; COMES Arch. Protistenkunde **25** pp. 275–294 pl. xi 6 text-figs.

Embadomonas (near *Chilomastix*) *alexeieffi* **sp. n.** from *Tipula*, notes; MACKINNON Parasitol **5** pp. 186–188 text-figs. 21–27.

Endotrypanum Mesnil and Brimont, possibly only a *Trypanosoma*; ALEXEIEFF Zool. Anz. **39** p. 676.

Euglena gracilis, Morphologie und Physiologie; TERNETZ Jahrb. wiss. Bot. **51** pp. 435–514 1 pl.

Fanapepea Prow., regarded as synonymous with *Chilomastix*; ALEXEIEFF Zool. Anz. **39** p. 678.

Herpetomonads and Trypanosomes, discussion of their systematic affinities based on cytological details; ALEXEIEFF Arch. zool. (sér. 5) **9** N. et R. pp. xxix-xxxviii, 2 (28) text-figs.

Herpetomonas (*Leptomonas*) *culicis* N., MeN. & T. in *Culex fatigans*, life-cycle; PATTON Sci. Mem. Med. Ind. No. **57** 21 pp. 1 pl.—*H.* (*L.*) *etenocephali* prov. n. sp., mention only; FANTHAM Brit. Med. J. **1912** ii p. 1196.—*H.* (*L.*) *emphyti* **sp. n.** occurrence and description; HOLLANDE C. R. soc. biol. **72** pp. 940-942 1 (11) text-fig.—*H.* (*L.*) *pediculi* **sp. n.**, occurrence and life-cycle in louse; FANTHAM Proc. Roy. Soc. B **84** pp. 505-517 pl. xiv.—[*Herpetomonas vide* also *Leptomonas*.]

Heterodagyaion **gen. n.** (near *Lagyaion*, *oedogonii*) **sp. n.** described; PASCHER Ber. D. bot. Ges. **30** pp. 152-158 1 pl.

Hexamastix **gen. n.** für *Polymastix batrachorum* Alex.; ALEXEIEFF Zool. Anz. **39** p. 679.

Leishmania Ross, this generic name regarded as synonymous with *Herpetomonas*; ALEXEIEFF Zool. Anz. **39** p. 675.—*Leishmania donovani*, development in bed-bugs; PATTON Sci. Mem. Med. Ind. No. **53** 38 pp. 1 pl.—*L. infantum*, cytological details of flagellate form described; VISENTINI Q. J. Micr. Sci. **58** pp. 353-371 pls. xix & xx.—*L.* sp., perhaps distinct from *L. tropica*, in "espundia" Peru; LAVERAN & NATTAN-LARRIER Bul. soc. path. exot. **5** pp. 176-179 4 text-figs.—*L.* of Italian Kala-Azar, phases in *Anopheles*, and possibility of this being a transmissive agent; FRANCHINI Ann. trop. Med. **6** pp. 41-52 pls. ii-iv.—*L. infantum* Uebertrager. Infection, Verwandlung (Russ.); YAKIMOFF & KOHL-YAKIMOFF Kharkoff Med. žurn. **14** pp. 140-170 1 pl.

Leptomonad and Crithidial parasites, unspec., occurrence in certain Uganda Hemiptera, notes on morphology; ROBERTSON Proc. R. Soc. B **85** pp. 234-240 33 text-figs.

Leptomonas Kent, the type of this genus (*L. batschlii*), if really unflagellate should be included under *Herpetomonas*; ALEXEIEFF Zool. Anz. **39** p. 675. [This should certainly be the other way round; in such a case *Herpetomonas* becomes a synonym of *Leptomonas*. Rec.]—*Leptomonas*, Kent, discussion of this genus and *Herpetomonas*; HINDLE Parasitol. **5** pp. 128-134.—*L. drosophilae*, *rubro-striatae* and *Trypanosoma drosophilae*, developmental phases; CHATTON & LÉGER C. R. soc. biol. **72** pp. 20-23 5 text-figs.—*L. drosophilae*, mode particulier d'agglomération et de cytolyse simulant un enkystement; CHATTON & LÉGER C. R. soc. biol. **72** pp. 171-174 15 text-figs.—*L. legeri rum* **sp. n.** occurrence and phases in life-history; CHATTON C. R. soc. biol. **73** pp. 286-289 14 text-figs.—*L. paugoniae* **sp. n.**, now regarded as a distinct Insectan parasite; ROUBAUD Poss VANDENBRANDEN & BEQUAERT Bul. Soc. path. exot. **5** pp. 604-608.—*L. pattoni* Swingle, of *Ceratophyllus fasciatus* apparently a true flea Herpetomonad and distinct from *T. lewisi*; CHATTON & DELANOË C. R. soc. biol. **73** pp. 291-294 17 text-figs.—*L. roubaudi* **sp. n.** occurrence and description; CHATTON C. R. soc. biol. **73** pp. 289-291 11 text-figs.—*L.* de la *Musca domestica*; identité de la Leptomonade et de l'Herpétomonade. Nouveau mode de multiplication; CARDAMATIS Centralbl. Bakt. Jena Abt. I **65** Orig. pp. 66-77 4 pls.—*L.* spp. var., phénomènes autogamiques et formes trypanosomiennes; ROUBAUD C. R. soc. biol. **72** pp. 552-554 29 text-figs.

Macrostoma Alex., regarded as synonymous with *Chilomastix*; ALEXEIEFF Zool. Anz. **39** p. 678.

Monas gelatinosa **sp. n.** Kernteilung und Fortpflanzung; NÄGLER Arch. Protistenkunde pp. 315-324 pl. xv.

Monocercomonas cetoniae, notes on; HAMBURGER Verh. nathist. Ver. Heidelberg **11** p. 213 figs. 14-19.

Monomastix [as a **gen. n.** but this name is already in use for a well-known Mastigociliate!] *opisthostigma* **sp. n.**, a new unillagellate Polyblepharidean, with trichocyst-like organellae, description and affinities; SCHERFFEL Arch. Protistenk. **27** pp. 94-110 figs. 1-16 & 59.

Nephroselmis olivacea St., notes on, affinities to the *Cryptomonadina*; PASCHER Zs. wiss. Zool. **100** pp. 178, 182 text-fig. 1.

Ochromonas sp., note on nuclear division; NÄGLER Arch. Protistenk. **27** p. 324 text-figs.

Octomitus parvus **sp. n.** (= *Octomitus dujardini, Hex. intestinalis p. p.*); ALEXEIEFF Zool. Anz. **40** p. 99 text-fig. 1 vi & vii.

Oicomonas echinorum, note on; CUÉNOT Bull. station biol. Arcachon **14** p. 53 text-fig. 5.—*O. termo*, phases in life-cycle, including conjugation, encystation; MARTIN Proc. R. Soc. **B 85** pp. 396–398 pl. x.

Petalomonas n. sp., [reference from Title only]; BARABASCHI Gazz. osp. clin. Milano **30** pp. 881 & 882.

Pleuromastix **gen. n.** (*Chrysomonadina*), *bacillifera* **sp. n.**, description, trichocyst-like organellae, relationships; SCHERFFEL Arch. Protistenk. **27** pp. 111–120 figs. 47–56 & 60.

Polymastix, regarded as a transitional form between *Polymastigina* and *Lophomonadina*; ALEXEIEFF Zool. Anz. **39** p. 679.—*P. melolonthae* (Grassi), notes on; HAMBURGER Heidelberg Verh. nathist. Ver. (N. F.) **11** p. 211 figs. 1–6.

Protochrysis phaeophycearum **gen.** et **sp. n.**, Pascher (Zool. Rec. 1911 *Protozoa* No. 357), notes on lateral flagella, affinities to *Cryptomonadina*; PASCHER Zs. wiss. Zool. **100** pp. 180–182 text-fig. 3.

Prowazekella, **nom. nov.** proposed for *Bodo lacertae* Grassi; ALEXEIEFF Zool. Anz. **39** p. 678.

Prowazekia Hartm. and Chag. regarded as synonymous with *Bodo* Ehrbg.; ALEXEIEFF Zool. Anz. **39** p. 678. [This is an incorrect view.]—*P. javanense* **sp. n.** in Man, Java; FLU Med. Geneesk. Lab. (Ser. 2) A. No **13**, p. 15; Geneesk. Tijdschr. Ned. Ind. **52** pp. 659–678.—*P. urinaria* (*Bodo n.* Hassall), possessing a kinetonucleus, described; SINTON Ann. trop. Med. **6** pp. 245–268 pls. xvii & xviii 22 text-figs.—*P.* sp. from *Homalomyia*, note on; DUNKERLY Centralbl. Bakt. Abth. I **62** Orig. p. 138 figs. 9–13.

Pyrsonympha sp. fenomeni nucleari e fasi riproduttive; COMES Boll. Acc. Gioenia fasc. 20–21 **1912** pp. 6–15 7 figs.

Scherffelia **gen. n.** (*Chlamydomonadina*) *pharus* **sp. n.**; PASCHER Hedwigia **52** pp. 274–287 *p. p.*

Schizotrypanum Chagas, this genus should be incorporated with *Trypanosoma*; ALEXEIEFF Zool. Anz. **39** p. 677.—*S. cruzi*, developmental forms in the muscles; DELANOË Bul. soc. path. exot. **5** pp. 599–602 27 text-figs.—*S. c.* developmental phases in different bugs; BRUMPT Bul. soc. path. exot. **5** pp. 360–367 13 text-figs.

Scuticia **gen. n.** *commutata* **sp. n.** (syn. *Nephroselmis olivacea* p. p.), with lateral flagella, affinities; PASCHER Zs. wiss. Zool. **100** pp. 179 & 182 text-fig. 2.

Tetramitus Alexeieff regarded as synonymous with *Chilomastix*; ALEXEIEFF Zool. Anz. **39** p. 678.—*T. mesnili*, human infection, notes on morphology; NATTAN-LARRIER Bul. soc. path. exot. **5** pp. 495–499 pl. xvii.

Trachelomonas treubi **sp. n.** p. 694, text-fig. 19A, var. n. *javanica* p. 696 fig. 19B, *T. affinis* Lemm. var. n. *planctonica* p. 694 fig. 19C, *T. raciborskii* fig. 19F, *lemmermanni* fig. 19D, *bernardi* fig. 19K, *scrati* fig. 19S, p. 696, **spp. n.** occurrence and diagnoses; WOŁOSZYŃSKA Bull. Acad. Sci. Cracovie **1912**.

Trichomonas (*Tetratrichomonas*) *brumpti* **sp. n.** in *Nicoria trijuga*, diagnosed; ALEXEIEFF Zool. Anz. **40** p. 98 text-fig. 1 i & ii.

Trypanoplasma gryllotalpae **sp. n.**, described; HAMBURGER Verh. Nathist. Ver. Heidelberg **11** p. 218 figs. 7–13.—*T. magnum* **sp. n.**; BREINDL Věstn. Král. České Spol. Náuk **1911** No. 33 pp. 27–31.

Trypanosoma americanum, biology, cultural forms; CRAWLEY U. S. Dept. Agric. Bur. Anim. Ind. Bull. No. **145** pp. 1–39 15 text-figs.—*T. aconchii* Brimont, from *Myoprocta* (*non Dasyprocta*), compared with *T. lewisi*; also *T.* sp. from *Alouata*, note; BRIMONT C. R. soc. biol. **72** pp. 415–416 2 text-figs.—*T. anellobiae* **sp. n.** (Clel. & Johnst. 1909), notes on, regarded as possessing an intracellular (Leucocytozoan) phase [this is doubtless really an independent *Leucocytozoon*]; CLELAND & JOHNSTON J. Proc. Roy. Soc. Sydney N.S.W. **45** pp. 120–122 pls. xxx & xxxi *p. p.*—*T. bouffardi* **sp. n.**, occurrence and note; LÉGER & BLANCHARD Bul. Soc. path. exot. **4** pp. 526 & 527.—*T. boylei* **sp. n.** occurrence, morphology of different forms and behaviour in rats and mice [this form should perhaps be regarded rather as a Leptomonad]; LAFONT C. R. Soc. biol. **72** pp. 380–382.—*T. brucii*, in rats and guinea-pigs, enumerative studies, comparison with *T. gambiense*

& rhodesiense; Thomson Ann. trop. Med. **5** pp. 531–538.—*T. brucii* and *equiperdum*, fadenförmige Anhängsel; Schetilewsky Centralbl. Bakt. Abt. **65** Orig. pp. 79–83 1 pl.—*T. b.* and *lewisi*, cytology; Kühn & Schuckmann Zool. Jahrb. Suppl. **15** ii pp. 329–382 pls. xx & xxii.—*T. caprae*, Kleine, notes on morphology, different forms; Fischer Zs. Hyg. **70** pp. 100–102 6 text-figs.—*T. chelodina* (**sp. n.** Johnson 1907), occurrence and account of; Johnstone & Cleland Proc.-Linn. N.S. Wales **36** p. 479 pl. xiii figs. 1–14.—*T. citelli* p. 25, figs. 5–6, *leporis sylvatici* p. 22, fig. 1, *peromysci* p. 22, figs. 2 & 3, *rutherfordi* p. 24 fig. 10, *crotomys* p. 25 fig. 7, *soricis* p. 25 fig. 8 & 9, **spp. n.** occurrence and notes; Watson & Hadwen Parasitol. **5**.—*T. denysi* **sp. n.**, occurrence and note; Roubaix, Pons, Vandenbranden & Becquaert Bull. Soc. path. exot. **5** p. 610.—*T. dimorphon* Lav. & Mesn. and *T. vivax* in a horse, Gambia, morphological comparison; Blacklock Ann. trop. Med. **6** pp. 107–116.—*T. dohrni* and *T. yakimovi*, **sp. n.** occurrence and notes on; Yakimoff Arch. Protistenkunde **27** pp. 1–8 pl. i.—*T. duttoni* (of the mouse) and *T. lewisi* not to be regarded as distinct species on account of their mutual immunizing effects in rats; Rodhain C. R. Soc. biol. **72** pp. 609–611.—*T. evansi*, schizogony in spleen; Walker Philippine J. Sci. B **7** pp. 53–63 1 pl.—*T. gambiense, uniforme*, and *vivax*, comparative form illustrated; Duke Proc. R. Soc. **B 85** pl. ii.—*T. gambiense*, phases of life-cycle in *Gl. palpalis*; Robertson Proc. R. Soc. **B 86** pp. 66–71 27 text-figs.—*T. g.*, verschiedene Formen (Holländisch); Swellengrebel Amsterdam Werk. Gen. Nat. Genees. Heelk. (Ser. 2) **7** pp. 14–16.—*T. g.* and *T. rhodesiense* regarded as very closely related, if indeed distinct, species; Mesnil & Léger C. R. soc. biol. **72** pp. 667–670.—*T. g.* and *T. rhodesiense*, morphology in cultures compared with developmental phases in *Gl. palpalis*; Thomson & Sinton Ann. trop. Med. **6** pp. 331–356 pls. xix–xxi.—*T. ignotum* **sp. n.**, occurrence in *Gl. morsitans*, morphology, pathogenic to monkeys; Kinghorn & Yorke Ann. trop. Med. **6** pp. 320–323.—*T. laverani* **sp. n.**, from a fish; Bělehrádek Věstn. Král. České Spol. Náuk **1911** No. 33 [This specific name is invalid, having already been used for an Avian Trypanosome.—Rec.]—*T. lewisi*, Carini's "cysts of multiplication" regarded as a distinct parasite (*Pneumocystis*) allied to the Coccidia; Delanoë C. R. Acad. Sci. **155** pp. 658–660.—*T. pecaudi* (or *brucii*), occurrence of posterior-nucleate, forms in; Wenyon J. trop. Med. 15 p. 193 [this at once breaks down what has been regarded as the essential specific distinction of *rhodesiense* from *brucii* or *gambiense* and makes it practically certain that the former is not a true, distinct species but merely a different strain—possibly of *brucii*. Rec.].—*T. pecorum* Bruce, *dimorphon* and *congolense*, all regarded as distinct species; Laveran Bul. Soc. path. exot. **5** pp. 372–375.—*T. radolphi* sp. n. prov. for a form from *Mabuia agilis* (but it is quite probably *T. percrotci*); Carini Bull. Soc. path. exot. **5** p. 595.—*T. rhodesiense*, developmental phases in *Gl. morsitans*; Kinghorn, Yorke & Lloyd Ann. trop. Med. **6** pp. 495–503.—*T. r.*, measurement, comparison with *T. brucii* and *T. gambiense*; Stephens & Fantham Proc. R. Soc. **B 85** pp. 223–234 pl. iii.—*T. rhodesiense*, question of its identification with *T. gambiense*; Laveran Bul. Soc. path. exot. **5** pp. 26–30.—*T. rhodesiense*, morphology compared with that of *T. brucii* and *gambiense*, regarded provisionally as a distinct species; Bruce, Harvey, Hamerton, Davey, & Lady Bruce Proc. R. Soc. **B 85** pp. 423–433 pls. xi & xii.—*T. rhodesiense* regarded as distinct both from *brucii* and *gambiense* on the strength of comparative serum reactions; Laveran & Nattan-Larrier C. R. Acad. sci. **154** pp. 18–20 [but *vide* under *T. pecaudi*].—*T. simiae* **sp. n.**, remarkable in attacking only monkeys and goats, morphology; Bruce, Harvey, Hamerton, Davey & Lady Bruce Proc. R. Soc. **B 85** pp. 477–481 pl. xiii.—*T. soudanense* var. n. *berberum* proposed for the Trypanosome of "Debab"; Sergent & Lhéritier Bul. soc. path. exot. **5** pp. 274–278.—*T. talpae* Nabarro, notes on; França Arch. R. Inst. Volvox, general account; JANET Limoges (Ducourtioux) 1912 151 pp. with figs.

(b) Silicoflagellata (vacant).

(c) Dinoflagellata.

Flagellate and Algal Peridinida, account of, including many new forms [N.B. The Algal forms are not included here, as they are obviously not Protozoa]; KLEBS Verh. Nathist. Ver. Heidelberg (N.F.) **11** pp. 369–451 pl. x.

Apodinium rhizophorum **sp. n.**, occurrence and diagnosis; CHATTON Bul. Soc. Zool. **37** p. 88 text-fig. 3.

Blastodinium spinulosum p. 89, *elongatum* p. 89 fig. 4, *navicula* p. 90 fig. 5, *oriforme* p. 90 fig. 6 **spp. n.**; CHATTON T.c.

Chytriodinium **gen. n.**, type *Gymnodinium roseum* Dogiel 1906, note on; CHATTON Bul. Soc. Zool. **37** p. 91.

Cystodinium **gen. n.** *batavicum* p. 377 text-fig. 2, *steini* p. 381 text-fig. 3 pl. x fig. 2, **spp. n.** occurrence, description and affinities; KLEBS Verh. Nathist. Ver. Heidelberg (N.F.) **11**.

Dinosphaera **gen. n.** for *Gonyaulax palustris* Lemm. described; KOFOID & MICHENER Univ. Cal. Pub. Zool. **11** pp. 21–28 8 figs.

Diplodinium **gen. n.** for *Gymnodinium lunula*, type, and other spp., remarks; KLEBS Verh. Nathist. Ver. Heidelberg (N.F.) **11** p. 389 et folg. text-fig. 4.

Diplopsalis lenticula Bergh, skeletal structure, relation to other forms (*D. sphærica*), doubtful whether this genus has any validity; PAVILLARD C. R. Acad. sci. **155** pp. 175–177 3 text-figs.

Glenodinium emarginatum **sp. n.**; KLEBS Verh. Nathist. Ver. Heidelberg (N. F.) **11** p. 439 text-fig. 6.

Gonyaulax series **sp. n.**, Mexico, west coast, peculiar form of schizogony; KOFOID & RIGDEN Bull. Mus. Comp. Zool. Harvard Coll. **54** pp. 333–348 pls. i & ii.

Gymnodinium rotundatum p. 392 text-fig. 5, *minimum* p. 396 fig. 7 A & B, *bogoriense* p. 397 fig. 7 C & D, **spp. n.**, occurrence, description and affinities; KLEBS Verh Nathist. Ver. Heidelberg (N.F.) **11**.

Haplodinium antjolense **sp. n.**, Buitenzorg; KLEBS Verh. Nathist. Ver. Heidelberg (N.F.) **11** p. 370 text-fig. 1 A–C.

Hypnodinium **gen. n.**, *sphaericum* **sp. n.**, occurrence, morphology and affinities; KLEBS T.c. p. 399 text-fig. 8 pl. x fig. 1.

Oodinium **gen. n.** type *O. poucheti* Lemmermann 1899 (= *Gymnodinium pulviculum* Pouchet 1885) p. 85, *O. fritillariae* **sp. n.** p. 87, text-fig. 2, occurrence and note; CHATTON Bul. Soc. Zool. **37**.

Peridinium meunierii **nom. nov.** proposed for *P. paulseni* and *P. (Diplopsalis) sphaericum*; PAVILLARD C. R. Acad. Sci. **155** p. 177.—*P. raciborskii* p. 700 text fig. 21, *gutwinskii* p. 701 fig. 22, *P. (Peridiniopsis) traubi* p. 702 fig. 24, **spp. n.**, occurrence and diagnoses; WOŁOSZYŃSKA Bull. Acad. Sci. Cracovie **1912**.

Schizodinium **gen. n.**, *sparsum* **sp. n.**, p. 90 fig. 7, occurrence and note; CHATTON Bul. Soc. Zool. **37**.

Trypanodinium **gen. n.**, *ovicola* **sp. n.**, p. 91 fig. 8; CHATTON T.c.

(d) Rhynchoflagellata (vacant).

5. CILIOPHORA.

(a) Ciliata.

Infusoires des marais salants du Croisic, étude cytologique; FAURÉ-FREMIET Arch. anat. microsc. **13** pp. 402–480 av. pls

Infusoria, Switzerland, catalogue of, diagnosed: ANDRÉ Mus. Hist. nat. Genève fasc. **6** 1912 227 pp.

Astylozoon pyriforme occurrence, Bologna and note; ENRIQUES Monitore zool. ital. **23** p. 240.

Balantidium hydrae **sp. n.**, occurrence and note; ENTZ Arch. Protistenk. **27** p. 23.

Chiladon cyprini (syn. *C. hexastichus* Kiernik), comparison of the two forms; ANDRÉ Rev. Suisse Zool. **20** pp. 207–212.

Cryptochilum echini, ricostituzione dell' apparato nucleare, differenziazione sessuale, coniugazione, ciclo vitale RUSSO Boll. Acc. Gioenia fasc. 22–23 **1912** pp. 21–26 1 tav.

Cyttarocylis cucullulus (Haeckel) = Haeckel's "*Scthocephalus*" note on; KOFOID, Univ. Cal. Pub. Zool. **9** pp. 353–357.

Dysteropsis pectinata **sp. n.** Mediterranean; NOWLIN Univ. Kans. Sci. Bull. **5** pp. 289–295 2 text-figs.

Gymnodiniidea **gen. n.** with several unspecified forms, a remarkable Ciliate belonging to a new order "Chromatophora," morphology and division; MIESCHIEWICZ C. R. Acad. Sci. **155** pp. 513 & 514.

Polyspira **gen. n.**, *delagei* **sp. n.**, another remarkable Ciliate included in the new Order "Chromatophora," described; MIESCHIEWICZ T.c. pp. 514–515.

Lagenophrys sp., Beiträge zur Entwickelungsgeschichte; AWERINZEW Biol Centralbl. **32** pp. 711–718.

Nyctotherus cordiformis, multiplication and encystment; ARAGÃO Mem. Inst. Oswaldo Cruz. **4** pp. 125–130 pl. vi.

Opalina binucleata p. 589 figs. 7–9, *hylarum* p. 590 figs. 10–15, **spp. n.**, notes; RAFF Proc. R. Soc. Vict. **23**. — *O. tenuis* p. 343 figs. 1 & 2, *dorsalis* p. 345 fig. 3, *acuta* p. 346 fig. 4, **spp. n.**, RAFF *op. cit.* **24**. — *O. mitotica* **sp. n.** Nebraska, unusual resting condition of nuclei; METCALF Zool. Jahrb. Suppl. **15** pp. 79–94 pl. ii.

Rhabdostyla arenaria Cuénot, note on; CUÉNOT Bull. station biol. Arcachon **14** p. 94 text-fig 19.

Trichodinopsis paradoxa described; CÉPÈDE & WILLEM Bul. sci. France-Belgique Paris **45** pp. 239–248 pl. ix.

Troglolytella **gen. n.** (*Ophryoscolecidae*), *abrasarti* **sp. n.**, occurrence and description; BRUMPT & JOYEUX Bull. Soc. path. exot. **5** pp. 499–503 pl. xviii.

Urceolaria symptae (*Trichodina symptae*) Cuénot, note on; CUÉNOT Bull. station biol. Arcachon **14** pp. 91–93 text-fig. 18.

(b) Acinetaria (Suctoria).

Acinetaria: étude monographique. Morphologie, physiologie, systématique; COLLIN Arch. zool. **51** pp. 1–457 6 pls 111 text-figs.

Revision des Acinétiens d'eau douce [abbreviated account of Collin's memoir]; ROUSSEAU Ann. biol. lacustre **5** pp. 296–330.

Discophrya cybistri text-fig. iii, *acilii* text-fig. xv, **spp. n.** p. 369; COLLIN Arch. Zool. **51**.

Ephelota sessilis **sp. n.** p. 414 text-fig. cvii; COLLIN T.c.

Hypocoma ascidiarum **sp. n.** p. 421 text-fig cxi; COLLIN T.c.

Pseudogemma pachystyla, *keppeni*, **spp. n.** p. 362; COLLIN T.c.

Thaumatophrya **gen. n.** (*Discophryidae*) type *Podophrya trold* Clap. & Lach., COLLIN T.c. p. 374.

Thecacineta cyprinidae **sp. n.**, p. 350 textfig. [illegible] COLLIN T.c.

III. PORIFERA OR SPONGIDA

II.—SUBJECT INDEX.

GENERAL WORKS, ECONOMICS AND TECHNIQUE.

Pesca, lavorazione, commercio delle Spugne, con speciale relazione a Tripoli; **Ellena, 14.**

Pesca delle Spugne nella Libia; **Sella, 38.**

Spongiae für 1909, Jahresbericht; **Weltner, 45.**

Spongiae für 1910; **Lucas, 31b.**

ANATOMY.

Nadeln der Spongien der Kolafjords (Russ.-deutsch. Res.); **Breitfuss, 9.**

Stromatoporoid skeleton regarded as skeleton of Foraminiferan colony; **Kirkpatrick, 25, 26, 27, 28 & 31.**

Structure, *Eozoon*; **Kirkpatrick, 25, 26 & 27.**

PHYSIOLOGY.

Ueber die Wirkung des Hungers und der Kalkentziehung bei Kalkschwämmen; **Maas, 32.**

Direct effect of environment on fresh-water sponges; **Annandale, 1.**

DEVELOPMENT.

Gemmules, *Spongilla* and *Ephydatia* spp. notes; **Jaffé, 22.**

Development from gemmules, *Spongilla* and *Ephydatia* spp.; **Jaffé, 21 & 23.**

Ueber das Ausbleiben der Regeneration und Regulation bei niederen Tieren; **Maas, 33.**

ETHOLOGY.

Infesting zooxanthella accounts for calcareous part of skeleton of *Merlia normani*; **Kirkpatrick, 29.**

Symbiosis, *Astrosclera willeyana*; **Kirkpatrick, 30.**

Effect of surrounding conditions on sponge growth; **Stephens, 39.**

Effect of conditions on fresh-water sponges; **Stephens, 40.**

VARIATION.

Über Abnormitäten bei Spongilliden [Formen der Amphidisken]; **Wierzejski, 46.**

DISTRIBUTION.

A. Actual.

Comparison of sponge fauna on rocky exposed coasts and on sheltered, boulder strewn coasts; **Stephens, 39.**

European freshwaters.

Ireland, Spongillidae from Mayo and Galway; occurrence of *Tubella pensylvanica* and *Ephydatia crateriformis* doubted; **Stephens, 40.**

Seliger-See, Spongillidae (Russ.); **Molčanov, 35.**

Asiatic freshwaters.

Ahor country, owing to scarcity of ponds, lakes and slow running streams only 2 species were found; **Annandale, 2.**

Ceylon, search in lakes and tanks resulted only in the finding of *Spongilla carteri* in Kandy lake; **Annandale, 6.**

Western Ghats, *Stratospongilla* sp. n.; **Annandale, 5.**

China, *Spongilla* sp. n.; **Annandale, 7.**

Freshwaters of Fiji.

Fiji islands, *Spongilla* sp. n.; **Topsent, 43.**

Pacific Ocean.

Kermadec Is., Monaxonida 5 spp. n.; **Kirk, 24.**

E. coast of Australia and Bass Strait, Monaxonida 19 spp. n; **Hallmann, 18.**

Aru and Kei Is., Halichondrina 43 spp. n., Hadromerina 3 spp. n., Lithistida 2 spp. n., Choristida 6 spp., Keratosa 11 spp. n.; **Hentschel, 19.**

Atlantic Ocean.

Azores, *Tedania* sp. n.; **Topsent, 42.**

Santander, Tetractinellida 1 sp. n. Monaxonida 1 sp. n.; **Hernandez, 20.**

English Channel, Calcarea and Monaxonida spp. recorded for first time; **Crawshay, 12.**

Irish coast, Sponges, 2 sp. n. and 20 sp. recorded for first time from Irish coast, of which 7 are new to British Isles; **Stephens, 39.**

Coasts of counties Down, Louth, Meath and Dublin, characteristic sponge fauna (4 species Monaxonida); **Massy, 34.**

Arctic Ocean.

Kola-Fjord, Halichondrina 5 spp. n. (Russ. + deutsch. Rés.); **Breitfuss, 9.**

Kola-Fjord, list of sponges; **Derjugin, 13.**

Antarctic Ocean.

Distribution of Hexactinellida, review of results of recent exploration; **Topsent, 41.**

B. Fossil.

Upper Cretaceous, Queensland, supposed pyritised sponges (Lithistida), the first recorded sponge remains from Australian Upper Cretaceous; **Chapman, 11.**

Chalk, Hants, *Porosphaera* spp. n. *Retispinopora* spp. n.; **Brydone, 10.**

Upper carboniferous, N. W. Germany, Hexactinellida 45 spp. n.; **Schrammen, 36 & 37.**

Carboniferous, Oklahoma, Lithistida 1 sp. n.; **Girty, 10.**

Devonian, Belgium, Dictyonina 1 sp. n.; **Fraipont, 15.**

Lower Silurian, New York *Cyathodictya? tabularis* **sp. n.; Ruedemann, 35a.**

(s-9210 *h*)

III.—SYSTEMATIC.

New Australian Sponges, HALLMANN Zool. Results of F. I. S. Endeavour **3** pp. 117–300 15 pls.

Kiesel und Hornschwämme der Aru und Kei-Inseln, HENTSCHEL Frankfurt a. M. Abh. Senckenb. Ges. **34** pp. 293–448 9 pls.

Short historical review of classification of sponges, HERNÁNDEZ "Notas sobre algunas esponjas" Madrid 1912 18 pp.

Die Kieselspongien der oberen Kreide von Nordwestdeutschland, SCHRAMMEN Palaeontographica Stuttgart Suppl. **5** 1912 pp. 177–385 mit 10 Tsl.

CALCAREA.

HOMOCOELA.

Clathrina primordialis, contorta recorded for first time in English Channel, CRAWSHAY J. Mar. Biol. Ass. **9** p. 291.

HETEROCOELA.

Grantia capillosa recorded from English Channel, CRAWSHAY J. Mar. Biol. Ass. **9** p. 291.

Leucandra clavacasis **sp. n.** Clare Is., STEPHENS Proc. R. Irish Acad. **31** 1912 Clare Is. Survey part 59 p. 14.

II.—SUBJECT-INDEX.

GENERAL AND MISCELLANEOUS. 0803

Hydroiden der Münchener Zoologischen Staatssammlung; **Stechow, 114.**

Hydrozoa Vol. II livr. 1. in Faune de la Russie; **Linko, 77.**

Siboga Expedition, Plumularidae; **Billard, 13.**

Danish Ingolf Expedition: Ctenophora; **Mortensen, 84**: Ceriantharia; **Carlgren, 24.**

Ceriantharien des Mittelmeers; **Carlgren, 25.**

Summary of the results obtained from a study of the recent Madreporaria of the Hawaiian islands and Laysan; **Vaughan, 126.**

Über eine festsitzende Ctenophore und eine rückgebildete Siphonophore; **Moser, 88.**

The fishery resources of the Philippine islands, Alcyonaria; **Seale, 109.**

Corallium rubrum, pesca nel Mare di Sicilia; **Lucifero, 79.**

Les idées des anciens sur le corail; **Hückel, 61.**

Une carte des récifs de coraux; **Germain, 41.**

Hydroïdes, Bibliographie 1872-1880; **Bedot, 7.**

Jahresberichts über Cnidaria für 1909; **Laackmann, Schepotieff & Pax, 75.**

Hydromedusae u. Scyphomedusae für 1910 nebst Nachträgen zum Bericht für 1909; **Schepotieff, 106.**

Ctenophora, Siphonophora, Graptolitida für 1910 u. 1911; **Laackmann, 74.**

STRUCTURE. 0807

General.

Anatomy and development of *Tjalfiella tristoma*; **Mortensen, 85.**

Morphologie und Histologie von *Hippopodius*; **Münter, 89.**

Anatomy of *Limnocodium sowerbyi*; **Douglas, 33.**

Anatomy of *Caspionema* (*Moerisia*) *pallasi*, a medusa from the Caspian Sea; **Derzhavin, 32.**

Beiträge zur Histologie der Medusen; **Krasińska, 71.**

Une tubulaire hermaphrodite; **Pérez, 97.**

Hologloea dubia n. sp. an organism of doubtful affinity; **Spencer, 113.**

Special Organs.

Über die verschiedenen Glocken der Siphonophoren und ihre Bedeutung; **Moser, 86.**

Über den Verschlussmechanismus der Stielporen bei *Pennatula* und *Pteroeides*; **Niedermeyer, 93.**

Dimorphismus der Gonangien bei *Laomedea angulata* Hincks; **Babić, 5.**

Die Nesselzellen; **Jacobsohn, 62.**

Aid in the study of nematocysts; **Taylor, 116.**

PHYSIOLOGY. 0811

Über reflexarme Tiere (Tiere mit peripheren Nervennetzen). III. Die acraspeden Medusen; **Jordan, 64.**

Über den Verschlussmechanismus der Stielporen bei *Pennatula* und *Pteroeides*; **Niedermeyer, 93.**

Differentiation and senescence in hydroids; **Torrey & Martin, 123.**

Über die Oxydationsprozesse bei der Regeneration und Heteromorphose von *Tubularia*; **Schönborn, 107.**

Note on geotropism in *Corymorpha*; **Torrey, 121.**

Experiments on germinal localization of the egg of *Beroë ovata*; **Yatsu, 131.**

DEVELOPMENT. 0815

General.

The early development of the eggs of Hydromedusae; **Hargitt, 55.**

Bemerkungen zur Entwicklung der Narcomedusen; **Hanitzsch, 54.**

The embryology of *Stomatoca apicata*; **Rittenhouse, 102.**

Recherches sur le développement des Lucernaires; **Wietrzykowski, 129.**

Über die Entwicklung der Graptolithen, speziell von *Monograptus*; **Mank, 80.**

Die Reduktion des Scyphopolypen und der Ephyra von *Chrysaora*; **Hadži, 50.**

Ist *Trichoplax* die umgewandelte Planula einer Hydromeduse?; **Schubotz, 108.**

Die Hauptglocken, Spezialschwimmglocken und Geschlechtsglocken der Siphonophoren, ihre Entwicklung und Bedeutung; **Moser, 87.**

Ontogenie der Otocysten von *Limnocodium*; **Douglas, 33.**

Bud-formation, etc.

Formation of medusa-buds of Hydromedusae; **Hadži, 52.**

Note sur un cas de scissiparité chez les Hydroïdes; **Billard, 12.**

Budding of *Eleutheria* and the Margelidae; **Braem, 19**: of *Eleutheria claparedei*; **Drzewina & Bohn, 34.**

Histoire du kyste pédieux chez *Chrysaora* et sa signification; **Hérouard, 57.**

Über die Podozysten der Scyphopolypen; **Hadži, 49.**

Ovum and Oogenesis.

Eggs of Hydromedusae; **Hargitt, 55.**

Structure of Ctenophore egg; **Yatsu, 130.**

Untersuchungen über die Eibildung der Meduse *Pelagia*; **Schaxel, 105.**

Regeneration and Experimental.

Regeneration in *Corymorpha*; **Torrey, 119**: in *C. palma*; **Torrey, 120.**

Oxygen and polarity in *Tubularia*; **Torrey, 122.**

Experiments on cell-division with Ctenophore egg; **Yatsu, 136.**

Experiments on germinal localization of the egg of *Beroë ovata*; **Yatsu, 131.**

ETHOLOGY. 0819

Notes on the habits and distribution of *Limnocnida indica*; **Gravely & Agharkar, 43.**

Sur la biologie des Pennatulidés; **Gravier, 47.**

La sensibilité des animaux aux variations de pression; **Bohn, 16.**

Selbstumstülpung und Armamputation durch ein Wimperinfusor (*Prorodon teres*) bei *Hydra fusca*; **Reukauf, 99.**

La vie des coraux; **Gravier, 44.**

Bancs et récifs de coraux; **Joubin, 65.**

VARIATION AND PHYLOGENY. 0823

Variation.

Variations et anomalies chez une Méduse *Eleutheria dichotoma* Quatref.; **Drzewina & Bohn, 35.**

Variations in the form of *Gorgonia verrucosa*; **Thomson, 118.**

Missbildungen bei Hydra; **Koch, 70.**

Phylogeny.

Phylogeny of Hydromedusae; **Hadži, 52.**

Phylogeny and classification of Alcyonaria; **Kinoshita, 67.**

Der Stammbaum der Seefedern; **Kükenthal, 73.**

Systematic position of the Ctenophora; **Mortensen, 84.**

DISTRIBUTION. 0827

1. Recent.

A. MARINE.

Atlantic (including Mediterranean).

Contributions to the knowledge of the Icelandic hydroids; **Sæmundsson, 104.**

North Sea Hydroids, *Cladocarpus* sp. n.; **Ritchie, 100.**

Trondhjemsfjord, Norwegen, Alcyonaria; **Broch, 22.**

Présence des Physalies et de Velelles dans le Pas-de-Calais au début d'avril 1912; **Caullery, 26.**

Hydroïdes de Roscoff; **Billard, 15.**

Matériaux pour la faune des Actinies des côtes de France. Les Actinies de Roscoff; **Nafflyan, 91.**

Biscayan Plankton—Siphonophora. Collected by H.M.S. Research; **Bigelow, 11.**

Über Ceriantharien des Mittelmeers, *Arachnactis lobianoi* sp. n.; **Carlgren, 25.**

Adriatische Hydromedusen; **Neppi, 91a**

Adriatische Hydroiden; **Broch, 20.**

Die Hydromedusen des Golfes von Triest, *Tiara tergestina* sp. n.; **Neppi & Stiasny, 92.**

Ctenophores of the Atlantic coast of North America, spp. n.; **Mayer, 82.**

Notes on New England hydroids; **Fraser, 38.**

Some hydroids of Beaufort, North Carolina, spp. n.; **Fraser, 37.**

Cape of Good Hope, new Hydrocoralline; **Hickson, 59.**

Indian Ocean.

Sur les récifs coralliens de la baie de Tadjourah (Golfe d'Aden); **Gravier, 45.**

A new type of alcyonarian from the Indian Ocean; **Thomson, 117.**

Singapore, Alcyonaria, 4 spp. n.; **Shann, 110.**

Pacific Ocean.

Descriptions of the Alcyonaria collected by the U.S. Fisheries steamer "Albatross," mainly in Japanese waters, gen. & spp. n.; **Nutting, 95.**

Preliminary account of one new genus and three new species of *Medusae* from the Philippines; **Bigelow, 9.**

The fishery resources of the Philippine islands, Precious corals (Alcyonaria); **Seale, 109.**

Calyptoblast Hydroids from the Kermadec Islands; **Hilgendorf, 60.**

Invertebrates from the Kermadec Islands; **Benham, 8.**

The ctenophores. (Reports on the scientific results of the expedition to the eastern tropical Pacific, in charge of Alexander Agassiz, by the U.S. Fish commission steamer "Albatross"; **Bigelow, 10.**

Arctic.

Gewässer des Russischen Reiches und angrenzender Gebiete, *Hydroidea* spp. n.; **Linko, 77.**

Kola-Fjord, *Alcyonacea* spp. n.; **Broch, 23.**

Antarctic.

Die craspedoten Medusen der Deutschen Südpolar-Expedition 1901–1903; **Vanhöffen, 124.**

Die Alcyonaria der Deutschen Südpolar-Expedition 1901–1903; **Kükenthal, 72.**

B. Freshwater and Lacustrine.

Cordylophora lacustris, distribution; **Stechow, 115.**

Caspionema pallasi, a new medusa from the Caspian Sea; **Derzhavin, 31**: **Boulenger, 17**: **Derzhavin, 32.**

Species of *Hydra* found in New Zealand; **Archey, 3**: Hydren des Soliger-Sees (Russ.); **Molčanov, 83.**

Limnocnida indica sp. n. from the Bombay Presidency; **Annandale, 2**: *L. indica*, habits and distribution; **Gravely & Agharkar, 43.**

Rhodesia, *Limnocnida* sp. n. from Middle Zambesi; **Boulenger, 18.**

2. Fossil.

Cainozoic.

Eine zweite *Graphularia*-Art (*Gr. creeclii* n. sp.) aus dem mitteloligocänen Meeressand im Mainzer Becken; **Andrée, 1.**

Die Fauna der eozänen Mergel von Vinodol (Ungarisch); **Vogl, 125.**

Mesozoic.

The Sutton Jurassic of the Vancouver group, Vancouver island, Zoantharia spp. n.; **Clapp & Shimer, 27.**

The occurrence of coral reefs in the Triassic of North America; **Smith, 112.**

Palaeozoic.

Arctic Palaeozoic corals; **Lee, 76.**

Coelenteraten des Oberdevons von Muhodjary; **Nifantov, 94.**

Observations on the structure of some coral beds in the Hamilton shale; **Smith, 111.**

Cölenteraten des Devons des Gebirges von Mugodjary; **Nachinson, 90.**

On some new genera and species of Pennsylvanian fossils from the Weweka formation of Oklahoma; **Girty, 42.**

Lower Carboniferous of North West of England, new Madreporarians; **Garwood, 40.**

On the *Dictyonema*-fauna of Navy island, New Brunswick, spp. n.; **Hahn, 53.**

The Lower Silurie shales of the Mohawk valley, Graptolites spp. n.; **Ruedemann, 103.**

Middle Cambrian medusae, gen. n.; **Walcott, 128.**

Pleurobrachia brunnea **sp. n.** New Jersey coast, MAYER Carnegie Inst Pub. No. **162** p. 14 pl. i.

Tiuerfe lactea p. 17 pl. iii, *bechleri* p. 17 pl. iii, **spp. n.** Florida coast, MAYER Carnegie Inst. Pub. No. **162**.

Tjalfiella tristoma, anatomy, development, MORTENSEN Danish Ingolf Exped. **5** pt. 2.—MORTENSEN Verh. D. zool. Ges. **22** p. 367.

V. ECHINODERMA

ARRANGED BY

HERBERT L. HAWKINS, M.Sc., F.G.S.

CONTENTS.

PAGE

I. Titles 4

II. Subject Index :—

General = 1003 :—

1. Historical 22
2. General treatises (vacant)
3. Bibliography 22
4. Pedagogy 22
5. Museums 23
6. Technique 23

Structure = 1007 :—

1. General accounts 23
2. Symmetries 23
3. Homologies of classes (vacant)
4. Skeletal tissue 23
5. Skeletal anatomy 23
6. Hydrocœl, etc. 23
7. Other body cavities 23
8. Digestive system 24
9. Nervous system, etc. 24
10. Mesodermal tissues 24
11. Axial organ (vacant)
12. Generative organs 24

PAGE

Physiology = 1011:—

1. General.. 24
2. Circulation (vacant)
3. Respiration 24
4. Alimentation, etc. 24
5. Excretion 24
6. Sensation (vacant)
7. Experimental 24

Development = 1015:—

1. General principles 24
2. General accounts 24
3. Formation of gonads 25
4. Oviposition, etc. 25
5. Larval stages 25
6. Organogeny 25
7. Post-larval growth-stages 25
8. Experimental Embryology 25

Ethology = 1019:—

1. General accounts 26
2. Special habits 26
3. Habitat.. 26
4. Feeding 26
5. Defence and protection 26
6. Locomotion 26
7. Autotomy and Regeneration 26
8. Parasites and Commensals 26
9. Protection of young 27
10. Sexual dimorphism (vacant)
11. Relation to other animals 27
12. Geological aspect (vacant)
13. Phaenology 27

Variation and Aetiology = 1023:—

1. Variation in form 27
2. Variation in colour (vacant)
3. Variation, meristic, numerical 27
4. Variation, meristic, homoeotic 27
5. Variation, teratological 27
6. Variation, bionomic 27
7. Variation, mutational 27
8. Evolution, general principles.. 27
9. Relations to other phyla (vacant)
10. Phylogeny 27

PAGE

Distribution = 1027 :—

A. Geographical—

i. General 27
ii. Atlantic Ocean, etc 28
iii. Indian Ocean, etc. 28
iv. Pacific Ocean, etc. 28
v. Arctic Ocean, etc. 28
vi. Antarctic Ocean, etc. 28

B. Geological—

i. General 28
ii. Cainozoic—
(a) General 29
(b) Pleistocene 29
(c) Pliocene 29
(d) Miocene 29
(e) Oligocene 29
(f) Eocene 29

iii. Mesozoic—
(a) General 29
(b) Cretaceous (1. Upper; 2. Lower) 29
(c) Jurassic (1. Upper; 2. Lower) 30
(d) Lias (and Rhaetic) 31
(e) Trias 31

iv. Palaeozoic—
(a) General 31
(b) Permian 31
(c) Permo-Carboniferous 31
(d) Upper Carboniferous 31
(e) Lower Carboniferous 31
(f) Devonian 32
(g) Silurian 32
(h) Ordovician 32
(k) Cambrian 32

III. Systematic Index = 1031 :—

A. General 32
B. Holothurioidea 32
C. Echinoidea 35
D. Asteroidea 50
E. Ophiuroidea 52
F. Crinoidea 53
G. Cystidea 61
H. Blastoidea 61
K. Incertae Sedis 61

I.—TITLES.

The symbols in square brackets, following each title, are arranged as in the Record of Echinoderma for 1911, and are explained there p. 4.

II.—SUBJECT INDEX.

GENERAL. 1003

1. Historical.

Of study of free-swimming Crinoids; **Clark, A. H., 74**: of past research on Holectypoida; **Hawkins, 191.**

3. Bibliography.

Of Indian Ocean crinoids; **Clark, A. H., 88**: of Fossil Holothurians, **Clark, H. L., 91**: of Holectypoida: **Hawkins, 191**: of Echini; **Jackson, 220.**

Russian literature to 1885; **Köppen, 250**: Echinodermata (mit Einschluss der fossilen); **Strand, 386** & **387.**

Review of Index to Desor's synopsis"; **Anon, 9**: of Jackson's Phylogeny of the Echini; **Schuchert, 375.**

Discussion of name *Psilosoma* Pomel; **Fourtau, 149**: Nomenklatur der Bohadschiidae; **Poche, 342.**

4. Pedagogy.

Terminology of Echinoid test; **Jackson, 220.**

5. Museums.

Ech., from Cenomanian of Westfalia in Geol. Landesmuseum, Berlin; **Böhm, 35**: Hamburg museum, Crinoids; **Clark, A. H., 77**: Museum fuer Naturkunde, Berlin, Crinoids; **Clark, A. H., 78**: Indian Ocean crinoids in Indian Museum; **Clark, A. H., 88**; Musée d'Hist. nat. d'Elbeuf, Holoth., Ech.; **Coulon, 107**: Mus. di Firenze. Ech. miocenici; **Di Stefani, 123**.

Echinus in Mus. de Mont-de-Marsan; **Dubalen, 138**: Ech. in Mus. Nat.-hist., Paris; **Gravier, 174, 175 & 176**.

Ech. in coll. G. E. Dibley, Lower Sydenham; **Chatwin, 69**: Collections containing types of Palaeozoic Echini; **Jackson, 220**.

Colour changes in Echinoids after death; **Southwell, 383**.

6. Technique.

Keeping *Ech.* in Aquaria; **Bade, 14 & 15**: Method of producing heterogeneous hybrids in *Ech.*; **Moore, 323**.

Study of larval *Solaster endeca*; **Gemmill, 159**: Rearing *Asterias* larvae; **Gemmill, 163 & 165**.

Plankton-methods; **Gräf, 172**.

Preservation of recent Echini and method of rendering sutures distinct; **Jackson, 220**.

Method of sectioning *Echinus* spines; **Bradshaw, 45**: Plaster models of *Lapworthura*; **Sollas & Sollas, 382**.

Radiography of fossil Ech; **Blot, 33**.

STRUCTURE. 1007

1. General accounts.

Bathory & Kneif, 24: **Ludwig & Hamann, 302**.

Of *Labidoplax buskii*; **Becher, 25**; of Japanese Astrophytidae (Japanese); **Matsumoto, 311**: of Astrophiurae; **Matsumoto, 312**: of Holothurioidea, actinopodous; **Mitsukuri, 319**; of Phyllophorinae; **Ohshima, 337**.

Of Echinoids, especially Holectypoida; **Hawkins, 191**: of Echini; **Jackson, 220**.

Pigment of *Strongylocentrotus*; **Awerinzew, 13**.

Of Starfish; **Duncan & Duncan, 139**; of *Solaster endeca*; **Gemmill, 159**: of *Asterias*; **McKechnie, 309**: of *Asteronyx loveni*; **Mortensen, 330**: of *Astropecten*; **Müllegger, 332**: of regenerating *Linckia*; **Richters, 355**.

Histologie der Crinoiden; **Reichensperger, 347**.

2. Symmetries.

Of Echini; **Jackson, 220**.

4. Skeletal tissue.

Of larval *Solaster endeca*; **Gemmill, 159**.

5. Skeletal Anatomy.

Spines, pedicellariae, etc., of various families of Echini; **Clark, H. L., 94**; Sphaeridia and radioles of *Echinarachnius*; **Gregory, 178**: "Cystacanths" and pedicellariae in Echinoids; **Mortensen, 328**.

Apical system of Holectypoida; **Hawkins, 189**: Plates of buccal membrane in *Echinocorys*; **Hawkins, 190**: Of Irregular Echinoids, especially Holectypoida; **Hawkins, 191**: of Echinoids, especially *Strongylocentrotus* and Palaeozoic genera; **Jackson, 220**.

Ambulacral covering plates in *Protopalaeaster*; **Hudson, 219**: **Raymond, 346**.

Of Gorgonocephalinae; **Döderlein, 126**: Arms of *Ophioglypha*; **Munson, 333**: of *Lapworthura* and other Palaeozoic Ophiurids; **Sollas & Sollas, 382**.

Of Crinoidea; **Clark, A. H., 74**: Plates of Pentacrinoid larvae of Free Crinoids; **Clark, A. H., 82**.

6. Hydrocoel, etc.

Polian vesicles of *Thyone*; **Scott, 376**.

Ambulacra and podia of Irregular Echinoids; **Hawkins, 191**: Ambulacra of Echini, especially Palaeozoic; **Jackson, 220**.

Of larval *Solaster endeca*; **Gemmill, 159**: Double hydrocoel in *Asterias* larvae; **Gemmill, 163**.

7. Other body cavities.

Contents of cavities in *Ech*; **Russo, 367**.

8. Digestive system.

Jaws and Perignathic girdle in Holectypoida and Clypeastroida; **Hawkins, 191**: Aristotle's lantern and perignathic girdle of Echini, especially *Strongylocentrotus*; **Jackson, 220.**

Pharynx of Asteroidea; **Simroth, 378.**

9. Nervous system, etc.

Statoliths and other nervous structures in *Solaster endeca*; **Gemmill, 159**: Ocular plates of Echini; **Jackson, 220.**

10. Mesodermal tissues.

Cytology of muscles; **Prenant, 343.**

12. Generative organs.

Genital plates of Echini; **Jackson, 220.**

PHYSIOLOGY. 1011

1. General.

Driesch, 136: **Ludwig & Hamann, 302.**

Locomotor, etc., functions of Lantern in *Echinus*; **Gemmill, 164**: righting movements of starfish; **Moore, 320.**

Impossibility of precision in studying physiological cycles in *Ech.*; **Bohn, 36.**

3. Respiration.

Of Irregular Echinoids; **Hawkins, 191**: of Asteroids; **Bohn, 37 & 38.**

Consumption of oxygen in proportion to size; **Buytendijk, 59.**

L'effet de l'inanition sur la larve de l'Oursin; **Runnström, 364.**

4. Alimentation, etc.

Adaptation of feeding habits to environment in *Ast.*; **Clarke, 96.**

Methods of feeding among Irregular Echinoids; **Hawkins, 191.**

5. Excretion.

Chez la larve de *Strongylocentrotus*; **Runnström, 363.**

Statozysten im *Synapta*; **Buddenbrock, 56.**

7. Experimental.

Henneberg, 200: **Henze, 202.**

Regenerationsphysiologie bei Ophiuren; **Morgulis, 325.**

Influence of extracts from *Ech.* on blood-pressure; **Brown & Joseph, 51**: Attempt to form Cytolysins and Precipitins in *Ech.*; **Drew, 135**; Influence of Ox-blood serum on ova of *Ech.*; **Robertson, 358 & 359.**

Narcosis of *Ech.* by Alcohol; **Fühner, 155.**

Arsenic occurring in *Ech.*; **Beitrand, 29.**

Chromatin-formation; **Boveri, 44.**

Rendering resistant starfish eggs normal; **Lillie, 275.**

Osmotic and surface tension phenomena of cells; **McClendon, 307**: on internal fluids of *Ech.*; **Russo, 367 & 368.**

Cytological experiments in *Ech.*; **Bonnevie, 40.**

Reactions of sea urchins and starfish to light; **Cowles, 109.**

Influence of ultra-violet light; **Henri & Henri, 201**: of Radium on Cells; **Hertwig, O., 209 & 210.**

Coagulation of blood in *Ech.*; **Bottazzi, 42.**

Abhängigkeit der Kernplasmarelation von der Temperatur und vom Reifezustand der Eier bei *Strongylocentrotus*; **Koehler, 241.**

Die relative Giftigkeit von distillierten Wasser u.s.w. für Seetiere; **Loeb, 281.**

Antieytologische Wirkung von Salzen mit zweiwertigen Metallen; **Loeb, 285.**

Theory of tropisms **Loeb, 283.**

DEVELOPMENT. 1015

1. General Principles.

Natural parthenogenesis; **Lécaillon, 267.**

2. General accounts.

Acloque, **1 & 2**; **Ludwig & Hamann, 302.**

Of crinoidea; **Clark, A. H., 74.**

Of *Solaster endeca*; **Gemmill, 159.**

The catalase of sea urchin eggs before and after fertilization; **Amberg & Winternitz, 4.**

3. Formation of Gonads.

Kupelwieser, 259.

In *Echinocardium*; **Caullery, 61 & 62**: in *Antedon*; **Cotronei, 103**: in *Solaster endeca*; **Gemmill, 159.**

Fascia vitellogena nell'oocite di *Antedon*; **Cotronei, 102**: Relation of Zona pellucida to formation of fertilization membrane in egg of *Strongylocentrotus*; **Elder, 141**: Fertilization membrane of Arbacia eggs; **Kite, 238**: ... of Ech.; **Meves, 315 & 316**: ...ical layer of eggs of *Ech*; **Moore, ...1**: Follicolo e pellicida in uovo degli ...chinidi; **Russo, 366.**

Cytology of hybrid ova; **Doncaster & Gray, 129.**

Hermaphroditismus bei *Asterias rubens*; **Retzius, 352.**

4. Oviposition, etc.

Spawning and fertilization of *Solaster endeca*; **Gemmill, 159.**

Bei Reifungsprozess der Eier, Asteriden; **Retzius, 351.**

Relation of first cleavage plane to entrance-point of sperm; **Just, 232**: Mittelstückes des Echinidenspermiums im befruchteten Ei bis zum Ende der ersten Furchungsteilung; **Meves, 317.**

5. Larval stages.

In Plankton; **Ditlevsen, 124**: **Gräf, 172**: **Linko, 276 & 277.**

Auricularia from Antarctic; **MacBride, 305**: *Auricularia* and Spatangid plutei in gulf of Trieste; **Stiasny, 385.**

Larvae of *Ech.*, and *Ast.*; **Joubin, 226**: of *Echinometra lucunter*; **Mortensen, 331.**

Variation in larvae of *Strongylocentrotus*; **Runnström, 365.**

Metamerism of echinopluteus; **Grave, 173.**

L'appareil excréteur chez la larve de *Strongylocentrotus*; **Runnström, 363.**

Of *Solaster endeca*; **Gemmill, 159 & 162.**

Pentacrinoid larvae; **Clark, A. H., 82.**

6. Organogeny.

Gurwitsch, 184.

Organverlagerungen der Echinodermen-Metamorphose; **Heider, 196.**

Differenzierung der Keimblätter; **Fischel, 145.**

Formation of tentacles in the Cucumariidae; **Ohshima, 337**: Histogenese der *Synapta*; **Reimers, 348.**

Of Echini; **Jackson, 220**: *Echinocardium cordatum* and *Parechinus miliaris*; **Théel, 393**: of *Solaster endeca*; **Gemmill, 159.**

7. Post-larval growth stages.

Young ?*Cucumaria* from Antarctic; **MacBride, 305.**

Development of peristome plates in *Echinocardium*; **Hawkins, 190**: Among Holectypoida and other Irregular Echinoids; **Hawkins, 191**; of Echinoid test; **Jackson, 220.**

Asteronyx loveni; **Mortensen, 330**: *Linckia*; **Richters, 355.**

8. Experimental Embryology.

Harvey, 187 & 188: **Hertwig, R., 211**: **Konopacki, 249**: **Loeb & Wasteneys, 294 & 295.**

Homogene und heterogene Verschmelzungen bei Echinidenkeimen; **Bierens de Haan, 31.**

Maturation of parthenogenetic eggs; **Doncaster, 128.**

Effect of prevention of oxidation of spermatozoa; **Drzewina & Bohn, 137**: Oxydationsvorgänge im befruchteten und unbefruchteten Seesternei; **Loeb & Wasteneys, 296**: L'effet de l'inanition sur la larve de l'Oursin; **Runnström, 364.**

Rendering resistant Starfish eggs normal for fertilization; **Lillie, 275**: Artificial fertilization; **Loeb, 280, 282, 284, 286, 287, 288, 289, 290, 291, 292**: Sperm of *Arbacia* in plasma; **Morse, 326**: Fertilization of eggs of *Strongylocentrotus*; **Robertson, 356 & 357.**

Influence of temperature on Echinoid ova; **Bury, 58**: of surroundings on reproductive periodicity; **Lo Bianco, 279.**

Influence of Mg Cl on *Arbacia* sperm; **Budington, 57**: Das Schicksal des mit Radium bestrahlten Spermachromatins im Seeigelei; **Hertwig, 209**: Effect of Amido acids on *Arbacia* eggs; **King, 237**: Action of Isotonic solutions of Neutral Salts on ova of *Asterias* and *Arbacia*; **Lillie, 274**: Influence of Sr Cl_2 on Sea-Urchin eggs; **Moore, 322.**

Cytology of hybrid ova; **Doncaster & Gray, 129**: Inheritance of aboral process of *Echinocardium*-Pluteus; **Fuchs, 153**: Hybrid Echinoid larvae; **Fuchs, 154**: Heredity in heterogeneous hybrids; **Loeb, 293**: Hybrid Echinoid larvae; **MacBride, 304**: Heterogeneous hybridization in *Ech.*; **Moore, 323**: Inheritance in hybrids; **Shearer, De Morgan & Fuchs, 372**: Hybridization **Shearer** *et alii*, **373**: Hybrids of *Arbacia*, *Mellita* and *Moira*; **Tennent, 391**: Chromosomes of hybrid ova; **Tennent, 389, 390 & 392.**

Production of monstrosities; **Goldfarb, 168**: Grafted and multiple embryos in *Arbacia*; **Goldfarb, 169 & 170.**

Einfluss der Spermatozoen von *Ciona* auf unbefruchteten Eier von *Strongylocentrotus*; **Herwerden, 212 & 213**: Befruchtung der Seeigeleier durch Wurmsperma; **Kupelwieser, 260.**

ETHOLOGY. 1019

1. General accounts.

Ludwig & Hamann, 302.

Behavior of starfish; **Jennings, 222**: *Asteronyx loveni*; **Mortensen, 330.**

Of recent crinoids; **Clark, A. H., 74.**

Post-mortem colour changes in *Clypeaster*, *Echinodiscus*, *Echinolampas*, *Laganum*; **Southwell, 383.**

2. Special habits.

Osmotic equilibrium of fluids of *Ech.*; **Russo, 368.**

Phosphorescence of Ech.; **Lloyd, 278.**

Righting movements of starfish; **Moore, 320.**

Reactions of sea urchins and star-fish to light; **Cowles, 109**: Phototaxis in *Arbacia*; **Holmes, 215**: Reaction of *Asterias* to light; **MacCurdy, 308.**

3. Habitat.

Of Adriatic *Ech.*; **Cory, 99**: of various Echinoderms in bay of Arcachon; **Cuénot, 112**: Ech., of rocky shores; **Joubin, 227**: of sandy shores; **Joubin, 228**: of Arctic and Antarctic Ech.; **Kükenthal, 258.**

Of recent crinoids; **Clark, A. H., 72.**

Influence of habitat on evolution of Irregular Echinoids; **Hawkins, 191.**

4. Feeding.

Feeding habits of Spatangids; **Gandolfi-Hornyold, 157.**

Adaptation of feeding habits to environment in *Ast.*; **Clarke, 96.**

5. Defence and Protection.

Toxins of pedicellariae; **Koryalof, 253.**

6. Locomotion.

Aristotle's lantern used in locomotion; **Gemmill, 160 & 161.**

7. Autotomy and Regeneration.

Henneberg, 200: **Korscheldt 251 & 252.**

Influence of nervous system in regeneration; **Goldfarb, 167**: **Morgulis, 325.**

Influence in natural selection; **Glaser, 166.**

Discharge of Cuverian organs of *Holothuria*; **Mines, 318**: Evisceration of *Thyone*, **Scott, 376.**

Self-evisceration in *Henricia*; **Colgan, 97.**

Regeneration bei Crinoiden; **Reichensperger, 347.**

8. Parasites and Commensals.

Of Holoth., Ech., Ast. Oph.; **Cuénot, 112.**

Copepods parasitic on *Phormosoma*; **Brian, 48**: *Fabia chilensis* (Crustacean) commensal with *Strongylocentrotus gibbosus*; **Jackson, 220**: *Echinophyces* on *Ctenocidaris*; **Koehler, 246.**

Gasteropods parasitic on *Palmipes* and *Stellaster*; **Koehler & Vaney, 247.**

Infection expérimentale de l'*Amphiura* par *Rhopalura ophiocomae*; **Caullery & Lavallée, 63.**

9. Protection of young.

Brutpflege der Echinodermen in den südpolaren Küstengebieten; **Östergren, 339.**

11. Relation to other animals.

Borings in chalk *Cidaris*-spines; **Grönwall, 180.**

Jurassic *Cidaris*-spines used in India as a drug; **Hooper, 216.**

13. Phenology.

Of larvae in plankton; **Cialona, 71.**

Relation of sea-temperature to occurrence of *Cucumaria* and *Echinaster*; **Appellöf, 11.**

VARIATION AND ÆTIOLOGY. 1023

1. Variation in form.

Among Holectypoida; **Hawkins, 191**: Among Echini; **Jackson, 220.**

Form varieties of *Hemiaster toxasteriformis*; **Fourtau, 149.**

3. Variation, meristic, numerical.

Number of Polian vesicles in *Thyone*; **Scott, 376.**

Tetramerous and hexamerous symmetries in Echini; **Jackson, 220**: 4-rayed *Echinolampas*; **Lambert, 262.**

Asterias rubens with 4 and 9 arms; **Cuénot, 112.**

4. Variation, Meristic, Homoeotic.

In apical system of Echini; **Jackson, 220.**

Metamerism of echinopluteus; **Grave, 173**: in larvae of *Strongylocentrotus*; **Runnström, 365.**

5. Variation, teratological.

Among Echini; **Jackson, 220.**

Double hydrocoel in *Asterias* larvae; **Gemmill, 163**: in hybrid *Echinus* larva; **MacBride, 304.**

Homogene und heterogene Verschmelzungen bei Echinidenkeimen; **Bierens de Haan, 31.**

Production of monstrosities; **Goldfarb, 168.**

6. Variation, bionomic.

In *Strongylocentrotus* and *Tripneustes*; **Jackson, 220.**

Annual changes in gonads of *Echinocardium*; **Caullery, 62.**

Inheritance of characters in hybrids of *Arbacia*, *Mellita* and *Moira*; **Tennent, 391.**

7. Variation, mutational.

Zonal variants of *Echinocorys* and *Bourgueticrinus*; **Brydone, 55.**

8. Evolution, general principles.

Bastian, 22: **Knipe, 240.**

"Localized stages" as indices of Evolution; **Jackson, 220.**

Of structures of Ophiurids; **Sollas & Sollas, 382.**

State of evolution of Australian crinoid fauna; **Clark, A. H., 75.**

Influence of autotomy and regeneration on Natural Selection; **Glaser, 166.**

10. Phylogeny.

Bastian, 22.

Evolution of apical system in Holectypoida; **Hawkins, 189.**

Of Echinoids; **Clark, H. L., 92**: of Holectypoida and other Irregular Echinoids; **Hawkins, 191.**

Of the Echini; **Jackson, 228**: **Schuchert, 375.**

DISTRIBUTION. 1027

A. GEOGRAPHICAL.

i. General.

Of many genera of Echini, chiefly *Strongylocentrotus* and *Tripneustes*; **Jackson, 220.**

Of recent Crinoids; **Clark, A. H., 72 & 74.**

Of *Ech.*, larvae in plankton; **Herdman, 203.**

Recent *Holoth.*, and *Ech.*, in Mus. hist. Nat. Elbeuf; **Coulon, 107.**

ii. Atlantic Ocean, etc.

English Channel, *Ech.*; **Crawshay, 111**: Port Erin, *Ech.*, and larvae; **Herdman, 204**: **Herdman & Thompson, 205**: Isle of Wight, *Holoth.*, *Ech.*, *Ast.*, *Oph.*; **Morey, 324**: Ireland; **Nichols, 334**: Clare Island; **Nichols, 335**: Robin Hood's Bay, Yorks., *Ech.*, *Ast.*, *Oph.*; **Woods, 400**.

Sognefjord, Norwegian Echinodermata; **Grieg, 179**: Norway, Molpadides; **Hérouard, 207**: Katharina Hafen und Barents-Meere plankton; **Linko, 276 & 277**.

Messina, *Ech.* larvae in plankton; **Cialona, 71**: Adriatic, localities and habitat of *Ech.*; **Cori, 99**.

Bassin d'Arcachon, *Ech.*; **Cuénot, 112**: French coasts, *Ech.*, and *Ast.*, of rocky shores; **Joubin, 227**: of sandy shores; **Joubin, 228**: Mediterranean, *Holoth.*, *Ast.*, *Crin.*; **Joubin, 229**: Gomera (Canary Is.), list of *Ech.*; **May, 314**: Gulf of Trieste, *Auricularia* and Spatangid plutei; **Stiasny, 385**.

Holothuries nouvelles des campagnes du Princesse-Alice; **Hérouard, 208**.

Sargasso sea, *Pelagothuria*; **Bouvier, 43**: Gulf of Mexico, Comatulidæ; **Hartlaub, 186**: Bahamas, List of starfishes; **Northrop, 336**.

iii. Indian Ocean, etc.

Crinoids [mostly free-swimming]; **Clark, A. H., 86 & 88**: Stalked crinoids; **Döderlein, 127**.

Somaliland, *Holoth.*, *Ech.*, *Ast.*, *Oph.*; **Gravier, 177**: Gulf of Suez, *Holothuria* sp. n.; **Helfer, 198 & 199**: Madagascar, Crinoidea; **Clark, A. H., 77**.

Solomon Islands, Crinoids; **Clark, A. H., 85**.

iv. Pacific Ocean, etc.

Australia, Crinoidea; **Clark, A. H., 74 & 75**.

China, Crinoidea; **Clark, A. H., 77**.

Japan, *Euryalidae*; **Matsumoto, 310**.

Philippines, *Astrochalcis*; **Mortensen, 329**.

Hawaiian and other Pacific Echini; **Clark, H. L., 94**: Hawaiian Is., *Nauma-chocrinus*; **Clark, A. H., 76**.

Dutch East Indies, spp. n., in *Antedonidae* and *Atelecrinidae*; **Clark, A. H., 79**: spp. n. in *Comasteridae* and *Zygometridae*; **Clark, 80**: spp. n., in *Charitometridae*; **Clark, A. H., 81**: spp. n., in Calometridae and Thalassometridae; **Clark, A. H., 83**: spp. n. *Himerometridae*, *Mariametridae* and *Calobometridae*; **Clark, A. H., 87**.

Peru, *Holoth.*, *Ech.*, *Ast.*, *Oph.*; **Clark, H. L., 90**.

Laguna [Cal.], *Ech.*; **Baker, 18**.

v. Arctic Ocean, etc.

Kükenthal, 258.

vi. Antarctic Ocean, etc.

Kükenthal, 258: Origin of fauna (Echinoids); **Dv, 140**.

Scottish National Expedition; **Bruce, 52**.

German expedition to S. W. Australia, Ophiurids; **Koehler, 242**.

Ech., *Ast.*, and *Oph.*, of Charcot expedition and Antarctic generally; **Koehler, 243 & 246**.

Ech. recueillis par le "Pourquoi-Pas?" **Koehler, 245**.

National Antarctic exped., young Holothurians; **MacBride, 305**.

"Scotia" exped., Holothurians; **Vaney, 394**.

Kermadec Islands, *Actinopyga*, *Chirodota*; **Benham, 28**.

Port Phillip Bay, *Taeniopyrus*; **Joshua, 225**.

Süd-Shetland Ins., *Ophiopeltia*; **Koehler, 244**: Aru Islands, Holothurians, **Vaney, 395**.

B. Geological.

i. General.

Of Echini; **Jackson, 220**.

Of crinoidea; **Clark, A. H., 74**.

Fossil *Ech.* in Mus. hist. nat. Elbeuf; **Coulon, 107**.

ii. Cainozoic.

a. General.

Belgique, Echinides; **Lericne, 271.**

Vincentin, *Ech.*; **Kranz, 254.**

United States; **Clark & Twitchell, 95.**

S. Australia, *Ech.* and *Crin.*; **Howchin, 218.**

Clypeastroida; **Hawkins, 191.**

b. Pleistocene.

La Puglia, Echinoidea; **Sacco, 370.**

c. Pliocene.

Bassin du Rhone, Terr. néogènes, *Amphiope*, *Clypeaster*, *Cyathocidaris*, *Fibularia*, *Leiocidaris*, *Prionechinus*, *Psammechinus*, *Scutella*; **Lambert, 264.**

La Puglia, Echinoidea; **Sacco, 370.**

Sinai, *Clypeaster*; **Fourtau, 148.**

d. Miocene.

Eggenburg, *Brissomorpha*, *Clypeaster*, *Echinolampas*, *Psammechinus*, *Spatangus*, *Antedon*; **Schaffer, 371.**

Mar'asch, *Clypeaster*, *Echinolampas*; **Broili, 49.**

Palermo, *Cidaris*; **Checchia-Rispoli, 70**: Malta, Echini; **Di Stefani, 123**: Umbria, Echinoid fragments; **Lotti, 297**: Sardegna, *Clypeaster*, *Amphiope*; **Lovisato, 298 & 299**: Cagliari, *Clypeaster* spp. n.; **Lovisato, 300**: Cava Roncheisa (Castel S. Pietro), *Macropneustes*; **Lupano, 303**: La Puglia, Echinoidea; **Sacco, 370.**

California, range of spp. of *Astrodapsis*, *Clypeaster*, *Linthia*, *Scutaster*, *Scutella*, *Asterias*, *Amphiura*; **Smith, 381.**

Seymour Island, Patagonian molasse, Crinoid remains; **Anderson, 8.**

e. Oligocene.

Près de Bordeaux, Aquitanien, *Scutella*; **Fallot, 142**: Hérault, *Amphiope*, *Scutella*; **Jacquemet, 221.**

Hohenpeissenbergs, *Schizaster*; **Bärtling, 20**: Hungary, lignites, *Conoclypeus*, *Schizaster*; **Gaál, 156.**

Madagascar, Echinoids; **Lemoine, 268.**

f. Eocene.

Aude, Echinoidea; **Ecrier, 41**: S. W France, *Ech.*; **Clark, 89**: Chalosse, Nummulitique, list of *Ech.*, and *Cyclaster* sp. n.; **Cottreau, 104**: Bauge, *Ech.*; **Couffon, 106**: Barroubio, calc. nummulitiques, *Pygorhynchus*; **Deperet, 118 & 119**: Corbières septentrionales, *Ech.*, *Ast.*, *Crin.*; **Doncieux, 130**: **Lambert, 261**: Saint-Vallier, *Ech.*; **Guebhard, 183**: Bordelais, *Ech.*; **Lambert, 262.**

Interlaken, *Ech.*; **Beck, 26.**

Friuli, Echinoidea; **Dainelli, 114**: Crinoidea; **Dainelli, 115**: La Puglia, *Conoclypeus*, *Echinolampas*; **Sacco, 370**: Palermo ?Bartonien, *Cidaris*, **Silvestri, 377.**

Montjuich, Echinoidea; **Almera, 3**: Vicentin, Eocene, Echinoidea; **Kranz, 255**: Hungary, Mergel von Vinodol; **Vogl, 397.**

Porto Santo und Selvagem (Canaries), Echinoidea; **Joksimowitsch, 224.**

Sahara, *Hemiaster*, etc.; **Cortier & Lemoine, 100**: Egypt, Echinoidea; **Fourtau, 149 & 150**: Bende, S. Nigeria, ?Eocene, *Fibularia* sp. n.; **Hawkins, 192.**

Mesopotamia, *Conoclypeus*; **Broili, 49.**

S.E. of Murray River, S. Australia, *Fibularia*, *Lovenia*, *Scutella*; **Brown, 50**; King Island, Australia, ? Eocene, *Cidaris*; **Chapman, 67.**

iii. Mesozoic.

a. General.

Echinoids; **Jackson, 220.**

Echinides mézozoiques de Liban; **Fourtau, 151.**

United States; **Clark & Twitchell, 95.**

b. Cretaceous.

1. *Upper Cretaceous.*

Range of *Micraster*; **Chatwin, 69**: *Caenholectypus*, *Conulus*, *Coptodiscus*, *Discoidea*, *Lanieria*; **Hawkins, 191**: Upper Chalk, Echinoidea; **Jukes-Browne, 231.**

Brighton, *Marsupites*-zone, *Echinocorys* with buccal plates; **Hawkins, 190**: Devonshire Chalk, Echinoidea; **Brydone, 54**: Hampshire Chalk, Lists of

Ech., and specially *Echinocorys*, *Offaster*, *Epiaynetierinus*; **Brydone, 55**: Kent, Chalk Rock, *Holaster*, *Micraster*; **Dibley, 122**: Keston, *M. cocaynaianum* zone, Echinoids; **Dibley, 121**: Watlington, Upper Chalk, *Micraster*, Middle Chalk, *Conulus*; **Hawkins, 194**.

Alpes Maritimes, *Ech.*, **Kilian & Reboul, 234**: Basse-Pyrénées, Cénomanien, &c., *Ech.*; **Fournier, 147**: Blois, niveau à *Cidaricrinus*, *Micraster*; **Filliozat, 144**: Dieppe, Upper Chalk, *Micraster*; **Fortin, 146**: Orthez (Pyrénées), Maëstrichtien, Echinoidea; **Bresson, 47**: Picardie, Craie phosphatée, *Cidaris*; **Leriche, 272**.

Locle et Chaux-de-Fonds, *Ech.*; **Favre, 143**.

Friuli, Echinoids; **Dainelli, 113**: Vicentino, *Cardiaster*, *Lampadocorys*, *Stenonia*; **De Stefani, 120**.

Baugé, Cénomanien, *Ech.*; **Couffon, 106**: Canaries, *Discoidea*; **Cottreau & Lemoine, 105**.

Amberg, *Cidaris*; **Kohler, 248**: Lattengebirge, Kreide, *Ech.*; **Lebling, 266**: Lemberg, *mucronata* zone, *Ech.*; **Rogala, 360**: Teutoburger Wald, Turonian, *Ech.*; **Haack, 185**: Westfalen, Cenoman, *Ech.*; **Böhm, 35**.

Constantine, Maëstrichtien, *Ech.*; **Blayac, 32**: Egypt, Chalk, *Ech.*; **Fourtau, 149**: Soudan, *Plesiolampas*, *Linthia*: **Lemoine, 269**.

Ostafrika, Kreide, *Pygurus*; **Krenkel, 256**.

Persia, Danian, *Ornithaster*; **Douvillé, 132**: Pusht-i-Kûh, Kreide, *Actinopleura*; **Broili, 49**.

Peru, Vracon und Cenoman, Echinoidea; **Schlagintweit, 374**.

2. *Lower Cretaceous.*

Anorthopygus, *Caenholectypus*, *Conulus*, *Dicoelectypus*, *Discoidea*, *Macropygus*; **Hawkins, 191**.

Faringdon, Lower Greensand (Aptian), *Cidaris*; **Hawkins, 195**: Kent, Atherfield Clay, *Enallaster*; **Lamplugh & Kitchin, 265**: Yorkshire, *Ech.*; **Paris, 340 & Richardson, 354**.

Alais et Nîmes, Barrémien, *Ech.*; **Roman, 362**: Alpes Maritimes, *Ech.*; **Kilian & Reboul, 234**: Basses-Pyrénées, Albien, &c., *Ech.*; **Fournier, 147**; Grande Chartreuse, Valanginien, *Pygurus*; **Kilian & Reboul, 235**: S. O. France, Valanginien, *Cidaris*, *Collyrites*, *Metapeltastes*; **Kilian, 233**.

Hautes Alpes, *Toxaster*, *Millericrinus*; **Collet, 98**: Interlaken, Valangien, *Ech.* and *Crin.*; Hauterivien, *Ech.*; Barrémien, *Ech.* and *Crin.*; **Beck, 26**.

Monte Bianco, Barrémien, *Toxaster*; **Baldacci, 17**.

Syrie, Aptien-Turonien, Echinides; **Fourtau, 151**.

c. Jurassic

1. *Upper Jurassic.*

Holectypus, *Macropygus*, *Megapygus*, *Pileus*, *Pygaster*; **Hawkins, 191**.

Kent, Corallian, *Ech.*; Kimmeridge Clay, *Pygurus*; *Saccocoma* and other *Crin.*; **Lamplugh & Kitchin, 265**.

Entre l'Aube et la Loire, Kimmeridgien, *Acrosalenia*, *Astedon*; **Lemoine & Rouyer, 270**.

Jura, Rauracien, *Millericrinus*, *Clypeus*; **Rollier, 361**: Locle et Chaux-de-Fonds, *Ech.*; **Favre, 143**.

Las Losillas, Tithonian, *Collyrites*; **Jiménez de Cisneros, 223**.

Vicentino, Tithonian, *Collyrites*; *Metapeltastes*; **De Stefani, 120**.

Litauen, Popilany, unter Oxford, *Collyrites*, *Echinobrissus*, *Pseudodiadema*, Asteroidea; **Boden, 34**: Moravia, Tithonian, *Crin.*; **Remes, 349**: Teutoburger Wald, Kimmeridge, *Pygurus*; **Haack, 185**.

Greenland, Séquanien, *Pentagonaster*; **Ravn, 344**.

Wyoming, Sundance formation, *Pentacrinus*; **Darton, 116**.

2. *Lower Jurassic.*

Holectypus, *Macropygus*, *Pygaster*; **Hawkins, 191**.

Kent, Great Oolite, *Acrosalenia*; **Lamplugh & Kitchin, 265**.

Sud-Oranais, Bathonien, *Acrosalenia*; **Douvillé, 131**.

Luxemburg, Dogger, *Pentacrinus*; **Benecke, 27**.

d. Lias and Rhaetic.

Upper Lias, *Galeropygus*, *Pygaster*; **Hawkins, 191.**

Kent, Crinoidea; **Lamplugh & Kitchin, 265.**

Rigaud, Lias inf., *Pentacrinus*; **Bertrand, 30.**

Portugal, Lias, Crinoidea; **Renz, 350.**

Hartz Mts., Lias, *Crin.*; **Brandes, 46**: Interlaken, *Crin.*; **Beck, 26**: SüdAlpen, *Millericrinus*, *Pentacrinus*; **Kronecker, 257.**

Araberg, *Collyrites*; **Kohler, 248**: Herzogstand-Heimgarten, *Pentacrinus*; **Knauer, 239**: Luxembourg, *Astropecten*, *Pentacrinus*; **Werveke, 399**: Teutoburger Wald, *Pentacrinus*; **Haack, 185.**

Algèrie, *Acrosalenia*; **Jourdy, 230.**

Leicestershire, Rhaetic, *Ophiolepis*; **Horwood, 217**: Warwickshire, Rhaetic, *Pseudopedina*; **Richardson, 353.**

Gard, Rhaetic, *Pentacrinus*; **Brun & Vedel, 53.**

e. Trias.

Rio Loppo, near S. Carlo, *Crin.*; **Franchi, 152.**

Kotel, Bulgaria, Upper Trias, *Cidaris*; **Bakalow, 16.**

Lattengebirge, *Crin.*; **Lebling, 266**: Wellengebirges, *Pentacrinus*; **Heim, 197.**

N. America, *Pentacrinus*; **Smith, 380.**

iv. Palaeozoic.

a. General.

Echinoid-; **Jackson, 220.**

Wisconsin, type specimens of *Crin.*, *Cyst.*, *Blast.*; **Teller, 388.**

b. Permian.

England, *Miocidaris*; **Jackson, 220**: Durham, *Archaeocidaris Cyathocrinus*; **Woolacott, 401.**

Germany, *Miocidaris*; **Jackson, 220.**

Daralagoz (Transcaucasus), crinoids; **Bonnet, 39.**

India, *Archaeocidaris*; **Jackson, 220.**

Australia, *Archaeocidaris*; **Jackson, 220.**

Timor, *Timorocrinus*; **Wanner, 398.**

America, *Archaeocidaris*, *Meekechinus*; **Jackson, 220.**

c. Permo-Carboniferous.

West Australia, Crinoid remains; **Maitland, 306.**

d. Upper Carboniferous.

England, *Archaeocidaris*; **Jackson, 220.**

Russia, *Archaeocidaris*; **Jackson, 220.**

America, *Archaeocidaris*, *Lepidesthes*; **Jackson, 220**: Davis County, Iowa, *Crin.*; **Arey, 12**: Wyoming, Casper Formation, *Archaeocidaris*; **Darton, 116.**

e. Lower Carboniferous.

Britain, *Archaeocidaris*, *Lepidechinus*, *Lepidesthes*, *Lovenechinus*, *Maccoya*, *Melonechinus*, *Palaechinus*, *Perischocidaris*, *Perischodomus*, *Pholidocidaris*; **Jackson, 220**: Gower (Glamorgan), Carb. Limestone, Crinoidea; **Dixon & Vaughan, 125**: Somerset, Carb. Limestone, Tournaisian *Zaphrentis* zone, *Oroplacrinus*, Visean *Dibunophyllum* (D 2) zone, *Acentrotremites*; **Bather, 23.**

France, *Lepidechinus*, *Pholidocidaris*; **Jackson, 220**: Tournai, Calc. carbonifère, *Crin.*; **Delépine, 117.**

Belgium, *Kominekocidaris*, *Proterocidaris*; **Jackson, 220.**

Germany, *Pholidocidaris*, *Tornquistellus*; **Jackson, 220.**

Golenog, Crinoidea; **Cramer, 110**: Russia, *Lepidesthes*, *Melonechinus*; **Jackson, 220.**

America, *Archaeocidaris*, *Hyattechinus*, *Lepidechinus*, *Lepidesthes*, *Lepidocentrus*, *Lepidocidaris*, *Lovenechinus*, *Maccoya*, *Melonechinus*, *Miocidaris*, *Oligoporus*, *Palaechinus*, *Perischodomus*, *Pholidechinus*, *Pholidocidaris*; **Jackson, 220**: Ohio, Maxville limestone, *Cyathocrinus*, *Pentremites*; **Morse, 327.**

f. Devonian.

Devonshire, *Lepidesthes Pholidocidaris*; **Jackson, 220.**

Ardenne, Gedinnien inf., *Protaster*; **Leriche, 273**: Basses-Pyrénées, *Crin.*; **Fournier, 147.**

Asturia (N. Spain), *Crin.*; **Grosch, 182.**

Carnic alps, *Encrinites*; **Gortani, 171**: Palazza, *? Rhodocrinus*; **Vinassa de Regny, 396.**

Germany, *Eocidaris, Lepidocentrus, Xenocidaris*; **Jackson, 220**: Eifel, Coblenzschichten, *Crin.*; **Drevermann, 134.**

Antitaurus, *Crin.*; **Broili, 49.**

Bolivia, Crinoid remains; **Steinmann & Hoek, 384.**

Logan, Montana, Three forks shale, *Mariacrinus*, Madison Limestone, *Schoenaster*; **Raymond, 345**: Porcupine Valley, Crinoidea; **Kindle, 236.**

New York, Upper Devonian, *Lepidocentrus*; **Jackson, 220**: *Lepidechinoides*; **Olason, 338.**

Nova Scotia, Moydart Formation, Crinoids; **Ami, 5 & 6.**

g. Silurian.

England, ?Llandovery, *Maccoya*, Wenlock Limestone, *?Lepidocentrus*, Lower Ludlow, *Echinocystites, Palaeodiscus*; **Jackson, 220**: Kilbride Peninsula, Llandovery, Crinoids; **Gardiner & Reynolds, 158**: Leintwardine, *Lepidarthrus*; **Sollas & Sollas, 382.**

Thüringer Wald, Untersilur, *Crin., Echinosphaerites*: **Hess von Wichdorff, 214.**

Victoria, *Hapalocrinus*; **Chapman, 66.**

Kirkfield, Ont., Trenton Lst., *Glaucocr.* and *Glyptocr.*; **Parks & Alcock, 341**: New York, Niagara group, *Koninckocidaris*; **Jackson, 220.**

h. Ordovician.

Crozon, *Cargocystites*; **Barrois, 19.**

Barcelona, *Echinosphaerites*; **Almera, 3.**

Russia, *Bothriocidaris*; **Jackson, 220**: Baltic Provinces, Cystidea; **Bassler, 21.**

Ontario, Utica formation, *Crin.*; **Ami, 7**: Ottawa, Black river Lst.; *Protopalaeaster*; **Hudson, 219**: **Raymond, 345.**

k. Cambrian.

Middle Cambrian, *Eldonia*; **Clark, A. H., 84.**

Bray Head, co. Wicklow, ? *Eldonia*: **Ryan & Hallissy, 369**: Malvern Hills, Hollybush sandstone, Echinoderm spines; Bronsil Shales, *Macrocystella*; **Groom, 181.**

Bohmen, *Compocrinus, Acanthocystites, Chilocystis, Stromatocystites*; **Želizko, 402.**

America, Cambrian holothurians; **Douvillé, 133.**

United States, Huronian, Crinoid remains; **Cayeux, 64 & 65.**

H. Crinoids of Indian Ocean.—

O. aduncata p. 776, *O. carpenteri* p. 775, *O. thetidis* p. 777, CLARK, A. H. Mem. Austr. Mus. 4.—*O. japonica* p. 400, *O. serripinna occidentalis* p. 401, CLARK, A. H. Proc. U. S. Nation. Mus. **43**.—*O. serripinna*, CLARK, A. H. Smithsonian Inst. Misc. Coll. **60** No. 10 p. 27.

O. caledoniae **sp. n.**, New Caledonia, CLARK, A. H. Crinoids of Indian Ocean p. 175.—*O. intermedia* **sp. n.**, Andaman Is., CLARK, A. H. Rec. Indian Mus. **7** p. 269.—*O. marginata* **sp. n.** E. Indies 113 metres, CLARK Ann. Mag. Nat. Hist. (8) **10** p. 40.

Oreometra **gen. n.** of *Calometridae*, type *O. mariae* **sp. n.** unknown loc., CLARK, A. H. Crinoids of Indian Ocean p. 179.

Oxymetra crinacea, CLARK, A. H. T.c. p. 132.—CLARK, A. H. Smithsonian Inst. Misc. Coll. **60** No. 10 p. 21.

Nanometra elymene **sp. n.**, Malay Archipelago, CLARK, A. H. Leiden Notes Mus. Jentink **34** p. 143.

Naumachocrinus **gen. n.**, of *Phrynocrinidae*, *N. hawaiiensis* **sp. n.** Hawaiian Is., CLARK, A. H. Proc. U. S. Nation. Mus. **42** p. 196.

Neometra sibogae **sp. n.**, Siboga Stat. 305, CLARK, A. H. Zool. Anz. Leipzig **39** p. 121.

Pachylometra angusticalyx, *P. distincta*, p. 216, *P. flexilis* p. 219, *P. inaequalis* p. 216, *P. incensata* p. 220 fig. 40, *P. investigatoris* p. 216 fig. 39, *P. levigata* p. 224, *P. luna* p. 219, *P. macilenta* p. 222 fig. 41, *P. patula* p. 219, *P. robusta* p. 220, *P. sclateri* p. 216, *P. selene* p. 219, *P. septentrionalis* p. 215, *P. smithi* p. 220, CLARK, A. H. Crinoids of Indian Ocean.

P. crassa p. 77, *P. fragilis* p. 79, *P. helius* p. 78, **spp. n.**, East Indies, CLARK, A. H. Washington D.C. Proc. Biol. Soc. **25**.

Palaeocomatella **gen. n.** type *Actinometra difficilis*, CLARK, A. H. T.c. p. 18.

Parametra alba flava p. 214, *P. compressa*, *P. fisheri*, *P. ornata* p. 213, CLARK, A. H. Crinoids of Indian Ocean.

Pectinometra **gen. n.** of *Calometridae*, type *Antedon flavopurpurea* p. 185, *P. carinata*, *P. flavopurpurea* p. 188, *P. magnifica* p. 185 fig. 31, *P. separata* p. 188, CLARK, A. H. T.c.

†Pentacrinus personatus, BENECKE Centralbl. f. Min. Stuttgart 1901 p. 407. —*†P.* sp., Unter Oxford, Popilany, Roman Geol. u. Pal. Abh. Jena **10** p. 76. —*†P. pulonati*, BRUN & VEDEL Nimes Bul. Soc. etud. Sci. nat. **38** p. 39.—*†P. bavaricus*, KNAUER Geogn. Jahreshefte **18** p. 80.

Pentametrocrinus diomedeae p. 250, *P. japonicus*, *P. semperi* p. 251, *P. tuberculatus* p. 250, *P. varians* p. 251, CLARK, A. H. Crinoids of Indian Ocean.—*P. tuberculatus*, CLARK, A. H. Proc. U. S. Nation. Mus. **43** p. 108.

Perometra afra, *P. diomedeae*, *P. pusilla*, CLARK, A. H. Crinoids of Indian Ocean p. 233.

Petasometra **gen. n.**, type *Antedon clavae* p. 25, *P. helianthoides* **sp. n.**, Sharks Bay, W. Australia p. 26, CLARK, A. H. Smithsonian Inst. Misc. Coll. **60** No. 10.

Phrynocrinus nudus, CLARK, A. H. Crinoids of Indian Ocean p. 274.

Poecilometra accola, *P. scalaris*, CLARK, A. H. T.c. p. 225.

Pontiometra andersoni, *P. insperatus*, CLARK, A. H. T.c. p. 138.—*P. andersoni*, CLARK, A. H. Proc. U. S. Nation. Mus. **43** p. 397.

Proisocrinus ruberrimus, CLARK, A. H. Crinoids of Indian Ocean p. 272.

Promachocrinus kerguelensis, HARTLAUB Mem. Mus. Comp. Zool. **27** p. 485 pl. xiv fig. 12.

Prometra **subgen. n.** of *Calobometra*, type *P. chadwicki*, *P. brevicirra* **sp. n.**, ? India, CLARK, A. H. Crinoids of Indian Ocean p. 321.—*P. laevipinna* p. 37, *P. minima* 80 metres p. 38, *P. parca* 36 metres p. 39 **spp. n.** E. Indies, CLARK Ann. Mag. Nat. Hist. (8) **10**.

Psathyrometra bigradata, *P. borealis* p. 234, *P. congesta* p. 235, *P. erithryzon*, *P. fragilis* p. 234, *P. gracillima* p. 236 fig. 44, *P. mira* p. 235 fig. 43, *P. parca* p. 236, *P. profundorum* p. 235, CLARK, A. H. Crinoids of Indian Ocean.

P. anomala p. 143 *P. inusitata* p. 141, *P. major* p. 140, *P. minima* p. 141, **spp. n.** Malay Archipelago, CLARK, A. H. Leiden Notes Mus. Jentink **34**.

Pterometra splendida, *P. trichopoda* fig. 32, CLARK, A. H. Crinoids of Indian Ocean p. 190.

P. ceausta **sp. n.** Siboga Stat. 117, Clark, A. H. Zool. Anz. Leipzig **39**.

Ptilocrinus antarcticus, P. primatus, Clark, A. H. Crinoids of Indian Ocean, p. 273.

Ptilometra macronema, P. mülleri, Clark, A. H. T.c. p. 189.—*P. macronema* p. 781, *P. mülleri* p. 783, Clark, A. H. Mem. Austr. Mus. **4**.—*P. macronema,* Clark, A. H. Proc. U. S. Nation. Mus. **43** p. 401.

Rhizocrinus chuni, R. sceleri, Clark, A. H. Crinoids of Indian Ocean p. 279.—*R. robustus,* Clark, A. H. Proc. U. S. Nation. Mus. **43** p. 408.—*R.* p. 11, *R. carpenteri* p. 12 pl. iv fig. 7 pl. ix fig. 2, *R. (Bythocrinus) chuni* p. 14 pl. iii figs. 1–7 pl. v figs. 2 & 4 pl. vii figs. 1–5 pl. viii figs. 1–10, Döderlein Wiss. Ergebn. Deutsche Tiefsee Exped. **17** 1.

R. (Bythocrinus) braueri **sp. n.** India, Döderlein T.c. p. 16 pl. iv figs. 1–6 pl. v. fig. 3 pl. vi figs. 1–6.

†*Rhodocrinus* sp., Grosch N. Jahrb. f. Min. **33** p. 742.—†?*R. cerus,* Vinassa de Regny Roma Boll. Com. geol (5) **42** p. 224.

Selenometra aranea fig. 15, *S. finschii, S. gracilipes, S. viridis,* Clark, A. H. Crinoids of Indian Ocean p. 139.—*S. finschii,* Clark, A. H. Proc. U. S. Nation. Mus. **43** p. 397.

S. tenuicirra **sp. n.** E. Indies 82 metres, Clark Ann. Mag. Nat. Hist. (8) **10** p. 32.

Stenometra cristata, S. diadema, S. dorsata, S. hana p. 210, *S. quinquecostata* p. 209, Clark, A. H. Crinoids of Indian Ocean.

S. acuta **sp. n.,** Siboga-Stat. 201, Clark, A. H. Zool. Anz. Leipzig **39** p. 428.

Stephanometra coronata p. 133 fig. 13, *S. echinus* p. 132, *S. indica, S. marginata,* p. 135, *S. monacantha* p. 136 fig. 14, *S. oxyacantha, S. spicata, S. spinipinna* p. 132, *S. tenuipinna* p. 135, *S. tuberculata* p. 133, Clark, A. H. Crinoids of Indian Ocean.—*S. monacantha* Clark, A. H. Mem. Austr. Mus. **4** p. 769.—*S. oxyacantha* p. 19, *S. tuberculata* p. 20, Clark, A. H. Smithsonian Inst. Misc. Coll. **60** No. 19.—*S. oxyacantha* p. 82, *S. spicata* p. 84, Clark, A. H. Sydney Rec. Austr. Mus. **9**.—*S. tenuipinna* p. 397, *S. tuberculata* p. 396, Clark, A. H. Proc. U. S. Nation. Mus. **43**.

Stirometra acutiradia p. 211, *S. arachnoidea* p. 213, *S. brevradia* p. 211, *S. spinicirra* p. 210, Clark, A. H. Crinoids of Indian Ocean.—*S. arachnoides,* Clark, A. H. Mem. Austr. Mus. **4** p. 789.

S. carinifera **sp. n.,** Indian Ocean, Clark, A. H. Crinoids of Indian Ocean p. 211.

Strotometra hepburniana, S. parvipinna, Clark, A. H. T.c. p. 226.

S. ornatissima p. 82, *S. priamus* p. 81, **spp. n.,** East Indies, Clark, A. H. Washington D.C. Proc. Biol. Soc. **25**.

Teliocrinus **gen. n.** near *Metacrinus. T. asper* **sp. n.** Sumatra Döderlein Wiss. Ergebn. Deutsche Tiefsee Exped. **17** 1 p. 22 pl. ix figs. 3–6 pl. x figs. 1–5 pl. xi figs. 1 & 2.

Thalassocrinus gestifer, Clark, A. H. Crinoids of Indian Ocean p. 273.

Thalassometra agassizii p. 203, *T. annandalei* p. 195 fig. 35, *T. aster* p. 206, *T. alternata* p. 204 fig. 38, *T. bispinosa, T. echinata* p. 208, *T. gigantea, T. hawaiiensis* p. 203, *T. hirsuta* p. 206, *T. infelix* p. 203, *T. latipinna* p. 208, *T. magnicirra* p. 198, *T. pergracilis, T. pubescens* p. 207, *T. rustica* p. 198 fig. 36, *T. scutifera* p. 201 fig. 37, *T. villosa* p. 203, Clark, A. H. T.c.

Thalassometra marginata **sp. n.,** Maldives, Clark, A. H. T.c. p. 206.—*T. magna, T. maryaritifera* p. 425 *T. marginalis* p. 424, *T perplexa* p. 426, **spp. n.** E. Indies. Clark, A. H. Zool. Anz., Leipzig **39**.

Thaumatometra abyssorum, T. alternata, T. comaster, T. exigua, T. isis p. 246, *T. laevis, T. parva, T. parvula* p. 247, *T. remota, T. tenuis* p. 245, Clark, A. H. Crinoids of Indian Ocean.

T. aleyon p. 148, *T. thysbe* p. 149, **spp. n.** Malay Archipelago, Clark, A. H. Leiden Notes Mus. Jentink **34**.

Thysanometra tenellöides, T. tenuicirra, Clark, A. H. Crinoids of Indian Ocean p. 244.

†*Timorocrinus* **gen. n.,** *T. mirabilis* type, Permian, Timor, Wanner Centralbl. f. Min. Stuttgart 1912 p. 599 figs. 1–5.

Toxometra paupera, Clark, A. H. Crinoids of Indian Ocean p. 232.

T. purpurea **sp. n.** Malay Archipelago, Clark, A. H. Leiden Notes Mus. Jentink **34** p. 138.

Trichometra explicata p. 239, *T. obscura* p. 240 fig. 45, *T. versator* p. 240, CLARK, A. H. Crinoids of Indian Ocean.

T. plana **sp. n.** Indian Ocean, CLARK, A. H. T.c. p. 240.—*T. brevipes* p. 147, *T. delicata* p. 146, **app. n.** Malay Archipelago, CLARK, A. H. Leiden Notes Mus. Jentink **34**.

Tropiometra afra, *T. carinata* p. 176, *T. encrinus* p. 177 fig. 29, CLARK, A. H. Crinoids of Indian Ocean.—*T. afra*, *T. encrinus* p. 780, CLARK, A. H. Mem. Austr. Mus. **4**.—*T. carinata* p. 403, *T. encrinus*, *T. picta* p. 402, CLARK, A. H. Proc. U. S. Nation. Mus. **43**.

T. audouini **sp. n.** Red Sea, CLARK A. H. T.c. p. 401.

†*Uintacrinus*, BEYRICH Stratigraphy of Chalk of Hants pl. iii fig. 33.

Zenometra triserialis, CLARK, A. H. Crinoids of Indian Ocean p. 234.

Zygometra comata fig. 6, *Z. elegans* p. 104, *Z. microdiscus* p. 103, *Z. multiradiata* p. 101, *Z. pristina* p. 106, CLARK, A. H. Crinoids of Indian Ocean.—*Z. elegans* p. 762, *Z. microdiscus* p. 760, *Z. multiradiata* p. 761, CLARK, A. H. Mem. Austr. Mus. **4**.—*Z. elegans*, *Z. microdiscus*, CLARK, A. H. Proc. U. S. Nation. Mus. **43** p. 393.—*Z. microdiscus*, CLARK, A. H. Smithsonian Inst. Misc. Coll. **60** No. 10 p. 11.

Z. andromeda **sp. n.**, India, CLARK, A. H. Rec. Indian Mus. **7** p. 268.—*Z. punctata* **sp. n.**, East Indies, CLARK, A. H. Washington D.C. Proc. Biol. Soc. **25** p. 24.

G. CYSTIDEA.

†Types of Cystids of Wisconsin, TELLER Milwaukee Bull. Wis. Nat. Hist. Soc. **9** p. 201.

†*Acanthocystites briareus*?, ŽELÍZKO, Prag Rozpr. České Ak. Franz. Jos. **20** No. 10 p. 6.

†*Chilocystis bohemica*, ŽELÍZKO T.c. p. 6.

†*Discocystis*, †*D. haukaskiensis*, *optatus*, *sampsoni*, transferred from Echinoidea, JACKSON Phylogeny of Echini p. 458.

†*Echinosphaerites* sp. Untersilur, Thuringer Wald, HESS VON WICHDORFF Berlin, Monatsber. D. geol. Ges. **1911** p. 156.

†*Macrocystella matriae*, GROOM Q. J. Geol. Soc. **58** p. 108.

†*Stromatocystites pentangularis* **sp. n.**, Cambrian, Böhmen, ŽELÍZKO Prag Rozpr. České Ak. Franz. Jos. **20** No. 10 p. 6.

H. BLASTOIDEA.

†*Acentrotremites ellipticus*, BATHER Bristol Proc. Nat. Soc. (4) **3** part 2 p. 18 figs. 3–7.

†*Orophocrinus orbignyanus*, BATHER T.c. p. 17 figs. 1 & 2.

†*Pentremites elegans*, MORSE Columbus Proc. Ohio Acad. Sci. **5** (7) p. 360 fig. 2.

†*Pentremitidea milwaukensis*, TELLER Milwaukee Bull. Wis. Nat. Hist. Soc. **9** p. 203.

K. INCERTAE SEDIS.

Owen's (1862) "Recent Encrinite" is probably an *Umbellularia*, CLARK, A. H. Washington Proc. Biol. Soc. **24** p. 98.

Myriastiches, †*M. gigas*, "Of doubtful nature", rejected from Echinoidea, JACKSON Phylogeny of Echini p. 458.

†*Palaeocidaris exilis* Eichwald "a small unrecognizable mass," JACKSON T.c. p. 453 textfig.

†*Palaeodiscus gothicus* Wyville Thomson unrecognizable, JACKSON T.c.

†*Palaeospatangus skiptoni* Harte unrecognizable, JACKSON T.c.

†*Spatangopsis*, †*S. costata*? a medusoid, JACKSON T.c. p. 458.

VI. VERMIDEA

ARRANGED BY

J. S. DUNKERLY.

PLATYHELMINTHIA. NEMERTINEA. MESOZOA.

SUBJECT INDEX.

COMPREHENSIVE AND GENERAL. 1203

Bibliography.

Jahresbericht über Platyhelminthes für 1910; **Fuhrmann, 136.**

Jahresbericht über Nemertinea für 1910; **Nägler, 320.**

Schweizerische Turbellarienlitteratur; **Hofsten & Steinmann, 203.**

Turbellaria, nachtrag zum Litteraturverzeichnis; **Graff, 156.**

Index-catalogue of Cestoda and cestodaria; **Stiles & Hassall, 475.**

Treatises, Text-books.

Parasitologie des animaux domestiques; **Neveu-Lemaire, 323.**

Nomenclature.

Names of Cestodes and Trematodes of man for "Official List"; **Stiles, 474.**

Economics.

Relation to Disease.

Trematoda.

Diseases due to Trematodes in domestic animals; **Neveu-Lemaire, 323.**

Trematodes in Pfortader und Gallengängen der Rinder (Russ.); **Petrov, 356.**

Gewebsveränderungen in der Leber durch *Bilharzia haematobia* (Russ.); **Petrov, 357.**

Bilharziosis; **da Silva, 446.**

La bilharziose; **Conor & Bénazet, 83.**

La bilharziose intestinale; **Conor, 82.**

La bilharziose vésicale; **Neveu-Lemaire & Roton, 326.**

Schistosomiasis; **Stannus, 466.**

Concurrent infection by five species of intestinal worms, including *Schistosoma mansoni*; **Riley, 394.**

Wanderungsweg des *Schistosomum japonicum* von der Haut bis zum Pfortadersystem; **Miyagawa, 301.**

Cestoda.

Bandwurmseuche (Ligulosis) der Brachsen; **Willer, 516.**

Diseases due to Cestodes in domestic animals; **Neveu-Lemaire, 323.**

Allgemeiner Cysticercose beim Schafe. (Holländisch.); **Büchli, 57.**

Cysticercus tenuicollis in Herzmuskel des Rentieres (Russ.); **Radionov, 376.**

Echinococcus polymorphus in Herzkammerwand eines Ochsen (Russ); **Rotov, 404.**

Die Taeniasis des Hundes; **Seibold, 428.**

Echinococcus in Knochen (Russ); **Skrjatin, 451.**

Echinococcose chez les Singes; **Dévé, 96.**

Ténias et tuberculose; **Pérard, 353.**

Multilokulären Gehirnechinokokk; **Eichhorst, 101.**

Ciste da echinococco nel cavo peritoneale; **Tarozzi, 483.**

Echinococcus hydatidosus von ungewöhnlicher Grösse; **Herrmann, 193.**

Finnen des Hakenbandwurms im menschlichen Hirn; **Glaesner, 148.**

Zystizerken im vierten Ventrikel; **Oschmann, 345.**

Cysticercus racemosus, 4-ten Ventrikel des Menschen (Russ); **Schuligin, 426.**

Platyhelminthia des Zentralnervensystems; **Henneberg, 188.**

Method of Infection—Transmission.

Flies, carriers of tapeworm eggs; **Leon, 251.**

Schistosomum haematobium, transmission; **Milton, 296.**

Structure. 1207

General.

Turbellaria:—

Anatomische Studien über Turbellarien; **Sekera, 429.**

Anatomie neuer Turbellarien aus der Olisthanellini; **Sekera, 431.**

Anatomie der Gattung *Sorocelis*; **Muth, 318.**

Trematoda:—

Bau einiger Trematoden-Arten; **Looss, 262.**

Structure of trematodes from frogs; **Johnston, 219.**

Morphologie des *Distomum pulmonale*; **Kubo, 242.**

Anatomy of *Gyrocotyle* ; **Ward, 501.**

Structure of *Lecanogenea arcanum* ; **Osborn, 345.**

Structure of *Telorchis leptus* sp. n. ; **Barker & Covey, 22.**

Anatomy of *Vallisia striata* ; **Monticelli, 310.**

Cestoda :—

Avian and Mammalian Cestodes, anatomy ; **Beddard, 34-37.**

Cyclophyllidae Anatomie (Russ.) ; **Cholodkovskij, 72.**

Anatomy of *Coenomorphus linguatula* ; **Johnstone, 225.**

Bau von *Cysticercus racemosus* (Russ.) ; **Schuligin, 426.**

Anatomy of *Diphyllobothrium stemmacephalum* ; **Cohn, 74.**

Structure of *Taenia gigantea* ; **MacCallum & MacCallum, 270.**

Length, 70 ft., of human tapeworm ; **Lunn, 269.**

Nemertinea :—

Structure of *Cerebratulus alleni* sp. n. ; **Wynhoff, 514.**

Anatomie von *Paralineus elisabethae* ; **Schütz, 425.**

Mesozoa :—

Bau der *Rhabdenbroekia planatellae* ; **Schröder, 420 & 421.**

Excretory Organs.

Cestode water vascular system ; **Beddard, 36.**

Nervous and Sensory Systems.

Auricularsinnesorgane der Süsswassertricladen ; **Lang, 246.**

Cerebralorgan der Nemertinen (Holländische) ; **Wijnhoff, 513.**

Myology.

Muskulatur des Skolex der Cestoden ; **Zilluff, 530.**

Myology of scolex ; **Beddard, 36.**

Sexual Organs and Cells.

Genitalia der Süsswassertricladen ; **Burr, 59.**

Uterine spindle of *Planocera inquilina* **Patterson & Wieman, 350.**

Weibliche Genitalwege ; **Odhner, 339.**

Vagina and uterus ; **Beddard, 37.**

Sexualapparat der Tetrarhynchen ; **Pintner, 361.**

Histology, Cytology.

Degenerate mitosis in Cestoda **Young, 523.**

Homéotypie et hétérotypie ; **Dehorne, 93.**

Stäbchen ; **Voss, 499.**

Nesselzellen bei Microstomum ; **Jacobsohn, 214.**

Sensory epithelium ; **Kepner & Taliaferro, 230.**

PHYSIOLOGY. 1211

Various Functions.

Circulation in *Cephalothrix linearis* ; **Stephenson, 467.**

Sensory epithelium ; **Kepner & Taliaferro, 230.**

Geschlechtsthätigkeit ; **Sekera, 430.**

Funktion der Schalen drusen ; **Hofsten, 200.**

L'anaphylaxie avec le liquide de *Cenurus cerebralis* ; **Henry & Ciuca, 190.**

Teniotoxines chez le Cobaye ; **Pomella, 370.**

Toxines vermineuses ; **Weinberg, 508.**

Environmental effects; reactions to stimuli.

Wirkung des Hungers ; **Nusbaum & Oxner, 336.**

Effect of light ; **Bohn, 50.**

Reaction to light ; **Boring, 52.**

Chronotropisme ; **Minkiewicz, 297.**

Effects of amido acids ; **King, 232.**

DEVELOPMENT. 1215

General, Life-Cycle.

Lazokrema ocatum n. g., n. sp. developed from larvae ; **Kobayashi, 235.**

Tetrarhynchus unionifactor, life-history; **Southwell, 460.**

Le cycle évolutif des Orthonectides; **Caullery, 65.**

Tetrarhynchus unionifactor, feeding experiments; **Southwell, 457.**

Sexual and asexual forms in same host; **Beddard, 37.**

Les phases initiales dans l'infection par *Rhopalura ophiocomæ*; **Caullery et Lavallée, 66.**

Regeneration.

Regeneration bei Planarien; **Lang, 245.**

Regeneration der Nemertinen; **Nusbaum und Oxner, 337 & 338.**

Régénération chez les nemertines (Polish); **Oxner, 346 & 347.**

Regeneration der Nemertinen; **Sekera, 430.**

Rigenerazione degli ovari; **Monti, 308.**

Spermatogenesis, Oogenesis, etc.

Ovogenesis and spermatogensis; **Dehorne, 93.**

Ovogenesis der Süsswassertricladen; **Burr, 59.**

Eireifung; **Wassermann, 502 & 503.**

Eischale und Dotterzellen; **Hofsten, 200.**

Fertilization, etc.

Befruchtung und Oviposition bei Süsswassertricladen; **Burr, 59.**

Development.

Supposed polyembryony; **Patterson, 349.**

Effects of amido-acids on development; **King, 232.**

Larval development.

Cercaire à queue bifurquée; **Piraja da Silva, 445.**

Larval trematodes in mesentery; **Nicoll, 329.**

Budding of cysticercus; **Beddard, 37.**

Tetrarhynchus unionifactor, endogenous reproduction in larva; **Southwell, 456.**

Finnen des Hakenlandwurms; **Glaesner, 148.**

Entwicklung des Pilidiums; **Zalenskij, 528.**

ETHOLOGY. 1219

Biology: Behaviour and Habits.

Lebensweise der Turbellarien; **Hofsten, 199.**

Lebensweise der Süsswassernemertinen; **Sekera, 430.**

Wohnorte der *Nemertinen* (Russ.); **Timofejev, 490.**

Movimento di progressione delle proglottidi; **Drago, 98.**

Plankton.

Planarians in aquatic fauna (Pol.); **Car, 63.**

Commensalism.

Symbiosis in Temnocephaloidea; **Annandale, 4.**

Amphistomum conicum è commensale o parassita?; **Barbagallo, 16.**

Parasitism.

Fundorte von Cestoden (Russ.); **Cholodkovskij, 72.**

Platyhelminthia of Colorado; **Hall, 177.**

Zoological Gardens, animals with parasitic worms; **Nicoll, 331.**

Les Plathelminthes parasites des animaux domestiques; **Neveu-Lemaire, 323.**

Infection de l'*Amphiura squamata* par *Rhopalura ophiocomæ*; **Caullery et Lavallée, 66.**

Pearl oyster, *Tetrarhynchus unionifactor* in; **Southwell, 460.**

Graffilla buccinicola in *Buccinum*; **Dakin, 91.**

Cercaire chez *Planorbis*; **Piraja da Silva, 445.**

Trématode parasite du Calmar; **Beauchamp, 29.**

Pleurocercoide aus marinen Copepoden; **Wundsch, 520.**

Platyhelminthia of marine fishes; **Linton, 257.**

Cestodes and Trematodes of fishes; **Johnstone, 225.**

Pesci infetti da Trematoda e Cestoda; **Barbagallo, 18 & 19.**

Trematodes from British fishes; **Nicoll, 333, 334.**

Cestoda of fish; **Schneider, 417.**

New cestodes from fishes; **Hornell, 205.**

Cestodes from marine fishes; **Southwell 458 & 459.**

Fish hosts of *Tetrarhynchus unionifactor*; **Southwell 456.**

Ligulosis in *Abramis brama*; **Willer, 516.**

Parasiten des *Cottus gobio*; **Mola, 303.**

Diplostomum (?) sp. in the brook trout; **Linton, 256**

Crepidostomum farionis (Finnisch); **Jääskeläinen, 213.**

Enoplocotyle minima gen. et sp. n. on *Muraena helena*; **Tagliani, 482.**

Trematodes of frogs; **Johnston, 219.**

Platyhelminthes of *Bufo vulgaris* & *Salamandra maculosa*; **André, 2.**

Platyhelminthes of reptiles; **Johnston, 222.**

Trematode from *Chrysemys marginata*; **Barker & Covey 22.**

Fluss-Schildkroten, *Cephalogonimus retusus* in; **Nickerson, 327.**

Trematodes in *Naja tripudians*; **Nicoll, 330.**

Trematoden und Cestoden der Vögel (Russ.); **Solovjev, 454.**

Vogelbestoden; **Fuhrmann, 137.**

New Cestodes from birds; **Johnston, 220.**

Cestodes d'oiseaux; **Railliet et Henry, 377.**

Cestode sp. n. from bustard; **Beddard, 34**

Prosthogonimus ovatus im Hühnerei (Russ.); **Skriabin, 450.**

Les cestodes du Nandou; **Railliet et Henry, 379.**

Amoebocephala minima sp. n. in pheasant; **Mello, 287.**

Prosthogonimus putschkowskii in *Platalea leucorodia* (Russ.); **Skrïabin, 449.**

Mammalian Cestodes, new; **Beddard, 35–37.**

Trematoda e Cestoda del Maiale; **Barbagallo, 17.**

Cysticercus tenuicollis in *Rangifer tarandus* (Russ.); **Radionov, 376.**

Fasciola hepatica u. *Dicrocoelium lanceolatum* in der Rinder (Russ.); **Petrov, 356.**

Echinococcus im Tibia des Rindes (Russ.); **Skrïabin, 451.**

Hartebeest (*Bubalis* sp.) with *Gastrothylax bubalis* sp. n.; **Innes, 210.**

Anoplocephala plicata chez le cheval barbe; **Bounhiol, 53.**

Cestoden aus *Hyrax*; **Bischoff, 45.**

Teniotoxines chez le Cobaye; **Pomella, 370.**

Fiber zibethicus, Cestodes; **Beddard, 37.**

Cestodes de Phoques; **Railliet et Henry, 378.**

Distomum acutum bei *Putorius putorius*; **Pohl, 369.**

Trematode from cat and dog (Japanese); **Kobayashi, 234.**

Echinococcose chez les Singes; **Dévé, 96.**

Trématodes du chimpanzé et du Callitriche; **Railliet, Henry et Joyeux, 384.**

Taenia spp. in civilised communities; **Ward, 500.**

Bilharziose; **Conor, 82 & 83.**

Cysticercus racemosus in man (Russ.); **Schuligin, 426.**

Schistosomum japonicum; **Miyagawa, 301.**

VARIATION, PHYLOGENY. 1223

Inheritance and Variation.

Ovari diffusi in *Planaria torva*; **Monti, 307.**

Trasposizione; **Moretti, 313.**

Variability in Nemertines; **Stephenson, 467.**

Phylogeny.

Parenté des Turbellariés ; **Beauchamp, 29a.**

Ctenophore verwandt mit *Coeloplana* und *Ctenoplana* ; **Mortensen, 314.**

Planaria alpina als Glazialrelikt ; **Holdhaus, 204.**

Orientation of the cestode strobila ; **Kofoid** and **Watson, 235.**

Phylogeny der Nemertinen ; **Zalenskij, 530.**

DISTRIBUTION. 1227

Vide etiam Ethology.

General.

Vergleichung der Nordamerikanischen und Europäischen Turbellarienfauna ; **Graff, 157.**

Verbreitung der Süsswassernemertinen ; **Sekera, 430.**

Verbreitung der Olisthanellini ; **Sekera, 431.**

Planaria, Verbreitung in Bergbächen ; **Thienemann, 486.**

Verbreitung der Gattung *Sorocelis* ; **Muth, 318.**

Antarctic.

Antarctic cestoda ; **Rennie** and **Reid, 390.**

Cestodes de l'antarctique ; **Railliet** et **Henry, 377** & **378.**

Europe.

Sweden, Nemertinea ; **Gering, 145.**

Russia *Cestoda* spp. n. (Russ.) ; **Cholodkovskij, 72.**

Turbellaria and Trematoda new to (a) British Isles (b) Ireland ; **Southern, 455.**

Polycelis cornuta dans le Jura français ; **Mercier, 289.**

Schweiz, Rhabdocoelen und Alloocoelen ; **Hofsten, 201.**

Revision des schweizerischen Rhabdocoelen und Alloocoelen ; **Hofsten, 199.**

Villefranche, *Nemertinea* spp. nn. Russ. ; **Timofejev, 490.**

Nemertinea of English Channel ; **Wijnhoff, 514.**

Africa.

Ägyptische Sudan und Nord-Uganda, Vogelcestoden ; **Fuhrmann, 137.**

Stilesia in Egypt and Transvaal ; **Gough, 154.**

Asia.

Tobsk, Eingeweidewürmer (Russ.) ; **Kurlov, 243.**

Uralsk, *Cestoda* spp. n. (Russ.) ; **Cholodkovskij, 72.**

Turkestan, Trematoden und Cestoden der Vögel, spp. n. ; **Solovjev, 454.**

Turkestan, *Prosthogonimus* - Arten, sp. n. (Russ.) ; **Skrjabin, 449.**

Japan ; species of Hymenolepis ; **Yoshida, 522.**

India, new fish Cestodes ; **Hornell, 205.**

America.

North American fish Platyhelminthes ; **Linton, 257.**

N. America, larval Trematodes ; **Nicoll, 329.**

California, new polyclads ; **Heath** & **McGregor, 184.**

Planaires terrestres de Costa-Rica ; **Beauchamp, 26.**

Australia.

Platyhelminthes of Australian reptiles ; **Johnston, 222.**

Australian frogs, Trematodes of ; **Johnston, 219.**

II.—SUBJECT INDEX.

GENERAL. 2003

Nordenskjold Schwedischen Südpolar-expedition; **Blochmann, 2.**

Scotia Antartic Voyage; **Jackson, 13.**

STRUCTURE. 2007

Cambrian *Brachiopoda*; general account of shell structure; **Walcott, 28.**

Liothyrina uva, spicula; **Blochmann, 2.**

DEVELOPMENT. 2015

Development of *Lingula* larva (? *L. anatina*); **Sewell, 24.**

Loop of *Macandrevia*; **Jackson, 13.**

AETIOLOGY. 2023

Evolution of Cambrian forms; **Walcott, 28.**

Spirifer mucronatus mutations; **Grabau and Reed, 9.**

Phylogeny of Portlandian, Neocomian and Middle Cretaceous *Rhynchonella* of S. W. France; **Jacob** and **Fallot, 14.**

DISTRIBUTION. 2027

(α) Recent.

Antarctic sp. n. *Liothyrina*; **Jackson, 13.**

Antarctic, occ. *Liothyrina uva, Magellania venosa, Terebratella dorsata*; **Blochmann, 2.**

(β) Fossil.

Cambrian.

Scotland, sp. n. *Lingulella*; **Walcott, 28.**

Portugal, sp. n. *Linguella*; **Walcott, 28.**

Bohemia (Jince); **Želizko, 30.**

Russia, sp. n. *Schizambon*; **Walcott, 28.**

N. America, 10 spp. n.; **Walcott, 28.**

Ordovician.

British Columbia, spp. n. *Lingulella, Obolus*; **Walcott, 29.**

U.S. (Ohio, Indiana and Kentucky), spp. n. *Clitambonites, Plectambonites, Strophomena*; **Foerste, 6.**

Silurian.

Bolivia, spp. n. *Bistramia* (gen. n.) *Lingula, Pizarroa* (gen. n.) *Tunaria* (gen. n.); **Hoek, 12.**

India (Kashmir) occ. few sp.; **Reed, 23.**

Devonian.

Belgium, sp. n. *Stropheodonta*; **Asselbergs, 1.**

Germany (Greifenstein), sp. n. *Terebratula*; **Hermann, 11.**

Devons von Mugodjary (Russia) sp. n. *Productus*; **Nachimson, 19.**

Oberdevons von Muhodjary, spp. n. *Athyris, Atrypa, Rhynchonella*; **Nikantov, 21.**

Siberia (Kolyma und Dogdo), sp nn. *Camarotoechia, Leiorhynchus, Productella, Rhipidomella, Rhynchopor Spirifer, Streptorhynchus*; **Volmače 25.**

United States (eastern), spp. *Chonetes, Leptaenisca, Pholidostrophi* **Kindle, 15.**

United States (Ohio), spp. n. *Chonet Liorhynchus, Syringothyris*; **Prosse 22.**

Carboniferous.

Persia (Karatekgebirges) sp. n. *Spir gera*; **Vadász, 27.**

Siam (Shan States), spp. n. *Martini Martiniopis, Productus, Rhipidomell Streptorhynchus*; **Diener, 5.**

Brachiopoden der Ostrauer Schicht (Mähren), **Klebelsberg, 16.**

Permocarboniferous.

W. Australia, sp. n. *Spirifer*; **Glaue 8.**

Permian.

Russia, spp. n. *Athyris, Camaphoria, Diclasma, Productus, Spirif* **Nečajev, 20.**

Trias.

Spitzbergen, sp. n. *Lingula*; **Böhm**

Eine interessante Brachiopodenges schaft in den Raibler Schichten Mit kärntens; **Gallenstein, 7.**

Jurassic.

France, sp. n. *Terebratula*; **Lav 17.**

Switzerland, sp. n. *Terebrat* **Trauth, 26.**

Austria (Südtirol), spp. n. *Rh chonella, Terebratula, Waldhei* **Haas, 10.**

Eocene.

Die Fauna der eozänen Merg Vinodol (Ungarisch); **Vogl, 27a**

II.—SUBJECT INDEX.

GENERAL. 2003

Bryozoa für 1910; **Lucas, 18.**

Revision der Sammlung von norwegischen Bryozoen im Universitätsmuseum zu Kristiania (Norweg.); **Nordgaard, 22.**

Duc d'Orléans Campagne Arctique de 1907; **Nordgaard, 21.**

A method of rearing larvae of Polyzoa; **Hasper, 15.**

STRUCTURE. 2007

Cyclostomata operculata, morphological studies; **Levinsen, 17.**

Adeonella and *Retepora*; **Waters, 26.**

PHYSIOLOGY. 2011

Einfluss der Temperatur auf die Dornenzahl der Statoblasten von *Pectinatella*; **Braem, 5.**

DEVELOPMENT. 2015

Monticuliporoids; **Cumings, 13.**

ETHOLOGY. 2019

Hislopia lacustris and *Plumatella testudinicola* (sp. n.) on carapaces of Gangetic tortoises (*Hardella thurgii*, *Kachuga dhongoka* and *K. lineata*; **Annandale, 2.**

Platypolyzoon investigatoris (gen. et sp. n.) on *Squilla investigatoris* from Arabia; *Triticella korenii*, Sars, on telson of *Squilla fasciata* from Japan; **Annandale, 1.**

Un Bryozoaire cténostome parasitant le cormus d'un Synascidie; **Calvet, 7.**

AETIOLOGY. 2023

Variation der Dornenzahl der Statoblasten von *Pectinatella*; **Braem, 5.**

DISTRIBUTION. 2027

(*a*) Recent.

(a) *Marine.*

Arctic; **Nordgaard, 21.**

Ireland (Clare Island); **Nichols, 20.**

English Channel, list; **Crawshay, 12.**

S.W. France, 9 spp. n.; **Canu, 9.**

Labrador, Newfoundland and Nova Scotia; **Osburn, 24.**

United States (Massachusetts, Woods Hole region), spp. n. *Alcyonidium, Bugula, Cellepora, Hippuria, Lepralia, Lozosoma*; **Osburn, 23.**

Bay of Bengal, occ. *Barentsia discreta* at Port Canning and *B. gracilis* at Madras; **Annandale, 3.**

Indian Ocean, spp. n. *Phylactella, Membraniporella, Lepralia, Bifaxaria, Cribrilina, Smittia*; **Thornely, 25.**

Japan, *Platypolyzoon investigatoris* gen. et sp. n.; **Annandale, 1.**

N. Pacific, sp. n. *Crisia*; **Levinsen, 17.**

(*β*) *Non-Marine.*

Seliger-Sees (Russ.); **Molčanov, 19.**

Kumaon Lakes; **Annandale & Kemp, 4.**

India, sp. n. *Plumatella*; **Annandale, 2.**

(*b*) FOSSIL.

Ordovician.

United States (Indiana), sp. n. *Batostoma*; **Cumings & Galloway, 14.**

Carboniferous.

England and Ireland, *Treposomata*, spp. n. *Batostomella, Dyscritella, Leioclema, Stenopora, Tabulipora, Verticillopora*, gen. n. *Koninckopora*; **Lee, 16.**

Cretaceous.

England (Norfolk) spp. n. *Discoflustrellaria, Lateroflustrellaria, Membranipora, Rhagasostoma, Semieschara*; **Brydone, 6.**

France, Sweden and Denmark, spp. and varr. n. in *Meliceritites*; **Levinsen, 17.**

Miocene.

Egypt, spp. n. *Cycloporella, Membranipora, Proboscina, Schizoporella, Umbonula*; comparison with existing Mediterranean and Red Sea forms, many species being the same; **Canu, 10.**

Tertiary.

Australia (King I.), occ. few spp.; **Chapman, 11.**

III.—SYSTEMATIC INDEX.

Bryozoaires tertiaires du Sud-Ouest de la France, CANU Bul. Soc. géol. **10** 1910 [1912] pp. 840–855 pls. xvi–xix.

Étude comparée des Bryozoaires Helvétiens de l'Egypte avec les Bryozoaires vivants de la Mediterranée et de la Mer Rouge, CANU Cairo Mém. Inst. Egypt **6** pp. 185–236 pls. x–xiii.

British Carboniferous *Treposomata*, LEE Mem. Geol. Surv. U.K. Pal. **1** pt. 3 pp. 135–195 pls. xiv–xvi.

Studies on the Cyclostomata operculata, LEVINSEN Vid. Selsk. Skr. **10** 1912 pp. 1–52 pls. i–vii.

Adeonella (*Laminopora*) *contorta*, note on structure, WATERS Ann. Mag. Nat. Hist. London 1912 **9** pp. 489–500.

Afrindella **subgen. n.** of *Plumatella*, type *P. tanganyikae* Rousselet (= *bombayensis* Ann.), ANNANDALE Rec. Ind. Mus. **7** 1912 p. 140.

Alcyonidium verrilli nom. n. for *A. ramosum* Verrill, OSBURN Washington D.C. Bull. Bur. Fish. **30** p. 252.

†*Bactridium labiatum* **sp. n.** France Tertiary, CANU Paris Bul. soc. géol. **10** p. 846.

Barentsia discreta and gracilis in Bay of Bengal, ANNANDALE Rec. Ind. Mus. **7** p. 205.

†*Batostoma prosseri* **sp. n.** Indiana Ordovician, CUMINGS & GALLOWAY Indianopolis Ind. Proc. Acad. Sci. p. 151.

†*Batostomella bundorensis* **sp. n.** Ireland Carboniferous, LEE Mem. Geol. Surv. U. K. **1** pt. 3 p. 176.

Bifaxaria vagans **sp. n.** Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912 p. 145.

Bugula cucullifera nom. n. for *cucullata* Verrill, OSBURN Washington D.C. Bull. Bur. Fish. **30** p. 225.—*B. neritina* varr. n. *rubra* p. 141, *tenuata, ramosa*, p. 142, Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912.

†*Callopora* development, CUMINGS Bull. Geol. Soc. America **23** p. 362.

Cellepora americana **sp. n.** Massachusetts, OSBURN Washington D.C. Bull. Bur. Fish. **30** p. 238.

†*Cribrilina biarritzensis* sp. n. France Tertiary, CANU Paris Bul. soc. géol. **10** p. 846.—*C. reticulata* sp. n. Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912 p. 141.

Crisia hamifera sp. n. North Pacific, LEVINSEN Vid. Selsk. Skr. **10** 1912 p. 16.

†*Cycloporella fistulosa* sp. n. Egypt Miocene, CANU Mém. Inst. Egypt. **6** p. 220.

†*Discoflustrellaria trimensis* sp. n. England Cretaceous, BRYDONE Geol. Mag. London **9** 1912 p. 7.

†*Dyscritella nana* p. 179, *multifida* p. 180, *ambigua* p. 181, spp. n., England Carboniferous, LEE Mem. Geol. Surv. U. K. **1** pt. 3.

Hippuria elongata sp. n. Massachusetts, OSBURN Washington D.C. Bull. Bur. Fish. **30** p. 256.

Hislopia lacustris on carapace of *Hardella thurgii*, India, ANNANDALE Rec. Ind. Mus. **7** 1912 p. 147.

†*Koninckopora* gen. n. p. 152 for *Calamopora inflata* Kon. p. 182 England Carboniferous, LEE Mem. Geol. Surv. U. K. **1** pt. 3.

†*Lateroflustrellaria robusta* sp. n. England Cretaceous, BRYDONE Geol. Mag. London **9** 1912 p. 7.

†*Leioclema avonense* sp. n. England Carboniferous, LEE Mem. Geol. Surv. U. K. **1** pt. 3 p. 177.

Lepralia crassa, *marginata*, p. 150, *bicornis* p. 151, spp. n., Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912.—*L. serrata* sp. n. Massachusetts, OSBURN Washington D.C. Bull. Bur. Fish. **30** p. 242.

Loxosoma minuta sp. n. Massachusetts, OSBURN Washington D.C. Bull. Bur. Fish. **30** p. 212.

†*Meliceritites trifolium* p. 22, *palpebrosa* (= *semiluna* d'Orb. part) p. 25, *canui* p. 27, *filiozati* p. 34, spp. n., France, *gothica* nom. n. (= *gracilis* Marsson *nec* Goldfuss) p. 30, *gothica* var. n. *acuminata*, *pentagonum* sp. n. Sweden p. 31, *armata* sp. n. Denmark p. 38, *dollfusi* var. n. *tubuliformis* France p. 51, all from Cretaceous, LEVINSEN Vid. Selsk. Skr. **10** 1912.

Meliceritidae Pergens (= *Eleidae* d'Orb.); only a single genus acknowledged, LEVINSEN Vid. Selsk. Skr. **10** 1912 p. 20.

Membraniporella magnifica sp. n. Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912 p. 144.

†*Membranipora pachondakii* sp. n. Egypt Miocene, CANU Mém. Inst. Egypt **6** p. 197.—†*M. pyrigera*, *tenebrosa*, p. 433, *pellicula*, *withersi*, p. 434 spp. n., England Cretaceous, BRYDONE Geol. Mag. London **9** 1912.—†*M. quadrifascialis*, *biarritziana*, spp. n., France Tertiary, CANU Paris Bul. soc. géol. **10** p. 842.

†*Micropora erecta* sp. n. France Tertiary, CANU Paris Bul. soc. géol. **10** p. 845.

Mucronella ellerii var. n. *multiavicularia* Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912 p. 153.

Pectinatella, Variation der stotoblasten, BRAEM Arch. EntwMech. **35** 1912 p. 46.

†*Peronopora* development, CUMINGS Bull. Geol. Soc. America **23** p. 361.

Phylactella galeata sp. n. Indian Ocean, THORNELY London Trans. Linn. Soc. **15** 1912 p. 153.

†*Phylloporina corticosa* development, CUMINGS Bull. Geol. Soc. America **23** p. 363.

Platypolyzoon gen. n. near *Arachnidium* p. 124, for *investigatoris* sp. n. p. 125, on telson of *Squilla investigatoris* off S.W. coast of Arabia, ANNANDALE Rec. Ind. Mus. **7** 1912.

Plumatella subgen. n. *viae Afrindella*.

Plumatella (*Afrindella*) *testudinicola* sp. n. on tortoises (*Hardella thurgii*, *Kachuga dhongoka and lineata*) in R. Ganges, ANNANDALE Rec. Ind. Mus. **7** 1912 p. 148.

†*Pornia contorta* sp. n. France Tertiary, CANU Paris Bul. soc. géol. **10** p. 847

†*Prasopora* development, CUMINGS Bull. Geol. Soc. America **23** 1912 p. 358.

†*Proboscina watersi* sp. n. Egypt Miocene, CANU Mém. Inst. Egypt **6** p. 221.

Retepora, note on structure, WATERS Ann. Mag. Nat. Hist. London 1912 **9** pp. 489–500.

†*Rhagasostoma sussexiense, palpigerum*, spp. n., England Cretaceous, BRYDONE Geol. Mag. London 9 1912 p. 146.

†*Rhombotrypa* development, CUMINGS Bull. Geol. Soc. America 23 p. 363.

†*Schizoporella hoernesi* var. n. *procumbens* France Tertiary, CANU Paris Bul. soc. géol. 10 p. 853.—†*S. humei, africana*, p. 212, *balli* p. 214, spp. n., Egypt Miocene, CANU Mém. Inst. Egypt 6.

†*Semieschara protecta* sp. n. England Cretaceous p. 294, *S. woodsi* and *pergensi* Brydone, refigured pl. XV, BRYDONE Geol. Mag. London 9 1912

†*Smittia avieulifera* p. 849, *sextapuncta, excentrica*, p. 850, spp. n., France Tertiary, CANU Paris Bul. soc. géol. 10.—*S. glomerata, ornata*, spp. n., Indian Ocean, THORNELY London Trans. Linn. Soc. 15 1912 p. 152.

†*Stenopora howesii* Nicholson to *Tabulipora* p. 166 England Carboniferous, LEE Mem. Geol. Surv. U. K. 1 pt. 3.—†*S. redesdalensis* p. 153, *haddingtonensis* p. 156, *castletonensis* p. 158, *obliqua* p. 159, *tenuipora* p. 161, spp. n., England Carboniferous, LEE Mem. Geol. Surv. U. K. 1 pt. 3.

†*Tabulipora scotica* p. 162, *youngi, minima*, p. 164, *tenuimuralis* p. 169, *macandria* p. 170, *sparsitabulata* p. 171, *crassimuralis* p. 172, *multitabulata* p. 173, *wexfordensis* p. 174, *debilis* p. 175, spp. n., England Carboniferous, LEE Mem. Geol. Surv. U. K. 1 pt. 3.

Triticella borenii Sars on telson of *Squilla fasciata* from Japan, ANNANDALE Rec. Ind. Mus. 7 1912 p. 124.

Watersia gen. n. pour *paesleri* sp. n., parasitant le cormus de la *Polyzoa gordiana*, CALVET C. R. Acad. Sci. 154 1912 p. 244.

Watersiana nom. n. pro *Watersia* Calvet (preocc.), CALVET C. R. Acad. Sci. 154 1912 p. 395.

†*Umbonula gigantea* sp. n. Egypt Miocene, CANU Mém. Inst. Egypt. 6 p. 216.

†*Verticillopora dubia* M'Coy to *Stenopora* p. 157, England Carboniferous, LEE Mem. Geol. Surv. U. K. 1 pt. 3.

II. SUBJECT INDEX.

Abbreviations employed in Sections II and III:—

descr. = described.
exp. } = expedition.
expdn. }
occ. = occurrence.
syn. = synonymy.

GENERAL. 2203

Biography.

David Dwight Baldwin; [Anon.], 9.

The Rev. Robert Ashington Bullen with list of works; [Anon.], 10.

Stephen Clessin; **Borcherding, 55** & [Anon.], 11: List of works; [Anon.], 11.

Beddome, Richard Henry; **Godwin-Austen, 217.**

George W. Taylor; **Hanham, 241.**

Robert Cairns; **J., 293.**

Robert Cairns; **Moss, 416.**

Vincenz Gredler; **Schröder, 540.**

R. E. Stearns, Biographical notice; **Stearns & Dall, 590.**

The late Rev. Ashington Bullen; **T., 616.**

J. W. Baldwin; **Tomlin, 627.**

Bibliography.

Note on the existence of two editions of Férussac's "Tableaux Systématiques"; **Connolly, 100.**

Note on generic name *Pectunculus*; **Dall, 120.**

The genus *Panope*; **Dall, 121.**

List of Arctic Expeds.; **Dautzenberg & Fischer, 132.**

Northern Seas, list of works; **Dautzenberg & Fischer, 132.**

Explanation of figures occurring in Westerlund's "Sibiriens Land och Sötvatten-Mollusker," 1877; **Gude, 223.**

Mollusca für 1910; **Laackmann & Haas, 350.**

Bibliography of *Unionidae*; **Ortmann, 434.**

Venus islandica, Linn.; **Smith, 553.**

Trichana; **Sowerby, 584.**

R. E. Stearns, list of works; **Stearns & Dall, 590.**

Fayum Province, Egypt, tertiary deposits, literature of; **Newton, 423.**

"Descriptive Catalogue of the Naiades" Simpson notice of forthcoming work. Nautilus Boston Mass. 26 p. 36.

General Treatises.

A zoogeographic study based on the pyramidellid mollusks of the west coast of America; **Bartsch, 28.**

Review of *Cephalopoda* of N.W. America; **Berry, 37.**

Buccinum undatum; **Dakin, 111.**

Critical researches into some genera and species of *Hydrobia* recent and fossil; **Dollfuss, 148.**

Notes on Hermann's paper in "Der Naturforscher" 1781; **Hedley & Pilsbry, 255.**

Doclaia, subdivisions discussed, with *Phacostoma* nov. n. and *Sinodia* Jukes-Browne described; **Jukes-Browne, 315.**

Systematisches Conchylien-Cabinet von Martini und Chemnitz, *Vermitidae*; **Clessin, 91**: *Unionidae*; **Haas, 237**: *Ampullariidae*; **Kobelt, 338**: Terrestrial Operculata; **Kobelt, 337**: *Scissurellidae*; **Kobelt, 336.**

Reisen im Archipel der Philippinen von Dr. C. Semper (continued); **Kobelt & Winter, 339.**

Rossmässlers Iconographie der Europäischen Land und Süsswasser-Mollusken *Naiades*; **Kobelt & Haas, 340**: *Chamamphalus* and *Unio*; **Kobelt, 335**: Naiades; **Kobelt, 335.**

Revision of recent *Pectunculus* in Paris Museum; **Lamy, 354.**

Revision of *Limopsis* in the Muséum d'Histoire Naturelle, Paris; **Lamy, 353.**

Die Weinbergschnecke *Helix pomatia* L.; **Meisenheimer, 403.**

Certain forms of *Nassa* (*Hinia*) *reticulata*, Lin.; **Monterosato, 412.**

Morphologie und Verbreitung der marinen Gastropoden; **Simroth, 551.**

Mollusca (Weichtiere). [Forts.] (H. G. Bronn's Klassen u. Ordnungen des Tierreichs, Bd 3, Lfg 122–138); **Simroth, 554.**

Revision of North American *Sphaeriidae*; **Sterki, 600.**

Monograph of the Land and Freshwater Mollusca of the British Isles, Part 19; **Taylor, 618.**

Teuthologische Notizen; **Naef, 421.**

Note on "Monographie des Pectinidés néogenes de l'Europe et des region voisines" by Ch. Depéret and F. Roman; **Oppenheim, 432.**

Classification of the *Hippurites*; **Toucas, 633.**

Fresh-water snails; **Tulk-Hart, 638.**

Popular notes on certain spp.; **Wylie, 693.**

Museums, Collections, Expeditions.

A. Gruvel, W. African Coast; **Dautzenberg, 129 & 130.**

List of Arctic Expeds.; **Dautzenberg & Fischer, 132.**

British Museum, criticism of; **Hedley, 251.**

Heteropoda of the voyage of the "Vettor Pisani" 1882–85; **Issel, 292.**

Manchester Museum, palaeontological notes; **Jackson, 297.**

The Danish Ingolf Exp., *Lamellibranchiata*; **Jensen, 302.**

Liste des *Pectunculus* conservés avec étiquettes de Lamarck dans les collections du Muséum de Paris; **Lamy, 356.**

Mollusken der Hamburger Südsee-Expedition 1908-09. (Admiralitätsinseln, Bismarckarchipel, Deutsch-Neuguinea); **Leschke**, 370.

Scottish Nat. Antarctic Exped., *Cephalopoda*; **Hoyle**, 286: and other groups; **Melvill & Standen**, 407.

New marine molluscs of Patagonia; **Pilsbry**, 468.

Northern and Arctic Prosobranchia in Swedish State Museum; **Odhner**, 428.

Second French Antarctic Exp. (1908-1910), under Dr. J. Charcot; **Lamy**, 355; **Thiele**, 623.

Die antarktischen Schnecken und Muscheln; **Thiele**, 624.

Academy of Nat. Sciences Philadelphia, presentation of Bermuda shells; **Vanatta**, 642.

Nomenclature.

Law of priority; **Dautzenberg**, 126.

Veneridae, nomenclature of; **Jukes-Browne**, 316.

The genus *Iricia*, Gray; **Shaw**, 545.

Technique.

Methods of collecting freshwater Pelecypoda; **Ortmann**, 434.

Snail trap. Nautilus Boston Mass. 26.

Miscellanea.

Paludina viripara, observations on; **Berner**, 36.

Some necessary changes on cephalopod nomenclature; **Berry**, 39.

Mitra striatula found in prehistoric grottoes in Catalunia; **Botill y Poch**, 51.

Molgladium gattata; **Berthier**, 40.

Scaliriidae in Nat. Hist. Museum, Paris; **de Boury**, 60.

Notes on section *Carocollina* of genus *Helix*; **Caziot**, 71.

Collecting from haddock; **Clapp**, 83.

Colouration in fossil shells; **Collot**, 96.

Rectifications in nomenclature; **Cossmann**, 102.

Evolution of Trigonias; **Cossmann**, 103.

Note on Genus *Septa*, Perry; **Dall**, 119.

Validity of *Helix (Epiphragmophora) aroposensis*, Lea.; **Edson**, 165.

Unio (Lampsilis?) purpuriatus, Say; **Frierson**, 183.

Value of protoconch and early conch stages in classification of Gastropoda; **Grabau**, 219.

On Ortmann's "Notes upon the families and genera of the Najades"; **Hannibal**, 247.

Sterilisierte Austern; **Hoek**, 273.

Cyprea pantherina, occ. of in Saxon graves; **Jackson**, 295.

Basinia lucinalis (Lk.) and its synonyms; **Jukes-Browne**, 314.

Note on spp. referred to *Cupa* H. & A. Ad.; **Lamy**, 359.

Scintilla striata; **Lamy**, 358.

Bemerkungen zu Naefs 7. Teuthologischer Notiz; **Levy**, 371.

Pelecypoda, discussion of general classification of; **March**, 390.

Teuthis and *Eledone*, notes on with *Dorateuthis* gen. n.; **Naef**, 421.

Cumberlandia monodonta (*Unio monodonta*, Say, olim), notes on; **Ortmann**, 436.

Crepidula fornicata, natural history of; **Orton**, 440.

Pleurotomas jasoa (Billings); **Ruedemann**, 518.

Notice sur *Limnophysa palustris* Müll. var. *schlescki* Cl. et sub. var. *castanea* Schl. nov. var.; **Schlesch**, 531.

Tridacna, list of species with notes; **Sowerby**, 584.

Biology of the Mollusca; **Taylor**, 617.

Evolution and dispersion of freshwater molluscs; **Thomasson**, 626.

Certain spp. as evidence of climatic changes in Japan since the Pliocene epoch; **Yokoyama**, 694 & 695.

STRUCTURE. 2207

General.

Anatomie deutscher *Bulimulus*-Arten; Beck, 34.

Cultellus cultellus, *Solecurtus* (*Azor*) *antiquatus* and *coarctatus*, anatomy of; Bloomer, 45.

Development of *Actæonia*; Colgan, 94.

Anatomy of *Siphonaria obliquata* (Sowerby); Cottrell, 105.

Anatomy of the slug, *Cystopelta pilsbryi* var. *purpurea*; Davies, 133.

Atopos (*Podangis*) sp. n.; Ghosh, 210.

Helo indicus, general anatomy of; Fleure, 177.

Ampullaria globosa; Ghosh, 209.

Philippine Is., *Aclesia ferrei* sp. n., anatomy; Griffin, 221.

Murex brandaris, regeneration of operculum; Hanko, 242.

Spongiomenia, a new Genus of Solenogastres; Heath, 250.

Hemicycla, anatomy of; Hesse, 264.

Dimorphismus der männlichen Geschlechtselemente der *Prosobranchia*; Kušakevič, 347.

Nouvelles formes de Gastéropodes ectoparasites; Kœhler & Vaney, 342.

Sommaire du cours d'éléments de zoologie; Lameere, 351.

Eine fossile pathologische Nautilusschale; Loesch, 379.

The nudibranch family *Diromidæ*; MacFarland, 387.

Najades of Pennsylvania, anatomical investigations; Ortmann, 434.

Teuthologische Notizen; Naef, 421.

Comparative morphology of the Najades; Ortmann, 435.

Hyridella australis (Lk.), anatomy of; Ortmann, 438.

Anatomie und Histologie der Heteropoden; Reupsch, 503.

Polycerella zodiatreyos; Smallwood, 556.

Recherches zoologiques et anatomiques sur les Opistobranches de la mer Rouge et du Golfe d'Aden; Vayssière, 649.

Nervous System.

Sepia officinalis L.; Hillig, 268.

Études sur la neurogliе chez les mollusques; Jakubski, 298.

Zur Kenntnis des Gliagewebes im Nervensystem der Mollusken; Jakubski, 299.

Über das sogenannte sympathische Nervensystem der Muscheln; Stempell, 596.

Zur Kenntnis der Golgi-Kopsch'schen Apparate in den Nervenzellen verschiedener Gastropoden; Weigl, 670.

Sense Organs.

The structure of the pallial tentacles of *Lima* species; Griffin, 222.

Luminous organs of some Cephalopoda from Pacific Ocean; Hoyle, 287.

Dorsal eye of *Onchidium verruculatum* [in Japanese]; Hirasaka, 272.

Untersuchungen über die Statocysten unserer einheimischen Schnecken; Schmidt, 532.

La structure intime des tentacules oculaires chez *Helix pomatia*; Yung, 697.

Myology.

Tonicella marmorea, Muskulatur; Henrici, 261.

Muscle pearls; Jameson, 301.

Striped muscles of certain spp.; Soos, 571.

Structure de la lame spirale du limaçon; Vasticar, 647.

Tegument.

Skin glands of certain spp.; Sterner, 601.

Shell.

Über Doppeldeckelbildungen bei *Nassa mutabilis* (Linné); Honigmann, 280.

Shell-layer of recent, compared with fossil, mollusca; Horwood, 284.

Margaritifera vulgaris, Schum., structure of shell; Jameson, 301.

On the Gasteropod protoconch; Kesteven, 324.

Mesodesma mactroides; **Lamy, 357.**

Schale und Schalenregeneration von *Anodonta cellensis* Schröt; **Rassbach, 496.**

Über die Veränderlichkeit der Molluskenschalen; **Schermer, 527.**

Über abnorme Bildungen an Schneckengehäusen; **Strebel, 609.**

Vascular System.

Sipkonaria obliquata; **Cottrell, 106.**

Alimentary System, Radula and Jaws.

Über den Darmkanal und die Mitteldarmdrüse von *Anodonta cellensis* Schröt; **Gutheil, 233.**

Littorinidia, Potamolithus, dentition of; **Pilsbry, 468.**

Respiratory Organs.

Structure of gills of *Unionidae*; **Ortmann, 434.**

Excretory Organs.

Sur l'appareil mitochondrial des cellules glandulaires de la glande hypobranchiale de *Murex trunculus*; **Gryntelt, 226.**

Tonicella marmorea, Fussdrüsen; **Henrici, 261.**

Il *punto nero* del *Gastropteron Meckeli* è il rene secondario larvale; **Jacino, 294.**

Morphologische und phylogenetische Untersuchungen über die Nephridien der Lamellibranchien; **Odhner, 427.**

Reproductive Organs.

Ancylus fluviatilis Müll.; **Ebner, 163.**

L'hermaphroditisme chez les Lamellibranches; **Pelseneer, 457.**

Quelques anomalies dans la structure des conduits génitaux chez l'escargot (*Helix pomatia*); **Poluszyński, 482.**

Heteropoden; **Reupsch, 504.**

Helix pomatia, structure de l'oviducte et de la glande albuminipare; **Yung, 698.**

Teratology.

Über Missbildungen bei *Nassa mutabilis* L.; **Hankó, 243 & 244.**

Beiträge zur Teratologie der Schnecken; Geschlechtsorgane, Fühler; **Hofmann, 275.**

PHYSIOLOGY. 2211

General.

Octopus vulgaris, colour changes in; **Cowdry, 107.**

Notes upon the families and genera of the Najades; **Ortmann, 435.**

Les Céphalopodes adaptés à la vie nectique secondaire et à la vie benthique tertiaire; **Dollo, 151.**

Appareil à contention pour les Najades; **Bieloussoff, 42.**

Zur Kenntnis der Lebensweise von *Pecten jacobaeus* L.; **Bauer, 31.**

Die Verteilung und Entstehung des Glykogens bei *Helix pomatia* nebst Bemerkungen über seine Bedeutung bei Wirbellosen im allgemeinen; **Erhard, 170.**

Sepia officinalis L.; **Polimanti, 478.**

Studi sulla contrazione del muscolo adduttore di *Ostrea edulis* L. e sul movimento di alcuni lamellibranchi; **Polimanti, 481.**

Die Pilgermuschel; **Uexküll, 640.**

Glandular Secretions and Pigments.

Zur Physiologie der Nierensekretion; **Cohnheim, 93.**

La clasmatose coquillière et perlière: son rôle dans la formation de la coquille des Mollusques et des perles fines; **Dubois, 159.**

Der Glykogenstoffwechsel der *Helix pomatia* im Winterschlaf und beim Auskriechen; **Schöndorff, 533.**

Sense Organs.

Sensibilité des Gastéropodes pour la lumière; **Yung, 696.**

Nervous System.

Contributi alla, Fisiologia del movimento e del sistema nervoso degli animali inferiori. (V.) Opistobranchia; **Polimanti, 479.**

Cephalopoda A. Decapoda: *Sepia officinalis* Linn. *Loligo vulgaris* Lam. B. Octopoda: *Octopus vulgaris* Lam. *Eledone moschata* Lam.; **Polimanti, 480.**

Respiratory Organs.

Ciliary movement of gills of mussel; **Buytendijk, 65.**

Organs of Uncertain Nature.

Eigentümliche Organe bei Heteropoden (*Pterotrachea* und *Carinaria*); **Schreiber, 535.**

DEVELOPMENT. 2215

General.

Mactra solidissima, growth and habits; **Belding, 35.**

Development of *Actaeonia*; **Colgan, 94.**

Le fonctionnement de la glande génitale chez l'*Ostrea edulis* L. et le *Gryphea angulata* Lam.; **Dantan, 125.**

Gundlachia and *Ancylus*, notes on; **Dall, 114.**

Über Regeneration und Wachstumsstörungen bei Mollusken; **Honigmann, 281.**

Medicinal uses of certain molluscs in India; **Hooper, 282.**

Classification phylogénique des Lamellibranches; **Douvillé, 154.**

Regeneration of shell of *Unio* and *Anodonta*; **Deinse, 136.**

L'étape strepsinématique des Auxocytes mâles de l'Escargot; **Lee, 362.**

Zur Kenntnis der Schalenregeneration bei der Teichmuschel (*Anodonta cellensis*); **Rassbach, 497.**

Die Bildung der Perlen bei *Anodonta*; **Rubbel, 517.**

Development of *Ostrea lurida* Carp.; **Stafford, 586.**

Oogenesis and Ovum.

Karyokinesis and Cytokinesis in the maturation, fertilization and cleavage of *Crepidula* and other gasteropoda; **Conklin, 97.**

The influence of yolk on the development of gasteropods; **Conklin, 98.**

Helix pomatia; **Demoll, 139.**

Reduktionserscheinungen in der Eiweissdrüse der Schnecken; **Krahelska, 344.**

Spermiogenese der *Prosobranchia*; **Kušakevič, 347.**

Hermaphroditism in *Unionidae*; **Ortmann, 434.**

Oogenesis in *Unionidae*; **Ortmann, 434.**

Aparato protector de los moluscos, en su nacimiento; **Villada, 656.**

Spermatogenesis and Spermatozoon.

Die Spermatogenese von *Helix pomatia* L.; **Demoll, 138.**

Arion empiricorum, spermatozoon; **Künkel, 346.**

Weitere Beiträge zur Kenntnis der Spermien der Gastropoden; **Retzius, 502.**

Embryology.

Entwicklungsgeschichte von *Littorina obtusata*; **Delsman, 137.**

Über die Larve mit Segellappen eines gymnosomen Pteropoden (*Thalassopterus zancleus*); **Kwietniewski, 348.**

Limicolaria, viviparity in; **Robson, 510.**

Teuthologische Notizen; **Naef, 421.**

Aparato protector de los moluscos, en su nacimiento; **Villada, 656.**

ETHOLOGY. 2219

General.

Zur Kenntnis der Lebensweise von *Pecten jacobaeus* L.; **Bauer, 31.**

Mactra solidissima, growth and habits; **Belding, 35.**

Dispersal of *Pisidium* by *Coriza*; **Cash, 66.**

Adaptation to surroundings; **Douvillé, 157.**

Les Céphalopodes adaptés à la vie nectique secondaire et à la vie benthique tertiaire; **Dollo, 151.**

Ammonites, habits and dissemination of; **Diener, 143.**

Verbreitung und Lebensweise der Ammoniten; **Diener, 144.**

Gundlachia and *Ancylus*, notes on; Dall, 114.

Rhythmical movements of *Littorina*; Haseman, 249.

Nouvelles formes de Gastéropodes ectoparasites; Kœhler & Vaney, 342.

La biologie des cavernes; Mahen, 388.

Contribution à la psychologie du Poulpe; Pieron, 464.

Limax agrestis; Reuter, 505 & 506.

Influence of drought on mollusca; Schermer, 526.

Movements, Locomotion.

Track of *Limax flavus*, Linné; Adams, 3.

Feeding Habits.

Mollusca swallowed by haddock, list of; Clapp, 83.

Futter der Auster; Hoek, 274.

Crepidula and certain other Gastropods and Lamellibranchs, mode of feeding of; Orton, 441.

Limicolaria, inter-uterine cannibalism in; Robson, 510.

Glandina guttata, C. & F., eating snails; de Vilmorin, 657.

Breeding Habits.

Ein bisher unbekannter, grundlegender Faktor für die Auffindung eines Vererbungsgesetzes bei den Nacktschnecken; Künkel, 346.

Copula von *Sepiola atlantica* D'Orb; Levy, 373.

Kopulation und Gebärakt bei Paludinen; Schreitmüller, 536 & 537.

Luminosity.

Luminous organs of some Cephalopoda from Pacific ocean; Hoyle, 287.

Céphalopodes, organes lumineux; Joubin, 311.

Habitat.

Molluskenfauna der preussischen Rheinprovinz; Boettger, 47.

Anpassung der Landschnecken an den Standort; Ewald, 171.

Limnées de la faune profonde du lac Léman; Roszkowski, 515.

Welche Ammoniten waren benthonisch, welche Schwimmer? Scupin, 542.

Ireland, Clare Isd., altitudinal distribution of spp.; Stelfox, 592.

Certain fresh water spp. living out of the water; Sterki, 593.

Boring Habits.

Remarks on certain boring spp.; Elliott & Lindsay, 169.

Pholas, boring habits of; Irving, 290.

Boring mollusca of St. Andrews; Lindsay, 378.

Limestone eroded by *Helicella conperata*. London Proc. Malac. Soc. 10 p. 4.

Acclimatisation, etc.

Limnæa auricularia near Philadelphia, Pa.; Long, 331.

Lampsilis ventricosa (Barnes) in Upper Potomac Drainage; Ortmann, 437.

Rumina decollata, acclimatisation of in New Orleans; Smith, 561.

Ireland, Clare Isd., question of dispersal of spp.; Stelfox, 592.

Dutch Coast, *Petricola phaladiformis*; Verwhoat, 653.

Glandina guttata, Cr. & F. introduced into France; de Vilmorin, 657.

Lymnæa (*Radix*) *auricularia*, Linn in Colorado. Nautilus Boston Mass. 26 p. 84.

Carychium minimum, Müll. at Quincy, Mass. Nautilus Boston Mass. 26 p. 24.

Opeas clavulinum var. *Lyoloense*, Pils. at Cambridge, Mass. Nautilus Boston Mass. 26 p. 24.

Parasitism, Commensalism, Parasites, etc.

Leucistrum loliginis n. g. n., sp. Trématode parasite du Calmar; Beauchamp, 33.

Cestode theory of pearl formation discussed; Jameson, 361.

Epistelba a new genus of Gastropod, parasitic on *Ganodactylus chiragra*; Preston, 493.

Deux Mollusques parasites de Mollusques; Pelseneer, 456.

Cercaria blanchardi sp. n. parasitic in *Planorbis bahiensis*, Dunk.; Piraja da Silva, 477.

Endogenous reproduction in larvæ of *T. unionifactor*, a parasite of the pearl oyster; Southwell, 573.

Ceylon pearl inducing worm; Southwell, 580.

Determination of adult of pearl-inducing worm; Southwell, 576.

Rotifer parasitic in the eggs of *Limnæa auricularia*, L.; Stevens, 604.

Descriptions of new species of certain parasites of *Pinna* and *Mytilus* from Ceylon. Ceylon Marine Biol. Repts. 5 1911 pp. 226–227.

Enemies, etc.

Relation of certain predatory fish to *Margaritifera vulgaris* on Ceylon Pearl Banks; Southwell, 577.

Helix cantiana, Mont., eaten by birds. J. Conch. Leeds 13 pp. 323 & 359.

Phyga agrina, plovers feeding on; Hinkley, 271.

Economics.

Pearl bearing *Margaritana margaritifera*, Lin. in Maine; Allen, 6.

Molluschi commestibili (specialm. *Ostrea*), veleni batterici elaborati e trattenuti nel loro interno; Bandi, 24.

Protection of fresh water mussel beds; Barret, 26.

Schonzeit für *Modiolus*; Bjerkan, 43.

Stabulation des huitres dans l'eau de mer artificielle filtrée; Bodin, 46.

Nouvelles expériences sur l'épuration bacteriologique des huitres en eau filtrée; Fabre-Domergue, 174.

Certain W. African spp. used as food and in commerce; Gruvel, 225.

Helix hortensis und *nemoralis* als Kunstmalerinnen; Gieseking, 211.

Epuration bactérienne des huitres par la stabulation en eau de mer artificielle filtrée; Fabre-Domergue, 173.

Food of Oyster; Hoek, 274.

A pearl from *Nautilus pompilius*; Jameson, 300.

Structure of shell and pearls of *Margaritifera vulgaris*, Schm.; Jameson, 301.

Sewage contamination of mussel beds in Wyre Estuary; Johnstone, 305.

Molluschicultura in laghi di Ganzirri e del Faro (Messina); Lo-Giudice, 380.

Oyster culture experiments and investigations in Louisiana; Moore, 413.

Industria delle lumache (*Helix*); Mingioli, 409.

Mitilicultura e Ostreicultura nel Mare piccolo di Taranto, provvedimenti in favore; Mazzarelli, 402.

Über den Schiffsbohrwurm und sein Vorkommen in Fischerfahrzeugen; Redeke, 501.

Zur Perlbildung bei *Anodonta cygnaea* L.; Schermer, 528.

Placuna placenta in Philippine Isds.; Seale, 543.

Endogenous reproduction in larvæ of *T. unionifactor*, a parasite of the pearl oyster; Southwell, 573.

Ceylon pearl banks, nautical notes on; Kerkham, 323: Effects of currents on; Southwell & Kerkham, 581: Physical and biological conditions of; Southwell, 578: Cultching, transplanting, trawling and dredging; Southwell, 574: Fauna of Paars, with notes on nature of sea bottom; Southwell, 579.

Ceylon pearl inducing worm; Southwell, 580.

Relation of certain predatory fish to *Margaritifera vulgaris* on Ceylon Pearl Banks; Southwell, 577.

Determination of adult of pearl-inducing worm; Southwell, 576.

Margaritifera and *Aviculoidea*, notes on; Southwell, 575.

Choking of water mains by fresh-water mussels. Lancs. Nat. 5 pp. 98–99.

Certain slugs injurious to Pine trees. Dublin Econ. Proc. R. Soc. 2 p. 76.

VARIATION AND ÆTIOLOGY. 2223

General Treatises.

Variation in *Lymnaea reflexa* Say, from Huron county; **Baker, 23.**

Variation in some Jamaican species of *Pleurodonte*; **Brown, 61.**

Les Céphalopodes adaptés à la vie nectique secondaire et à la vie benthique tertiaire; **Dollo, 151.**

Neritina fluviatilis Müll.; **Hilbert, 267.**

Physa gyrina, variation of; **Hinkley, 271.**

Strombus pugilis, Lin. variation of; **Johnson, 303.**

Vererbungswissenschaftliche Miszellen; **Lang, 361.**

Variationsstatistik einiger *Didacna*-Arten; **Astroumov, 442.**

Margaritifera and *Aviculoidea*, notes on; **Southwell, 575.**

Colour mutation in *Hyalinia helvetica*, Blum.; **Oldham, 429.**

Variation in *Littorina littorea*, L. J. Conch. Leeds 13 p. 340.

Teratology, Phylogeny and Relationship.

Scalariform *Helix aspersa*, Müller. J. Conch. Leeds 13 p. 311.

Inoceramus, evolution of; **Woods, 685.**

Abnormitäten der Organisation von *Anodonta rellensis*; **Splittstosser, 585.**

Variabilität der Schale des ostbaltischen *Anodonta*-Arten; **Riemschneider, 509.**

Limnaea stagnalis, albinisme; **Piaget, 466.**

Helix pomatia, abnormality of; **Pfeffer, 459.**

Pleurotoma regularis de Koninck pourvue de deux siphons; **Leriche, 369.**

Ein bisher unbekannter, grundlegender Faktor für die Auffindung eines Vererbungsgesetzes bei den Nacktschnecken; **Künkel, 346.**

Planorbis corneus, L., abnormal shells of; **Kauffmann, 318.**

Orcohelix cooperi var. *minor*, Ckll. occ. of sinistral specimen; **Henderson, 258.**

Anomalie oder Artbildung; **Geyer, 204.**

Teratological notes; **Geiser, 192.**

Buccinum undatum, Lin., *Littorina saxatilis*, Oliv., *Neptunea antiqua*, Lin., monstrosities of; **Dautzenberg & Fischer, 132.**

Abnormal shells; **Daniels, 123.**

Helix pomatia, deux anomalies de l'appareil génital hermaphrodite; **Blanc, 44.**

Phylogeny of the Najades; **Ortmann, 435.**

Potamolithus, interrelations of; **Pilsbry, 468.**

Close relation of certain spp. of *Diplodon* (*Hyridella*) from Australia with typical *Diplodon* from S. America; **Ortmann, 438.**

DISTRIBUTION. 2227

Cuba, occ. certain spp.; **Vanatta, 645.**

Dogger Bank, occ. certain spp. in shelly clay; **Stather, 588.**

Sioux Falls, S. Dakota, Pleistocene, occ. certain spp.; **Shimek, 547.**

Spitzbergen, Seiström Glacier occ. spp.; **Lamplugh, Strahan & Dezeer, 352.**

Die pleistocäne Molluskenfauna des Kalktuffes von Rontó (Komitat Bihar) in Ungarn; **Kormos, 343.**

Arctic Bed, Lea Valley, list of spp. with notes; **Kennard & Woodward, 321.**

Helix (*Arianta*) *arbustorum* L. und das Klima der Lössperiode; **Geyer, 207.**

Central America, *Yoldia*, *Arca* (*Scapharca*), *A.* (*Noetia*), *Pituria*, *Corbula*, *Sphenia*, *Pecten* (*Lyropecten*), *Hamiaria*, *Marinula*, *Cadulus*, *Olivella*, *Cerithium* (*Potamides?*), *Bittium*, *Tenostoma* (*Pseudorotella*), *Epitonium* (*Sthenorytis*), *Marginella*, *Voluta*, *Turbo* spp. and var. n.; **Dall, 113.**

Pleistocene, S. of France, *Helix*, *Rumina* sp. and varr. n.; **Caziot & Maury, 72.**

N. of France, Pleistocene, occ. certain spp.; **Bouly de Lesdain, 57.**

Vicinity of Montreal, Pleistocene, occ. *Ostrea*; **Ardley, 14.**

Post-Tertiary.

Norway, occ. certain spp.; **Kaldhol, 317**: **Danielsen, 124.**

Die Molluskenfauna der diluvialen und postdiluvialen Kalktuffe des Dresdener Tales; **Geyer, 205.**

Tertiary.

Victoria, *Pecten praecursor* sp. n. = *P. consobrinus* var.; **Chapman, 77.**

Southern Australia, *Limopsis* sp. n.; **Chapman, 76.**

Victoria, Tertiary, *Astralium* (*Imperator*), *Homoloxis*, *Cypraea*, *Pleurotoma* spp. n.; **Chapman, 75.**

Revision of L. and F. W. Gastropoda of the "Mainzer Beckens"; **Fischer & Wenz, 176.**

Germany faunal list; **Gottschick, 218.**

California, *Brannerillus* gen. and sp. n.; **Hannibal, 246.**

Californian Province, tertiary freshwater fauna discussed; **Hannibal, 246.**

Carinthia, Tertiary, *Melongena* (*Myristica*) sp. n.; **Knett, 331.**

Lapparia parki, Suter = *Voluta* (*Lyria*) *corrugata*, Hutton; **Suter, 613.**

Egypt, *Clavalithes*, *Melongena* spp. n. and *Turritella oppenheimi* nom. n.; **Newton, 423.**

Evolution of recent marine molluscan faunas in newer tertiary rocks of India; **Vredenburg, 663.**

Lower Tertiary mollusca of the Fayum Province of Egypt, with list of, and notes on certain species; **Newton, 423.**

S. Germany, Early Tertiary, *Zonites* (*Archaeozonites*), *Plebecula*, *Limnophysa*, *Ericia* spp. n.; **Jooss, 309.**

Sicily, *Chlamys*, *Amussium*, *Radula*, *Nerita*, *Ampullina* (*Euspira*), *Calyptraea*, *Terebellum*, *Conus* spp. n.; **Checchia-Rispoli, 79.**

France, Eocene, *Ostrea*, *O.* (*Alectryonia*), (*Pycnodonta*), (*Exogyra*), *Dimya*, *Plicatula*, *Spondylus*, *Pseudoheligmus*, *Vulsellopsis*, *Vulsella*, *Mytilus*, *Arca*, *Nucula*, *Cardita*, *Crassatella*, *Nemocardium*, *Cardium*, *Chama*, *Miocardia*, *Libitina*, *Meretrix*, *Marcia*, *Diplodonta*, *Teredo*, *Boriesia* spp. mut. and var. n.; **Doncieux, 153.**

Nevada, *Sphaerium* (*Amesoda*), *Corneocyclas* (*Pisidium*), *Helisoma* (*Perissilla*), *Viviparus* (*Callina*) spp. n.; **Hannibal, 246.**

Washington, *Amblaxus*, *Pachychilus*, *Viviparus* spp. n.; **Hannibal, 246.**

Java, *Cypraedia*, *Pustularia* spp. n.; **Martin, 386.**

Bosnia, Eocene, *Crassatella*, *Pleurotomaria*, *Turritella*, *Mesalia*, *Cerithium* spp. n.; **Oppenheim, 433.**

Lower Austria, *Inoceramus* (*Endocostea-Haenleinia*) sp. n.; **Toula, 634.**

Belgium, *Clavagella*, occ. of and notes on; **Vincent, 658.**

Belgium, *Sigaretus* sp. n.; **Vincent, 659.**

France, Mid Eocene, *Amphidromus*, *Dissostoma*, *Neritina*, *Unio*, *Cyrena* spp. n.; **Doncieux, 152.**

California, *Margaritana* (*Pseudunio*), *Unio*, *Corneocyclas* (*Pisidium*), *Pachychilus*, *Lioplax* spp. n.; **Hannibal, 246.**

Idaho and Oregon, *Sphaerium* (*Amesoda*), *Zalophaneylas* spp. n.; **Hannibal, 246.**

Marine Mollusken im west-europäischen Pliocänbecken; **Tesch, 622.**

California, *Pyrgulopsis* sp. n.; **Hannibal, 246.**

New Zealand, Lower Pliocene, *Mactra* sp. n.; **Suter, 612.**

Obermiocaen, Undorf, *Strobilus*, *Pupa*, *Helix*, *Acme*, *Ancylus*, *Limnaea* spp. and var. n.; **Clessin, 89.**

Württemberg, Upper Miocene, *Patula*, *Helicodonta* (*Helicodonta s. str.*), *Strobilus*, *Vallonia*, *Pomatias* (*Rhabdotakra*) spp. n.; **Jooss, 308.**

Neocene Deposits of Kern River, California, faunal list; **Anderson, 7.**

France, Aquitainian, faunal lists; **Degrange-Touzin, 135.**

France, Aquitainian, *Crassatella*, *Carditopsis*, *Astarte*, *A.* (*Goodallia*), *Cardita* (*Glans*), *Venericardia*, *V.* (*Cardiocardita*), *Pteromeris*, *Nucula*, *Leda* (*Lembulus*), *Yoldia*, *Malletia*, *M.* (*Neilo*) *Tindaria*, *Nuculina*, *Arca*, *A.* (*Anadara*), (*Pectinatarca*), *Barbatia*, *Fossularca*, *F.* (*Galactella*), *Limopsis* mut. var. and spp. n.; **Cossmann & Peyrot, 104.**

Hungary, Láquité, occ. certain spp.; Gaál, 187.

Vesquevillia loticularis Desh. is probably but the operculum of a *Tylopoma*; Gude, 230.

California, *Gonidea*, *Planorbis* (*Segmentina*), *Pachychilus* spp. n.; Hannibal, 246.

Fauna from type locality of Monterey series, California; Martin, 395.

Italy, occ. certain spp.; Lupano, 386.

Austria (Eggenburg), Miocene, *Calyptraea*, *Cerithium* (*Clava*), (*Granulolabium*), (*Ptychopotamides*), (*Tympanotonus*), *Buccinum* (*Dorsanum*), *Fasciolaria* (*Euthriofusus*), *Murex* (*Trophon*), (*Ocinebra*), *Natica*, *N.* (*Neverita*), *Patella*, *Pleurotoma* (*Clavatula*), (*Perrona*), *Protoma*, *Pyrula* (*Fulguroficus*), (*Melongena*), (*Tudicla*), *Strombus*, *Trochus* (*Oxystele*), *Turritella*, *T.* (*Haustator*) spp. and varr. n.; Schaffer, 522.

Gastropodenfauna von Eggenburg; Schaffer, 523.

California, check lists of spp.; Smith, 562.

Italy, Tortonian, *Nassa*, *Pecten* spp. n. and list of species with notes; Trentanove, 636.

Identity of *Ostrea proscensis*, Noetling with *O. digitalina*, Eich.; Vredenburg, 662.

Germany, Mainzer Becken, the presumed occ. of *Leurochroa*; Boettger, 43.

Germany (Mainze), Oligocene and Miocene, occ. of and notes on certain spp.; Mordziol, 414.

Mesozoic.

Mesozoische Trigonien von Mangyschlak; Lickov, 374.

Fauna der mesozoischen Ablagerungen von Andö, Norwegen; Sokolov, 567.

Cretaceous.

New Zealand, Upper Cretaceous *Turritella* sp. n.; Suter, 612.

Eastern Russia, Upper Cretaceous, *Actinocamax*, *Belemnitella* spp. and var. n.; Archangliskij, 12.

Neocom von Kislovodsk; Zatvornickij, 699.

Cretaceous mollusca, Jukes-Browne, Geol. Mag. London 9 pp. 190–191 & 369–372.

Inoceramus, evolution of; Woods, 685.

England, *Inoceramus* spp. and var. n.; Woods, 684.

Scaphites binodosus, A. Roemer in lower Senonian; Wagner, 669.

Spitzbergen, *Cenoceras*, *Inoceramus* spp. n.; Stolley, 605.

Belemnites, notes on; Stather, 589.

Amurland [? Cretaceous], *Aucellina*, *Inoceramus* spp. n.; Sokolov, 569.

Chalk of Flamboro' District, occ. certain spp.; Sheppard, 546.

Peru, Vraconian and Cenomanian faunal list with notes; Schlagintweit, 529.

Italy, *Radiolites*, *Distefanella*, *Sauvagesia*, *Durania* spp. n.; Parona, 453.

Italy, *Distefanella*, *Durania* spp. n.; Parona, 451.

Picardy, *Actinocamax* sp. n. and occ. certain other spp. mollusca; Leriche, 366.

France (Drome), Lower Aptien, faunal list; Kilian & Reboul, 326.

Ammonitoceras, notes on; Kilian, 325.

Colorado, Vicinity of Boulder University, list of spp.; Henderson, 259.

Folkestone Warren, occ. certain spp.; Gwinnell, 234.

Haute, Zones of Chalk, faunal list; Griffith & Brydone, 223.

Loire Inférieure, *Mammites*, *Neolobites*, *Melengonoceras* spp. n.; de Grossouvre, 224.

Pseudotoucasia et *Baylea*; Douvillé, 155.

Balearic Isds., Gault, *Gaudryceras*, *Puzosia* spp. n.; Fallot, 175.

Argentina, *Holcodiscus* spp. n.; Douvillé, 156.

Arabian Desert, occ. certain spp.; Di-Stefano, 147.

North Kent, Chalk Rock occ. certain spp.; Dibley, 141.

Italy, occ. certain spp.; **Dainelli**, 110.

Kreide des Küsten des Aralsees, *Ostrea*, *Exogyra*, *Pecten*, *Neithea*, *Limea*, *Spondylus*, *Leda*, *Trigonia*, *Meretrix*, *Tellina*, *Corbula*, *Baculites*, *Actinocamax*; **Archangelskij**, 13.

Patagonia, Lower Cretaceous, *Silesites*, *Aucellina* spp. n.; **Stolley**, 605.

Maryland, Lower Cretaceous, *Bythinia*, *Viviparus*, *Cyrena*, *Unio* spp. n.; **Clark**, 85.

Jurassic.

Saône et Loire, Upper Jurassic, occ. certain spp.; **Rouyer**, 516.

Madagascar, Upper Jurassic, *Oppelia*, *Peltoceras*, *Macrocephalites*, *M.* (*Kosmatia*), *Perisphinctes* races and spp. n.; **Lemoine**, 364.

Austria, Middle Jurassic, occ. *Dicerasluci*; **Parona**, 452.

Dept. of Gard, middle and upper Jurassic occ. certain spp.; **Guiraud**, 232.

British Columbia, *Nannophorites*, *Choristoceras* spp. n.; **Clapp & Shimer**, 82.

The Family *Oppeliæ* of the S. German Jurassic; **Wepfer**, 673.

Germany, Lias, *Belemnites* spp. and varr. n.; **Werner**, 674.

Germany, Aalenian, faunal list; **Werveke**, 675.

Himalayas, Spiti Shales, *Himalayites*, *Haplites* (*Blanfordia*), (*Acanthodiscus*), (*Kilianella*), (*Thurmannia*), (*Sarasinella*), (*Neocomites*), *Macrocephalites*, *Simbirskites*, *Kosmatia*, *Perisphinctes* (*Grossouvria*), (*Parabolioceras*) spp. n.; **Uhlig**, 641.

Switzerland, Callovien, *Hecticoceras* spp. n.; **Tsytovitch**, 637.

Switzerland, *Pecten* (*Chlamys*), *Ostrea*, *Ceromya* spp. n.; **Trauth**, 635.

Southern Algero-Moroccan Frontier, occ. certain spp.; **Termier & Douvillé**, 621.

Gouv. Moskau, Schiefer von Galieva, Mollusca; **Sokolov**, 568.

Petschora-Gebiet, *Cadoceras*, *Cardioceras* spp. n.; **Sokolov**, 570.

N.E. Greenland, Sequanian-Kimmeridgian, *Perna*, *Pecten* (*Camptonectes*), *Macrodon*, *Astarte*, *Tancredia*, *Anisocrania*, *Lytoceras*, *Cosmoceras*, *Kepplerites*, *Aulacostephanus* (?), *Garnieria* spp. n.; **Ravn**, 499.

Italy, Jurassic, *Lytoceras*, *Arietites* (*Arnioceras*), *Teuchus*, *Harpoceras*, *Diplocoenas* spp. and varr. n.; **Rassmass**, 498.

Gastropoda der Juraablagerungen von Littauen und Kurland; **Riabinin**, 508.

Leyerberg bei Erlangen, Germany, occ. certain spp.; **Reuter**, 507.

Swabia, many species Cephalopoda discussed; **Pietzcker**, 465.

S. Tirol, Middle Lias, *Diotis jaane*, Meneghi. var. n. and list of spp. with notes; **Haas**, 239.

Cracow, Lower Oxfordian, *Perisphinctes* sp. n. and notes on other spp. from the same formation; **Klebelsberg**, 329.

Ueber einen Cephalopodenfund [*Oppelia Holbeini*] im oberen Jura der Losers bei Alt-Aussee; **Haas**, 240.

Sicily, Jurassic, *Pterygochiton*, *Heterochiton*, *Allochiton* spp. n.; **Fucini**, 186.

Sardinia, Bathonian, occ. certain spp. with *Pecten* sp. n.; **Fucini**, 185.

Italy, *Pecten* (*Chamys*) sp. n. and occ. of and notes on certain other spp.; **Fabiani**, 172.

Virgatites ponderi, Eichw. occ. of in Caucasus, and origin of group in Mediterranean region; **Douvillé**, 158.

Argentina, ? Jurassic, *Polyptychites* sp. n.; **Douvillé**, 156.

Argentina, *Virgatites* spp. n.; **Douvillé**, 156.

Germany, *Ammonites* (*Ochetoceras*) sp. n.; **Dietlen**, 145.

Nomenklatur und Systematik der Gruppe des *Haplites americanus*, Favre; **Diener**, 142.

Scarborough Lime-tone, Ammonites of; **Buckman**, 62.

Tesmocheilus (*Conchorhynchus*) *freieslebeni*, Geinitz; **Böhm**, 52.

Lower Jurassic, France, *Pleurotomaria* sp. n.; **Joly**, 306.

Triassic.

Lombardy, Bituminous schists, list of Ammonites and *Halobia*, *Celtites*, *Ceratites*, *Balatonites* spp. n.; **Airaghi**, 4 & 5.

Bosnia, Muschelkalk *Pleuronautilus*, *Ptychites*, *Arthaberites* spp. n.; **Turina**, 639.

Italy, *Pseudomonotis* (*Enmicrotes*), *Gervillia* (*Angustella*), *Perna*, *Lima* (*Plagiostoma*), (*Limea*), *Pecten*, *Myophoriopis*, *Terquemia* (?), *Plicatula*, *Anomya*, *Gryphaea*, *Myoconcha*, *Macrodon*, *Cucullaea*, *Anoplophora*, *Pleurophorus*, *Solenomya* (?), *Myophoria*, *Myophoricardium*, *Schafhäutlia*, *Schizodus* spp. and varr. n.; **Scalia**, 521.

Southern Algero-Moroccan Frontier, occ. certain spp.; **Termier & Douvillé**, 621.

Tonkin, occ. certain spp.; **Mansuy**, 389.

Italy, Dolomia Principale, *Myoconcha*, *Myophoria*, *Cardita*, *Megalodus* (*Neomegalodus*), *Diecrocardium*, *Pleuromya* ?, *Solenomya*, *Purpuroidea*, *Turritella* spp. n.; **Di-Stefano**, 146.

Daralagöz (Soubons-dagh), occ. certain spp.; **Bonnet**, 54.

South-eastern Alaska, triassic fossils; **Atwood**, 20.

Italy, Monte Cucco, *Ceratites*, *Cuccoceras*, *Dinarites* spp. n.; **Arthaber**, 17.

Grundzüge einer Systematik der triadischen Ammoneen; **Arthaber**, 15.

Ueber neue Funde in der Untertrias von Albanien; **Arthaber**, 18.

Albania, Lower Triassic, *Celtites*, *Columbites*, *Meekoceras*, *Monophyllites*, *Leecmites*, *Parapopanoceras*, *Pronorites*, *Sageceras*, *Xenaspis* spp. n.; **Arthaber**, 16.

Permian.

Bohemia, Permian faunal list; **Frič**, 181.

Durham, faunal lists; **Woolacott**, 687.

W. Australia, Permo-Carboniferous, *Conularia*; **Glauert**, 214.

Palæozoic.

"Hecla" and "Fury" Expeds., *Discosorus* spp. n.; **Lee**, 363.

Synopsis of type specimens from Wisconsin; **Teller**, 620.

Carboniferous.

Spitzbergen, occ. of *Platyceras parvum*, Swallow. Kristiania Skr. Vid. selsk., 1911 (1912) Bd. I No. 10 p. 37.

Warwickshire Coalfield, occ. certain spp.; **Vernon**, 655.

The fauna of the Maxville limestone; **Morse**, 415.

Ostrauer Schichten, *Coelonautilus*, *Bytolithus*, *Bellerophon*, *Euomphalus*, *Ctenodonta* (*Palaeoneilo*) spp. n.; **Klebelsberg**, 330.

Certain spp. from Lancashire Coalmeasures, notes on; **Jackson**, 297.

Midland Coalfields, faunal lists; **Horwood**, 282.

Belgium, *Carbonicola*, *Anthracomya* spp. n.; **Hind**, 269.

Arkansas, Mississippian, *Edmondia*, *Cypricardinia* ?, *Allorisma*, *Endolobus* spp. and var. n.; **Girty**, 213.

Oklahoma, *Nucula*, *Anthraconeilo*, *Limatula* ?, *Dentalium*, *Orestes*, *Bellerophon*, *Meekospira*, *Xanthinopsis*, *Orthoceras*, *Pseudorthoceras*, *Protocycloceras* ?, *Coloceras*, *Metacoceras*, *Cyrtoceras*, *Gastrioceras*, *Dimorphoceras*, *Goniolobocera* spp. and varr. n.; **Girty**, 212.

N.W. England, faunal lists; **Garwood**, 188.

Lower Carboniferous, Great Britain, *Tropidostropha*, *Trochmannia*, *Tmetonema* genn. subgen. and spp. n.; **Longstaff**, 384.

Lower Carboniferous, Ireland, *Foordella*, *Microptychis* gen. subgen. and spp. n.; **Longstaff**, 384.

Devonian.

Germany, Upper Devonian *Aviculopecten*, *Avicula* (*Leiopteria*), *Kochia* (*Lozopteria*), *Myalina*, *Cardiola*, *Cyrtoceras*, *Gomphoceras*, *Clymenia*, *Tornoceras*, *Dimeroceras* spp. n.; **Born**, 56.

Muhodjary, Upper Devonian, *Aviculopecten*, *Pleurotomaria*, *Porcellia* spp. n.; **Nikantov**, 425.

Russia, *Avicula*, *Opistocoelus*, *Poterioceras*, *Tornoceras*, *Cheiloceras*, *Leiorhynchus*, *Clymenia* spp. n.; **Sobolev**, 565.

Mugodjary, Lamellibranchiaten, Gastropoden und Cephalopoden; **Nachimson, 420.**

Clymenia fauna in America; **Raymond, 500.**

Gedinnian, Belgium, list of spp. with notes; **Leriche, 367.**

The Huron group in western Monroe and eastern Greene counties, Indiana; **Greene, 220.**

Western Finistère, occ. certain spp.; **Collin, 95.**

Quebec, Devonic, *Cyrtolasia* sp. n.; **Clarke, 86.**

Wisconsin, *Mytilarca, Conocardium, Nyassa, Pterinopecten, Modiomorpha, Paracyclas, Goniophora, Megalomoidia, Porcellia* ?, *Cyclonema* ?, *Trochonema, Loxonema* (*Aclisina*), *Platyceras, Coleolus* ?, *Coantaria, Orthoceras* spp. and vart. n.; **Cleland, 87.**

Belgium, Frasnian, *Aviculo, Cucullella, Goniophora, Sphenotus, Leptodomus* spp. n.; **Asselbergs, 19.**

Belgium, Schistes de Mondrepius, occ. certain spp.; **Leriche, 368.**

Silurian.

Wisconsin, Niagara formation, *Murchisonia conradi* Hall; **Teller, 619.**

Maine, *Ewaymella, Cliopteria* [near *Pterinea*], *Pterinea, Streptotrochus* spp. n.; **Williams, 678.**

Bolivia, *Orthoceras, Arca* spp. n.; **Steinmann & Hoek, 591.**

Jefferson Limestone of N. Rocky Mountain Region, occ. certain spp.; **Kindle, 327.**

Ordovician.

Central U.S., Ordovician, *Helicotoma, Orthoceras* spp. n.; **Foerste, 178.**

Cambrian.

China, Cambrian, *Orthotheca* sp. n.; **Walcott, 666.**

Gippsland, Victoria, *Scenella* sp. n.; **Chapman, 74.**

New York, Potsdam-Hoyt fauna with *Hyolithellus* sp. n.; **Walcott, 667.**

III.—SYSTEMATIC INDEX.

Gastropoda.

APLACOPHORA.

Spongelomenia **gen. n.** genotype *S. Bathybia* **sp. n.** Barbados, HEATH Zool. Jahrb. Jena Suppl. **15** Bd 1 p. 475.

POLYPLACOPHORA.

Acanthochites leuconotus Lord Howe Is.; *approximans*. Lord Howe and Norfolk Is., spp. n., HEDLEY & HULL Proc. Linn. Soc. N. S. Wales **37** pp. 275–6.

II.—SUBJECT INDEX.

GENERAL 2603

Bibliography.

Jahresbericht für 1908: **Lucas u. Stendell, 166**: für 1910; **Lucas u. Stendell, 167.**

Collections and Expeditions.

Norwich Museum, types of fossil *Cirripedia* descr. by Darwin; **Withers, 311.**

"Scalark" *Mysidacea* and *Euphausiacea*; **Tattersall, 286.**

"Pourquoi Pas?" 2nd Antarctic Exped., *Gammaridea*; **Chevreux, 43.**

Plankton Exped., *Copepoda*; **Dahl, 59.**

"Novara" Exped., revision of *Penaeidae*; **Pesta, 214.**

Nomenclature.

Stebbing, 279.

Economics.

Lobster Fishery, W. coast England **Jenkins, 138**: Fishery of *Nephrops*; **Storrow, 283.**

Marking experiments with crabs [*Cancer pagurus*]; **Donnison, 68.**

Lobster culture, protection of Crabs and Lobsters; **Meek, 179.**

Peste des écrevisses; **Mercier** et **Drouin de Bouville, 185**: **Järvi, 137**: **Pekkola, 207.**

Crustacea as food of Mackerel and Clupeoids; **Bullen, 32**: *Cladocera* as food of freshwater fishes; **Doolittle, 70.**

STRUCTURE. 2607

General.

Cyclometopa; **Klunzinger, 154**: *Paralithodes* (Japanese); **Nakazawa, 197**: *Cambaroides*, anatomy, taxonomy; **Givler, 90**: *Cryptocheles* and *Bythocaris* (*Caridea*); **Sars, 248**: *Caridinopsis* (*Caridea*); **Bouvier, 19**: Internal anatomy of *Squilla*; **Woodland, 312**: *Phreatoicopsis* (*Phreatoicidea*); **Raff, 227**: *Cirolanidae* (*Flabellifera*); **Racovitza, 226**: *Micromisces* (*Epicaridea*); **Pesta, 208**: Middle Cambrian *Phyllopoda* and *Phyllocarida*; **Walcott, 301**: *Pseudomonina* gen. n. (*Cladocera*); **Sars, 252**: freshwater *Calanoida* (*Copepoda*) from Australia; **Sars, 251**: *Chordeuma* (*Copepoda* paras.); **Jungersen, 143**: *Herpyllobius* (*Copepoda*); **Haddon, 115**: *Dipteropeltis* (*Branchiura*); **Calman, 34**: Struct. of †*Brachylepas* (*Cirripedia*); **Withers, 308**: *Mycetomorpha* (*Rhizocephala*, *Cirripedia*); **Potts, 220**: *Rhizocephala*; **Duboscq, 75.**

Asymmetry; **Przibram, 223**: Torsion des *Lernaeidae* (*Copepoda*); **Quidor, 224**: Paguriden mit gestrecktem Abdomen; **Balss, 10.**

Exoskeleton.

Exoskeleton of *Ostracoda*; **Fassbinder, 86.**

Morphologie der Extremitäten, *Branchiopoda*; **Behning, 13**: Mundgliedmassen; **Goldi, 91**: Secteurs des plaques des Cirrhipèdes; **Joleaud, 140**: Carina in *Scalpellum* (*Cirripedia*); **Withers, 311.**

Anheftungsorgane bei *Paguridea*; **Balss, 10.**

Nervous System and Sense Organs.

Nerf cérébro-cardiaque, *Palinurus*; **Mocquard, 189.**

Augen der Tiefseegalatheiden; **Dobkiewicz, 65**: *Typhlocirolana*; **Menacho, 181**: Facettenauge; **Moroff, 191**: Medianauge; **Moroff, 192.**

Hautsinnesorgane bei Carididen; **Laubmann, 157**: Organe des chemischen Sinnes bei *Crangon* u. *Leander*; **Wedemeyer, 303.**

Cellules nerveuses sensitives dans l'intestin terminal de l'Écrevisse (*Astacus fluviatilis*); **Rainer, 228.**

Circulatory and Respiratory Organs.

Respiratory mechanism of *Corystes* (*Cyclometopa*); **Zimmermann, 317**: Branchiae in *Paramysidopsis* (*Mysidacea*); **Zimmer, 315.**

Digestive System.

Darm der Wasserassel; **Bleher, 17**: Magen der höheren Krebse; **Jordan, 141.**

Excretory System.

Shell-gland of marine and brackish-water *Cladocera*; **Schweiger, 260.**

Reproductive organs.

Spermatophores and specialized claws in *Pandalus* and *Paribacus*; **Andrews, 3.**

Weiblicher Copulationsapparat, *Ostracoda*; **Fassbinder, 86**: Penis &c. *Ostracoda*; **Hirschmann, 123.**

Hermaphroditism of *Lysmata* (*Caridea*); **Spitschakoff, 276.**

Special organs and tissues.

Bindegewebe bei Dekapoden; **Malaczyńska, 171**: von *Argulus*; **Grobben, 104.**

Chromatophoren; **Degner, 60, 61**: **Megušar, 180.**

Konzentrisch geschichtete Chitinkörper bei *Branchipus grubii*; **Alverdes, 2.**

Cytology.

Basi citologiche di una nuova sistematica del genere *Artemia*; **Artom, 7.**

PHYSIOLOGY. 2611

Herzschlag des Flusskrebses; **Hoffmann, 125**: Arterielle Blutdruck des Hummers; **Brücke & Satake, 28.**

Respiratory mechanism of *Corystes* (*Cyclometopa*); **Zimmermann, 317**: Regulation der Atemrhythmik bei *Squilla mantis*; **Matula, 177.**

Anticorps naturels chez *Eupagurus prideauxii*; **Cantacuzène, 37.**

Schvermögen der Crustaceen; **Erikson, 79**: Augen der Tiefseegalatheiden; **Dobkiewicz, 65, 66**: Einfluss der Dunkelheit auf das Daphnienauge; **Kapterew, 148**: Migration of retinal pigment, *Branchipus*; **Howland, 129.**

Über Funktion der Chromatophoren; **Degner, 60, 61**: Ausscheidung von Farbstoffen bei Krustazeen; **Emeljanenko, 78**: Farbstoff der gekochten Krebse; **Grandmougin, 92.**

Reactions of young lobsters to food stimuli; **Hadley, 116**: of *Branchipus* to light, heat and gravity; **McGinnis, 169**: Light reactions in luminous Crustacea; **Lund, 168**: Tropisms of *Cladocera*; **Rose, 245.**

Ausnutzung strahlender Energie im Fettstoffwechsel der Garneelen; **Bauer, 11**

Morte apparente, Brachiuri; **Polimanti, 217**: Letargo osmotico, *Harpacticus* (*Copepoda*); **Issel, 133.**

Einfluss einiger Lösungen auf die Häutung, Regeneration und das Wachstum von *Asellus aquaticus*; **Hankó, 118.**

General.

Callinectes sapidus ontogeny; **Binford, 16**: Reprod. of freshwater Amphipods; **Embody, 77**: Life-history of *Nitocra incerta* (*Copepoda*); **Liddell, 163**: Devel. of *Mycetomorpha* (*Rhizocephala*); **Potts, 220.**

Influence of temperature on rate of development of *Mysis*; **Schlegel, 255.**

Poecilogony in *Palaemonetes*; **Sollaud, 273.**

Oogenesis, Spermatogenesis, Fertilization, &c.

Spermatogenesis, *Alpheus* (*Caridea*), **Ishikawa, 132**: Ostracoden; **Schmalz 257.**

Eigrösse bei den Paguriden; **Balss, 10.**

Embryology.

Entw. d. Cladoceren aus dem Dauerei; **Vollmer, 298, 299.**

Entw. d. Medianauges; **Moroff, 192**: des Facettenauges u. des Muskelgewebes; **Moroff, 191.**

Metamorphosis, Larval Forms, &c.

Larval stages of *Decapoda* from W. Greenland; **Stephensen, 280**: Postembryonal development of *Paralithodes camtschatica*; **Nakazawa, 197**: Larvae of *Spirontocaris* (*Caridea*); **Stephensen, 281**: of *Leander* (*Caridea*); **Sollaud, 272**: of *Hippolyte varians* (*Caridea*); **Sars, 249**: of *Atyidae* (*Caridea*) from Tanganyika; **Sars, 253**: of *Euphausiacea*; **Hansen, 119**: *Hieronimcus*-stage of *Epicaridea*; **Pesta, 208**: Sviluppo larvale dei Copepodi pelagici **Grandori, 93**: Nauplius-stage of *Zaniclopus* (*Copepoda*); **Gravier, 103**: Larvae of *Chardeuma* (*Copepoda* paras.); **Jungersen, 143**: Dimorphic development, *Copepoda*; **Sewell, 268.**

Brooks's law applied to *Copepoda*; **Sewell, 268.**

Développement de la muraille chez le *Xenobalanus* (*Cirrip.*); **Gruvel, 108.**

Generation Cycles.

Bosmina coregoni; **Rühe, 247.**

Regeneration.

Przibram, 223.

Regen. von Haaren; **Laubmann, 157.**

Hermaphroditism, &c.

Hermaphrodisme apparent chez l'Ecrevisse; **Despax, 64**: H. of *Lysmata* (*Caridea*); **Spitschakoff, 276.**

Sexual conditions of *Rhizocephala*; **Potts, 220.**

ETHOLOGY. 2619

General.

Habits, etc., of *Cyclometopa*; **Klunzinger, 154**: fiddler-crabs, *Uca* [*Gelasimus*]; **Pearse, 205**: spp. of *Hyas* (*Oxyrhyncha*); **Dons, 69**: *Emerita* (*Hippidea*); **Weymouth and Richardson, 304**: *Nephrops norvegicus*; **Gauss-Garády, 88**: **Storrow, 283**: Australian Crayfishes; **Smith, 271**: *Cambarus*; **Chidester, 47**: *Typhlocaris* (*Caridea*); **Annandale, 5.**

Marine *Valvifera*; **Issel, 134, 135**: *Hyalella* (*Gammaridea*); **Jackson, 136**: fresh-water Amphipods; **Embody, 77**: freshwater Crustacea in N.E. Greenland; **Johansen, 139.**

Phenology, Migrations.

Zeit des Auftretens der *Cladocera* im europ. Russland; **Vereščagin, 297**: Cyclisches Auftreten der Cladoceren im Gouv. Novgorod; **Vereščagin, 295**: im See von Skutari; **Vereščagin, 296**: Einfluss der geographischen Breite auf das cyclische Auftreten der Cladoceren; **Vereščagin, 293.**

Temporale Vertcilung der Cladoceren und Ostracoden im Triester Golf; **Kajdiž, 145.**

Winterfauna der Tatra-Seen; **Minkiewicz, 187.**

Breeding Habits, &c.

Sexual differences of *Caridea*; **Sars, 250.**

Lebensdauer der Eier von *Apus productus*; **Schreitmüller, 259.**

Habitats.

Habitats of *Crustacea* English Channel; **Crawshay, 54**: *Brachyura* at Roscoff; **Schlegel, 256.**

Freshwater occ. of *Corophium*; **Wundsch, 314**: Freshwater and marine *Cytheridae* (*Ostracoda*); **Alm, 1**: *Gammarus* in brackish and fresh water; **Sexton, 269**: *Cyclops bisetosus* in Salinen; **Thienemann, 290**: Schwefelquelle, Galizien, *Ostracoda*; **Grochmalicki, 105**: sewage tanks, *Caridea*; **Pearson, 206.**

S. Africa, *Copepoda* spp. n.; Douwe, 72: Natal and Zululand, *Atyidae* (*Caridea*), *Potamonidae* (*Cyclometopa*); Lenz, 160.

North America. *g*

N. America, *Copepoda*; Marsh, 175: *Cyclops* spp.; Chambers, 41.

United States, New Hampshire, *Cladocera* sp. n.; Doolittle, 70: Michigan, *Crustacea*, list; Pearse, 202:

Winona lake, Indiana, *Crustacea* list; **House, 128**: Mississippi, *Branchiura* sp. n.; **Wilson, 306**: Colorado, parasite fauna; **Hall, 117**: Boulder county, Col., *Crustacea*; **Cockerell, 52.**

Central and South America and West Indies. *h*

Panama, *Caridea* sp. n., *Cyclometopa* sp. n.; **Rathbun, 229**: *Oniscoidea* sp. n.; **Richardson, 235**: *Epicaridea* spp. n.; **Richardson, 236.**

Cuba, *Decapoda* spp. n., *Isopoda*; **Rathbun, 230**: Jamaica, *Oniscoidea* sp. n.; **Richardson, 234.**

Colombia, *Cyclometopa* spp. n.; **Zimmer, 316**: *Oniscoidea* sp. n.; **Richardson, 243.**

Brazil, *Copepoda* spp. n.; **Douwe, 74**: Amazons, *Copepoda* sp. n.; **Burckhardt, 33**: Matto Grosso, *Branchiura* sp. n.; **Calman, 34.**

Australasia. *i*

Australian region, *Parastacidae*, revision, spp. n., distrib.; **Smith, 271**: Australia, *Oniscoidea* spp. n.; **Budde-Lund, 29.**

Victoria, localities for *Phreatoicopsis* (*Phreatoicidea*); **Raff, 227**: *Cladocera*; **Sars, 252**: *Copepoda* spp. n.; **Sars, 251**: *Copepoda* spp. n.; **Searle, 266.**

New Zealand, *Brachyura*; **Chilton, 50.**

Arctic.

Vacant.

Indian Ocean Islands. *m*

Mauritius, *Caridea* sp. n.; **Bouvier, 22.**

Seychelles, *Caridina* (*Caridea*); **Bouvier, 18.**

Antarctic. *o*

Vacant.

C. MARINE.

(The arrangement is based on that of Borradaile, Bibliography of the Marine Fauna, Challenger Society, 1908.)

General.

Fortpflanzung und Verbreitung; **Appellof, 6.**

"Bipolar" distrib. in *Amphipoda*; **Chilton, 49.**

Distrib. of spp. of *Hyas* (*Oxyrhyncha*); **Dons, 69**: *Cumacea*, many new records esp. in Atlantic and N. Pacific; **Calman, 36**: *Corycaeus* (*Copepoda*), spp. n.; **Dahl, 59.**

Atlantic Ocean.

Paguridea; **Balss, 10**: *Amphipoda*; **Chilton, 49**: *Hyperiidea* spp. n.; **Behning u. Woltereck, 15**: *Copepoda* spp. n., *Cladocera*, *Ostracoda*; **Scott, 262.**

N. Atlantic and Mediterranean *Copepoda* (paras.) spp. n.; **Brian, 25.**

North Atlantic.

Crustacea records; **Murray** and **Hjort, 196**: *Tanaidacea* spp. n., *Isopoda* spp. n.; **Richardson, 242**: *Gammaridea* sp. n.; **Chevreux, 44**: *Copepoda* (paras.) sp. n.; **Quidor, 225**: *Cirripedia* spp. n.; **Gruvel, 109, 111, 112.**

Eastern Atlantic, *Copepoda* (paras.); **Jungersen, 142.**

Off N.W. Scotland, *Cumacea* sp. n., *Ostracoda*; **Scott, 261**: Flannan Ids. *Paromola cuvieri*; **Ritchie** Scottish Nat. Edinburgh **1912** pp. 17–18.

Outer Hebrides, *Palinurus vulgaris*; **Ritchie** Scottish Nat. **1912** pp. 93 and 166: *Xantho hydrophilus*; **Ritchie** t.c. p. 142.

Clare Id. district, W. Ireland, *Decapoda* list; **Farran, 85**: *Phyllocarida*, *Cumacea*, *Mysidacea*, *Euphausiacea*, *Stomatopoda*; **Tattersall, 284**: *Isopoda*, list; **Tattersall, 285.**

Clyde Marine Area, additions to list, *Crustacea*; **King, 152.**

Irish Sea. E. coasts of Ireland, *Crustacea* lists; **Massy, 176**: Isle of Man, *Copepoda*; **Herdman** and **Scott, 121.**

Nordsee, *Crustacea* records; **Tesch, 289**: *Caridea*; **Wedemeyer, 303**: *Hyperiidae* und *Cumacea* der südlichen Nordsee; **Tesch, 288**: Lincolnshire, *Decapoda*; **Smith, 270.**

Skagerrak, *Copepoda* paras. sp. n.; **Jungersen, 143.**

Baltic, *Gammaridea* sp. n.; **Sexton, 269**: Osel, *Crustacea* records; **Schneider, 258**: **Taube, 287**: Entomostraca der Insel Memmert; **Leege, 159**: Gulf of Finland, *Ostracoda* spp. n.; **Hirschmann, 123.**

Western English Channel, *Crustacea*, list; **Crawshay, 54**: Roscoff, *Brachyura*, list; **Schlegel, 256**: Boulogne, *Cumacea*; **Cligny, 51**: Bretagne, *Gammaridea* sp. n.; **Chevreux, 45.**

Coast of France, *Rhizocephala* spp. n.; **Duboscq, 75**: Arcachon, *Copepoda* (paras.) *Caprellidae*; **Cuénot, 55**: *Branchiura* sp. n.; **Cuénot, 56.**

Off American coast, *Cumacea* spp. n.; **Calman, 36**: *Copepoda* sp. n. associated with *Limulus*; **Liddell, 163.**

Mediterranean.

Cirripedia sp. n.; **Gruvel, 112**: *Rhizocephala*; **Guérin-Ganivet, 113.**

Mallorca, *Gammaridea* sp. n.; **Marcus, 174.**

Banyuls, *Rhizocephala* sp. n.; **Duboscq, 75.**

Catania, *Decapoda*, list; **Magri, 170.**

Adria, *Decapoda*; **Pesta, 215**: *Epicaridea* sp. n.; **Babić, 8**: Cladoceren und Planktonostracoden; **Schweiger, 260**: Venezia, *Copepoda* spp. n.; **Grandori, 94**: Gulf of Triest, *Cladocera*, *Ostracoda*; **Kajdiž, 145**: Südl. Adria, *Copepoda*; **Steuer, 282.**

E. Mediterranean, *Copepoda*; **Pesta, 209.**

Aegean Sea, *Homarus* & *Palinurus*; **Thompson** Nature 89 1912 p. 231; **Calman** t.c. p. 529.

Black Sea, Bulgarian Coast, list of *Crustacea*; **Chichkoff, 46.**

Tropical Atlantic.

Gulf coast of U.S., *Cumacea* sp. n.; **Calman, 36**: Gulf of Mexico, *Gammaridea* spp. n., *Hyperiidea*, *Caprellidea*; **Pearse, 203**: Mexico, *Flabelliferа* sp. n.; **Richardson, 232**: *Flabellifera*, sp. n.; **Richardson, 233.**

Jamaica, *Flabellifera* sp. n.; **Richardson, 234**: Fish parasites, *Ostracoda*, *Copepoda*, *Isopoda*; **Wilson, 307.**

Brésil, *Dromiacea* sp. n.; **Moreira, 190**: *Flabellifera* sp. n.; **Richardson, 239.**

II.—SUBJECT-INDEX.

GENERAL, ECONOMICS. 3003

Biography.

Carl Julius Neuman; **Trägårdh, 186.**

Bibliography.

Jahresbericht für 1908; **Strand, 171**: für 1910; **Strand, 172.**

General Works.

General account of *Arachnida*; **Comstock, 20**: *Arachnida, Linguatulida, Acari* (part); **Berlese, 6.**

Collections, etc.

Collections cécidologiques [Acarocécidies] de l'herbier du Dr. Fairmaire (Muséum d'Hist. nat. de Paris); **Houard, 81.**

Nomenclature, etc.

Lohmanella (*Acari*); **Trouessart, 189.**

Economics (see also Parasitism, p. 21).

N. American ticks; **Hooker, Bishopp & Wood, 78**: Tick problem in South Africa; **Moore, 109**: Transmission of East Coast Fever by Ticks; **Theiler, 177**: Introduction and spread of the cattle tick and of tick fever in Australia; **Gilruth, 56**: Zeckenlarven an Menschen; **Ziemann, 208.**

Argas persicus persicus als Uebertrager der *Spirochaeta gallinarum* auf Hausgeflügel; **Schaburov, 157**: im Gouv. Saratov; **Jakimov, Vinogradov & Kohl-Jakimova, 84**: Argas et spirochètes; **Marchouv & Couvy, 103**: *Argas* et spirilles; **Marchoux & Couvy, 102**: *Trypanosoma cruzi* in *Ornithodorus moubata*; **Brumpt, 13.**

Avvelenamenta e morte per puntura dello Scorpione; **Francaviglia, 49.**

Demodex bei Mensch und Haustieren, Behandlung; **Jakob, 85.**

Trombidiidae and *Erythraeidae* larvae harmful to man; **Oudemans, 131**: The straw itch *Pediculoides ventricosus*; **Goldberger, 57**: Acariasi epidemica per *Pediculoides ventricosus*; **Ducrey, 29**: "Copra-itch" caused by *Tyroglyphus* (*Acari*); **Hirst, 75.**

Linguatula serrata in man in central America; **Darling, 26**: *Porocephalus moniliformis* in Kamerun; **Schäfer, 158.**

Acariasis equi; **Miessner, 107**: *Sarcoptes*-Räude der Ziegen; **Münchgesang, 111**: *Sarcoptes*-räude der Katze; **Baier, 2.**

Esperimenti con *Argas marginatus*; **Respighi, 144.**

Resistance of *Ornithodorus* to Sheep-dips; **Blacklock, 12.**

Schädliche Acariden in Finland; **Reuter, 149**: Clover mite, *Bryobia pratensis*, habits and distrib.; **Webster, 201**: L'Acariosi della Vite; **Pantanelli, 133**: *Tetranychus mytilaspidis* on stone and pomaceous fruit trees in Oregon; **Ewing, 36**: Sugar-canes damaged by *Tarsonemus* (*Acari*); **Hirst, 73**: *Tetranychus telarius* als Schädiger der Baumwollstanden in Turkestan; **Plotnikov, 139**: Spiders in Spanish Moss; **Rosenfeld, 154.**

Econ. importance of *Phyllocoptes schlechtendali* (*Acari*); **O'Gara, 122.**

Mites attacking scale-insects ; **Ewing & Webster, 39.**

Spinnenseide ; **Dahl, 23, 24.**

STRUCTURE. 3007.

General.

Comparative morphology of the *Parasitidae* ; **Trägårdh, 185** : Structure of †*Proscorpius* ; **Clarke & Ruedemann, 18** : Struct. of *Ochyroceratidae* (*Araneae*) ; **Fage, 41** : External characters of *Solpuga* ; **Lewis, 96.**

Special.

Mundwerkzeuge, *Tardigrada* ; **Reukauf, 146** : Histology of Alimentary System, *Araneae* ; **Oetcke, 121.**

Atmungsorgane der Arachnoiden ; **Haller, 65.**

Zentralnervensystem des Skorpions und der Spinnen ; **Haller, 66** : Neues Sinnesorgan, *Heterometrus* (*Scorpiones*) ; **Scheuring, 161.**

Genitalapparat der Araneiden ; **Fedotov, 46** : Geschlechtsapparat und Muskulatur einiger Hydrachniden ; **Musselius, 112.**

PHYSIOLOGY. 3011.

Verdauung bei den Araneiden ; **Oetcke, 121.**

Sensory perceptions in *Ixodidae* ; **Hindle & Merriman, 70.**

Heliotropismus der Gallmilben ; **Nalepa, 117.**

Venin de *Phormictopus* (*Araneae*) ; **Phisalix, 136** : de *Cteniza* (*Araneae*) ; **Phisalix, 137.**

DEVELOPMENT. 3015.

(Breeding Habits, etc. see Ethology, below.)

Parthenogenesis in *Amblyomma agamum* (Ixodidae) ; **Aragão, 1.**

Movimenti degli ovidutti e metabolia delle uova in Acari ; **Foà, 47, 48.**

Keimblätterbildung der *Araneae* ; **Fuliński, 51.**

Lungenentwicklung bei dipneumonen Araneinen ; **Ivanić, 83.**

Larven von *Thrombidiidae* und *Erythraeidae* ; **Oudemans, 131** : of *Lebertia* (*Hydrachnidae*) ; **Thor, 183.**

Life history *Cheyletus seminivorus* ; **Ewing, 37.**

Molting of *Tetranychus telarius* ; **Ewing, 35.**

ETHOLOGY. 3019.

General.

Habits, etc. of *Migas distinctus* (*Araneae*) ; **Gatenby, 52** : *Lycosa* spp. ; **Emerton, 33** : *Cheyletus seminivorus* ; **Ewing, 37** : *Pediculopsis* (*Acari*) ; **Molz & Morgenthaler, 108.**

Breeding Habits, etc.

Accouplement des Araignées ; **Berland, 4** : Pairing of *Pseudoscorpiones* ; **Kew, 87.**

Habitats.

Cavernicolous *Araneae* ; **Fage, 41** : *Pseudoscorpiones* ; **Ellingsen, 31** : *Acari* ; **Trägårdh, 187.**

Parasitism and Symbiosis (see also Economics, p. 20).

Origin and significance of parasitism in *Acari* ; **Ewing, 38.**

The parasite fauna of Colorado ; **Hall, 64.**

Biologie der Zecken ; **Eysell, 40** : Life history and bionomics of some North American ticks ; **Hooker, Bishopp, & Wood, 78** : Biology of *Margaropus annulatus* (*Ixodidae*) ; **Graybill, 60** : **Graybill & Lewallen, 61.**

On mammals, *Ixodidae* ; **Bishopp, 10** : **Jennings, 86** : *Gamasidae* ; **Hirst, 74.**

In Reptiles and Amphibia, *Ixodidae* ; **Aragão, 1.**

Subcutaneous stage of *Freyana* (*Acari*) in Gannet (*Pelecanus*) ; **Evans, 34.**

On *Hymenoptera*, *Acari* ; **Oudemans, 130** : Auf Apiden lebende Milben ; **Vitzthum, 197** : Vier Chelonethiden-Arten auf einem javanischen Käfer ; **Tullgren, 191.**

Myrmecophilous *Araneae* und *Acari* ; **Donisthorpe, 28** : *Acari* ; **Silvestri, 162.**

Plant-Galls :—**Cotte, 22** ; **Houard, 79-81** ; **Liro, 97** ; **Nalepa, 114-118** ; **Pantanelli, 132-134** ; **Scalia, 156** ; **Swanton, 175** ; Besiedlung neuer Wirtspflanzen durch die Gallmilben ; **Nalepa, 118.**

Hymenopterous paras. on *Ixodidae*; **Buysson, 15**; **Wood, 204.**

Pilzkrankheit bei *Macrobiotus* (*Tardigrada*); **Reukauf, 147.**

Miscellaneous.

Mimicry of a Mutillid by a spider; **Gravely, 58**: Mimetic spider; **Green, 62.**

Evolution of webs of spiders; **Comstock, 21**: Spider's web weighted by a stone; **Sawrey-Cookson** Sarawak Mus. Jour. **1** 1912 p. 123.

Une Araignée maçonne; **Camboué, 16.**

Propagation accidentelle d'Arachnides; **Berland, 5.**

VARIATION AND AETIOLOGY. 3023.

Stammesgeschichte der Arachnoiden; **Haller, 65, 66**: Phylogeny and affinities of Silurian Scorpions; **Clarke & Ruedemann, 18**: Phylogeny of the *Parasitidae*; **Trägårdh, 185.**

DISTRIBUTION.

Geographical. 3027.

General.

Distrib. of spp. of *Nephila* and *Nephilengys* (*Araneae*); **Dahl, 23**: of *Assamiidae* and *Phalangodidae* (*Opil.*); **Roewer, 152**: of *Trombidiidae*, monograph; **Berlese, 7.**

Europe and Mediterranean Islands. *d*

Europe, *Acari* spp. n.; **Oudemans, 124–126**: *Hydrachnidae* spp. n.; **Koenike, 89.**

Boreoalpinen Arachniden der mittel- und südeuropäischen Hochgebirge: **Holdhaus, 77.**

Sweden, *Hydrachnidae*; **Lundblad, 99–101**: Schwedisch-Lappland, *Hydrachnidae* spp. n.; **Walter, 199.**

Norway, *Lycosidae*; **Smith, 165**: *Acari* sp. n.; **Thor, 181**: *Acari*; **Thor, 182**: *Eupodidae* (*Acari*); **Thor, 180.**

Denmark, *Atypus piceus*; **Kryger, 94.**

Russia, *Ixodidae*; **Yakimoff & Kohl-Yakimoff, 205**: *Ixodidae*; **Yakimoff, Winogradoff & Kohl-Yakimoff, 206**: *Ixodidae*; **Nutall, 120**: *Hydrachnidae*; **Musselius, 112**: Murmanküste, *Araneae*; **Fedotov, 44**: Gouv. Tver *Araneae*; **Fedotov, 46**: Gouv. Volhynien, *Arancidae*; **Fedotov, 45**: Gouv.
